

Maud Independent School District

Chris Bradshaw, Superintendent

4-17-2020

School Closure for remainder of 2019-2020 school year

Dear Maud ISD Community,

Today, Governor Abbott has issued an executive order that mandates all public schools extend the suspension of normal district operations for the remainder of the 2019-2020 school year.

Maud ISD is committed to the educational needs and well-being of our students and will continue with our distance learning options until the end of the school year on May 21st. We will continue to serve pick up and deliver student/children meals during this time. Please check our website and social media feed for updates.

All school activities during this time have been canceled, suspended or postponed. We are working on alternative plans for our high school graduation and will be communicating those plans as soon as possible.

I know this is a difficult time for us all. I would like to thank our community and staff for the support and flexibility during this time. Please don't hesitate to contact me if you have questions.

Sincerely,

Chris Bradshaw
Superintendent of Schools Maud ISD
