

Dear Oakridge Families,

Many of you have received calls from our professionals in the special education department, checking in on your students and supporting them with completion of the first batch of packets sent home. Moving forward, they will continue to work with you and your children to support learning. Below is a schedule of the specialists' times. Every week they will be available for you or your child to call in for help during designated OFFICE HOURS. Please feel free to call them during these times at the number provided. They will also be providing a range of services to students during SERVICE DELIVERY hours mostly in the afternoons, so if you get a call from one of these numbers, you know who it is. We are also resuming scheduling IEP meetings during the week, these will be held at the three hours listed below. The special education team is committed to supporting your children and partnering with families as we transition to Distance Learning for All. Please, stay healthy and safe.
