

Adapting Teaching for Distance Learning:

Vital Support for Educators During the Coronavirus Pandemic

As your instructional practice has shifted to supporting at-home learning, Scholastic can provide education resources, strategies, and practitioner support to help you and your staff effectively manage remote teaching and learning. Though we can't work with you in person, we remain committed to supporting your professional learning needs as you adapt to the unprecedented challenges we're facing.

Here's how we can help:

- ✔ **Free consultation** support from our team of experts to help school and district leaders guide remote learning initiatives.
- ✔ **A free collection of the latest research from leading voices in the field** to provide teachers with innovative ideas for their virtual instruction and strategies for helping parents and caregivers improve their children's learning at home.
- ✔ **Live webinars** and virtual coaching led by our certified literacy and family engagement specialists to help educators implement effective remote and virtual teaching experiences. The experts conducting our live webinars are here to provide strategies and answer your questions in real time, guiding you through your own unique process for meeting the needs of your teaching and learning community.

Our team has been busy putting together a **collection of webinars to help you through this unprecedented time**. We're offering dozens of innovative new seminars that explore strategies for adapting your instruction to meet the reading, writing, and social-emotional needs of your students while they learn at home.

To learn more, contact your **Scholastic Education Account Representative**:

Our Live Webinars

Our live webinars are geared to teachers and leaders and conducted by experts who are ready to answer your questions and help you transition to a virtual learning environment that continues to bring out the full potential of your students.

See our full list of webinar topics to help you and your team take the guesswork out of providing the best and most comprehensive remote learning experiences for your students!

Early Literacy

 **Ideas to Engage Young Writers**

Grades PreK–2

We'll discuss how to tailor your writing instruction to a remote learning environment. Just a few tweaks of your lesson plan and a familiarity with digital resources can help your young writers continue to find their voice at home.

 **Supporting Parents with the Home Learning Environment, Dramatic Play, and Learning Activities**

Grades PreK–K

Discover innovative ways to help families provide opportunities for learning through dramatic play. Empower your families to use imagination, role-playing, and communication to keep their children learning with these easy tips.

 **Supporting Literacy Foundations in a Virtual Environment**

Grades PreK–1

Engage your students with activities and lessons that promote reading readiness and foundational skills. We'll look at ideas for teaching strategies that address the big ideas in reading within a virtual classroom environment.

 **Supporting Parents to Develop Oral Language, Vocabulary, and Knowledge**

Grades PreK–K

Empower your families to use daily routines, nursery rhymes, stories, and communication to keep their children learning with these easy tips. Keep it playful, purposeful, and powerful!

 **Supporting Students with Independent Reading**

Grades K–2

This session explores the importance of voluminous reading and how you can increase comprehension and a love of reading. We'll also share practical strategies for remotely managing and monitoring independent reading time.

Literacy Development

 **Leading Literature Circles in a Virtual Environment**

Grades 3–12

Group participation in literature circles provides countless benefits, especially while students are isolated at home. We'll explore how to conduct literature circles in a virtual environment and keep students reading and learning.

 **Project-Based Learning in a Virtual Environment**

Grades 3–12

Project-based learning provides students with engaging, authentic, and rigorous opportunities to learn. This session will take you through the process of creating transformative educational experiences in a virtual learning environment.

 **Book Reports for the 21st Century**

Grades 3–12

Expectations for learning are changing. We'll explore how to transform the traditional book report into authentic reading actions that ask students to create, collaborate, communicate, and use critical thinking.

Literacy Development

Grades 6–12

 **Leading Debates in a Virtual Environment**

Explore the benefits of engaging students in online debates. This session includes a walk-through of how to remotely conduct a debate and explores resources for debate topics, structure, and scoring rubrics.

Grades 6–12

 **Leading Virtual Socratic Seminars**

Socratic seminars engage students in the critical thinking, active listening, and discourse that expands their understanding of the world. This session will explore how to effectively conduct Socratic seminars in a virtual learning environment.

Grades 6–12

 **Structuring Research Projects in a Virtual Environment**

We'll discuss the steps in the process that students will use to design a research project. Then we'll review digital resources and create a plan to provide virtual support to students at each step in the research process.

Comprehensive Literacy

Grades PreK–12

 **Learning through Everyday Activities**

Learning doesn't always need to happen through a screen, a book, or a lesson packet. Join us as we turn everyday experiences into learning adventures!

Grades K–2 | Grades 3–6 | Grades 7–12

 **Integrating Social and Emotional Learning Support with Your Virtual Lessons**

In these uncertain times, it's critical to promote social-emotional skills in our lessons. Join us as we share ideas and strategies for Grades K–12 to support our students socially and emotionally in their virtual learning environments.

Grades 3–5 | Grades 6–12

 **Managing and Supporting the Writing Process in a Virtual Environment**

Explore new ways to teach writing, especially using the writing process in a virtual environment. Discover new tools and ideas that you can use to help plan your virtual lessons.

Grades 2–5 | Grades 6–12

 **Differentiating Instruction in a Virtual Environment**

Each student's journey is unique, and addressing so many different needs in a virtual classroom can seem overwhelming. We'll explore how to use student information to personalize your instruction.

Grades PreK–2 | Grades 3–6 | Grades 7–12

 **Building Comprehension through Read-Alouds**

This session explores the importance and the components of an interactive read-aloud. We'll identify and plan ways to increase comprehension through a hands-on experience with your book of choice.

Comprehensive Literacy

Grades K–2 | Grades 3–12

Engaging Students with Virtual Tools

Take the mystery out of virtual learning technology! We'll help you discover how to engage students with tools to create a safe and supportive virtual learning environment at home.

Grades K–2 | Grades 3–12

Promoting Accountability in a Virtual Environment

Create a virtual learning environment that promotes collaboration among students while ensuring that they're meeting the objectives of the lesson. We'll identify strategies to maintain a culture of accountability while students learn from home.

Grades PreK–12

Read-Alouds in a Virtual Environment

Explore resources and establish best practices for reading aloud in a virtual environment. We'll tackle the challenges of providing an intimate learning environment online and explore solutions to make your read-alouds intentional and effective.

Grades K–2 | Grades 3–12

Supporting Students with Independent Reading

This session explores the importance of voluminous reading and how you can increase comprehension and a love of reading. We'll also share practical strategies for remotely managing and monitoring independent reading time.

Teaching with Scholastic Magazines

Grades 1–2

Teaching with Scholastic News Magazines

Scholastic News magazines provide engaging content to build nonfiction reading skills and increase content-area knowledge. We'll explore ways to use these digital and print resources to promote student literacy and invite their families to take part.

Kindergarten

Teaching with Let's Find Out Magazine

Let's Find Out magazine provides engaging content to build nonfiction reading skills and increase content-area knowledge. We'll explore ways to use these digital and print resources to promote student literacy and invite their families to take part.

Grades 6–12 | Striving Readers

Teaching with Action Magazine

Action magazine provides a wealth of learning opportunities for students in Grades 6–12. In this session we'll explore the magazine and how its online resource site can be an effective virtual learning tool for students.

Teaching with Scholastic Magazines

Grades 6–8

Teaching with Junior Scholastic Magazine

Junior Scholastic provides a variety of opportunities for students in Grades 6–8 to engage with ELA, writing, and social studies standards. Learn about the magazine and its online resource site, and practice planning a lesson.

Grades 6–8

Teaching with Scope Magazine

Scope magazine offers high-interest stories in multiple genres and supports teachers with robust online resources. We'll explore how Scope's resources and a variety of instructional strategies can increase engagement and achievement.

Implementing Scholastic Learning Technology Programs

Grades PreK–2

Getting Started with Scholastic F.I.R.S.T.

Learn how to engage your students with Scholastic F.I.R.S.T., which helps build foundational reading skills, creates personalized instructional paths based on individual needs, and generates critical data for differentiating instruction.

Grades K–6

Getting Started with Scholastic Literacy Pro

Discover how to engage your students with Literacy Pro! You'll learn how to implement structured independent reading that promotes student choice, access, and goal-setting, as well as how to apply student data for meaningful conferring.

Family Engagement

Grades PreK–12

Supporting Parents with Setting Up Home Learning Environments

Without much warning, families find themselves converting the dining room into a classroom, the kitchen into the cafeteria, and the bathroom into a science lab. This session will explore ideas for helping families create a home learning environment that doesn't upend the structure of their daily lives.

Grades PreK–12

Conducting a Virtual Home Visit

Though nothing can replace the benefits of meeting with a family in person, it's more important than ever to give them the support they need. This session focuses on conducting a virtual visit that helps families be effective partners in their children's education.

Grades PreK–12

Supporting Parents with Read-Alouds

Reading aloud to children is one of the most important ways for families to support their children's literacy development. Learn how to strengthen families' confidence in reading aloud and share ideas for incorporating reading into their daily routine.
