Dance party for 20 minutes (outside)	Cup stack game	Pet animal game – move like different animals.	Make bubbles and play with them outside.	Make puddles with blue paper and jump the puddles.

Watch a musical and sing along with it.	Write a song about your day.	Use your body as percussion and make a beat. Ask someone to echo that beat.	Make an instrument & have a parade around the house.	Call a family member and ask them to dance to your music with you (over the phone).
Draw outside with sidewalk chalk.	Shadow drawing	Mark an art gallery in your room and have your family view your artwork.	Color a paper plate and cut it in a spiral like a snake.	Trace your hand and design it.
Invent something and tell what it is used for.	Explain what a scientist does.	Create a map of your house.	Have each member of your family make a paper airplane and see which plane flies the farthest.	Make a kite and fly it.

1st Grade

Monday	Tuesday	Wednesday	Thursday	Friday
Write about a time when you learned something new.	Write what animal you think would make the best class pet and explain why.	Should students have bedtimes? Write and explain why or why not.	If you shrunk to the size of an ant, what would life be like? Write about it.	If you were a fruit or vegetable, what one would you want to be? Write about it.
Play tic, tac, toe	Write the odd numbers from 1-20 and draw that many objects.	Use chalk to write the even numbers from 60-100.	Write 10 subtraction facts and answer them.	Write 10 addition facts, answer them and then write the commutative property of each.
Call a family member or friend and read a story to them.	Make a tent and read inside of it for 20 minutes.	Read this sentence three times quickly. Pat put five birds on the bus.	Read a story out loud in a silly voice.	Choose two books and read them to a sibling.
