

Class of 2021

While you cannot do some of the things that you would typically be doing as you prepare to enter your senior year, here are some things that you still should be doing:

- If you are planning to attend college and have not taken any college visits, here is a website that has virtual tours of colleges. It is not ideal, but at least you can "see" the campus. The website is <https://campustours.com>. I strongly encourage all of you to check out this site. We really have no idea when you will be able to actually go on a college visit, so this will have to do until then.
- If you are planning to go into the workforce after graduation, hopefully you are looking into that during this time off.
- I am not sure how military recruitment is happening during this time, but if that is in your future, contact the local recruiting offices to see what your next steps need to be.
- If you are an athlete planning to pursue athletics at the next level you need to register with the NCAA (eligibilitycenter.org) and/or the NAIA (playnaia.org). Contact me via email if you are interested in competing at the next level, because you also need to make sure you have the credits, GPA and ACT score.
