

**TOUCHET SCHOOL DISTRICT # 300**

**STUDENT RIGHTS AND RESPONSIBILITIES HANDBOOK  
2019-2020**

Dear Touchet School District Students and Families:

The main goal of Touchet School District is to provide excellent learning opportunities and to create an environment conducive to learning for students ages five to twenty-one to fulfill their educational and vocational needs. To that end, Touchet School District offers many diverse activities to help develop your child's academic, social, and critical thinking skills.

The process of education cannot be successfully achieved without support and encouragement from everyone involved. We all play a crucial role in helping each child develop his or her fullest potential. We sincerely invite and encourage all parents to assist in this process by participating in the many activities and functions scheduled throughout the year.

The Touchet School District recognizes that discipline in the Public Schools can only be maintained through the cooperative efforts of parents, educators, and students. Everyone has a right to expect a safe and secure atmosphere that is conducive to learning. Such a climate can best be created where respect and consideration are given to person, property, and community.

The school has a responsibility to inform students of their rights and responsibilities; likewise, the student has the responsibility to know and abide by the rules and regulations of the school. It is also necessary that parents familiarize themselves with school regulations to eliminate misunderstandings and join in the effort to maintain a safe and quality educational program.

This handbook has been prepared to familiarize students and families with relevant information for a successful educational experience. Every family is encouraged to carefully read it. This handbook will be posted on our website so that it will be readily available for students and their families.

If you have further questions, please do not hesitate to call 509.394.2352.

Thank you in advance for your assistance.

Robert Elizondo  
Superintendent/Principal

A violation of the school rules will occur whether the conduct takes place on the school grounds at any time, off the school grounds at a school activity, function, or event, or in route to and from school or an event/activity. **Consequences for inappropriate behavior are listed from minimum to maximum and may be assigned at the discretion of the building principal depending upon the discipline record of the student and the severity of the offense. In addition, the principal may employ other disciplinary techniques not listed with each infraction to improve student behavior.**

### EMERGENCY SCHOOL CLOSURES

If school is delayed or cancelled due to inclement weather, local radio stations will announce the news by 6:30 a.m. Please don't call the radio stations. You can also tune to the Tri-Cities television stations, which display area school closures on the TV screen during their morning news programs. ### **NON-DISCRIMINATION STATEMENT OF THE TOUCHET SCHOOL DISTRICT**

Touchet School District does not discriminate in any programs or activities on the basis of sex, race, creed, religion, color, national origin, age, veteran or military status, sexual orientation, gender expression, gender identity, disability, or the use of a trained dog guide or service animal and provides equal access to the Boy Scouts and other designated youth groups. The following employee(s) has been designated to handle questions and complaints of alleged discrimination: Robert Elizondo, Civil Rights Coordinator, [relizondo@touchet.k12.wa.us](mailto:relizondo@touchet.k12.wa.us), 509-394-2352; Robert Elizondo, Title IX Coordinator, [relizondo@touchet.k12.wa.us](mailto:relizondo@touchet.k12.wa.us), 509-394-2352; Lisa Franklin, 504 Coordinator, [lfranklin@touchet.k12.wa.us](mailto:lfranklin@touchet.k12.wa.us), 509-394-2352.

**Touchet School District, PO Box 135, Touchet, WA 99360**

**You can report discrimination and discriminatory harassment** to any school staff member or to the district's Civil Rights Coordinator, listed above. You also have the right to file a complaint (see below). For a copy of your district's nondiscrimination policy and procedure, contact your school or district office.

### **COMPLAINT OPTIONS: DISCRIMINATION AND SEXUAL HARASSMENT**

If you believe that you or your child have experienced unlawful discrimination, discriminatory harassment, or sexual harassment at school, you have the right to file a complaint.

Before filing a complaint, you can discuss your concerns with your child's principal or with the school district's Section 504 Coordinator, Title IX Officer, or Civil Rights Coordinator, (see Discrimination). This is often the fastest way to revolve your concerns.

#### **Complaint to the School District**

##### ***Step 1. Write Our Your Complaint***

In most cases, complaints must be filed within one year from the date of the incident or conduct that is the subject of the complaint. A complaint must be in writing. Be sure to describe the conduct or incident, explain why you believe discrimination, discriminatory harassment, or sexual harassment has taken place, and describe what actions you believe the district should take to resolve the problem. Send your written complaint—by mail, fax, email, or hand delivery—to the district superintendent or civil rights compliance coordinator.

##### ***Step 2: School District Investigates Your Complaint***

Once the district receives your written complaint, the coordinator will give you a copy of the complaint procedure and make sure a prompt and thorough investigation takes place. The superintendent or designee will respond to you in writing within 30 calendar days—unless you agree on a different time period. If your complaint involves exceptional circumstances that demand a lengthier investigation, the district will notify you in writing to explain why staff need a time extension and the new date for their written response.

##### ***Step 3: School District Responds to Your Complaint***

In its written response, the district will include a summary of the results of the investigation, a determination of whether or not the district failed to comply with civil rights laws, notification that you can appeal this determination, and any measures necessary to bring the district into compliance with civil rights laws. Corrective measures will be put into effect within 30 calendar days after this written response—unless you agree to a different time period.

#### **Appeal to the School District**

If you disagree with the school district's decision, you may appeal to the school district's board of directors. You must file a notice of appeal in writing to the secretary of the school board within 10 calendar days after you received the school district's response to your complaint. The school board will schedule a hearing within 20 calendar days after they received your appeal, unless you agree on a different timeline. The school board will send you a written decision within 30 calendar days after the district received your notice of appeal. The school board's decision will include information about how to file a complaint with the Office of Superintendent of Public Instruction (OSPI).

#### **Complaint to OSPI**

If you do not agree with the school district's appeal decision, state law provides the option to file a formal complaint with the Office of Superintendent of Public Instruction (OSPI). This is a separate complaint process that can take place if one of these two conditions has occurred: (1) you have completed the district's complaint and appeal process, or (2) the district has not followed the complaint and appeal process correctly.

You have 20 calendar days to file a complaint to OSPI from the day you received the decision on your appeal. You can send your written complaint to the Equity and Civil Rights Office at OSPI:

**Email:** [Equity@k12.wa.us](mailto:Equity@k12.wa.us) | **Fax:** 360-664-2967

**Mail or hand deliver:** PO Box 47200, 600 Washington St. S.E., Olympia, WA 98504-7200

### **VIII. Proper Respect for Copyright**

- A. Users will not plagiarize works they find on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were the student's original thoughts or words.
- B. Users will respect the rights of copyright owners. Copyright infringement occurs when a person inappropriately reproduced a work that is protected by a copyright.
- C. If a work contains language that specifies appropriate use of that work, users should follow the expressed requirements.
- D. If unsure whether or not a work can be used, users should request permission from the copyright owner. Copyright law can be confusing, if users have questions or are uncertain about a particular situation, they should ask a certified staff member or media specialist.

### **IX. Disciplinary Action**

Use of the district's electronic media is a privilege that will be revoked for violation of any of the policies established in the Electronic Media Acceptable Use Policies and/or other policies of the Touchet School District. Users are subject to all appropriate disciplinary measures found in the District policies should these guidelines be violated. Policy 2022P.

## SEXUAL HARASSMENT

Students and staff are protected against sexual harassment by anyone in any school program or activity, including on the school campus, on the school bus, or off-campus during a school-sponsored activity.

**Sexual harassment is unwelcome behavior or communication that is sexual in nature when:**

### ATTENDANCE POLICY and GUIDELINES

#### **A. GENERAL POLICY**

The Touchet Public School District supports the philosophy that the instructional program is the vital part of a formal education. We believe that regular school attendance is a necessity for mastery of the educational programs provided to students of this district, which are required in accordance with state law and board policy. Written and/or verbal excuses shall be required from the parent in all cases of absences, tardiness, or dismissal before the close of school. Failure to support an absence or tardy with an excuse will lead to a listing of "unexcused" in our attendance system. Students shall not be permitted to make up missed work assignments or any graded activities which occur during the unexcused absence. It shall be the responsibility of the principal and certificated staff to enforce the district's attendance policies and associated procedures.

- A. The district's Outlook Live system is the only e-mail that may be used on the district's computers. Users are NOT allowed to use Hotmail, Yahoo Mail or any other Internet e-mail accounts at school.
- B. E-mail privileges for students will begin upon completion of Network User Agreement.
- C. Users should check their e-mail weekly and delete unwanted messages.
- D. Since e-mail and Internet use occurs on Touchet School District equipment, the messages and files delivered through the computers are considered the property of Touchet School District, and may be examined at anytime.

#### IV. Use of Remote Communications and the Computer Network

The District network and any access to the larger information networks exist for the primary purpose of transmitting and sharing information between academic and research organizations. It is the responsibility of each user on the network to recognize his/her accountability in having access to vast services, sites, systems and people, and to act according to acceptable behavior standards when using the network. What is acceptable use on our network may not be the same on an outside network. Hence, it is necessary that users observe the acceptable use policies of other networks:

- All computers from which remote electronic information resources can be accessed will be in supervised areas. School district staff shall monitor student computer use, providing assistance with taking corrective action when necessary.
- Designated district staff shall assist in providing: training for all users in the appropriate and safe use of remote electronic information resources, instructions to students and staff on the responsible use of on-line resources, and direction to on-line resources that relate to curriculum, teaching and learning, and related communications priority activities and applications.

#### V. Electronic Mail

In the interest of providing a complete computer education for our students and faculty members, e-mail privileges may be made available at the discretion of district administrators. However, those who are granted these privileges are responsible for using them properly.

## B. ABSENTEEISM AND TARDINESS

### Educational Release Days

The staff shall cooperate with the students and their parents to develop any necessary study programs and to help make up missed assignments. Absenteeism for an educational-value activity is limited to five (5) days per year. The absences must be pre-arranged through the office and the students must complete follow-up activities outlined by their teacher.

### Elementary Compulsory Attendance

Any child who will be six (6) years of age on or before August 31 of the school year of enrollment and who has not completed a state-accredited kindergarten program shall be evaluated by the District and placed either in kindergarten or first grade depending upon the results of the evaluation. A student is expected to attend school at all times when school is in session. Parents should insist that students arrive at school on time and remain the entire day. Six hours of instructional time is required by law to constitute a full day. Students attending school less than (6) hours are considered absent one half (1/2) day. Less than three (3) hours attendance will be considered absent all day.

### Procedures

Students are expected to attend all assigned classes each day. Any student arriving at school anytime after the start of first period must check in at the office. This will assure that the student will not be counted absent all day.

Students returning from an absence/tardy are required to submit an excuse to the office. The excuse must be signed by a parent and shall include the date(s) and reason(s) for the absence. Parents will have **5 days** after an absence to contact the office. **After this time, the absence will be unexcused.**

An admit slip will be given to each student returning from any absence/tardy. The slip shall include the student's name, date issued, date(s) of absence, excused determination, and a place for the signature of teachers. The student must have an admit slip before being admitted to class. Teachers input attendance each period, which will keep an accurate record in the Student Information System (Skyward) program of tardies and absences. When students leave school for any reason, permission is needed from parents with the acknowledgement of an office staff person. The sign-out book in the office should show parent or staff signature, time, destination, and purpose for leaving. Failure to check out in the office may mean the absence is counted as truancy and could affect your child's academic standing in their classes.

### Make-Up Work Procedures

The number of school days allowed to turn in missed schoolwork is equal to the number of excused school days missed (exceptions authorized by the principal). Teachers will make it a point to remind students of their missing work obligations immediately upon their return to school, but responsibility for obtaining assignments for make-up work rests primarily with the student and the parent. Students not receiving credit due to attendance will be entered into an academic credit retrieval or a "Failure to Pursue the Course of Study" probation program. The administration has the authority to permit exceptions.

### C. UNEXCUSED ABSENCES AND TARDIES

#### 1. Unexcused absences (truancy)

A. Submitting a signed excuse, which does not constitute an excused absence or tardy as defined previously, is an unexcused absence/tardy. Any student who presents false evidence, with or without the consent of his/her parent, in order to wrongfully qualify for an excused absence shall be subject to the same corrective action that would have occurred had the false excuse not been used.

B. Failing to submit an excuse statement signed by the parent or emancipated student is an unexcused absence/tardy. For unexcused absences, all graded activities shall be treated as if the student had chosen not to participate in them. To help avoid this, a letter or phone message follow up from the office to the parent will be our standard procedure.

C. The school will inform the parents by phone, email, or in writing after each unexcused absence. After 3 unexcused absences in a month, a conference shall be held between the parent, student, teachers, and principal. At the conference, all concerned parties shall consider the following: adjusting the student's program, providing more individualized instruction, preparing the student for employment with specific vocational experience, assisting the student to obtain supplementary services that might eliminate the causes of the absences, or imposing other disciplinary actions that are deemed appropriate.

D. If the above action fails to correct the attendance problem, the student shall be declared a "habitual absentee". The principal shall interview the student and their parents and prescribe a suitable disciplinary action, which may include referral to a community truancy board or a referral to juvenile court (a mandatory step after 10 unexcused absences).

E. After 7 unexcused absences in a month, or 10 unexcused absences in a school year, a BECCA petition may be filed with the courts. A choice student's contract may be terminated by the Superintendent as a result of excess absences.

#### 2. Tardy Procedures

A. A student will be considered tardy if not in their assigned class when the bell rings. Teachers may define stricter protocols (rules/guidelines) for individual classrooms.

B. An admit slip to class is required when a student is tardy (excessive tardies will cause disciplinary action to occur). It is permissible to admit a student into a class within the first 10 minutes of class period (provided they have a note from the office or another teacher). A student reporting to class after 10 minutes without prior approval

Is considered absent and will be sent to the office to determine if they are excused.

#### 3. Procedures dealing with truancy

A. Each instance of truancy shall be followed by a warning letter or telephone message to the parent of the student.

B. Following the second such absence in a quarter, a conference will be held between the principal and the parents in addition to any disciplinary action that may be taken.

C. Following 4 such absences in a quarter, the student will be declared a habitual truant. The principal will interview the student and their family and recommend effective remedial measures, which may include suspension from school for the current quarter if truancy continues unabated.

E. All electronic media developed by Touchet School District employees while working for Touchet School District becomes the property of Touchet School District and Touchet School District retains all rights to that electronic media.

F. Violations of some of the provisions set forth in this policy may constitute a criminal offense. Staff and district administrators will cooperate fully with law enforcement agencies in correcting any violations.

G. All users of district equipment must sign the Electronic Media Acceptable Use Policies stating they understand all policies regarding use of electronic media and agree to abide by them.

H. Any other party cannot hold the district liable for any losses, including lost of revenues, or for any claims or demands against the user. The district cannot be held responsible for any damages due to the loss of output, loss of data, time delay, system performance, software performance incorrect advice, or any other damages arising from the use of the district's computer facilities.

I. The individual user and/or his/her parents, in the case of a student, will be held liable for any violations of Electronic Media Acceptable Use Policies.

### II. Use of Computer Hardware

A. Computer hardware is like any other school property and shall be treated accordingly.

B. Only authorized individuals will install, service, and/or maintain district-owned computer hardware.

C. No hardware, including cables or peripherals, may be move without authorization from the Technology Coordinator and/or his/her designee.

D. It is the responsibility of all users to keep the computer clean and away from smoke, dust, magnets, food, liquid, and any other foreign material known to be harmful to the hardware or functionality of the system.

E. It is the responsibility of the faculty member to whom the computer is assigned to turn off the computer and peripherals at the end of the day.

F. It is the responsibility of the faculty member to whom the computer is assigned to report malfunctions of the hardware to the Technology Coordinator.

### III. Use of Computer Software

A. To facilitate the accountability of software licenses, all software used in Touchet School District's programs not developed by Touchet School District shall be owned by, and licensed to, Touchet School District or its programs.

1. All software programs and licenses purchased by individual schools shall be maintained, accounted for, regulated and supervised for copyright compliance at that school.

2. The supervising department shall maintain software licenses issued for whole laboratories installed by Touchet School District.

3. Unauthorized copying or distribution of software purchased by Touchet School District is prohibited.

4. The unlawful copying of any copyrighted software and/or its use on district hardware is prohibited.

5. Use of software not purchased by Touchet School District (or donated in its entirety with proper license documentation) or its programs are prohibited.

**For Employees:**

The Board shall require that the superintendent and principal inform all employees that board policy strictly prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol on school premises or as part of any school activity. Any employee who violates this board policy on illicit drugs and alcohol will be subject to disciplinary sanctions (consistent with local, State, and Federal Law) up to and including termination of employment and referral for prosecution. An employee may receive information on drug and alcohol counseling rehabilitation and re-entry programs from the counselor in Touchet School District. Each employee will be given a copy of the standards of conduct relative to illicit drugs and alcohol and the disciplinary sanctions as listed in this policy. Each employee will be notified that compliance with the standards of conduct on illicit drugs and alcohol is mandatory as indicated by Federal Law.

## **APPENDIX E**

### **Electronic Media Acceptable Use Policies**

The Touchet Board of Education recognizes the need to effectively use electronic media to further enhance the educational goals of the school district. However, protection and security of the various information networks and computer systems are necessary. The Board further expects all individuals to use the district's electronic media responsibly and in an effective, ethical, and lawful manner.

These policies are applicable to Touchet School District employees, students and patrons in matters under the jurisdiction of Touchet School District. To ensure that all electronic media (including computers located at an employee's workstation or any other site) meet these policies, computers and other electronic storage devices may be subject to inspection at any time. Touchet School District may monitor the electronic media at any time without advance notice for any purpose that Touchet School District deems appropriate, such as monitoring work flow, productivity, appropriate software, or computer maintenance.

#### **I. General Policies**

In order to maintain the integrity of Touchet School District's software license and the standardization of all software and computer equipment throughout the Touchet School District and its programs, the following guidelines have been established for the use of electronic equipment, systems, and "electronic media".

- A. Touchet School District shall encourage the use of electronic media by its employees and students; however, all electronic media shall be used for authorized purposes only.
- B. Electronic media includes, but is not limited, to, AV equipment, computers, networks, software, electronic mail, telephones, fax machines, online services, the Internet and the World Wide Web.
- C. Electronic media also includes all data produced by, or stored on, the electronic media. The electronic media, including all messages composed, sent, or received using the electronic media, is and remains the property of the Touchet School District.
- D. Electronic media shall not be used for discriminatory, harassing or obscene communications, or for any other purpose that is illegal or against Touchet School District policies or guidelines.  
These guidelines will be administered fairly, consistently, and equally without regard to race, creed, color, age, sex, national origin, or handicap.

#### **D. EXCUSED ABSENCES**

##### **1. Absence due to illness, health condition, and family emergency**

When possible, the parent is expected to notify the school office on the morning of the absence and send a signed note of explanation with the student upon their return to school. As long as they reside at home, 18-year-old students are required to submit a note from parents in all cases of absences, tardiness, and early dismissal from school. Adult students (those over eighteen and not living at home) and emancipated students (those over sixteen who have been emancipated by court action) shall notify the school office of their absences with a signed note of explanation. **Notes will be accepted up to 5 days after absence.**

##### **2. Absence for parental-approved activities**

This category of absence shall be counted as excused for purposes agreed to by the principal and the parent. An absence may not be approved if it causes a serious adverse effect on the student's educational progress. In participation-type classes (certain music and physical education classes) the student may not be able to achieve the objectives of the unit of instruction as a result of the absences. In such a case, a parent-approved absence would have adverse effect on the student's educational progress, which would ultimately be reflected in the grade for such a course. A student, upon request of their parent, may be excused for a portion of a school day to participate in religious instruction provided such is not conducted on school property. The school recommends that vacations be taken during regular school vacation periods. If students are unable to schedule vacations during these times, notification to the school and request for assignments must be made to teachers at least one week in advance. When parents choose to remove students from school for an extended period of time, the principal will notify the family that such an absence may cause the student to be unable to meet the objectives of his/her classes. The principal, together with the affected teachers, will offer several alternatives for the student to earn the additional necessary credit. These may include correspondence program, summer school, community college coursework, independent study, special arrangements with a course teacher, or returning for an additional quarter or semester.

##### **3. Absence resulting from disciplinary actions or short-term suspension**

As required by law, students who are removed from a class or classes as a disciplinary measure or students who have been placed on short-term suspension, shall have the right to make up assignments or exams missed during the time they were denied entry to the classroom. Under the standing attendance policy, a student will have as many days to make up work as the amount of days suspended. Students suspended long-term are not eligible to turn in make-up work; therefore resulting in credit loss.

##### **4. Absence due to extended illness or health condition**

If a student is confined to home or hospital for an extended period, the school shall arrange for the accomplishment of assignments. If there are major requirements of a particular course which cannot be accomplished outside of class, the student may be required to take an incomplete or withdraw from the class without penalty.

##### **5. Excused absence for chronic health condition**

Students with a chronic health condition which interrupts regular attendance may qualify for a placement in a limited attendance and participation program. The student and their parent shall apply to the principal or counselor, and a limited program shall be written following the advice and recommendations of the student's medical advisor. The principal will approve recommendations for a "limited" academic program. Staff shall be informed of the student's needs and the confidentiality of the student's medical information shall be respected.

##### **6. Special ASB absences**

Absences for authorized school functions and sports activities shall be counted as "school related" absences; therefore not affecting their overall absence total in regards to our absence policy. However, the student shall be responsible for the work missed while engaged in these activities. Previous attendance habits shall be considered for those students who wish to participate in extra-curricular activities which require missing classes.

## E. ADMINISTRATIVE PROCEDURES FOR EXCESSIVE ABSENCES

1. At 5 absences in any month or 10 or more in the school year, a letter will be sent home and a conference will be scheduled. The school may request medical documentation of illness. Without documentation, absences may be considered unexcused.
2. If credit loss is apparent, the student is responsible for initiating the appeal. If this is not done, the credit will automatically be withheld due to "Academic Apathy".
3. The Appeal Process is as follows:
  - a. Pick up the appeal paperwork and have the whole process clarified by the counselor, principal, or the appropriate office personnel.
  - b. Complete an "Intent to Appeal" form and return it to the office within the specified time period (five school days).
  - c. Appear at the specified time and date for the appeal hearing.
  - d. Provide documentation for each absence at this hearing.
  - e. The administrator will notify the parent and each affected classroom teacher of the outcome of the appeal, which will occur during business hours on the following day of the appeal. If the decision is not favorable to the student or parent, they may appeal in writing to the superintendent within two school days of the date of determination of the Academic Apathy Committee. If credit is denied, the student will be removed from that class and their schedule will show the necessary and appropriate changes.

## AUTOMOBILES AND MOTORCYCLES

Touchet High School students are allowed to drive motor vehicles to and from school and during the noon lunch period. To protect the driving privileges of responsible students, school district policy assigns to the principal the responsibility of restricting the driving privileges of irresponsible drivers. Driving privileges may be removed for any period of time up to the entire school term. This removal of freedom may result from speeding, reckless driving, or any careless use of the vehicle. You must have a driver's license to operate a vehicle on school property. No driving between classes will be allowed except during the noon lunch hour.

## **STUDENT DISCIPLINE POLICY ON ILLICIT DRUGS AND ALCOHOL**

If the drug offense occurs within 39 days remaining in the school year, he/she will be suspended for the remainder of the school year and must attend the Drug Rehabilitation Program before returning to school the next year.

Rules concerning these offenses are applicable during the regular day of school and on all school sponsored trips/activities, both curricular and co-curricular in nature. The School Board enunciates this policy as a bare minimum for penalties relative to the use and/or sale of illicit drugs. Other circumstances and/or complications related to such incidents may warrant more severe and drastic action.

Schools have the opportunity to work with young people against illicit drugs and alcohol through educational and counseling programs. They share with parents an obligation to help each student develop a positive self-concept, a respect for his/her physical being, and insight into the importance of health to full self-realization.

As students, educators, and parents work together toward this goal, it will measurably contribute toward creating a climate that is not conducive to drug use. Every effort will be made by educators to create an atmosphere in which young people develop a knowledge base, confidence, and trust that encourages them to seek help in overcoming problems involving illicit drug and alcohol use. The active involvement of students is essential to the school's efforts to deal with illicit drugs and alcohol.

The schools will provide within its curriculum, kindergarten through grade 12, opportunities for exposure on the nature of drugs and alcohol, the dangers and the legal implications involved in their abuse with specific provisions for relating these topics to relevant courses of study in physical and biological sciences, social studies, and health education. The educational program will be subject to modifications as additional data and more effective teaching techniques and subject content become available.

Programs will be provided for the school staff to make them aware of the scope of the drug and alcohol problems as related to our schools, community, and society. Also, to provide knowledge of scientific and medical findings about drug and alcohol use and abuse and the laws relating to illicit drug and alcohol use including legal penalties for violation of the law, and to familiarize them with available, reliable resources related to information and services. Those who teach units in drug and alcohol education will be specifically trained for that responsibility.

**3. Cooperative Programs with Other Agencies:**

Illicit drug and alcohol use is of direct concern to many agencies of government and other public and private institutions. The school system will cooperate with other agencies to encourage educational programs related to the use and abuse of illicit drugs and alcohol.

Although there is no doubt that there are potentially debilitating effects on the individual who uses drugs and alcohol, the scientific community does not agree on the specific levels of risk. Elimination of the sources of illegal drugs, detection and treatment of drug abuse, and effective law enforcement require the cooperation of many agencies and branches of government.

The school system will take the initiative to assure that it has the available scientific data and research results relating to the basic causes of the use of illicit drugs and alcohol in other schools and agencies. The school system will maintain liaison with rehabilitation, treatment, judicial, law enforcement, and legislative agencies to help assure that the total community capability is brought to bear on the elimination of the use of illicit drugs and alcohol.

**4. Guidelines for Administration Procedures and Regulations:**

The school system's primary business is education. The educational climate must permit discussion of controversial topics without threat of punitive action, unless there is positive evidence of violation of the law. At the same time, the schools are responsible for maintaining an environment that precludes the introduction of illegal activities by unscrupulous persons who would use a school for access to a large number of young, inquisitive, energetic people. The community rightfully expects the schools to exercise this responsibility with diligence.

The law regarding illicit drugs and alcohol is clear and penalties are provided for conviction of violators. Members of the school community are subject to these laws on school grounds as well as off, and school personnel have the same responsibility as every other citizen to uphold the law. All incidents concerning possession, use, or

m. At the conclusion of the hearing, the board may discuss the matter and dispose of it by vote.

n. If the board does not expel the pupil with loss of credit, it may impose less severe disciplinary actions, such as long-term suspension, which may be with or without opportunity for make-up of schoolwork. The board shall briefly state its findings in writing within ten (10) days after the hearing.

o. The board shall make a record of the evidence taken at the proceedings by use of either a court reporter or a tape recorder.

p. If the student wishes, the record will be transcribed and a copy furnished to the student. Copies of all statements used as evidence will be included with the record.

q. The school administration has the responsibility to present the evidence to the board and the administration is entitled to open and conclude the hearings.

r. The president of the board or the presiding officer has the authority to limit unproductively long or irrelevant questioning by non-board members.

### **3. Group Hearings for Suspension or Expulsion**

When two or more students are charged with violating the same rule and have acted in concert and the facts are basically the same for all students, a single hearing may be conducted for them if the president of the board believes the following conditions exist:

1. Single hearing will not likely result in confusion, and
2. Student will not have his/her interest substantially prejudiced by group hearing (if, during the hearing the president finds that the group hearing will substantially prejudice a student's interest, a separate hearing may be ordered for that student).

## **APPENDIX D**

### **Drug Policy**

The Touchet School Board policy statement and the section of laws of Washington and Federal Law concerned with selling, using, distributing or possession of drugs and alcohol on school grounds, to provide background information concerning the laws, and to establish procedures for school personnel to deal with incidents involving illicit drugs and alcohol.

#### **Board of Directors Policy Statement:**

The Touchet School Board recognizes illicit drugs and alcohol as a serious societal problem. The highest priority will be given to establish collaborative efforts by groups comprised of students, parents, educators, and interested citizens to plan and implement educational, recreational, vocational, and remedial progress.

Effective counseling programs for students and programs of instruction on the nature of drugs and alcohol appropriate to grade and age levels, as well as cooperative programs with other local, state, and national agencies with respect to prevention, treatment, rehabilitation, and law enforcement. Procedures and regulations will be implemented to minimize opportunities for the use, sale, or distribution of drugs or alcohol on school property (includes possession of drugs or alcohol).

#### **1. Parents and Community Involvement:**

The primary objective of the school system will be to achieve total cooperation with the home and community in combating illicit drugs and alcohol. This is a responsibility shared by the school system, parents, and citizens. A sense of community can be fostered through increased understanding on the part of adults of the problems faced by youth in today's society. Collaborative efforts on the part of students, schools and citizens to enhance the opportunities for young people for the kinds of constructive activities (vocational, recreational, educational, and remedial) that will provide more satisfaction than drugs.

o. A suspension that does not amount to expulsion for the remainder of the semester but is more than ten (10) days is authorized. This long-term suspension, however, shall come only after the student had been afforded notice, opportunity for a hearing and same procedural rights as for expulsion.

p. Notwithstanding the policy concerning suspension and expulsion, students may be suspended indefinitely without notice, hearing, and the other rights provided herein having been first given if the school is undergoing violent upheaval or if orderly educational processes have otherwise been substantially disrupted. This would apply only in rare instances such as riots or where emergency circumstances make it unreasonable for the administration and board to consider the case within the usual time. In all such cases, notices, hearings and other rights shall be provided in accordance with the normal provisions at the earliest practical date after order is restored.

Days missed as a result of suspension will not count as days missed in relation to our attendance policy; however, make-up of missed work during suspension will be allowed.

## 2. Expulsion Procedure:

a. If the superintendent concurs with the recommendation, he/she shall schedule a hearing before the school board.

The school board may expel a student for the remainder of the semester, for the remainder of the school year, or permanently for conduct it deems to be of such seriousness as to make a suspension inappropriate where it finds that the student's continued attendance at school would be unacceptably disruptive to the educational program or would be attended with unreasonable danger to other students and faculty members.

b. Permanent expulsion is appropriate only for those instances in which serious bodily harm occurred or reasonably could have been expected to occur to another person.

c. The superintendent or designee shall give written notice, mailed within (5) calendar days from the alleged incident, which caused the expulsion recommendation, to the parent if the student is a minor or to the student if he/she is an adult. Such hearing will be conducted not earlier than five (5) calendar days or more than ten (10) calendar days following the date of the notice except that the superintendent, student and parents may agree in writing to a date not conforming to this limitation.

d. The notice also will state charges against the student in clear and concise terms, the names of witnesses who will appear against the student and a brief statement concerning the nature of their testimony.

e. In every case of a hearing held by a school board regarding the expulsion of a student, the president of the board or, in his/her absence, another member selected by the board shall preside at the hearing. The student shall be entitled to representation by a lawyer or lay counsel or the student may represent himself/herself.

f. The superintendent or designee shall present evidence and may present witnesses or statements of those persons who have personal knowledge of the events or circumstances, which give rise to the expulsion recommendation at the hearing.

g. The student or representative may then present witnesses or statements by witnesses with personal knowledge of events or circumstances relevant to the issues.

h. Normally, formal cross-examination will not be permitted.

i. During the course of the hearing if the board determines that the credibility of any of the witnesses is an issue, it will permit cross-examination by the student, the superintendent or their representatives of those witnesses whose credibility has become an issue.

j. Cross-examination should ordinarily be limited to the questions on which the credibility of the witness has become an issue.

k. The student may observe all evidence offered against him/her.

l. Members of the board may question any witness.

The Board specifically directs that both appropriate discipline and intervention activities be applied when substance abuse occurs.

It should be understood by parents, students, and staff that all violations of school rules and regulations or state and federal laws will be vigorously enforced by both the school district and law enforcement officials. The unlawful possession, manufacture, sale, use, distribution, delivery or sale of alcoholic beverages, tobacco, controlled or uncontrolled substances (drugs) by students in any form on or about school premises or at school sponsored activities, is expressly forbidden.

**Alcohol, Tobacco, and Illegal Drugs**

However, violation through an infraction, regardless of admission, will result in disciplinary action as provided by district policy.

**EDUCATIONAL EQUITY COORDINATOR**

One of the procedural requirements of various civil rights laws in education is the designation of an employee responsible for coordinating the agency's compliance efforts. This establishes monitoring of the activities necessary to ensure compliance with educational equity laws.

Federal law requires that the name, school district, work address, and telephone number of the coordinator be disseminated to student, staff, and parents on an annual basis. The coordinator: Susan Bell, Superintendent, Touchet School District, PO Box 135, Touchet, WA 99360 509.394.2352.

In the event of a disaster, the district plan will provide for the care and safety of those on the Touchet Public Schools campus. The plan itself will be tested through drills, and will continue to be refined and reworked with each successive practice. The district plan will conform to the following regulations:

**A. Release of Students and Staff from Campus**

In the event that road conditions do not permit the normal operation of buses or private vehicles, all students will remain on campus. No student will be released from the school campus unless a parent (or individual designated in writing on the student's emergency file kept in the office) comes for them. The office will be responsible for specific information concerning students released (name of person and released time). School staff will be expected to remain on duty until released by the Superintendent or Principal.

**B. Evacuation of Students and Staff**

In the event of a disaster such as a chemical spill that necessitates the evacuation of an entire campus, the Superintendent and Transportation Director will determine the evacuation method and route to be taken.

**C. Health/Safety Provisions**

Each section of the campus will acquire, inventory, and up-date all medical supplies and emergency equipment.

The district will have at least one person certified in first aid.

**D. Crisis Protocols**

If there is a death, suicide attempt, or an intruder (s) on the school campus, all teachers and students shall remain in their classrooms until notified by crisis team.

**E. Earthquake Safety Drills**

**F. Fire Drill Instruction**

Fire drills are required by law to be held in Washington Schools at least once per month.

It is important that each student and teacher be thoroughly familiar with the fire drill plan of the school. When the fire alarm sounds:

1. All work is to be stopped immediately.
2. Students are to walk rapidly in an orderly fashion out the designated exit and proceed to the safe zone.
3. Teachers will check to see that all students are out of the room, turn lights off, close the classroom door, bring class list, and follow the students outside to the safe zone.
4. The standard bell will be used for clearance to return to the classroom.

#### **EXTREME WEATHER**

On extreme weather days, parents can be assured that the safety of all children is the primary concern of the school. Therefore, parents need to take into consideration the conditions that might arise when the administration and staff are attempting to address the situation to provide every measure of safety for the students. **GRADING SYSTEM**

The purpose for grading students is five-fold:

1. To inform parents of the progress of their children.
2. To give information for student guidance and counseling.
3. To show the achievement of pupils in relation to their abilities and effort.
4. To assist in grouping, promotion, retention, transfer and grade placement.
5. To gather data at the building, district, and state level.

In general, the letters A, B, C, D, and F will be employed as the marking system in grades 4-12. In grades K-3, the letters E, S, N, U, and I are employed as the marking system and are assigned to students for performance in said courses.

Conduct and effort go hand-in-hand, and academic grades may be affected if performance is decreased. Each teacher is expected to do their best towards informing the parents of the progress each student is making. In giving grades to students, the following systems will be used by all teachers in grades K-12:

A = 92.5-100	A- = 89.5-92	E-Excellent	+Has command of the standard

- C. By providing a testing program designed to help the student learn as much as possible about their capabilities.
- D. By helping the student to develop a positive self-image.
- E. By welcoming the opportunity to talk things over with any student, parent, or teacher.
- F. By helping to increase the students understanding of their interests, abilities, values, and aptitudes.
- G. By increasing the student's awareness of consequences and responsibilities in decision making, personal behavior, and performance.

**General Use**

Diligent effort must be made to conserve system resources. For example, users should frequently delete E-mail and unused files, and users should promptly disconnect videoconferences on completion.

Computer vandalism is subject to disciplinary action. Vandalism includes but is not limited to: modification of system setup; theft of data, equipment; intentional disruption of network traffic; crashing the network or connected systems; degrading or disrupting equipment or system performance; forging electronic mail messages; use of an account owned by another user; obtaining unauthorized access to information; committing software piracy or hacking.

No person shall have access to the K-20 Network without having received appropriate training, and a signed Individual User Consent form must be on file with the district. In addition, students under the age of 18 must have the approval of a parent or guardian.

Nothing in these regulations is intended to preclude the supervised use of the Network while under the direction of a teacher or other approved user acting in conformity with district policy and procedure.

For security and administrative purposes, the district reserves the right for authorized personnel to review network use and content. The district reserves the right to remove an individual's network access privileges to prevent further unauthorized activity.

Violations of any of the conditions of use may be cause for disciplinary action. Violation by staff may result in the initiation of disciplinary action against them in accordance with district and state policies and against students consistent with attached discipline policy.

The Touchet School District Network may be monitored for all lawful purposes, including ensuring their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and security. Monitoring includes, but is not limited to, active attacks by authorized entities to test or verify the security of this system.

During monitoring, information may be examined, recorded, copied, and used for authorized purposes. All information, including personal information placed on or sent over this system may be monitored. Use of Touchet School District Network constitutes consent to monitoring. Unauthorized use of the Touchet School District Network may subject you to criminal prosecution. Evidence of unauthorized use collected during monitoring may be used for administrative, criminal or other adverse action.

Note: The teachers are not responsible for making special considerations for a student who has lost his/her Network Account/Computer access. That student will be responsible for completing their assignments on time like all other students. They will have to find other resources to complete research and compose their homework on their own. Touchet School District administration will use its discretion to assign a level of discipline consistent to the violation. This disciplinary action is subject to review and revision at any time and without further notice.

Students should notify their teacher or other adult whenever they come across information or messages they deem dangerous or inappropriate.

The Touchet School District will make every reasonable attempt to limit access to inappropriate material by using an Internet Filtering System and will provide teacher training. However, it is the personal responsibility of all staff and students to use the electronic data system in a manner that is appropriate and ensures their own personal security.

A Completion of "New Software Installation" form and submission of said form to the Technology Coordinator for approval is required prior to installation. No staff member shall have access to the K-20 Network without having received appropriate training, and a signed Individual User Release Form must be on file with the district. If a parent or guardian does not want their child to access the Internet, the District will provide a means whereby the student will not access the Internet. The parent will also be informed of the ways in which this will limit the educational opportunities for the student.

Nothing in these regulations is intended to preclude the supervised use of the network while under the direction of a teacher or other approved user acting in conformity with district policy and procedure.

From time to time, the district will make a determination on whether specific uses of the K-20 Network are consistent with the regulations stated above. Under prescribed circumstances non-student or staff use may be permitted, provided such individuals demonstrate that their use furthers the purpose and goals of the district.

For security and administrative purposes the district reserves the right for authorized personnel to review network use and content. The district reserves the right to remove an individual's network access privileges to prevent further unauthorized activity. Violation of any of the conditions of use may be cause for further disciplinary action up to and including contacting federal and state authorities.

Parents should be encouraged to administer medications at home whenever possible. Medications should be administered in school only when necessary for the health and safety of students. Before any medication may be administered, the Board policy requires written permission from the parents and a written order from the prescribing physician.

**The written order from the prescribing physician must include:**

#### **ELECTRONIC INFORMATION SYSTEM**

The Board of Directors recognizes that the district is connected to a statewide electronic communications system (K-20 Network), which provides internet and interactive video conferencing. This network allows unprecedented opportunities for students, staff, and the educational communities to communicate, learn, access, and share information.

The Board believes the resources available through this network and the skills students will develop in using it are of significant value in the learning process and student success in the future. These opportunities also pose many challenges including, but not limited to, access for all students, conservation of resources, age-level appropriateness of material, security/privacy/confidentiality, and cost of maintaining the system.

The District will endeavor to ensure that these concerns are appropriately addressed, but cannot insure that problems will not arise.

By connecting to this network, the Board intends only to provide a means for educational activities and does not intend to create a first amendment forum for free expression purposes. The district dedicates the property comprising the network and grants access to users only for educational activities authorized under this policy and procedures and under the specific limitations contained therein. The Board directs the Superintendent to provide training and procedures that encourage the widest possible access to the K-20 Network by students, staff, and the educational community while establishing appropriate legal controls over the district's system.

#### **K-20 Network Acceptable Use Guidelines/Internet Safety Policy Network Use**

- A. All use of the system must be in support of education and research and consistent with the mission of the district. The District reserves the right to prioritize use and access to the system. "Non-rated" media will require board approval and the teacher must show a significant educational significance for the media to be shown. Each student will need to have a signed parent consent before viewing the media.

#### **MESSAGES TO STUDENTS**

If you need to get a message to your child, call or come to the office. Classrooms will not be interrupted during the regular school day except when there is an identified emergency. If we increase the amount of "on task" learning time, this gives our students more opportunities to learn critical skills.

#### **PARENT-TEACHER COMMUNICATION**

Regular conferences are held once in the fall and again in the spring. However, please feel free to contact teachers by note, email, or telephone. If you would like to have a conference with your child's teacher, call the office at 509.394.2352 and an appointment will be arranged before or after school.

Mid-term progress reports are sent home to parents whose children are not making academic progress in order to inform parents of problems. If parents have concerns, they are urged to prearrange conferences with the classroom teachers.

**SCHEDULE CHANGES**

In cases where a reason for a class schedule change exists, the student, the student's parents, the counselor, and the principal will all work together to arrive at a satisfactory arrangement. **Schedule changes will be limited to 5 days after the start of the semester.** A "Class Change Form" involving the previous instructor, new class instructor, parents, and administrator signature is required before the change is made.

Furthermore, no student shall be denied such opportunity solely because of pregnancy, marital status, previous arrest, previous incarceration, or a handicap.

#### A. Freedom of Speech and Assembly

Students are entitled to verbally express their opinions. Such opinions shall not interfere with the freedom of others to express their opinion. The use of obscenities or personal attacks is prohibited.

All student meetings in school buildings or on school grounds may function only as part of the normal educational process or as authorized by the principal. Students have the freedom to assemble peacefully. There is an appropriate time and place for expression of opinions and beliefs. Conducting demonstrations which interfere with the operation of the school or classroom is inappropriate and prohibited.

#### B. Freedom to Publish

Students are entitled to express in writing their personal opinions, but the author who initiates them must sign all written expressions. The distribution of such material may not interfere with or disrupt the educational process and must be approved by the school administration.

Students who edit, publish, or distribute handwritten, printed, or duplicated matter among their fellow students within the school must assume responsibility for the content of such publications. Libel, obscenity, vulgarity, and personal attacks are prohibited in all publications.

Commercial solicitations will not be allowed on school property unless expressly approved by the school administration.

### **SCHOOL BUS TRANSPORTATION**

Rules and regulations for riding a school bus were prepared by the State Superintendent of Public Instruction with the advice of the Chief of the Washington State Patrol and of the Director of Highways of the State of Washington, and apply to all public school buses operating in the State of Washington. If road conditions permit, buses will continue normal operation until destinations are reached. Example: in the case of an earthquake, if on the way to school, continue to school; if on the way delivering students home, continue to do the normal route. The bus driver, while in route and not able to contact the district transportation supervisor will be the determining factor in deciding whether or not the route should be continued. The bus drivers shall continue to adhere to all other district bus policies while students are in their care.

#### **Activities and Field Trips**

Students must use school transportation to and from ASB sanctioned activities. Other arrangements may be made by parental request and approval of the administration.

#### **Rooter Buses**

School district policy adopted by the board of directors gives approval to the concept of rooter buses. This policy provides that rooter buses may be used at the discretion of the administration. The following guidelines are intended to implement the policy of the board.

Guidelines and Procedures:

A rooter bus may be authorized if there is no conflict with the regular transportation of students. Each request for a rooter bus must be approved by the principal and initiated by the ASB council

- A teacher and/or chaperone acting as the district representative will ride each bus and provide direct supervision of students to, from, and during the activity.
- Students who ride the rooter bus to an activity must ride the bus back to school unless they are released to their parent by the teacher and/or chaperone.
- A fee will be charged for riding the rooter bus. The fee should be paid before the bus leaves and will be related to the cost of taking the bus to the designated activity.
- Students are responsible for keeping the bus clean and must inspect the bus before final unloading to ensure that the bus is clean.

Taking a rooter bus is a privilege. Student interest, conduct, and behavior must be acceptable at all times, as judged by the chaperone. It is the responsibility of the chaperone to take appropriate action concerning any improper behavior of students or other circumstances and report these incidences to the principal.

\*\*Students on the rooter bus will be subject to all school rules and regulations outlined in this handbook.

### .Rules and Regulations

The bus driver is charged with the responsibility of maintaining order on the bus at all times. They have the authority to temporarily suspend a student's privilege to ride the bus in a case of misconduct. Each driver should immediately report to the respective principal any misconduct on their bus. The driver is in full charge of the bus and students while they are in their care.

At school bus stops, where it is necessary for the children to cross the road in going to and from home, the children should cross in a group at a distance of approximately 10 feet in front of the bus while the bus is stopped. Students will not be permitted to enter or leave the bus except at their designated stop. Students shall ride their regularly assigned bus at all times, unless permission has been granted by school authorities to do otherwise.

For all field trips, students could be assigned specific bus seats. A seating chart with names of students and their phone numbers will be made in duplicate, one copy to the principal's office and one to remain with the bus.

- Outside of ordinary conversation, classroom conduct must be obeyed.
- Students are to assist in keeping the bus clean.
- No open windows unless by permission. No throwing trash or other items out of the bus if they are opened.
- No student shall at any time extend their head or arms out of the window.
- Students must see that they have nothing in their possession that may cause injury to another.
- Each student must see that his belongings are kept out of the aisle: large items by permission only.
- No student will be allowed to talk to the driver more than necessary.
- No student shall sit in the driver's seat, or be immediately left or right of the driver.
- Students must leave bus in orderly manner.
- Students must not stand or play in the roadway while waiting for the bus. Students must display caution and responsible behavior while waiting at the bus loading area.
- Students who walk some distance to and from the bus-loading zone, must walk on the left side of roadway.
- In the event of an emergency, exit drill procedures will be followed per instructions from the bus driver.

### SCHOOL FOOD SERVICE PROGRAM

Our Food Service program is an automated accounting system. Each student is assigned a personalized keypad number. Status reports are sent home the first of each month. It is the responsibility of the parent to monitor the account. If you have any questions regarding your child's account, please call Kirsten Royse, Food Service Supervisor, at 509.394.2352.

**Please remember, school districts are not allowed to set-up a "credit system" for charging meals as it is against state fiscal policies and laws.**

### SCHOOL INSURANCE FOR STUDENTS

Applications for school insurance for students will be made available to each student on the first day of school. Purchase of insurance is optional, but highly recommended.

### SCHOOL ORGANIZATIONS

There will be no secret societies/clubs/organizations in the Touchet School District. Legitimate student organizations and/or clubs shall abide by all rules and regulations set forth by the school district policies. No group will be entitled to use the name of the school or any department of the school without having first obtained the consent of the principal and accepted the supervision of the principal or the designated teacher. All class/club funds will be deposited in the ASB activity fund.

## EXTRA-CURRICULAR ACTIVITIES

Touchet School District believes that there is a positive correlation between the student's performance and their adherence to specific training rules. Students participating in extra-curricular activities are considered representatives of their school and community. Therefore, certain standards including academic requirements, citizenship, sportsmanship, and conduct must be maintained at the highest levels. The added exposure they receive places them in a position that requires they assume a greater amount of responsibility for their conduct. Participation in extra-curricular activities is voluntary. It is an opportunity that Touchet School District makes available to all students regardless of race, creed, color, national origin, age, sex, marital status, sexual orientation, gender identity, or the presence of any sensory, mental, or physical disability. The rules and regulations of the activity will be regarded as an agreement between the student and their coach, advisor, and district. It is the student's responsibility to know and abide by the contents of this code.

### GRADING POLICY DURING SEASON OR ACTIVITY

A. The quarter grade report and the progress report will determine the student's eligibility. (Reported approximately every 4 weeks). Activities starting between grade checks will be determined by the latest grade check available.

- To be eligible the student must maintain a 2.0 grade point average (GPA) and receive no F's on the report.
- Students that fall below a 2.0 and/or have an F on the report are deemed ineligible for the period of one school week. (5 school days) They may practice but not participate in games/activities.
- Ineligible students will have a grade check on the week following suspension to determine if they are eligible for the upcoming week. If their GPA is a 2.0 or above and they have no F's on the grade check then they are eligible until the next grade report.
- Students that are deemed ineligible 3 times during a season will be ineligible for the remainder of that season.
- The 4<sup>th</sup> quarter grade report will determine the student's eligibility for the fall season of the next school year. Students that are ineligible by the 4<sup>th</sup> quarter grade check may attend summer school to make up credit or improve their GPA (this is subject to change each year based on funding and availability). The Principal and/or Athletic Director will review the student's summer GPA before reinstating them. If the student does not attend summer school the first quarter progress report, or earlier grade check with administrative approval, will determine eligibility for the fall school year.

Students may request a due process hearing with the Principal at any step of the process. The due process allows the Principal to check with teachers to determine if the student is putting forth maximum effort in the class but, due to learning deficiencies or extenuating circumstances, is unable to perform up to maximum standards. Students may be allowed to participate in activities if the coaches/advisors, teachers, and administration agree that the student is working in the classroom to the best of their ability, and that participation would be of benefit to the student.

- B. Attendance at school the entire day is required to participate in practice, games, or activities. Prior approved/pre-arranged excused absences may be accepted.

**\*\*FINAL NOTE: BEHAVIOR NOT COVERED ABOVE**

The school district reserves the right to use appropriate measures to correct behavior, which disrupts the educational process and/or places others in danger, even if said behavior is not specifically stated within this handbook.

**ALCOHOL, TOBACCO, AND OTHER DRUGS**

The use or personal possession of any narcotics, drugs, or inhalants determined to be detrimental by the American Medical Association, alcoholic beverages, or tobacco (smoked or smokeless) is prohibited.

The following steps will deal with infractions of the above:

**1<sup>st</sup> Violation**

The student will be suspended from participation in extra-curricular and school approved activities for a minimum of one game or event.

The student will complete a drug and alcohol assessment by a licensed, professional counselor with the cost borne by the student and parent.

The student will participate in and successfully complete an Alcohol/Drug/Tobacco Education and Intervention workshop. Upon completion, the student will be allowed to resume participation.

**2<sup>nd</sup> Violation**

The student will be suspended for the remainder of the current activity season and the next season. If a student fails to complete a drug and alcohol assessment as stated above, the student shall be suspended from participation in all activities for one calendar year from the date of the infraction.

**Addendum**

If a student is present where underage drinking, substance abuse, or tobacco use is taking place, but not personally consuming or using, they shall be placed on probation for the remainder of the school year.

The penalty period will begin from the date of the infraction or the earliest time deemed practical after sufficient investigation by the principal.

Any student who is penalized under these rules has the right to due process, which includes the District Superintendent and Board of Directors.

The penalty adjudged by the principal shall be enforced until another determination is made after the appeal.

There is no "between seasons". The next season begins immediately following the final contest of the preceding activity season.

Students must complete a drug and alcohol assessment as stated above before reinstatement, unless it is deemed impossible to do so by the principal.

A student can be a first offender only once, unless a calendar year takes place, during which the student commits no infractions, in which case they would then be considered as having a "clean slate".

**SCHOOL NEWSPAPERS AND UNOFFICIAL PUBLICATIONS**

School sponsored publications are produced as part of the Touchet School District's education curriculum to provide a supervised learning experience for students (and are taught as a regular classroom activity). Truth, fairness, accuracy, and responsibility are essential to the practice of journalism. Publications which are obscene, contain libelous statements, or constitute an unwarranted invasion of privacy as defined by state law, are not authorized.

**Note: Publications which prompt students to create a clear and present danger by committing an unlawful act on school premises, or to violate school regulations, or encourages the distribution of material designed to disrupt the orderly operation of the school will not be permitted on district property.**

In order to reserve student publications for their intended educational purpose, the publications advisor in conjunction with student editors will initially determine what material will be considered for publication, but school officials shall retain ultimate editorial voice over the determination of what constitutes responsible journalism in a school sponsored newspaper.

All material selected shall be submitted to the building principal. The building principal shall review the material, taking into account such things as emotional maturity of the intended audience, whether the material associates the school with a non-neutral position in a political controversy, and whether the material might be perceived as advocating drug or alcohol use, irresponsible sex, or conduct inconsistent with the shared values of the larger community. Any material that the building principal deems to be inconsistent with the educational purpose of the publication shall be modified and resubmitted or withdrawn from consideration for publication. The decisions of the building principal shall be final and there shall be no appeal. Only material that has been approved by the building principal may be published.

**Note: Publications that are a product of the school curriculum must have the following statement printed in the published material, "This publication is published as a part of the curriculum and is a non-public forum under the supervision of the District Board of Directors."**

Once off the premises of school property, a student may resume use of the item.

**SOCIAL ACTIVITIES**

Social functions for the various school district classes or clubs will be arranged for as follows: The faculty advisor will clear the activity through the Associated Student Body (ASB) council and the Principal, who will then include it in the school activities calendar.

It is understood that the faculty advisor will be in attendance at all planning sessions for the activity, at the function itself, and will be in charge unless other arrangements have been made and approved by the school administration.

All approved social/fundraising activities will be the sponsoring group's responsibility to set up for and clean up after each event.

This hearing shall be closed. Prior to the hearing, the Superintendent shall obtain a full report from the former district concerning the expulsion. At the hearing, the administration shall review the report from the former district and have an opportunity to question the student and their parents concerning the alleged misconduct.
