

Touchet School District
March 13, 2020

Touchet School District will be suspending all school-sponsored out-of-district student events effective immediately. This decision also suspends all student events hosted at Touchet schools where outside participants would be traveling into the community. This includes activities such as home and away athletic contests, student field trips outside of our community, music contests/jamborees, and other program-related competitions/events.

“This decision came after careful consideration, including consultation with local health officials this morning. This decision did not come lightly, but is necessary to ensure the health and safety of our students, staff, and community as we respond to this pandemic health crisis.”

Information regarding rescheduling of activities and events will be made available when conditions improve and/or are recommended by health experts.

The Touchet School District will continue to follow its epidemic/pandemic response plan as detailed on the district’s Website.

“Thank you for your flexibility and understanding as we collectively respond to keep our Touchet students and community safe.

Mr. Elizondo
