## SCHOOL DISTRICT

### **Elementary School Grading 4th Quarter 2020**

#### **Announcement: Grading Elementary Practices for 4th Quarter 2020**

Fourth quarter grades in elementary schools will follow two different plans; one plan for Kindergarten through 2nd grade and one plan for 3rd through 5th grades.

#### **Kindergarten - 2nd Grade**

- The grade options in Kindergarten through 2nd grade are typically as follows
  - 1 = Below Level
  - 2 = Approaching Level
  - 3 = Proficient Level
  - P = Passing
- These grades are tied to learning outcomes.
- We don't believe it would be appropriate to say that we know whether students are proficient in the 4th quarter learning outcomes or not due to the school dismissal that was instituted as a consequence of the COVID-19 pandemic.
- In an effort to hold students harmless for the different and difficult nature of the 4th quarter school dismissal, all students in Kindergarten, 1st grade and 2nd grade will receive a "P" grade.

#### **3rd Grade - 5th Grade**

- Students who have NOT been engaged in the learning activities provided during the 4th quarter will receive a "P" grade. The "P" simply means the student is ready to move forward to the next grade.
- Students who have engaged in the learning activities, regardless of their actual performance, will receive an "A" grade.
