

Updates from Ms. Stemler

April 30, 2020

What an interesting week for education in California. It has now been six (6) weeks since closing our doors. As a staff, we can say that we miss our busy students and all of the joy and laughter that they bring us. However, as we look at the COVID-19 rates in San Joaquin County, we know that shelter in place and distance learning is keeping us all safe. This week we heard the Governor declare that children may be returning in July to modified schedules, and that schools need to prepare for deep budget cuts for the next two (2) years. At this time we still have more questions than answers for our future. We are a strong community and we will get through this.

Parents, thank you for your continued communication with our staff. We are all in this together, and we are here to help make the transition easier.
