

6th Grade Social Studies

Week of May 4th- May 8th

Office Hours: Monday-Friday 11 a.m. to 1 p.m.

Email: rhondaely2020@gmail.com

May 4th- May 8th

Each day study the Vocabulary Core Concepts 2.4-2.5 vocabulary words. If you have index cards you can make flash cards. If you don't have index cards just write the words and definitions on a piece of paper. Study these words each day. Complete Core Concepts 2.4-2.5 matching worksheet and crossword puzzle.

Each day study the Landforms Review Part 1 vocabulary words. If you have index cards you can make flash cards. If you don't have index cards just write the words and definitions on a piece of paper. Study these words each day. Complete Landforms Review Part 1 crossword puzzle.

Current Event: May 4th – May 8th

Each day- Current Event Activity

Watch CNN 10 on the internet. Take notes while watching CNN 10 (you can pause it as you are taking notes or watch it a couple of times). Comment in google classroom about one or two of the news events.

If no internet: Watch any local or national news on your television at home and take notes.

Keep up the great work! I hope you have a great week!

-Mrs. Ely

Vocabulary Core Concepts 2.4-2.5

Weathering- process that breaks rocks down into tiny pieces

Valley- stretches of low land between mountains or hills

Erosion-process in which water, ice, or wind removes small pieces of rock

Deposition- process of depositing material eroded and carried by water, ice, or wind

Plateau- a large, mostly flat area that rises above the surrounding land

Fault- seam in Earth's crust; occurs near the boundaries between plates

Plains- large areas of flat or gently rolling land

Delta- a flat plain formed on the seabed where a river deposits material over many years

Plate tectonics- theory that explains how huge blocks of Earth's crust called "plates" move

Magma- stream of soft, nearly molten rock

Plate- block of rock and soil that makes up Earth's crust

Name: _____

Date: _____

Core Concepts 2.4-2.5 Crossword

Across

- 3. stream of soft, nearly molten rock
- 6. process in which water, ice, or wind removes small pieces of rock
- 7. a large, mostly flat area that rises above the surrounding land
- 9. seam in Earth's crust; occurs near the boundaries between plates
- 10. process that breaks rocks down into tiny pieces
- 11. process of depositing material eroded and carried by water, ice, or wind

Down

- 1. theory that explains how huge blocks of Earth's crust called "plates" move
- 2. large areas of flat or gently rolling land
- 4. stretches of low land between mountains or hills
- 5. a flat plain formed on the seabed where a river deposits material over many years
- 8. block of rock and soil that makes up Earth's crust

Name: _____

Date: _____

Core Concepts 2.4-2.5

- | | |
|--|--------------------|
| 1. process that breaks rocks down into tiny pieces | A. Erosion |
| 2. stretches of low land between mountains or hills | B. Plateau |
| 3. process in which water, ice, or wind removes small pieces of rock | C. Valley |
| 4. process of depositing material eroded and carried by water, ice, or wind | D. Deposition |
| 5. a large, mostly flat area that rises above the surrounding land | E. Magma |
| 6. seam in Earth's crust; occurs near the boundaries between plates | F. Weathering |
| 7. large areas of flat or gently rolling land | G. Fault |
| 8. a flat plain formed on the seabed where a river deposits material over many years | H. Plate |
| 9. theory that explains how huge blocks of Earth's crust called "plates" move | I. Delta |
| 10. stream of soft, nearly molten rock | J. Plate tectonics |
| 11. block of rock and soil that makes up Earth's crust | K. Plains |

Landforms Review Part 1

1. Canal- man-made waterway constructed to allow the passage of boats or to carry water
2. Isthmus- narrow strip of land connecting two larger land masses
3. Archipelago- group of islands
4. Butte- isolated hill with steep sides and a flat top
5. Valley- low area of land between hills or mountains
6. Glacier- large body of ice moving slowly down a slope
7. Volcano- mountain or hill with a vent through which lava escapes from the Earth's crust
8. Mesa- Isolated flat-topped elevation that rises abruptly from the surrounding area
9. Range- series of connected mountains
10. Oasis- fertile area with water in the middle of a desert
11. Mountain- large landmass that rises notably above its surroundings (larger than a hill)
12. Alluvial Fan- cone-shaped deposit of sediment left by a stream

Office Hours: Monday-Friday 1:00-3:00

Week 5 m

1. Find the area of the parallelogram.

Area = mm²

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #17

2. Find the area of the triangle.

The area is square centimeters.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #11

3. Find the area of the triangle.

The area is square miles.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #12

4. Find the area of the triangle.

The area is square inches.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #13

5. Find the area of the triangle.

The area is square millimeters.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #14

6. Find the area of the trapezoid by forming a parallelogram.

The area is square units.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #9

7. Find the area of the trapezoid by forming a parallelogram.

The area is square units.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #10

8. Use decomposition to find the area of the figure.

The area is square centimeters.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #11

9. Use decomposition to find the area of the figure.

The area is square yards.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #12

10. Write an ordered pair corresponding to the point.

Point A

Point A is located at (,).

Grade 6: OK>Chapter 4>Section 4.3>Exercises> Question #1

11. Write an ordered pair corresponding to the point.

Point B

Point B is located at (,).

Grade 6: OK>Chapter 4>Section 4.3>Exercises> Question #2

12. Draw the polygon with the given vertices in a coordinate plane.

$(-3, 2)$, $(-3, 5)$, $(2, 2)$, $(2, -1)$

Polygon

✚ Move

↶ Undo

↷ Redo

✕ Reset

13. Draw the polygon with the given vertices in a coordinate plane.

$(0, 4)$, $(-3, 8)$, $(-7, 4)$, $(-1, -2)$, $(7, -2)$

14. Find the area of the parallelogram.

Area = km²

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #18

15. Find the area of the parallelogram.

Area = cm²

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #19

16. Find the area of the parallelogram.

Area = in.²

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #20

17. Find the area of the parallelogram.

Area = mi^2

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #21

18. **YOU BE THE TEACHER** Your friend finds the area of the parallelogram.

Is your friend correct?

- ☐ yes
- ☐ no

Explain your reasoning.

B / U **:** **T**² **T**₂

0 / 10000 Word Limit

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #22

19. Find the area of the parallelogram. Round to the nearest hundredth if necessary.

Area = cm^2

Grade 6: OK>Chapter 4>Section 4.1>Exercises> Question #24

20. Find the area of the triangle.

The area is square meters.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #16

21. Find the missing dimension of the triangle.

Area = 28 m^2

$b =$ m

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #20

25. Find the area of the figure.

The area is square centimeters.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #24

26. Find the area of the parallelogram.

Area = in.²

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #1

27. Find the area of the figure.

The area is square units.

Grade 6: OK>Chapter 4>Section 4.2>Exercises> Question #25

28. Find the area of the triangle.

The area is square inches.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #1

29. Find the area of the triangle.

The area is square kilometers.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #2

30. Find the area of the triangle.

The area is square feet.

Grade 6: OK>Chapter 4>Section 4.2b>Exercises> Question #3

Mrs. Schrimsher- ELA

I Am Not Afraid

You pushed me

in the hall,

Thought I would

fall.

But that's not the

case,

I didn't lose any

face.

Glared at me during

lunch,

As if to throw a

punch.

I decided to

stay,

I didn't look

away.

Started that bad

rumor,

A sick attempt at
humor.

No-one worth
knowing,
Believed where it was
going.

Why do you use
me,
To make yourself look
cool?
Don't you
realize,
I am no
fool?

You think you have the
power,
To make me feel
defeated.
You have forgotten that the
hour,
And the tides are
changing.

No-one likes a
bully,
Your time has come and
gone.

Your power has left
fully,
From years of
inequality.

The law is on my
side,
It's a game you cannot
win.

One word from
me,
And I'll expose your
sin.

Truth is, you made me
stronger,

I fear you no
longer.

I have the power to make it
stop,

You'll be hearing from a
cop.

Your debt has not been
paid,

But it's
coming,

Cause I am not
afraid.

Name _____ Date _____

I Am Not Afraid

- 1. Highlight the central ideas found in this poem. (Change the font color.) What is the theme?**

- 2. Highlight words in the poem that reveal the speaker's problem. (Change the font color.) Summarize the speaker's conflict without using personal opinion.**

- 3. Summarize the last stanza in the poem. What is going on? A stanza is a paragraph in poetry.**

- 4. Explain how 1st person point of view helped provide sympathy for the speaker.**

- 5. Chart the rhyme scheme of the poem. It has a varied rhyme scheme. If you are unsure how to chart rhyme scheme, go here:**
<http://study.com/academy/lesson/what-is-a-rhyme-scheme-definition-examples-quiz.html>

Explain why rhyme and rhythm are important in poetry.

6. Reread the 6th stanza:

No-one likes a
bully,
Your time has come and
gone.
Your power has left
fully,
From years of
inequality.

Based on context clues, what does the word “inequality” mean?

7. Explain how the speaker’s feelings changed from the beginning of the poem until the end.

8. Reread the 8th stanza:

Truth is, you made me
stronger,
I fear you no
longer.
I fear you no
longer.
I have the power to make it
stop,
You'll be hearing from a
cop.

Why is this stanza so important to the poem?

9. What do you suppose motivated the bully to pick on the speaker? Make an inference

10. Turn this poem into a narrative. Provide background information such as the names of the characters and the school. Also include information on what started the problem and how it ended.

Horn – 6th Grade Science Lessons for Weeks of 5/04/20

Dear Parent/Guardian and Student:

Week of 5/04/20: "Cell Structure and Function" – Students should not spend more than 30 minutes a day on this assignment and should do the best they can on their own as this assignment has been scaled down to enable students to work independently.

Please also watch the following programs:

- **Tuesday – 5/05/20 – 2:00 p.m. OR Wednesday – 5/06/20/20 - 1:30 p.m. – OETA Channel 13 – Nature Cats – "Plants Got Moves/Magnet Mania" – 30 minutes – Science Concept: Magnets – write down 8 to 10 facts from the first part of the show to the last including any information given on magnets/magnetism.**
- **Tuesday – 5/05/20 - 2:30 p.m. – OETA Channel 13 – Wild Kratts "Under Frozen Pond" – 30 minutes – Science Concept: Adaptations – write down 8 to 10 facts from the first part of the show to the last including any information given on how the pond creatures are able to survive the winter.**
- **Wednesday – 5/06/20 - 2:30 p.m. – OETA Channel 13 – Wild Kratts "Slider, The Otter" – 30 minute – Science Concept: Predator/Prey – write down 8 to 10 facts from the first part of the show to the last including any information given on the predator/prey relationship.**

If you have any questions or concerns, you can reach me at 399-0486 between the hours of 11 a.m. and 1 p.m., Monday – Friday or email me at bluetopaz12344@gmail.com. When calling you will be asked to identify yourself (please include your child's name), then the call will be transferred to me. If I do not answer, please leave a message and I'll return your call as soon as possible. When emailing please include your child's name in the title of the email.

Sincerely,

Ms. Horn

Cell Parts and Functions

Cell Membrane
 Functions for cell
 Location: surrounds the cell
 Responsible: controls the cell

Nucleus
 Central center
 Location: inside the cell
 near the center

Cell Parts and Functions

Chloroplast
 Makes glucose
 Location: inside the cell
 near the center

Central vacuole
 Stores water
 Location: inside the cell
 near the center

Cell Parts and Functions

Mitochondria

Makes energy in cell

Location: in cytoplasm

Cell Wall (in plants)

Protects and supports

Location: all plants

Location: in cytoplasm

Cell Parts and Functions

Endoplasmic Reticulum (ER)

Transport material and some chemical parts of the cell

Two types: smooth and rough (has ribosomes)

Location: inside, between the nucleus and the membrane

Rough E.R.

Cell Parts and Functions

Ribosome

Makes proteins

Location: in cytoplasm or

attached to ER

Vacuole

Stores food and waste

Location: in cytoplasm

Cell Parts and Functions

Lysosome

Contains digestive enzymes

Digests material and cell parts

Location: in cytoplasm

Centriole

Helps the cell to divide

Location: in cytoplasm

Cell Parts and Functions

Cell

Smallest functional unit of life

Used for movement

Flagella

Long whip like tail

Used for movement

Location outside of cell

Cell Parts and Functions

Cytoplasm

Gel like substance inside cell

Organelles inside

Location in cell

Chromatin/Chromosomes

Contains genetic information

Location in nucleus

Cell Structures and Functions

Thylakoid

Flattened disc like structure

Location in chloroplast

Cell Wall

Cell Wall

Planar and supports plant

Cells

It is made of cellulose

Cellulose

It is made of cellulose and lignin

CELLS AND TISSUES

From this chapter you should understand
what a cell is, how it is made, the structure of
the cell.

The structure of the cell.

Structure of the cell is made of two
parts: the cell wall and the cell membrane.
(The cell wall is the outer part of the cell.)

The cell membrane is the inner part of the cell.

Plant Cell

Cell Structure and Function Questions

1. What is the flexible covering of the cell that allows things in and out of the cell and protects it?
2. What is the control center of the cell?
3. What is the organelle that is the powerhouse of the cell and makes energy?
4. The packaging center of the cell is the _____.
5. What organelle transports materials and sends messages to all parts of the cell?
6. The places where proteins are made are _____.
7. What organelle stores nutrients for cell later use?
8. What is the organelle that contains digestive enzymes that destroy bacteria and old cell parts?
9. The gel-like material that holds all organelles inside the cell in place is the _____.
10. What is the organelle that traps sunlight for plant cells to make food?
11. What part does a plant cell have that is rigid and surrounds the outside of it?
12. The highways that materials travel around the cell are the _____.
13. What 4 substances (things) do plants need to absorb (take-in) to survive?
14. What are the 2 substances plants produce that we need to survive?
