INDEPENDENT AUDITOR'S REPORT

August 27, 2010

To the Board of Education
Hemlock Public School District
Hemlock, Michigan

We have audited the accompanying financial statements of the governmental activities and funds of Hemlock Public School District, as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of Hemlock Public School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and funds of the Hemlock Public School District as of June 30, 2010, and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 27, 2010, on our consideration of Hemlock Public School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents is presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hemlock Public School District's financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

HEMLOCK PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

This section of the annual financial report presents management's discussion and analysis of Hemlock Public School District's performance during the fiscal year ending June 30, 2010. Please read this along with the financial statements that follow for a comprehensive understanding of the financial position of the School District.

Annual Report

The annual report consists of our Management's Discussion and Analysis, a series of financial statements, notes to those statements, and supplemental information. The financial statements are divided into two sections. The District-wide Financial Statements (government-wide financial statements) provide information about the activities of the School District as a whole. They present a year-end aggregate view and a longer-term view of the District's finances. All funds and capital assets are combined. The Fund Financial Statements (governmental fund statements) provide more detail showing the year's activity by fund. They also show the amount available to finance future programs. Fund Statements do not include long-term items such as capital assets or long-term debt.

District-wide Financial Statements

The District-wide Financial Statements appear first in the financial statements. They present information on the School District as a whole. They show net assets and a statement of activities for the year. These statements include all assets and liabilities using the full accrual basis of accounting, similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Net assets, the difference between assets and liabilities, are one way of measuring the financial health of the School District. In the statement of activities, the revenues less the expenses result in an increase or decrease in the net assets. Increases or decreases in net assets, over time, display the financial health of the District. However, the goal of the School District is to provide quality education and a safe environment, not to make a profit.

The statement of activities covers all of the School District's services, including instruction, supporting services, community services, athletics, and food services. Property taxes, unrestricted State Aid, and State and Federal grants finance most of these activities.

HEMLOCK PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Fund Financial Statements

The Fund Financial Statements provide detailed information about the most significant funds instead of the School District as a whole. Some funds are required to be established by State law and by bond covenants. Many of the other funds are created to help control and manage money for a particular purpose or to meet legal responsibilities for certain taxes, grants, and other money. The governmental funds of the School District focus on showing how money flows into and out of funds and the balances remaining at year-end. They provide a detailed, short-term view of the operations and services of the School District. This helps determine whether more or fewer financial resources are available for future programs. Funds use the modified accrual method to record transactions. This method measures cash and all other financial assets that can readily be converted to cash.

The reconciliations between governmental activities (District-wide Financial Statements) and governmental fund activities (Fund Financial Statements) are located later in the annual report.

Agency and Trust Accounts

The School District acts as an agent or trustee for various student activity funds and trust funds. Our fiduciary net assets are reported in separate statements. We exclude these net assets from the School District's other financial statement because we cannot use these assets to finance our operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Summary of District-wide Financial Statement

Table 1 provides a summary of our net assets as of June 30, 2010 and 2009. They represent the School District as a whole.

	<u>06-30-2010</u>	<u>06-30-2009</u>

Unrestricted	<u>192,171</u>	<u>628,295</u>
Total Net Assets	<u>\$ (280,494)</u>	<u>\$ 10,129</u>

The above table presents the net assets as of June 30, 2010. The change in net assets for the 2009-2010 and prior year is presented in Table 2 and discussed below that table. Capital assets net of accumulated depreciation are computed by taking the original cost of the assets and subtracting the depreciation.

Long-term liabilities include general obligation bonds used to finance acquisition of capital assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net assets are reported to show legal constraints which limit use of some of the assets. Debt covenants and legislation limit the School District's ability to use those net assets for day-to-day operations.

Net assets decreased by \$290,623. Total revenues decreased by \$487,514, mainly due to a decrease in enrollment and a \$154 per pupil state proration. Grants and categoricals decreased \$31,091. The Education Stabilization Stimulus program yielded \$386,713 and was directly offset by a decrease in the State Foundation allowance. Expenses decreased by \$508,881, mostly due to insurance changes enacted midyear as well as a spending freeze. There was also a reduction in staff.

Summary of District-wide Financial Statement (cont.)

The unrestricted net assets represent the accumulated results of all past years' activities. This amount will be affected by the year-to-year combined operations. The summary of this year's activities for the School District as a whole are reported below.

	<u>06-30-2010</u>	<u>06-30-2009</u>
Revenue		
Program revenue		
Charges for services	\$ 396,805	\$ 381,310

Community services	32,407	32,849
Food services	337,037	327,775
Athletics	200,786	216,405
Interest on long-term debt	600,769	660,832
Other	766	3,360
Depreciation (unallocated)	<u>904,376</u>	<u>921,230</u>
Total expenses	12,998,871	13,507,752
Increase (decrease) in Net Assets	<u>\$ (290,623)</u>	<u>\$ (311,990)</u>

Funding for the above activities comes from a variety of sources. Some activities are partially funded by those who benefit from the programs or by grants and categoricals from governments and organizations. The remaining activities are paid for from taxes, State Foundation Allowance, and other revenues, such as interest.

The change in net assets differs from the change in fund balance because of different accounting requirements. A reconciliation appears later in the financial statements.

HEMLOCK PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Summary of Fund Financial Statement

As noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

The combined fund balance of \$1,000,176 decreased by \$396,450 from last year. The General fund, which is the primary operating fund decreased by \$385,299. The primary reasons for the decrease in fund balance are an enrollment decline of approximately 38 FTE's from the 2008-2009 school year while attempting to maintain the teacher to student ratio, and the \$154 per student state proration.

The Special Revenue fund balance, which includes Athletic and Food Service, showed an increase of \$4,713.

The Debt Service Funds showed a fund balance decrease of \$15,864. Millage rates are determined annually to ensure that the School District accumulates sufficient funds to pay annual bond issue-related debt service. The fund balances in Debt Service Funds are reserved since they can only be used to pay debt service obligations.

General Fund Budget

By law, the School District must establish an original budget in June, with a beginning fiscal date of July 1, for the General Fund and Special Revenue Funds. Budgets are revised as changes in revenue and expenditures occur. Approximately 80 percent of the School District's revenue comes from the State through a Foundation Allowance and Categorical funds (specific program grants). The State Foundation Allowance is based on student enrollment and an amount per pupil designated by the State. Therefore, the budget is primarily based on an estimate of the student population including the following September count, the per-pupil amount set by the State, and an estimate of the categorical amounts that will be approved by the State.

State law requires that budgets be amended to ensure that expenditures do not exceed appropriations. Original and final budgets, as well as actual amounts paid and received, are included in the required supplemental information.

Original General Fund budgeted local revenues were decreased by \$816,318. This is mostly due to the \$154 per pupil state proration and the \$386,713 that was replaced with Federal revenues associated with the American Recovery and Reinvestment Act. Federal revenues were increased by \$684,921.

HEMLOCK PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

General Fund Budget (cont.)

Original General Fund budgeted expenditures were increased by \$111,244 mostly due to an increase in health insurance costs from July through December that was not anticipated when the original budget was completed.

The total actual revenues were not significantly different from the final amended budget. As discussed earlier, the State and Federal revenues were adjusted to allow for changes related to the Federal Stimulus program. Total actual expenditures were less than the final budget. This difference is spread across most of the expenditure line items and was caused by conservative budgeting assumptions.

Capital Assets

As of June 30, 2010, the School District has \$13,618,936 in capital assets including land, buildings, buses, vehicles, furniture and equipment, less depreciation.

	<u>06-30-2010</u>	<u>06-30-2009</u>
Land	\$ 688,500	\$ 688,500
Buildings and improvements	23,555,905	23,555,905
Buses and other vehicles	1,227,333	1,227,333
Furniture and equipment	<u>1,206,941</u>	<u>1,143,774</u>
Total Capital Assets	26,678,679	26,615,512
Less accumulated depreciation	<u>13,900,952</u>	<u>12,996,576</u>
Net Capital Assets	<u><u>\$ 12,777,727</u></u>	<u><u>\$ 13,618,936</u></u>

Debt

As of June 30, 2010, the School District had \$13,664,561 in General Obligation Bonds outstanding versus \$14,568,085 in the previous year.

The School District's General Obligation Bond rating is equivalent to the State's credit rating. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issued "qualified debt," such obligations are not subject to this debt limit. The School District has no qualified general obligation debt.

Other obligations include capital lease obligations, employee-compensated absences, and retirement incentives. The notes and supplemental information to the financial statements contain detailed information on long-term liabilities.

HEMLOCK PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Economic Conditions Affecting Next Year's Budget

As mentioned above, State funding accounts for approximately 80 percent of the General Fund revenue. The funding consists of a Foundation Allowance per pupil and Categorical amounts. The Foundation Allowance per pupil is multiplied by the blended student count. The blended count is comprised of 25 percent of the February count and 75 percent of the September count. Therefore, the School District depends on the State's ability to fund local school operations. Under State law, the School District cannot access additional property tax revenue for general operations. When the final student count and per pupil funding is finalized, State law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

There is still uncertainty regarding funding in the 2010-2011 school year. At the time of this writing, the \$154 proration has been restored. There has also been a significant increase in the retirement rate that will cost the District approximately \$55 per student.

During the 2005-2006 fiscal year, the School District completed negotiations with both of their unions. The contracts cover fiscal years 2006-2007, 2007-2008, and 2008-2009. Negotiations are currently taking place for new union contracts.

Fund Balance of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2010

Net Change in Fund Balances - Governmental Funds \$ (396,450)

Amounts reported for governmental activities in the statement
of activities are different because:

Governmental funds report capital outlay as expenditures;
in the statement of activities, these costs are capitalized
and depreciated over their estimated useful lives.

Depreciation expense	(904,376)
Capital outlay capitalized	63,167

Repayment of debt principal is an expenditure in the
governmental funds, but not in the statement of activities.

Bond principal	903,524
Note payable principal	37,567
Capital lease principal	61,483

In the statement of activities, certain expenses (retirement
incentives, compensated absences) are reflected by the
net amounts earned during the year. The governmental funds
measure the financial resources used (paid).

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies

The Hemlock Public School District (the "School District") operates under an elected Board of Education and provides educational services to approximately 1,342 students. The School District's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989, when applicable, that do not conflict with or contradict GASB pronouncements. The more significant accounting policies relating to GAAP and used by the School District are discussed below.

A. Reporting Entity

The accompanying financial statements have been prepared in accordance with criteria established by the GASB for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational and financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. The School District has no component units.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

B. District-Wide Statements

The statement of net assets and the statement of activities display information about the School District as a whole. The purpose of these statements is to distinguish between activities that are governmental and those that are considered business-type activities. Currently, all activities of the School District are considered to be governmental.

The district-wide statements are prepared using the economic resources measurement focus and the full accrual basis of accounting. This basis is different from the manner in which the governmental fund financial statements are prepared. Therefore, reconciliation is included to identify the relationship between the district-wide statements and the statements for the governmental funds.

The district-wide statement of activities presents a comparison between program expenses and program revenues, revenues that are not classified as direct program revenues are presented as general revenues. The comparison of program expenses and revenues identifies the extent to which each program is self-financing or draws resources from the School District.

The district-wide approach is focused more on the sustainability of the School District as an entity and the change in the District's net assets from the current year's activities.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

C. Fund Financial Statements

The accounts of the School District are organized on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The following fund types are used by the School District:

Governmental Funds

The governmental fund statements are prepared using the current resources measurement focus and the modified accrual basis of accounting. The fund approach is focused on the currently available resources and changes in the currently available resources of the District.

General Fund is the general operating fund of the School District. It is used to account for all financial resources except those that are required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Cafeteria and Athletic funds are special revenue funds.

Debt Service Funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt.

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support School District programs.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

C. Fund Financial Statements (continued)

The emphasis in fund financial statements is on the major funds. The School District has opted to display information for all funds without regard to the criteria for determination of major funds. The School District's fiduciary funds are presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party and cannot be used for activities or obligations of the government, these funds are not incorporated in the government-wide statements.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements.

Full Accrual

The full accrual basis of accounting requires recognition of revenues when earned and expenses when incurred.

Modified Accrual

The modified accrual basis recognizes revenues when they are measurable and available, available means collectible within the current period or within 60 days after year-end. Expenditures are still recognized when incurred, however, principal and interest on long-term debt is recognized when due.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

Modified Accrual

The most significant difference between the full accrual basis of accounting and the modified accrual basis of accounting is the way in which capital assets and long-term debt are recognized. The full accrual basis of accounting recognizes purchases of capital assets as an asset and long-term debt proceeds as a liability (similar to a for-profit business). The modified accrual basis of accounting recognizes the purchase of capital assets as expenditures and long-term debt proceeds as other revenue sources.

E. Financial Statement Amounts

Cash

Cash includes cash on hand, demand deposits, and time deposits (savings or certificates of deposit).

Investments

Investments include money market and mutual funds accounts and are stated at fair value.

Receivables

Receivables consist of all revenues earned at year-end but not yet received.

Inventories

Inventories consist of expendable supplies held for the District's use and are carried at cost using the first-in, first-out method.

Prepaid

Prepaid amounts consist of payments for which the District will have a future benefit and will be used up at a date beyond the current year-end.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

E. Financial Statement Amounts (continued)

Capital Assets and Depreciation

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The School District does not possess infrastructure type assets. Depreciation on all assets is provided on the straight-line method over the following estimated useful lives:

Buildings	50 years
Building improvements	25 years
Buses and other vehicles	8 years
Furniture and equipment	5-20 years

Accounts Payable

Accounts payable consist of items from which the District benefited during the current fiscal year but has not yet paid.

Accrued Liabilities

Accrued liabilities consist of items related to salaries payable, specifically the District's portion of FICA and Medicare taxes and retirement contributions.

Salaries Payable

Salaries payable consist of amounts due on employee's contracts that are due and payable for the current fiscal year.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1--Summary of Significant Accounting Policies (continued)

E. Financial Statement Amounts (continued)

Revenue Anticipation Note

The revenue anticipation note relates to short-term borrowings for cash flow purposes.

Deferred Revenue

Deferred revenue represents amounts for which the District has received or is due to receive but has not yet earned. Deferred revenue is usually caused by the receipt of grant program revenues in excess of expenses/expenditures related to the grant. The revenues are deferred until the proceeds have been fully expensed/expended.

Long-Term Liabilities

Bonds payable are the result of long-term obligations issued for the purpose of making capital purchases and improvements or the refinancing of previously issued obligations. Retirement incentives are the result of agreements made between the District and certain employees opting for early retirement.

Compensated absences represent accumulated unpaid vacation and sick leave as earned by supervision employees. The accumulated benefit is payable to the employee upon termination of employment. No portion of the compensated absence is believed to be current at year-end.

Inter-fund Activity

Inter-fund activity is reported as loans, reimbursements, or transfers. Loans are reported as inter-fund receivables and payables and are eliminated upon consolidation.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 2--Stewardship, Compliance, and Accountability

The School District is required to adopt an annual budget before the beginning of the fiscal year for the General Fund, Cafeteria Fund, and the Athletic Fund. The accounting basis of the budgets is the modified accrual method. Following are the procedures used in establishing the budgetary data reflected in the financial statements:

1. The District's Superintendent submits to the Board of Education a proposed budget by July 1 of each year. The budget includes proposed expenditures and the means to finance them.
2. A public hearing is conducted to obtain taxpayer comments.
3. The Superintendent is authorized to transfer budgeted amounts within functional expenditure lines as approved by the Board; however, any revisions that alter functional expenditure lines of any fund must be approved by the Board of Education.
4. Budgeted amounts shown in the supplemental information reflect amendments through June 30.

The budgetary comparison presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. The School District's actual expenditures exceeded the final budget in certain areas as disclosed on page 32.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 3--Deposits and Investments

The School District is authorized, by the State of Michigan, to deposit its funds in banks, savings and loan associations, or credit unions having a principal office in Michigan.

The District is also authorized to invest in the following:

- a. Direct bonds and obligations of the U.S. or agency or instrumentality,
- b. CDs, savings accounts with banks, savings and loan associations, or credit unions which are insured with the applicable federal agency,
- c. Commercial paper – within three highest rate classifications by at least two rating services, maturing not later than 270 days,
- d. U.S. or agency repurchase agreements,
- e. Banker's acceptance of U.S. banks,
- f. Mutual funds – investments which local unit can make directly.

As of year-end, the carrying amount of the District's deposits was \$1,565,001 and the bank balance was \$1,880,938. Of the bank balance, \$889,457 was covered by federal depository insurance and \$991,481 was uninsured and uncollateralized.

It is the policy of the Board to invest surplus funds of the District, however, surplus funds were not available and no deposit was placed in an investment during the year.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 7--Advance Refund of Bond Resulting in Defeasance of Debt

On February 15, 2005, the District issued \$4,550,000 in general obligation refunding bonds with interest rates ranging between 2.50% and 5.00%. The District issued the bonds to advance refund \$4,460,000 of the outstanding series 1996 general obligation bonds with a 5.2% interest rate. The District used the net proceeds along with other sources to purchase State and Local Government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded 1996 series bonds. As a result, the 1996 series bonds are considered defeased, and the District has removed the liability from its accounts. The outstanding principal of the defeased bonds is \$3,720,000 as of June 30, 2010.

The advance refunding reduced total debt service payments over 16 years by \$422,747. This results in an economic gain (the difference between the present values of the debt service payments on the old and new debt) of \$302,184.

On July 13, 2005, the District issued \$7,520,000 in general obligation refunding bonds with interest rates ranging between 3.00% and 4.00%. The District issued the bonds to advance refund \$6,970,000 of the outstanding series 2001 general obligation bonds with a 5.25% interest rate. The District used the net proceeds along with other sources to purchase State and Local Government securities. These securities were deposited in an irrevocable trust to provide for all future debt service on the refunded 2001 series bonds. As a result, the refunded portion of the 2001 series bonds are considered defeased, and the District has removed the liability from its accounts. The outstanding principal of the defeased bonds is \$7,315,000 as of June 30, 2010. The advance refunding reduced total

debt service payments over 16 years by \$370,669. This results in an economic gain (the difference between the present values of the debt service payments on the old and new debt) of \$273,419.

NOTE 8--Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omission; injuries to employees; and natural disasters. During the year, the District carried commercial insurance for the above risks of loss.

NOTE 9--Pension Plan

The school District's defined benefit pension plan provides retirement, survivor and disability benefits to its employees. The District participates in the Michigan Public School Employees Retirement System (MPERS), a cost sharing multiple-employer, statewide plan governed by the State of Michigan. Benefit provisions are established by state statute. The MPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing the MPERS Directors, PO Box 30673, Lansing, Michigan 48909 or by calling (517) 322-6235.

Funding Policy

The School District is required to contribute at an actuarially determined rate; the current rate is 16.94% of covered payroll. Employees hired before January 1, 1990 contribute 3.9% of their gross pay. Employees hired January 1, 1990 or later contribute between 3% and 6.4%. The contribution requirements are established and may be amended by the State of Michigan.

HEMLOCK PUBLIC SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 9--Pension Plan (continued)

The contribution requirements of plan members are established and may be amended by the State of Michigan. The District's contributions to MPSERS for the current year and the preceding two years were \$1,091,980, \$1,131,466, and \$1,112,470, respectively.

NOTE 10--Joint Venture

Hemlock Public School District, Hemlock Semiconductor, and Dow Corning Health Care Materials Site are engaged in a partnership for the purpose of developing various educational activities in the school, workplace, and community that offers each child an opportunity to attain excellence in his or her chosen educational endeavors. Such activities are categorized as follows:

- a. student oriented activities
- b. shared staff/administration development programs
- c. support of special projects
- d. acquisition of instruction materials, supplies, and equipment

A task force represented by members of all the partners determines the direction of the Partnership and its goals. The cash activity of the Partnership is summarized as follows:

Cash Balance, July 1, 2009		\$ 9,455

NOTE 11--Durant Settlement and Bond Issue

As a result of the lawsuit known as "Durant VS. State of Michigan", non-plaintiff districts, of which the School District is a part, were offered an amount to settle and resolve in their entirety any claim against the State of Michigan related to its violations of the state constitution. The District was offered a settlement of \$463,950, which it accepted. Terms of the settlement required that one half of the settlement be paid to the District over 10 years beginning November 24, 1998 with the use of the funds restricted to various capital outlay or debt elimination. The remaining one half of the settlement has been received in the form of bond proceeds in the Capital Projects Fund with the use of the funds restricted to various capital projects as specified in Section 1351a of the Revised School Code.

The only source of revenue to service the debt shall come from annual state appropriation. Although the bond issue is considered a legal obligation of the District, if the legislature fails to appropriate the funds, the District is under no obligation for payment.

In May 2007, the Michigan Municipal Bond Authority revised the payment schedule of the 1998 Durant bond issue. The revised payment schedule is included in the supplemental information. The total principal and interest remaining on the bond has not changed.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

August 27, 2010

To the Board of Education
Hemlock Public School District
Hemlock, Michigan

We have audited the financial statements of Hemlock Public School District as of and for the year ended June 30, 2010, and have issued our report thereon dated August 27, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Hemlock Public School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hemlock Public School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Hemlock Public School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

To the Board of Education
Hemlock Public School District
Page Two

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We consider the deficiencies described in the accompanying schedule of findings and questioned costs 0910-1 and 0910-2 to be material weaknesses in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hemlock Public School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Board of Education, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

August 27, 2010

To the Board of Education
Hemlock Public School District
Hemlock, Michigan

Compliance

We have audited the compliance of Hemlock Public School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. Hemlock Public School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Hemlock Public School District's management. Our responsibility is to express an opinion on Hemlock Public School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Hemlock Public School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Hemlock Public School District's compliance with those requirements.

To the Board of Education
Hemlock Public School District
Page Two

In our opinion, Hemlock Public School District complied, in all material respects, with the requirement referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

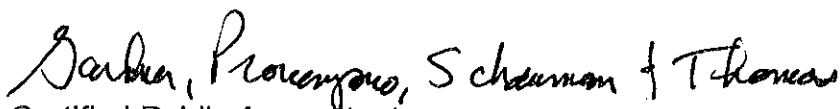

Internal Control Over Compliance

The management of Hemlock Public School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Hemlock Public School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Hemlock Public School District's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Education, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
JUNE 30, 2010

FINDINGS FINANCIAL STATEMENT AUDIT

0910-1 Recognition of Early Retirement Incentives in Proper Period

Criteria: GASB Statement 34, Interpretation #6 as summarized in the Michigan School District Accounting Manual requires early retirement incentives with a specific payment date to be recognized in the period in which the payment is made.

Condition: The unadjusted trial balance included an accrued liability and expenditure for early retirement incentives of \$152,295. Included in the agreement is a payment date of November 5, 2010.

Cause: This was caused by management's decision to record the liability and expenditure in the period ending June 30, 2010.

Effect: As a result of this condition, general fund balance as of June 30, 2010 potentially understated by \$152,295.

Recommendation: Review accounting manual and other guidance and inquire of auditor for proper treatment of items in question. For the year ended June 30, 2010, eliminate the accrual of \$152,295 for the early retirement incentive and allow the expenditure to be recognized when the payment is made in the fiscal year ending June 30, 2011.

Management's Response: Going forward, management will review items agreed to in early retirement incentives and consult guidance for recording of transaction in proper period.

FINDINGS FINANCIAL STATEMENT AUDIT

0910-2 Athletic Event Gate Receipts

Criteria: Management is responsible for establishing and maintaining effective internal controls over financial reporting and safeguarding the District's assets.

Condition: The overall description of the athletic event gate receipts procedures as described by the athletic director appear adequate with the exception of a lack of segregation of duties in tallying and completing the ticket sales recap. Currently the recap is performed solely by the athletic director.

Cause: After the athletic event, the athletic director prepares the ticket sales reconciliation sheet and compares to the cash collected, prepares the deposit slip and makes the deposit the day after the event.

Effect: A lack of segregation of duties exists to prevent the sole individual reconciling the ticket sales to the actual cash collected from forcing the ticket sales reconciliation to agree with a shorted cash deposit.

Recommendation: We suggest that the volunteers who collect the admission, issue the tickets and act as gate-keeper prepare the ticket reconciliation sheet and sign off under the supervision of the athletic director.

Management's Response: The members of the Board will consider the recommendation, review the current process and alter procedures as deemed necessary and reasonable.
