News from the Principal

The MES school calendar and the MES PTCO has this week marked as TEACHER APPRECIATION WEEK. Our PTCO had big plans.....as the week begins on “May the 4th”, however in these most unusual of times in education we are limited with our celebrations of teachers. For today, I want to send a LOUD and PROUD SHOUTOUT to our teachers, ed techs, specialists, interventionists, therapists and all other support staff!! When the state declared a stay at home order, they didn’t miss a beat but took their craft out of the classroom into the digital world. We can now call them Quaranteachers and they are good at it!!

If you choose to send them an email, write a note, draw a picture..... Simply send a message of appreciation. We are in hopes of creating an

lifetime!**

opportunity for you to bring a flower or a note later in June before we formally end school for the year so look for more information in June. For this week: THANK YOU TEACHERS and MES STAFF!

Parents, you too deserve words of appreciation for taking on the role of in person teacher. Your efforts are valued. I honestly believe we are becoming a stronger team and our students will rise above this adversity. Thank you Parents!

The little lending library is now outside the school front entrance. Please stop by to borrow a few books and/or leave a few books. We will continue to replenish the supply of stories.
