

## Procedures Used In Cleaning and Sanitizing Wrestling Mats and Locker Rooms

### **Disinfectant:**

The product used by The School City of Whiting is Huksy 891. It is specifically formulated to be used on wrestling mats and on locker room surfaces. Please see the informational sheet included.

### **Wrestling Mats:**

Wrestling mats are cleaned and sanitized daily while in use during the wrestling season. The school sets aside dedicated mops and buckets that are used **ONLY** on wrestling mats with the above disinfectant used following the directions. All materials are cleaned and sanitized after each use and mop heads are changed at least once a week.

### **Locker Rooms:**

All locker room surfaces are cleaned and sanitized daily using the above disinfectant and using dedicated buckets and rags that are washed and sanitized after each use.

If you have any questions about the procedures please contact the Maintenance Department @ 659-1481 or email [mmurzyn@ns.whiting.k12.in.us](mailto:mmurzyn@ns.whiting.k12.in.us).
