

# Why to be the Funniest

If I could choose between being the kindest, smartest, funniest, or most compassionate person in the class, I would choose the funniest. The funniest person in the class can get a friend out of the dumps, help you make new friends, and bring joy to both you and your friends. I just love making my friends laugh and seeing those happy, friendly smiles on their faces!

If one of your friends were down in the dumps, a good, simple joke can cheer them right back up! If your friend has a bad day, the funniest person can get them back into a good mood. And all they have to do is do something laugh-worthy! The funniest people can turn out to be helpful and kind.

Plus, being the funniest person can help you make friends! A few funny actions can be the perfect first impression because everyone needs that one friend who can automatically make them laugh. Imagine you had a bad day and you want a new friend. Then someone comes up to you and says, "Hi my name is BOB, is your name BOB too!?" in a hilarious tone of voice. A funny person can be a perfect friend!

When you're the funniest person in the class it can bring joy to not just the people around you, but yourself too! When you help others, like making someone laugh, for instance, it can help brighten the mood of both yourself and your friend. And one of the best parts is that you can laugh along too! Don't you just love to see people smile?

The funny kids in the class bring fun and joy into other people's daily lives. So just be funny around a friend, cheer them up, and laugh along with them! Those are my reasons I would like to be the funniest. Trust me, a hilarious joke or two will make every day better for everyone.

## Funny Quotes

**People who live in glass houses  
should not throw stones at others**

**English Proverb**
