

# Introducing; Sticky fly swatter

**By: Miles Baker**

Have you ever been bothered by flies, but your fly swatter wasn't strong enough, or maybe the flies ignored the sticky fly trap you set up?

Well, I have come up with a solution! A sticky fly swatter! I thought of this because when I first moved to Bentonville, the door to our house was open 24/7 for the moving trucks, and we got A LOT of flies. I wish I could go back in time and bring the fly swatter to help out my past self!

This swatter is handy because flies can get away from regular fly swatters even if they get hit, and sticky fly traps are easy for flies to avoid, but if you combine the two, you have a sticky fly swatter! When the swatter hits the fly, it will be way harder for the fly to fly away because it will stick to the swatter! I'm not guaranteeing you'll always get the fly, but the chances are WAY higher!

The swatter is sticky enough for the fly to not be able to escape by itself, but with human strength, you can carefully remove the fly without killing it, and put it back outside so it can live the rest of its life. As you can see, I love nature, and don't want to kill any animals or bugs unless I have to, and in case the fly finds its way back, you can buy an additional jar of the, um, sticky goo?

Just call it that for now. The jar comes with a little tool that's kinda like a big plastic butter knife, just pretend the swatter is bread, then take the tool and spread the sticky goo on it like jelly! Just don't eat it, I'm serious please don't it's stickier than a jar of peanut butter so just don't.

The swatter can even be used for other bugs! The swatter is thin enough to slide under a bug that's crawling on the ground, wall, or wherever else it's wandering. In case the bug you're trying to catch is bigger and stronger, you can buy a jar that has even stickier goo! So, what are you waiting for!?! Buy yours today!

Each sold separately unless you buy the ultimate kit which includes the swatter, and 2 different jars of each kind of goo.

Shipped and sold by The Sticky Fly Swatter Inc. ©

TOTALLY PROFESSIONAL BY THE WAY ;)
