

READING

Dear Parent,

In our 1st grade reading intervention group we are currently working on blending and segmenting basic words. Students are to practice word reading, sentence reading, and passage reading. Make sure to have your child practice reading these every day. If they reread them again and again it will only make them more fluent and confident. Please excuse any repeats.

Please practice or complete one worksheet activity every other day. In addition, you can also support basic reading at home in the following ways:

- Reading books on your child's level.
- Play any game that involves reading.
- Any online reading app that your child's classroom teacher has shared with you such as Dreambox and IXL

Feel free to contact me with any questions or concerns.

Good luck,

Ms. Jordan
