Science - Summer PD

All summer PD sessions are virtual!

Join us this summer for science PD

We are offering a variety of virtual sessions to meet your professional development needs.

OpenSciEd classroom materials are developed, field-tested, and revised in tandem with professional learning materials to support teachers in the enactment of high quality science learning for all students. This summer we will host a series of PD sessions that dive into each routine in the units and prepare you for classroom implementation. These Middle School units are available for classroom use and at no cost to you.

Session 1, June 29, *Open SciEd - Anchoring Phenomenon Routine (Blended Online - 6 Hours)* - ESC Works Link [409960](#)

Session 2 & 3, July 14 & 15 *Open SciEd - Engaging 3D Coherent Units of Instruction - (Blended Online - 12 Hours)* - ESC Works Link [404246](#)

Formative Assessment -A Superpower for Purposeful Instruction and Student Learning
ESC Works [406326](#)

Introduction to Arkansas K-12 Science Standards GPS - June 3 ESC Works Link [409353](#)

ACT Aspire and Science/Engineering Instructional Practices
June 22-26
ESC Works Link [414982](#)

ESSENTIAL PRACTICES FOR WONDROUS SCIENCE

A series of professional development sessions that take a deep dive into each of the science and engineering practices. Additional sessions will be offered during the upcoming school year.

Asking Questions, June 1

EDUCATION COOPERATIVES JOIN FORCES

Dawson Coop, Ozarks Unlimited Resource Educational Service Coop, Southwest Arkansas Education Coop, Wilbur D. Mills Education Co-op, and Northcentral Arkansas Education Service have teamed together to provide virtual and collaborative summer PD opportunities for educators across Arkansas in effective 3-dimensional science instruction. We hope you can join us for this collaborative learning adventure!
