

The Board of Education authorizes the use of Automated External Defibrillators (AED's) in an emergency situation in the schools and at school-related activities. The District shall keep at least one AED in each of its four facilities. Identified District personnel will be periodically trained in the proper use of AED's. This policy does not create an obligation to use an AED, nor is it intended to create any expectation that an AED will be present or a trained person will be present and/or able to use an AED.
