

Middle School Math - Remote Learning

Students in your Google Drive is a folder called **E-Learning**. In that folder are lessons and materials for you to complete. Each folder allows for 2 days to complete the work (i.e. Week 1: Day 3 is meant for Days 5-6 of e-learning). The overall goal is for you to keep learning as you are away from school.

The basic format:

- You have been given 2 packets. Start with the Week1: Day 1 packet on March 17th.
- You should have finished packet 1 after 10 e-learning days (by April 6th), you will have finished both packets after 20 e-learning days (by April 22nd) . Stay on task and it will be easy.
- Complete the assignments in order, there is something for each day.
- You will find guided notes in your E-Learning folder for each assignment.
- If you have the capability, please take a photo of your completed work and email it to me at the end of each day.
**Apple users, you can “scan documents” using the Notes App, by opening a new note, then using the camera option to scan documents. You can then send all of your scanned documents for the day in an email.
- Starting April 1st, please log on to Prodigy OR iReady. You may choose to complete 45 minutes of Prodigy each week (about 10 minutes per day) or complete AND pass 2 iReady lessons each week. You will be given a grade for this at the end of each week.

Need help?

- Feel free to email me (hkirk@rockdale84.org) if you have questions or need help.
