

STUDENT REPRESENTATIVES TO THE BOARD OF DIRECTORS

It is the intent of the Board that we have both a Junior and Senior student representative; with the position of Junior representative to be a two year term. This is for the purpose of the Junior representative acting as a mentor the following year to the new Jr. representative. If we do not have candidates from both the Junior and Senior class, the board will consider the candidates who apply and choose the most qualified even if this means we have candidates who are both Seniors or both Juniors. To facilitate the goal to have a Junior and Senior representative we encourage Sophomores to apply in the Spring of the preceding year in order to begin serving the following fall. In the case that we have no returning representatives we invite Sophomore and Junior Students to apply to fill vacancies.
