

Change of bus stop due to hazardous conditions at assigned bus stop: If checked, please check each additional indented block that applies and explain.

Adequacy of room for students to wait for and to disembark from school bus

Traffic volume and/or velocity along path to bus stop

Conditions at required student crossings (e.g., speed, volume, absence of crossing guard, traffic light or crosswalks)

Absence of adequate shoulder and/or off-road walking space

Vehicle visibility, sight distance, stopping distance at bus stop

Topographical conditions of drop-off sites

Other: Please explain.

Right to transportation under state-mandated mileage due to hazardous conditions along a walking path to school: If checked, please check each block that applies and explain what conditions you feel apply. Note: Hazardous is based on *consideration* of the following factors.

Population density

Traffic volume

Vehicle velocity

Absence of adequate shoulder and/or off-road walking space

Roads and highways that are winding or have blind curves

Topographical conditions of drop-off sites

Bridges or overpasses that must be crossed to reach the school

Train tracks or trestles that must be crossed to reach the school

Busy roads or highways that must be crossed to reach the school

Other: Please explain.
