

LA CRESCENT-HOKAH

PUBLIC SCHOOLS

Parents and Guardians,

The La Crescent-Hokah school district is committed to helping all students navigate today's increasingly digital world. As a part of that commitment we are continuing our digital citizenship curriculum for all 4th grade students. Over the next four weeks 4th grade students will be learning more about the topics aligned with digital citizenship. These topics include Media Balance and Well-Being, Privacy and Security, Digital Footprint and Identity, Relationships and Communication, Cyberbullying, Digital Drama, Hate Speech, and News/Media Literacy.

This curriculum from Common Sense Media will include family activities that will be sent home with each student. We encourage you to participate in these activities with your child to help extend and enrich his/her learning about digital citizenship.

Common Sense Media has a large library of helpful parent resources on kids and media found at www.commonsense.org. These activities and resources are an important foundation to support the digital citizenship curriculum. I encourage you to explore these resources.

If you have any questions about our digital citizenship curriculum please contact me using the information listed below. Please watch for more information regarding the family enrichment activities as a part of this curriculum starting in early 2019.

Sincerely,

Jason Ludwigson
