HBR philosophy:
It is the philosophy of the Hinckley-Big Rock Community Unit School District #429 that student academic achievement, student achievement and personal enrichment in activities, and student growth as persons of character are at the core of the work of the District. The District is committed to providing the highest quality personnel, practices, services, and support to provide for the above stated purposes. In addition, the District is committed to serving the community and taxpayers at the highest levels. To meet this commitment, the District is dedicated to acting in a fiscally responsible manner, providing effective communication and transparent practices on all District work to its community members, and forming working relationships with the community and the District.

HBR vision:
All Hinckley-Big Rock students will be prepared to take hold of their tomorrow.

Rationale/Description:
As a result of the Board adoption of Policy 6:135 - Accelerated Placement Program on July 18, 2018, this plan has been created to align with and support our philosophy and vision. The options included in this Accelerated Placement Program (APP) include:

- early entrance into kindergarten or first grade;
- accelerating a student in a content area;
- other grade-level acceleration; and
- early graduation from HBRHS

Participation in the APP is open to all students who demonstrate high ability and who may benefit from accelerated placement.

This APP includes:
- Decision-making processes that are fair, equitable, and involve multiple individuals, e.g. District administrators, teachers, and school support personnel, the student, and a student’s parent(s)/guardian(s);
- Notification processes that notify a student’s parent(s)/guardian(s) of a decision affecting a student’s participation in the APP; and
- Assessment processes that include multiple valid, reliable indicators.

Purpose:
HBR CUSD #429 desires to provide an effective, appropriate, and clear process for accelerating students either in a content area or by a grade-level. To meet this stated purpose, it is important that this plan provides a process that is fair, equitable, and keeps the best interest of the students in mind. Our experiences and known best practices were utilized in the creation of this APP. We will review this APP as needed to ensure that it is meeting the needs of our students’ learning as we strive to ensure they are continually ready to go.
Guiding principles:
The following principles serve as the foundation of our APP:
- We want to create a program that is free from unneeded barriers for students who would benefit from either content area or grade-level acceleration.
- Multiple measures are needed to make an informed decision on either content area or grade-level acceleration of students.
- Our K-12 curriculum has been created by our staff with the continual plan of challenging our students.
- Our K-12 curriculum has been created by our staff in a sequential manner to prepare our students for our capstone courses at Hinckley-Big Rock High School.
- Grades K-3 serve as the foundational years of learning for our students. During these years, foundational academic and social skills are reinforced to prepare our students’ future academic and social success.
- If either content area or grade-level acceleration is needed, we have a responsibility to fill in any missing gaps of learning.
- The desire and opinion of the student for either content area or grade-level acceleration is an important factor.
- Local, district used assessments must be incorporated into the decision-making process for either content area or grade-level acceleration.
- Outside assessments, without prior approval, will not be considered in the decision-making process for either content area or grade-level acceleration.
- Content area or grade-level acceleration will be considered in December of either 3rd grade, 5th grade, or 7th grade. The decision will be made by March to be implemented during the next school year.
- Early graduation will be considered in December of a student’s third year in high school. The decision will be made by March to be implemented during the next school year.
Early admission to kindergarten or first grade
To be eligible for admission to kindergarten, a child must be five years old on or before September 1 of that school term. To be considered for early entrance to kindergarten, a child must be four years old on or before September 1 of that school term and demonstrate readiness for entrance into kindergarten. Based upon an assessment of the child’s readiness, a child will be allowed to attend first grade if he or she attended a non-public preschool, continued his or her education at that school through kindergarten, or was taught in kindergarten by an appropriately licensed teacher and will be five years old on or before December 31. A child with exceptional needs who qualifies for special education services is eligible for admission to our early childhood program at three years of age.

Early graduation from HBRHS
To be considered for early graduation at Hinckley-Big Rock High School, a student must be projected to have 24 credits at the end of the seventh semester in high school. In addition, all graduation requirements found in the HBRHS Course Catalog during the student’s third year in high school must be either met or planned to be met by the end of the seventh semester in high school. Factors taken into consideration for early graduation include, but are not limited to, the student’s self-directed goal, career readiness, and their immediate plans after the first semester of their fourth year in high school.

Multiple measures
It is important that multiple measures are evaluated when considering either content area or grade-level acceleration. At least three of the following objective measures will be used when making a decision about possible acceleration:
- NWEA MAP
- WISC-IV (Conducted by our School Psychologist)
- WPPSI-4 (Conducted by our School Psychologist)
- TONI-4 (Conducted by our School Psychologist)
- ESGI
- Mirrored pre and post assessments
- Behavioral Characteristics of Superior Students (SRBCSS)
- WISC (Conducted by our School Psychologist)
- HBRHS Final Exams
- PARCC
- PSAT
- SAT
- ACT
At least two of the following subjective measures will be used when making an accelerated decision:
- Social emotional learning surveys
- Teacher recommendation
- Parent/Guardian survey
- Student survey
- Learning Behaviors Inventory (HBRES)
- Executive Function Rubric (HBRMS)
- Early Graduation Plans (HBRHS)
Timeline for acceleration consideration

A teacher, student, or parent/guardian may request that a student be considered for either content area or grade-level acceleration during 3rd grade, 5th grade, or 7th grade. If grade-level acceleration is approved, at the start of the next school year the student will be placed in 5th, 7th, or 9th grade, respectively.

The following timeline must be followed:
- By December 31st, a written request must be sent to the building principal by either the teacher, student, or parent/guardian requesting that either content area or grade-level acceleration be considered.
- A written notification that the request has been received will be provided within 5 school days of receipt of the written request to the requesting party.
- A meeting with the student, parent(s)/guardian(s), building principal and/or designee, and the student’s teacher(s) will be held within 15 school days of receipt of the written request.
- A follow up meeting with the student, parent(s)/guardian(s), building principal and/or designee, and the student’s teacher(s) will be held to share the decision of the requested acceleration. Determining factors along with potential impacts to the student’s future academic and social success will be shared.
- A determination of either content area or grade-level acceleration will be made by March 1st. Final approval rests with the school academic team. If content area or grade-level acceleration is approved, the final decision will be made by the student and parent(s)/guardian(s). A decision by the student and parent(s)/guardians(s) must be shared with the building principal no later than March 31st.

Students in high school will be considered for content area acceleration when they meet the prerequisite requirements as described in the HBRHS Course Catalog.

Students in high school will be considered for grade-level acceleration when they meet the required credits in line with our graduation requirements:
- 9th grade - less than 6 credits
- 10th grade - 6 to 11.5 credits
- 11th grade - 12 to 17.5 credits
- 12th grade - at least 18 credits

A student or parent/guardian may request that a student be considered for early graduation at HBRHS during the student’s third year in high school. If early graduation is approved, the student will be able to graduate at the end of the seventh semester in high school with the attainment of meeting the graduation requirements as stated in the HBRHS Course Catalog.

The following timeline must be followed:
- By December 31st during the student’s third year in high school, a written request must be sent to the building principal by either the student or parent/guardian requesting that early graduation be considered.
- A written notification that the request has been received will be provided within 5 school days of receipt of the written request to the requesting party.
- A meeting with the student, parent(s)/guardian(s), building principal, and the HBRHS guidance counselor will be held within 15 school days of receipt of the written request.
- A follow up meeting with the student, parent(s)/guardian(s), building principal, and the guidance counselor will be held to share the decision of the requested acceleration. Determining factors along with potential impacts to the student’s future academic and social success will be shared.
- A determination of early graduation will be made by March 1st. Final approval rests with the school academic team. If early graduation is approved, the final decision will be made by the student and parent(s)/guardian(s). A decision by the student and parent(s)/guardian(s) must be shared with the building principal no later than March 31st.

Follow up meetings between the student and HBRHS guidance counselor will occur in the Spring of the student’s third year in high school and Fall of the student’s fourth year in high school to ensure that the shared plan for coursework during the approval process is being followed. At the end of the first semester of the student’s fourth year in high school, a final determination will be made by the HBRHS guidance counselor concerning graduation requirements. If all graduation requirements have been met at that time, the student will graduate. The student has the choice to return to walk with their graduating class at the end of the school year.
Board Policies in line with this Accelerated Placement Program
The following Board Policies are reviewed and updated regularly. To view any of these policies, visit the Hinckley-Big Rock School Board Policy On-Line at http://boardpolicyonline.com/?b=hinckley_429.

- 6:10 - Beliefs and Guiding Principles
- 6:40 - Curriculum Development
- 6:60 - Curriculum Content
- 6:65 - Student Social and Emotional Development
- 6:210 - Instructional Materials
- 6:280 - Measurement of Academic Progress
- 6:300 - Graduation Requirements
- 6:310 - High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students
- 6:315 - High School Credit for Students in Grade 7 or 8
- 6:320 - High School Credit for Proficiency
- 6:340 - Student Testing and Assessment Program
- 7:50 - School Admissions and Student Transfers To and From Non-District Schools
- 7:250 - Student Support Services
- 7:260 - Exemption from Physical Education
