WELCOME TO FOURTH GRADE!

After a relaxing summer, we will be off to a great year of learning and adventure. We will be studying many interesting subjects such as electricity, geometry, and New York State's history. The class will be working on research and science labs as well as many reading, writing, math and problem solving activities.

During the summer, there are several ways to prepare for fourth grade. While traveling in New York State, write down the names of cities, towns, rivers or lakes you come across. Save pamphlets from the various historic or scenic sites you visit and bring these mementos with you to school in the fall. Be sure to find a shady spot in which you can enjoy a few chapter books. Keep a list of the materials you read. Write some stories, letters, and poems, or keep a journal of your summer activities. Practice your cursive handwriting. Spend some time each week reviewing your addition, subtraction, and multiplication facts. If you have a computer to use, try some of the activities on the school website.

We are looking forward to seeing you in September.
