

# JSE Bullying Prevention Program

Anti-Bullying P.L. 285-2013

## **Classroom**

No later than October 15th, JSE's Home School Advisor provides anti-bullying lessons to each class using age appropriate, research based information.

## **Staff**

During the first staff meeting Bullying School Law and Definition are presented with staff. School guidelines for reporting bullying are reviewed. Anti-bullying information is presented to staff during safety meetings as needed or new information is presented.

## **School-Wide**

Character education programs promoted within the school support the prevention of bullying incidents. Bullying information is posted in our hallways as reminders to students and staff. The student handbook has a section regarding anti-bullying.

## **Parents/Community**

A letter is sent home from the principal and the home school advisor with anti-bullying law and definition information. The letter explains how JSE complies with the law in each classroom and school. The letter also provides anti-bullying resources for parents and informs them of who to contact to make a report at JSE. The student handbook has a section regarding anti-bullying and the JSE website hosts this information as well.
