- EL
- Parent Resources

Overview

Beech Grove City Schools wants to provide resources that reinforce state standards, promote critical thinking and problem solving skills, support mindful moments and social emotional learning needs, and ignite creativity and inquiry through arts, STEM, humanities, etc.

We hope students and families can take advantage of the learning opportunities and continue to progress through the summer. Enjoy engaging in learning with your family, ask questions, read, talk about text, create new things, develop ideas, problem solve, explore, inquire, and ask yourself, “How can I be the BEST I can be? How can I help others? How can I share kindness?”

Resources and activities will be provided each week and shared via the Hornet Blast and email.
