Potosi Schools Community Members

This morning, the Department of Public Instruction issued Education Forward guidelines for the reopening of schools this fall. While this document is not a mandate of requirements, it is simply recommendations and guidance. Over the last month, we have been working locally, countywide, as well as statewide, to determine what is the best plan for Potosi Schools and the DPI guidance will be used to assist us in our decision-making process.

To date, many different scenarios have been discussed and explored. We want to reiterate that the reopening plan we decide upon will be based upon minimizing risks to students and staff as best as possible, along with best meeting the educational needs of our students.

As has been the case since the beginning of the COVID-19 shutdown of schools, this situation is ever-changing as we learn new information from state, county, and medical officials. To this end, our hope is to have a plan in place regarding fall school reopening to share with all of you by the end of July.

As always, please contact us with any questions you may have.
