Smart Core is Arkansas's college- and career-ready curriculum for high school students. College and career readiness in Arkansas mean that students are prepared for success in entry-level, credit-bearing courses at two-year and four-year colleges and universities, in technical postsecondary training, and in well-paid jobs that support families and have pathways to advancement. To be college and career ready, students need to be adept problem solvers and critical thinkers who can contribute and apply their knowledge in novel contexts and a variety of situations. Smart Core is the foundation for college and career-readiness. All students should supplement additional rigorous coursework within their career focus.

Failure to complete the Smart Core Curriculum for graduation *may* result in negative consequences such as conditional admission to college and ineligibility for some scholarship programs.

SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASS OF 2021 AND THEREAFTER

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are 18 years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, both a *Smart Core Informed Consent Form* and a *Smart Core Waiver Form* will be sent home with students prior to their enrolling in seventh grade, or when a 7-12 grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school, so it can be placed in the students' permanent records. This policy is to be included in student handbooks for grades 6-12 and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year. Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Enough information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all the following means:

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of "eligible child" in Policy 4.2—ENROLLMENT.

GRADUATION REQUIREMENTS

The number of units' students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of 22 units is required for graduation for a student participating in either the Smart Core or Core curriculum. FOOD SERVICE PREPAYMENT

(Complete this form and return to the Classroom Teacher.)

Meal Charges

The district does not provide credit for students to charge for meals, a la carte, or other food and beverage items available for purchase in the school food service areas, with one exception, the district allows elementary students (K-5) only to charge up to \$30.00 when money is unavailable, and the student would have to miss meal service. Meals, a la carte, or other food and beverage items may be purchased by either providing payment for the items at the time of receipt or by having a prepaid account with the District that may be charged for the items. Parents or students choosing to do so may pay in advance for meals, a la carte, or other food and beverage items through any of the following methods:

- Submitting cash or check payment to the student’s homeroom teacher and/or cafeteria aide;
- Depositing funds through the District’s online service;

A student’s parents will be contacted by authorized District personnel regarding a student’s prepaid account balance to inform them the student’s account is low. Parents are contacted by phone and/or by a letter with the student’s balance amount thus preventing the student’s balance reaching zero.

Students, who submit proper documentation from a licensed physician to receive a meal substitution for a Special Needs Medical Diet in accordance with Policy 4.50 — SCHOOL LUNCH SUBSTITUTIONS, shall receive the same type of substitution for an alternative meal.

A copy of this policy must be communicated in writing at least once to all households at the start of each school year and to households of students who transfer to the school during the school year. Some suggestions on communication methods are to include a copy of the policy in:

- Student enrollment materials;
- Print versions of student handbooks; or
- Notification methods on applying for free or reduced-price meals.

The United States Department of Agriculture (USDA) does not consider providing a copy of this policy only in electronic format to satisfy the communication requirement.

A written copy of this policy must be provided to all staff responsible for policy enforcement. This includes:

- A. School food service professionals;
- B. Staff involved in notifying families of low prepaid account balances;
- C. School social workers;
- D. School nurses; and
- E. The LEA homeless student liaison.

By signing this form, I acknowledge that I have been informed of the requirements stated in this Food Service Pre-Payment, Meal Charges.

MISSION STATEMENT

The school district will promote the development of an understanding of the world and inculcate in the students a loyalty to the values of a free society. Also, the district will continue to stress the universal human heritage, stimulate and encourage creative thinking, and contribute to the appreciation and advancement of the arts and sciences.

Through the educational program, all schools within the district will support each individual student's efforts:

- b. To expand intellectual development of learning skills for critical thinking and decision making and to require independent study skills to facilitate continued learning throughout life.
- c. To become economically self-reliant by developing respect for the dignity of work, acquiring job entry skills, and developing an understanding of the economic relationships between management of time, money, and personal resources.
- d. To identify and clarify ethical, moral, and spiritual values necessary for becoming a responsible and humane citizen.

WHITE HALL SCHOOL DISTRICT

TO THE STUDENTS OF THE WHITE HALL SCHOOL DISTRICT

The goal of the White Hall School District is to help all students achieve success in every aspect of school life. Each student should strive to attain a high level of competency in all academic areas and participate in activities that will help develop their own interests and talents.

The opportunity to get an education is a privilege that should not be abused. Among the lessons one learns in school, a very important one, is self-discipline. Discipline is not taught as a subject but your success in getting an education and even your success in life depends upon good self-discipline. In your training, you should develop self-control, character, orderliness, and efficiency. These characteristics will be of increasing value as you strive to attain your goals throughout life.

The District urges each of you to give much thought toward trying to understand the purpose of proper discipline so that you may form a positive attitude toward it, and not only do your part in making your school an effective place for learning, but in developing habits of self-restraint and self-control that will make you a better person.

You have every opportunity to be a successful, happy student in the White Hall School system. You will enjoy many privileges, but these privileges carry with them increasing responsibilities. We want you to establish a standard of conduct that reflects responsible citizenship and pride in the school, faculty, students, organizations, and other activities.

This Student Handbook is presented to each of you with hope and anticipation that it will aid you in being a successful student in the White Hall School District.

STUDENT RIGHTS, RESPONSIBILITIES AND LIMITATIONS

The school is a community and the rules and regulations of a school are the laws of the community. All those enjoying the rights of citizenship in the school community must also accept the responsibilities of citizenship. A basic responsibility of those who enjoy the rights of citizenship is to respect the laws of the community.

Students' rights are the same as those extended to any other citizen of the United States of America. Individual rights must be exercised carefully to preserve the rights of others. Students are responsible for the way they behave. For any actions committed outside the boundaries of acceptable behavior, students must accept the consequences. All students are protected by due process of law.

Administrators and teachers also have rights and duties. The teacher is required by law to maintain a suitable environment for learning, and administrators have the responsibility for maintaining and facilitating the educational program.

The principal is authorized to suspend students for cause up to ten (10) days. The Board of Education has the authority to expel students for cause for periods longer than ten (10) days.

The White Hall School District rules, regulations, and procedures are designed to protect all members of the educational community in the exercise of their rights and duties.

WHITE HALL SCHOOL DISTRICT POLICIES AND PROCEDURES

(ABSENCES) ATTENDANCE POLICY (ABSENCES)

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in digital courses shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school. Students who are scheduled to have a dedicated period for a digital class shall not be considered absent if the student logs the correct amount of time and completes any required assignments; however, a student who fails to be physically present for an assigned period may be disciplined in accordance with the District's truancy policy.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement to the principal or designee upon his/her return to school from the parent or legal guardian stating such reason. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will **not** be accepted:

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal;
7. Participation in an FFA, FHA, or 4-H sanctioned activity;
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
11. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.

Unexcused Absences

Absences not defined above or not having an accompanying note from the parent; ~~or legal guardian;~~ person having lawful control of the student; or person standing in loco parentis, presented in the timeline required by this policy, shall be considered as unexcused absences. Students with (*insert number*) unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has (*insert number equal to 1/2 above number*) unexcused absences, his/her parents, legal guardians, persons with lawful control of the student, or persons standing in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds (*same number as in the first paragraph of this section*⁵) unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent; legal guardian; person having lawful control of the student; or person standing in loco parentis, and the school or district administrator or designee.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to out-of-school suspension or expulsion shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute. *Legal References:* A.C.A. § 6-4-302; A.C.A. § 6-18-107; A.C.A. § 6-18-209; A.C.A. § 6-18-220; A.C.A. § 6-18-222; A.C.A. § 6-18-229; A.C.A. § 6-18-231; A.C.A. § 6-18-507(g); A.C.A. § 6-18-702; A.C.A. § 7-4-116; A.C.A. § 9-28-113(f); A.C.A. § 27-16-701; *Division of Elementary and Secondary Education Rules Governing Distance and Digital Learning*

ACADEMIC COURSE ATTENDANCE BY PRIVATE AND HOMESCHOOLED STUDENTS

The District allows private school and home-schooled students whose parents, legal guardians, or other responsible adult with whom the student resides are residents of the District to attend academic courses offered ~~in grades 7-12~~¹ By the District. The District will place a list of courses that a private school or home-schooled student may request to attend on its website by:²¹

1. June 1 for courses to be offered during the Fall semester; and
2. November 1 for courses to be offered during the Spring semester.
- 3.

A private school or home-schooled student who desires to attend one or more of the available academic courses shall submit a written request to attend the academic course(s) to the superintendent, or designee, no later than:

- a. August 1 for Fall semester courses; or
- b. December 1 for Spring semester courses.

The superintendent, or designee, is authorized to waive the application deadline on a case by case basis.

The District permits a private school or home-schooled student to attend a maximum of six (6) courses per semester.

The District may reject a private school or home-schooled student's request for attendance if the District's acceptance would:

- Require the addition of staff or classrooms;
- Exceed the capacity of a program, class, grade level, or school building;
- Cost the District more for the student to attend the academic course than the District receives for the student's attendance;
- Cause the District to provide educational services the District does not currently provide at a financial burden to the District; or
- Cause the District to be out of compliance with applicable laws and regulations regarding desegregation.

Requests to attend an academic course will be granted in the order the requests are received. Upon the receipt of a private or home-schooled student's request to attend academic course(s), the District will date, and time stamp the request for attendance. If a private school or home-schooled student is denied attendance based on a lack of capacity and an opening in the requested course occurs prior

to the start of the course, the District will use the date and time stamp on the request for attendance to determine the private school or home-schooled student who will be notified of an opening in the requested course.

As part of the request to attend academic courses in the District, a private school or home-schooled student shall:

- Indicate the course(s) the private school or home-schooled student is interested in attending;
- If the course(s) the private school or home-schooled student is interested in attending is being offered by the District in both a physical and a digital format, whether the private school or home-schooled student intends to attend the physical/digital course;
- Submit, along with the student's application, a copy of the student's transcript indicating that the student has received credit for the course(s), or equivalent course(s), that are a prerequisite to the course(s) the student desires to attend at the District;
- Agree to follow the District's discipline policies; and
- Submit immunization documentation required by Policy 4.57—IMMUNIZATIONS.

A private school or home-schooled student who fails to attend an academic course by the eleventh (11) day of class or who is absent without excuse for eleven (11) consecutive days during the semester shall be dropped from the course; however, a private school or home-schooled student shall not be considered truant for unexcused absences from the course(s) the student is attending at the District. Private school or home-schooled students shall receive a final grade and transcript for each academic course the student completes.

The responsibility for transportation of any private school or home-schooled student attending academic courses in the District shall be borne by the student or the student's parents.

The opportunity provided to home schooled students under this policy is in addition to the opportunity provided in Policy 4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS. *Legal References:*A.C.A. § 6-15-509; A.C.A. § 6-18-232; A.C.A. § 6-18-702; A.C.A. § 6-47-401 *et seq.*; *DESE Rules Governing Distance and Digital Learning*; *DESE Rules Governing Kindergarten Through 12th Grade Immunization Requirements in Arkansas Public Schools*; *Commissioner's Memo COM-19-021*

ACCESS OF STUDENT RECORDS

This notice informs parents and eligible students (those ages 18 or older) of their rights concerning educational records maintained by the White Hall School District. These rights include those of access to the records, opportunity to challenge such records, limitations on disclosure, and provisions to file a complaint with the Department of Education. These rights are explained in the Family Educational Rights and Privacy Act of 1984 (FERPA) as amended (Public Law 93-380) and 1232g. The School Laws of Arkansas (1975), a copy of which may be reviewed in the office of the principal.

The laws and regulations require school systems such as White Hall to:

1. Provide parents and eligible students the opportunity to inspect educational records. Requests should be directed to the school principal.
2. Provide parents and eligible students the opportunity to challenge the contents of the records when they believe it contains information that is inaccurate, misleading, or an invasion of the student's right to privacy. This does not apply to grades.
3. Limit disclosure of information from the student's record to those who have written consent of the parent or eligible student, or to officials specifically permitted under the law (such as White Hall School District officials); to those of other schools in which the student seeks to enroll; and under certain conditions and for specific purposes to local, state and federal officials.

An amendment to FERPA permits educational agencies and institutions to disclose, without the consent or knowledge of the student or parent, personally identifiable information from the student's education records to the Attorney General of the United States or to his designee in response to an *ex parte* connection with the investigation or prosecution of terrorism crimes specified in *Sections 2332b (g) (5) (B) & 2331 of title 18, U.S. Code*.

Parents and eligible students may file a complaint with the Department of Education if they believe their rights under this law have been violated and if efforts to resolve the situation through appeal channels within the White Hall School District have not proved satisfactory. Complaints should be addressed to: Family Educational Rights, Switzer Building, Room 4511, Washington, D.C. 20202.

In addition, the law requires that each school system define “directory information,” to inform parents and eligible students what it is and to explain how they can prevent any or all parts of directory information (to be released for school purposes):

- Student’s name
- Address
- Telephone Number
- Date/place of birth
- Dates of attendance
- Honors/awards received
- School(s) attended
- E-mail address
- Participation in activities
- Height/weight, if member of athletic team
- Photographs

Parents and eligible students may refuse to allow the release of any or all items listed above. In such cases, they must notify the principal of the student’s school in writing within two (2) weeks of receipt of this notice of the specific information to be withheld. Copies of the White Hall School District policy on privacy rights and student records may be obtained by contacting: Administration Office, 1020 West Holland, White Hall, Arkansas.

ARKANSAS COMPREHENSIVE TESTING, ASSESSMENT AND ACCOUNTABILITY PROGRAM
(EVERY STUDENT SUCCEEDS ACT (ESSA): Arkansas Plan: www.ArkansasESSA.Org)

Every student attending an Arkansas public school shall participate in the statewide program of educational assessments required in Ark. Code Ann. §§ 6-15-419, 6-15-433, 6-15-2009 and established by the State Board. The assessments administered to Arkansas students are detailed below. Federal and state law, as well as State Board of Education regulations, mandate testing for public school students in Arkansas. All students are expected to participate in state assessments. The laws and regulations require the administration of criterion-referenced tests (CRTs) and norm-referenced test (NRT). The Arkansas Department of Education has established a program of testing that focuses on measuring application of basic skills and problem-solving skills essential to the success of students in school.

The **ACT-Aspire** tests have been developed to measure achievement and will identify students who may need additional instruction in language arts, mathematics and science. Students, grades three (3) through ten (10), will be tested in the spring with the ACT-Aspire exams for Achievement and Growth in English Language Arts (English, reading, writing); Mathematics; and Science (SQSS indicators).

If a student does not score at either the E-Exceeds or R-Ready levels on the examination, a Student Success Plan (SSP) will be developed for students scoring at C-Close or N-Needs Support levels. Parents/guardians are to review test results with the classroom teachers/building administrator, attend parent/teacher conferences, and provide input into the development of the Student Success Plan (SSP) as required by law.

A new developmentally appropriate assessment for Grades K, 1 & 2 has been selected and shall be administered three (3) times throughout the school year. Students who show evidence of a substantial reading deficiency based on test scores, at or below the 25% percentile, shall be provided Intensive Reading Instruction by the school. An **Intensive Reading Improvement** plan (IRI) shall be developed for any student identified with a substantial reading deficiency. The IRI shall be developed by the teacher for use in remediation of the student. The remediation shall occur during the school day and shall supplement the daily core literacy classroom instruction. The IRI shall include periodic monitoring assessments based on student growth which leads to grade level performance. Student achievement in each of the five essential elements, *comprehension, phonics, fluency, phonemic awareness, and vocabulary*, shall be monitored monthly after the student completes the intervention and meets requirements. Thirty minutes daily is required either in small group or individually by a highly qualified teacher and/or paraprofessional. The IRI contains a description of the student’s reading deficiency, a description of current services and a description of the interventions and instructional strategies that are designed to remediate the identified areas of reading deficiencies.

The **ELPA21** Online Assessment for Grades K-12 shall be administered within the window, January-March. The English Language Proficiency Assessment for the 21st-Century (ELPA21) measures a student's growth in English language proficiency based on English Language Proficiency (ELP) Standards. It provides valuable information that informs instruction and facilitates academic proficiency in English to help make sure all ELs leave high school prepared for college and career success.

Alternate Assessment for Students with Significant Cognitive Disabilities will be assessed with **Dynamic Learning Maps** for 2018. Dynamic Learning Maps test English Language Arts, grades 3–10; *Math, grades 3–10*; and Science, grades 3–10 (SQSS indicator).

ACT Grade 11 measures achievement with the percent meeting ACT College Readiness in Reading, Math & Science Readiness Benchmarks. Additionally, the Advanced Placement (AP) exams are required for weighted credit and scheduled during the month of May.

ACT 35 of the 2nd Extraordinary Session does not allow students who score below proficient to opt out of the remediation program. Remedial instruction provided in grades kindergarten through twelve (K–12) may not be in lieu of English, mathematics, science, or social studies or other core subjects required for graduation. The district shall determine the extent of the required participation in remediation as set forth in the *Student Success Plan (SSP)*. ACT 35 established that students in grades one through eight (1-8) and scoring **below *E-Exceeds or C-Close*** who do not participate in remedial programs developed by the schools, shall be retained.

Any student that has a *Student Success Plan (SSP)* and fails to remediate, but scores at the ***E-Exceeds or R-Ready*** levels on the criterion-referenced assessments, shall not be retained.

ALTERING GRADES

Any student who knowingly or purposely alters officially recorded grades on a report card or elsewhere will be subject to disciplinary action.

AMBULANCE DISPATCH PROTOCOL/POLICY

In the event a student experiences a life-threatening illness or injury, this protocol will be followed. The following situations will result in an immediate 9-1-1 call to dispatch an ambulance and then a call to the parents/guardians.

1. Any time CPR is done or an AED (Automated External Defibrillator) is used.
2. Loss of consciousness where the student cannot be easily aroused, or the student goes in and out of consciousness.
3. Allergic reactions that require the use of an epi-pen.
4. Diabetic unconsciousness that requires the use of glucagon.
5. A student having a seizure and who is not documented as having a history of seizures, or if the student is a documented seizure patient, medical doctor's orders will be followed as to when to activate EMS.
6. If a student has a compound fracture this is a broken bone that has punctured the skin and is protruding out.

Any other illnesses or injuries will be assessed by Health Services Personnel and if an ambulance is recommended, parents/guardians will be notified for authorization. If parents/guardians choose not to dispatch an ambulance and the student's condition deteriorates, Health Services Personnel reserve the right to dispatch an ambulance.

ANIMALS

Animals will not be brought to school without the permission of the principal.

ARRIVAL AT SCHOOL

The doors at Gandy Elementary, Taylor Elementary and Moody Elementary will be opened for students at 7:50 a.m. Parents who transport students are requested not to leave students unsupervised prior to 7:50 a.m. Hardin Elementary doors will be opened at 7:40 a.m.

ASSEMBLIES

School sponsored *educational assemblies* are an important part of the learning process and are approved and scheduled by the building principal for students. School discipline policies are applicable for all assemblies.

School sponsored awards assemblies are an integral part of the learning process and supports parental involvement. Awards assemblies are approved and scheduled by the building principal for students, parents and guests. School discipline policies are applicable for all assemblies. The principal and/or the teacher in charge will dismiss assemblies. Students shall remain quiet and seated until dismissed. Parents will be given notice of school assemblies.

The White Hall School District may grant a waiver of the attendance requirement to any student age 16 or 17 years to enroll in the adult education program only after the following criterion have been met.

- a. A formal application to the district for a waiver to enroll in the adult education program is submitted.
- b. The student and the student's parents, guardians or persons in loco parentis meet with the school principal and counselor to discuss academic options open to the student.
- c. The District determines that the student is a proper candidate for enrollment in adult education contingent upon approval by the appropriate adult education program. (A.C.A. 6-18-201)

The White Hall School District has adopted student attendance policies. The student attendance policy includes excessive absences as a mandatory basis for denial of promotion or graduation. Each school has developed strategies for promoting maximum student attendance, including, but not limited to, the use of alternative classrooms and in-school suspensions in lieu of suspension from school.

ATTENDANCE REQUIREMENTS FOR STUDENTS IN GRADES K- 12

Students in grades kindergarten through twelve (K-12) are required to attend a full school day. Planned instructional time must be three hundred sixty (360) minutes daily. (A.C.A. 6-18-211)

If a parent or legal guardian moves to a different attendance zone during a semester, the parent or guardian may choose to attend the school in either attendance zone for the remainder of the semester in which they moved. At the beginning of the following semester, the child must attend the school serving their new attendance zone, again subject to policy limitations and judicial constraints. If the parent elects to keep their child in their original attendance zone, transportation will not be provided.

BICYCLES

Permission must be obtained from the building principal before a student will be permitted to ride a bicycle to school. Any student who rides a bicycle to school may not move that bicycle during the school day for any reason.

BUS RULES AND REGULATIONS

Students and parents are asked to read these regulations carefully. These regulations must be followed if we are to provide safe and efficient transportation for the students of the district.

The purpose of the Transportation Department of the White Hall School District is to provide the safest, most efficient transportation possible for those students who are to be transported between their home and school. This process is the responsibility of the entire community and requires the cooperation of all students, parents, school personnel and citizens who drive on the streets in the presence of school buses. While the board of education offers, as needed, a system of pupil transportation, it also requires parents of students to accept responsibility of supervision until the child boards the bus in the morning and leaves the bus at the end of the school day.

BUS CONDUCT

- A. School buses are operated by the White Hall School District as an accommodation to students and parents. Riding a bus is a privilege that must not be abused by daily bus riders or those riding a bus for a field trip.
- B. Students will load and unload buses in an orderly manner. Students may not enter any bus parked on campus during the school day.
- C. Once a student boards the bus in the morning and only at that time does the student become the responsibility of the school district. Such responsibility shall end when the student is discharged at the regular bus stop at the close of the school day.
- D. Since the bus is an extension of the classroom, students are required to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.
- E. When the student does not conduct himself/herself properly on a bus, the bus driver shall report such instances to the attention of the Principal. The Principal shall inform the parents of misconduct and require their cooperation in controlling the student's behavior. The Principal shall also discipline students as deemed appropriate.
- F. A student who becomes a serious disciplinary problem on the school bus may have their transportation privileges suspended or terminated. In such cases, the parents of the children involved shall become responsible for transporting their children to and from school.
- G. Students will not be permitted to ride a bus other than their assigned bus without written approval of the principal and parent.
- H. Students must remain seated facing the front while the school bus is moving. (A.C.A. 6-19-119).
- I. Other bus activities not permitted include:
 1. Damage to bus equipment (seats, windows, etc.) will be paid for by the offender.

2. Defacing any part of a school bus by such action as writing or damaging seats.
3. Eating and drinking.
4. Playing radios, tape players, CD players or band instruments.
5. Putting hands, arms or heads out of the windows.

BUS CONDUCT TO AND FROM SCHOOL AND TRANSPORTATION ELIGIBILITY

Appropriate disciplinary actions may be taken against commuting students who violate the District's Student Code of Conduct ~~rules~~.

The preceding paragraph also applies to student conduct while on school buses. Students shall be instructed in safe riding practices. The driver of a school bus shall not operate the school bus until every passenger is seated. In addition to other disciplinary ~~Disciplinary~~ measures provided for violations of the District's Student Code of Conduct, the student's bus transportation privileges may be suspended or terminated for violations of the Student Code of Conduct related to bus behavior.

Students are eligible to receive district bus transportation if they meet the following requirements. The transportation to and from school of students who have lost their bus transportation privileges is the responsibility of the student's parent or guardian. *Legal References: A.C.A. § 5-60-122; A.C.A. § 6-19-119 (b); Ark. Any superintendent who knowingly transports more students than can be reasonably seated in the school bus shall be guilty of a misdemeanor, and upon conviction shall be fined not less than fifty dollars (\$50.00) nor more than one hundred dollars (\$100).

The school district encourages any person, who observes an incident jeopardizing the safety of the students on a school bus, to report the incident to the Transportation Department. It is most helpful when a person can identify the bus by its number when making such reports. Any recommendations that will assist the department in its operation are also encouraged. The office of the Director of Transportation of the White Hall School District is located at the Julius S. Brown Administration, 1020 West Holland Avenue, White Hall, Arkansas, 71602. The phone number is (870) 247-2171.

NOTE: Unauthorized entry of a school bus is a violation of state law. Only eligible students, persons employed by the district and school activity volunteers are allowed entry to a school bus. This is a Class B misdemeanor. (A.C.A. 5-39-214)

CAFETERIA VISITATION

Parents are welcome to eat lunch with their child. ***We ask that you refrain from bringing "fast food" to be consumed in the cafeteria during lunch time.*** Eating "fast food" in front of other students causes unnecessary distraction. We ask that you be considerate of ALL children and understand that we want them to all feel special. It's very hard to accomplish this when students feel excluded. It is special when parents take the time and can come eat lunch with their child and we surely encourage parents to eat with their children. Again, we simply ask for you to consider the feelings of children who aren't afforded this opportunity and help us encourage the students to eat the meals the district provides. Also, when eating lunch with your child please refrain from inviting other students to sit as a group. Often this turns into a "party" and again causes distractions. Guest meals cost \$4.00. If you insist upon bringing "fast food" when visiting with your child during lunch, we will provide you a private setting away from the other students. When planning a visit for lunch, please notify the office no later than 8:30 a.m. the day of the visit if you are purchasing an adult meal.

The school asks parents of ~~Kindergarten and 1st grade~~ all students plan their lunch visits accordingly by avoiding excessive visitation that may hinder a student's social growth or deter social independence. Please vary the days of your visits that may foster student expectations and cause undue stress. (example: visiting every Monday)

CELL PHONES AND OTHER ELECTRONIC DEVICES (POSSESSION AND USE)

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments, no electronic, device as defined in this policy shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program IEP or individual health plan, this means that when a student is taking an AESSA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor. Cell phones may not be used in the halls or restrooms at any time.
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to take photographs in ~~locker rooms or bathrooms~~ anywhere on campus during school hours or the hours of drop-off or pick up;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.
6. Videoing, taking pictures, recording sound, or any data of students, school personnel, and school grounds and facilities.
7. Smart watches will not be allowed on campus.
8. Personal head phones or ear buds are not allowed on campus.

Use of an electronic device is permitted to the extent it is approved in a student's individualized education program (IEP) or it is needed

in an emergency that threatens the safety of students, staff, or other individuals.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. ~~Cellphone use will be permitted from the time a student arrives on campus until the first bell. Also, students will be allowed to use their cell phones during their lunch period and after they leave the building at 3:30. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.~~

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. Students misusing electronic devices shall have them confiscated and disciplinary action will be taken for students violating this policy. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS. The confiscated device will be held for parent/guardian pick-up with the following disciplinary action(s) taken:

- 1st offense – Take up phone and call parent
- 2nd offense – 3 D-Hall
- 3rd and successive offense – 5 Days D-Hall

Students who use a school issued cell phones and/or computers for non-school purposes, except as permitted by the district's Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion. **Legal Reference:** A.C.A. § 6-18-515, *ADE Test Administration Manual*

If during any violation of the cell phone policy, the student has engaged in any activity involving the use of the cell phone that is deemed vulgar, infringes on another person's rights, or used in any other illegal way, immediate and more severe disciplinary action will be imposed. Possession of a cell phone that is turned on during the instructional day, even though it may not belong to the student who is in possession, is still considered a violation of the district's cell phone policy by the student who is in possession of the phone.

If the administration determines a cell phone was used during the school day, while on the bus or on campus even though the cell phone was not confiscated, it is still a violation of the district's cell phone policy and the above guidelines for disciplinary action will result. If a student uses a communication device to contact an individual without the administration's knowledge and that individual or the student acknowledges that the contact was made, it is a violation of this policy and disciplinary action will result.

Some cell phones beep, even when they are turned off. If a student has ownership of this type of cell phone, the administration recommends that the cell phone be left at home, because disciplinary action will be taken by the administration if the cell phone causes a distraction during instructional time even though the cell phone is in the off position.

Students may use a cell phone with the coach or sponsor's permission while attending or traveling to and from an extracurricular event. Students may not use school owned telephones on the campus except the one located at the receptionist's desk by the principal's office. The only exception would be using a school telephone with the teacher's permission following an extracurricular event. Disciplinary action will be taken for violating this rule.

All devices used for paging or communication via the internet/email, text messaging, Global Positioning Systems, etc. is included in this policy. The same disciplinary rules and regulations regarding cellular telephones also apply to these devices.

Any device used for playing or recording music/voice is not allowed at school. The device will be confiscated, held for parent pick-up and disciplinary action taken. These items would include CD/Tape players/radios, I-Pods, MP3 players, flash memory players and voice recorders. Laser pointers, electronic games and other such devices are also included in this list. This list is not inclusive. Any item that interferes with the educational process will be confiscated and disciplinary action taken. The same disciplinary rules and regulations regarding cellular telephones also apply to these devices.

Cameras and other electronic devices used to produce pictures, photographs, or video are not allowed on the middle school campus. Possession and/or the use of such items will result in the same disciplinary action as a cellular telephone.

Students shall not use any wireless communication devices for the purposes of browsing the internet; composing or reading emails and text messages; or making or answering phone calls while driving a motor vehicle, which is in motion and on school property. Violation may result in disciplinary action up to and including suspension. **Legal References:** A.C.A. § 6-18-515, A.C.A. § 27-51-1602, A.C.A. § 27-51-1603, A.C.A. § 27-51-1609, *ADE Test Administration Manual*

CHEATING

All students are expected to be honest and to display a high standard of integrity in the preparation and presentation of work for credit in all classes. The attempt of any student to present as his/her own work which he/she has not honestly performed will be regarded as a serious offense which will subject the offender to a zero as a grading penalty, and possible disciplinary action. The teacher/school will contact the parents or guardian of any student who is found to be in violation of this policy.

Cheating Dishonesty of any kind on a test, examination, written assignment, project, illegal possession of a test or examination questions, the possession of unauthorized notes during a test or examination, taking notes from or giving notes to another student, assisting others to cheat, plagiarism or altering grade records are instances of cheating. Students will receive a zero for the complete process and will be subject to disciplinary action.

Plagiarism Offering the work of another as one's own without proper acknowledgement is plagiarism; therefore, any student who fails to give credit for quotations or essentially identical material taken from books, encyclopedias, magazines, and other reference works, or from the themes, reports, or writings of a fellow student, is guilty of plagiarism and will receive a zero for the complete process and will be subject to disciplinary action.

CHECK OUT PROCEDURE

Parents or guardians who wish to check out any student from school for the day or part of the day should make this request in person in the Principal's office. Students will be called only at the end of class periods. *Exception: Students will be called in case of an emergency.* Please refrain from checking a student out between 2:30 p.m. and 3:15 p.m. This is an important time of the school day in the classroom and considered a PEAK time in the school office. Parents are asked to remain in the car during this time and wait for the car rider bell unless it is an emergency. Bus or Car Rider changes should be made with the office prior to 2:30 p.m. See section on TARDIES for checkout procedures after 2:30 p.m.

The parent/guardian must present picture identification and have their name verified in the computer or on the Emergency Contact form before the student can leave with them. If anyone other than the parent asks for a student to check out, a written note, signed by the parent must be delivered to the school office prior to the child being called to the office.

Car Rider Line-Parents are required to possess a car rider tag at the end of the school day to pick up their child. Parents without the tag will be required to sign their child out in the office following established check out procedures.

CHILD ABUSE REPORTING

The White Hall School Board directs full compliance by district employees with all child abuse and neglect reporting laws. (A.C.A. 12-12-507) Any school official or employee who knows or suspects that a child has been subjected to physical abuse, sexual abuse or neglect will immediately report or cause a report to be made to the school counselor or building principal, who will then become responsible for making a report to the proper authorities. School officials or employees who initiate the report **are not** responsible for proving the suspected neglect or abuse.

Reporting Guidelines

1. School employees are included in a list of persons required by law to report if they have **reasonable cause** to suspect that a child has been subjected to abuse, sexual or neglect, or conditions and/or circumstances that would reasonably result in abuse. Employees of a school staff are required to notify the school counselor or the building principal.
2. The school counselor or building principal once notified will become responsible for making a report to the child abuse hotline.
3. If documentation of marks is needed, the school nurse will be notified to photograph the marks. After the

telephone, report has been made by the school authorities, a written report will be completed, placed in a sealed envelope marked *confidential*, and sent to the Superintendent of Schools.

4. If school personnel report or files a complaint based on suspected child abuse or neglect as required under A.C.A. 12-12-507 and/or if access to the student is granted to law enforcement personnel for purposes of investigation of suspected child abuse or neglect, notification to parents or legal guardians is not required. (Act 1217 of 2001),

CHILD NUTRITION

SCHOOL MEAL MODIFICATION

The district only provides modified meal components on menus to accommodate students with a parent/guardian wishing to request dietary accommodations for their student with a disability must submit to the district’s Director of Child Nutrition a medical statement completed by a State licensed healthcare professional, which includes:

- Physicians, including those licensed by:
The Arkansas State Medical Board;
The Arkansas State Board of Chiropractic Examiners (Chiropractors);
The Arkansas Board of Podiatric Medicine (Podiatrists);
- Nurse Practitioners (APRNs in family or pediatric practice with prescriptive authority);
- Physician Assistants (PAs who work in collaborative practice with a physician); and
- Dentists.

The medical statement should include:

1. A description of the student’s disability that is enough to understand how the disability restricts the student’s diet;
2. An explanation of what must be done to accommodate the disability, which may include:
 - Food(s) to avoid or restrict;
 - Food(s) to substitute;
 - Caloric modifications; or
 - The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear, or lacks enough detail, the district’s Director of Child Nutrition Patsy Garner, shall request additional information so that a proper and safe meal can be provided.

When choosing an appropriate approach to accommodate a student’s disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child’s disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance, regarding the request for accommodations with the District 504 Coordinator, who will schedule a hearing addressing the grievance, as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request. The district will not prepare meals outside the normal menu to accommodate a family’s religious or personal health beliefs. *Legal References: Commissioner’s Memo FIN-09-044; Commissioner’s Memo FIN-15-122; Commissioner’ Memo CNU-17-051; 7 CFR 210.10(g); 29 U.S.C. § 794 Rehabilitation Act of 1973, Section 504; 20 U.S.C. §1400 et seq. Unpaid meal charges are not allowed in the Child Nutrition Program according to federal Regulations, 7 CFR, part 3015 and OMB Circular A-87. These guidelines state that school districts are NOT REQUIRED to serve students who pay reduced or full price for meals, but do not bring money to pay for meals. However, school districts may inform parents by written notice which would allow students to charge a limited number of meals. ~~Beginning with the 2007-2008 school year,~~ The White Hall School District allow elementary students in grades K-5 to charge meals with the following guidelines.

The White Hall School District will allow elementary students (K-5) to charge meals only on occasion when money is unavailable, and the students would have to miss meal service. This is a courtesy extended to the student and should not occur on a regular basis. More than \$30.00 in charges will be considered excessive and will not be permitted. All students must pay \$.35 for extra milk. Any student denied meal service due to excessive charges will be encouraged to apply for free or reduced-price meals.

Students are encouraged to pay their lunch account daily, weekly, or monthly. Students may pay by three methods, either check, cash or My School Bucks App. If paying by check, the check must be written for the correct amount. If paying by cash daily, weekly, or monthly, send the correct amount in an envelope labeled with the student's name, classroom teacher, and the exact amount enclosed.

One carton of milk is included with the meal. Additional milk may be purchased at the lunch counter for \$.35 per carton for paid, reduced, and free lunch students.

Students who bring lunch from home will take their lunch into the cafeteria. Milk is available for purchase at \$.35 per carton.

Students are required to conduct themselves in an acceptable manner while having lunch in the cafeteria. Due to the large number of students having lunch in the cafeteria, everyone is encouraged to assist in keeping their area clean and neat by placing all waste products in the proper container provided.

Students cannot trade, share, or give anyone food in the cafeteria. It is not permissible for anyone to take any food items from the cafeteria or to remain in the cafeteria to visit after eating lunch. Students should leave the cafeteria when dismissed.

No food/lunch may be dropped off for students during the school day. Any lunch brought to school by parents must be brought to the office. Parents should decide with their child before school to check the office for their lunch. The school is not responsible for delivery of student lunches brought on campus.

FOOD OTHER THAN MEALS SERVED BY THE SCHOOL: The distribution of any food to the student body other than that approved by Arkansas State Legislation Act 1220 is prohibited. This includes but is not limited to treats for classroom birthdays and the selling of snacks and drinks by students and/or faculty. A copy of Act 1220 is available from the *School Health & Wellness Office*.

CLOSED CAMPUS POLICY

CLOSED CAMPUS

All schools in the White Hall School District operate under a “closed campus” policy. Therefore, no student after having arrived on any campus, will be permitted to leave the school grounds at any time during the school day unless an early dismissal form has been signed in the office by the parent or a person designated by the parent.

- a. **Truancy:** Leaving campus without permission from the principal or being absent from school without parent’s consent is truancy. In accordance with the closed campus policy, once a student arrives on campus (walk, bicycle, bus, car, etc.), he/she cannot leave the campus until 3:30 P.M. or until their bus leaves after the school day. Any student who needs to check out cannot do so without securing permission from the office. All students must remain on campus during lunch.
- b. **Cutting Class:** Any student who misses part or all a class or is away from their assigned area for any length of time without permission from school personnel will be considered as cutting class.

COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they can transmit their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant Staphylococcus aureus), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District’s exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57—IMMUNIZATIONS, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties about an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to the school until the outbreak has been resolved and the Arkansas Department of Health approves the student’s return to school.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student. *A.C.A. § 6-18-702; Arkansas State Board of Health Rules and Regulations Pertaining to Immunization Requirements; Arkansas Department of Education Rules Governing Kindergarten through 12th Grade Immunization Requirements*

COMPLAINTS, PROBLEM SOLVING AND APPEAL PROCEDURE

A good communication link between the school and the home is necessary if students are to receive the maximum benefit from the educational opportunities available to them in the schools of the White Hall School District. Good communication results from open, frequent, and objective dialogue among students, teachers, parents, and school administrators. Most school problems are the result of poor communication among the parties involved. Proper communication, therefore, usually solves most, if not all, problems that are related to the school. To ensure problems are discussed and solved as quickly and as possible, the following procedure is to be employed in the White Hall School District.

1. If a parent becomes concerned about a problem at the classroom level, the parent should make an appointment with the teacher and thoroughly discuss the matter. Most problems are solved at this level.
2. Should the problem not be solved through discussions between the teacher and parent, or if the problem is not related to classroom activities, the parent should contact the principal for further attempts to find a workable solution.
3. If a parent is not satisfied with solutions offered at the building level, the parent may appeal to the Superintendent of Schools. The Superintendent may uphold, overturn, or modify decisions made by other District administrators.
4. Only the School Board may hear an appeal of a decision by the Superintendent while an official meeting of the Board is being held.

COMPULSORY ATTENDANCE REQUIREMENTS

Every parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of any child age five (5) through seventeen (17) years on or before August 1 of that year who resides, as defined by policy (4.1—RESIDENCE REQUIREMENTS), within the District shall enroll and send the child to a District school with the following exceptions:;

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (4.6—HOME SCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that school year and the parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of the child elects not to have him/her attend kindergarten. A kindergarten waver form prescribed by regulation of the ~~Department~~ of Division of Elementary and Secondary Education must be signed and on file with the District administrative office.
4. The child has received a high school diploma or its equivalent as determined by the State Board of Education.
5. The child is age sixteen (16) or above and is enrolled in a post-secondary vocational-technical institution, a community college, or a two-year or four-year institution of higher education.
6. The child is age sixteen (16) or seventeen (17) and has met the requirements to enroll in an adult education program as defined by A.C.A. § 6-18-201 (b). *Legal References:* A.C.A. § 6-18-201; A.C.A. § 6-18-207

CONDUCT

Students are expected to conduct themselves appropriately at all activities during the school day and at school events. Inappropriate behavior includes, but is not limited to, the following:

1. public display of affection,
2. obscene or rude language/remarks, gestures or action directed to anyone,
3. failure to follow the directions of school personnel, and
4. gang behavior (clothing or gestures).

Student participation in or attendance at school sponsored activities (concerts, assemblies, sports events, etc.) requires orderly behavior and good sportsmanship always. Normal school rules and penalties for violating such rules will be in effect. Failure to obey reasonable instructions of school district personnel shall result in loss of eligibility to attend any school sponsored events and may result in disciplinary action applicable under the regular school program.

CONDUCT IN THE BUILDING

1. Absolutely no running in the halls at any time
2. No excessive talking, screaming, yelling, etc. in the building will be tolerated.

CONFERENCES

Teachers have a daily conference period. Parents who would like a conference with a teacher should contact the teacher to arrange a conference by calling the school office. Teachers may schedule a parent/teacher conference on their conference time, before school or after school hours. As a courtesy to teachers, conferences should be scheduled 24 hours in advance. Teacher conferences will not be scheduled during class time unless the building principal approval has been given.

Students may make appointments to visit with a teacher, counselor or principal by obtaining a written pass from that individual before school or during lunch. Students will not be released from class without a written pass.

CONTACT WITH STUDENTS WHILE AT SCHOOL

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the Principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to these limitations outlined in Policy 4.16/Policy 6.5.

To avoid continuing child custody controversies involving school personnel and disruptions to the educational atmosphere in District schools, Arkansas law provides that the transfer of a child between custodial parents and non-custodial parents shall not take place on school property during the school day and during school hours.

The custodial or non-custodial parent may send to and/or drop off the student at school to be sent to and/or picked up by the other parent on predetermined days in accordance with any court order or a signed agreement between the custodial and non-custodial parents witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning if that parent was supposed to pick up the student on any given day.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee and leave both a day and an after-hours telephone number. *Legal References: A.C.A. § 6-18-513; A.C.A. § 12-12-509, 510, and 516; A.C.A. § 9-13-10*

CONTAGIOUS ILLNESS POLICY

It is our goal in Health Services to keep students healthy, in class, and learning. However, there are times when a student is sick or potentially contagious to other students and staff. When these times are observed parents/guardians will be contacted to pick up their child.

Parents/Guardians will be notified with the following conditions:

- *Temperature of 100 or higher;
- *Vomiting;
- *Diarrhea (if it interferes with classes);
- *Infections of the eyes;
- *Any open draining wound that has not been medically treated.

CORPORAL PUNISHMENT

The White Hall School Board authorizes the use of corporal punishment to be administered in accordance with this policy by the Superintendent or his/her designated staff members who are required to have a state issued license as a condition of their employment.

Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be explained the reasons for the punishment and be given an opportunity to refute the charges. All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, shall not be excessive,

or administered with malice, and shall be administered in the presence of another school administrator or designee who shall be a licensed staff member employed by the District. **Legal Reference:** A.C.A. § 6-18-503 (b), A.C.A. § 6-18-505 (c)

CORPORAL PUNISHMENT PROCEDURES

Good discipline in the school results when students are taught in the home to respect the rights of others and to settle disagreements in an amiable manner, attend a school that provides a relevant curriculum taught by effective personnel in pleasant surroundings, and live in a community that provides constructive outlets for its youth. The board encourages and supports this positive approach to developing a desirable climate of discipline in the school.

A need exists for firmness in dispensing with any problems calling for disciplinary action which occur in the classroom and during other school activities, whether on or off the school premises. Accordingly, the board expects:

1. That the principal and faculty of each school will always be able to take disciplinary action,
2. That disciplinary action will contribute to the general welfare of the school or class and will be directed toward the positive improvement of citizenship of the group or individual involved,
3. That each teacher will handle his/her own discipline always if possible; however, the more serious problems may be taken to the principal for advice and counsel.

To maintain discipline and order within the schools of the district, the board of education shall permit the use of corporal punishment, provided that the punishment is administered in accordance with the statute and the district's written discipline policies. (*Act 51 of 1994*)

The law requires that it be administered only for cause, be reasonable, follow warnings that the misbehavior will not be tolerated, and be administered only in the presence of a school administrator. If the corporal punishment is being administered by a school administrator, another adult school employee must also be present and informed of the reason for the punishment.

Teachers and administrators in a school district that authorizes corporal punishment shall be immune from civil liability for administering corporal punishment to students, provided that the punishment is administered in substantial compliance with the district's written student discipline policies.

The board of directors and the administration shall support teachers in their efforts to teach good citizenship by requiring proper student conduct. While teachers shall be reasonable in all student-related issues, they need not tolerate disrespectful, boisterous, rough, and abusive outbursts of language and temper by students.

For corporal punishment to be defensible and valid, the following general guidelines shall be applied:

- a) Except for those acts of misconduct which are extremely anti-social or disruptive in nature, corporal punishment should never be used unless the student is informed beforehand that specific misbehavior could occasion its use; and subject to this exception, it should follow specific failures of other corrective measures to effect student behavior modification.
- b) In incidents when a student insists on innocence of the offense or ignorance of the rule, a brief but adequate opportunity should be provided for student explanation.
- c) School principals or teachers who have administered corporal punishment shall provide the child's parents or legal guardians, upon request, a written explanation of the reasons and the name of the school employee who was present as a witness.

In addition to the above, the following guides shall apply to any use of corporal punishment in district schools.

- a) Corporal punishment shall be administered in the office of the principal or in such place or places as may be designated by the principal.
- b) Corporal punishment shall not be administered in the visual presence of other students.
- c) Corporal punishment shall be used only by the principal or his/her professional representative. (i.e. teacher)
- d) Utmost care, tact and judgment shall be exercised, and all cases of corporal punishment shall be documented by both the person administering the punishment and the witness and kept on file in the principal's office.
- e) The use of corporal punishment shall always be reasonable and proper. Considerations in this regard shall include but not be limited to the following:

- 1) Age of the child;
 - 2) Size of the child;
 - 3) Sex of the child;
 - 4) Ability of the child to bear the punishment;
 - 5) Overall physical condition of the child.
- f) Corporal punishment shall not be administered in anger or with malice at any time.
 - g) Corporal punishment will be administered to the lower posterior only.
 - h) Corporal punishment shall be limited to no more than five (5) licks with a paddle furnished or approved by the school board.
 - i) Refusal to take corporal punishment may result in suspension.

CUSTODIAL AND NON-CUSTODIAL PARENT RIGHTS AND RESPONSIBILITIES Repeated on page 59

In accordance with the Family Educational Right to Privacy Act (FERPA), the Board of Education makes no distinction between the custodial and no custodial parent about access to school records unless evidence has been provided through a court order, state statute, or legally binding document that specifically revokes these rights. "Parent" means a parent of a student and includes a natural parent, a legal guardian, or an individual acting as a parent in the absence of a parent or guardian. For the school's purposes, the parent who enrolls the student in school and with whom the student resides is considered the custodial parent unless school officials are informed otherwise by a certified court order. Parents have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents to review the records. Schools may charge a fee for copies. Parents have the right to request that school correct records, which they believe to be inaccurate or misleading. Both parents can see the student at school unless prohibited by court order. Only the custodial parent has the right to remove the student from school property or grant permission for the student to be removed from school property by others.

DETENTION HALL

Detention hall is an alternative to in-school suspension or out-of-school suspension. Detention Hall is held in the mornings before school. Students must complete assignments given by the D- hall supervisor or homework assignment given by the teacher.

- A. Students cannot leave campus after detention hall is dismissed unless signed out by a parent/guardian in the office.
- B. The length of assignment to detention hall will be determined by the school principal or teacher.
- C. The student will be given a copy of the disciplinary referral listing the days of detention hall. The student shall obtain a parent/guardian signature on the referral form and return it to the detention hall supervisor the first day of detention. An additional day of detention hall will be added to the original assignment for each day the referral is not signed and returned.
- D. If a student fails to report to detention hall, an extra day will be added to the original assignment. The second time a student misses detention hall, the student will be suspended for one-half (1/2) the remaining assignment, not to exceed five (5) days of suspensions. This also applies to consecutive assignments.
- E. The only exceptions to reporting to detention hall are for medical or legal appointments verified by a doctor, lawyer, or law enforcement official. If transportation arrangements cannot be made or a student misses detention, the student will be suspended from school for one-half (1/2) the number of days remaining, not to exceed five (5) days.
- F. Students assigned to detention hall must report promptly with materials for study. Students who arrive five (5) minutes late will be assigned an additional day of detention hall. Students who arrive more than ten (10) minutes late will not be permitted to enter detention hall.
- G. Students will not be permitted to talk, pass notes, play games, etc. while assigned to detention hall. Students will receive one warning from the detention hall supervisor if inappropriate conduct occurs. If the unacceptable behavior continues, the student will be dismissed from detention hall. The student will then be suspended from school for one-half (1/2) the time remaining in detention hall, but not to exceed five (5) days.

DISCIPLINE FOR THE HANDICAPPED

Handicapped students who engage in misbehavior are subject to normal school disciplinary rules and procedures so long as such treatment does not abridge the right to free appropriate public education. The individualized education plan (I.E.P.) team should consider whether discipline procedures should be adopted for that student and included in the I.E.P.

Handicapped students may be excluded from school only in emergencies and only for the duration of the emergency. In no case should a handicapped student be excluded for more than ten (10) school days per offense. After an emergency suspension, an immediate meeting of the student's I.E.P team will be held with a view toward minimizing the harm resulting from the exclusion.

DISRUPTION OF SCHOOL

No student shall be using violence, force, noise, coercion, threat, intimidation, fear, passive resistance, or any other conduct, intentionally cause the disruption of any lawful mission, process, or function of the school, or engage in any such conduct for causing disruption or obstruction of any lawful mission, process, or function. Nor shall any student encourage any other student to engage in such activities.

Disorderly activities by any student or group of students that adversely affect the school's orderly educational environment shall not be tolerated at any time on school grounds. Teachers may remove from class and send to the principal or principal's designee office a student whose behavior is so unruly, disruptive, or abusive that it seriously interferes with the teacher's ability to teach the students, the class, or with the ability of the student's classmates to learn. Students who refuse to leave the classroom voluntarily will be escorted from the classroom by the school administration. **Legal Reference:** A.C.A. § 6-18-511

“Veteran” means an individual who served in the uniformed services and who was discharged or released from the uniformed services under conditions other than dishonorable.

The superintendent shall designate an individual as the District’s military education coordinator, who shall serve as the primary point of contact for an eligible child and for the eligible child’s parent, legal guardian, person having lawful control of the eligible child, or person standing in loco parentis. The individual the superintendent designates as the District’s military education coordinator shall have specialized knowledge regarding the educational needs of children of military families and the obstacles that children of military families face in obtaining an education.

An eligible child as defined in this policy shall:

1. Be allowed to continue his/her enrollment at the grade level commensurate with his/her grade level he/she was in at the time of transition from his/her previous school, regardless of age;
2. Be eligible for enrollment in the next highest-grade level, regardless of age if the student has satisfactorily completed the prerequisite grade level in his/her previous school;
3. Enter the District's school on the validated level from his/her previous accredited school when transferring into the District after the start of the school year;
4. Be enrolled in courses and programs the same as or like the ones the student was enrolled in his/her previous school to the extent that space is available. This does not prohibit the District from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses/and/or programs;
5. Be provided services comparable to those the student with disabilities received in his/her previous school based on his/her previous Individualized Education Program (IEP). This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
6. Make reasonable accommodations and modifications to address the needs of an incoming student with disabilities, subject to an existing 504 or Title II Plan, necessary to provide the student with equal access to education. This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
7. Be enrolled by an individual who has been given the special power of attorney for the student's guardianship. The individual shall have the power to take all other actions requiring parental participation and/or consent;
8. Be eligible to continue attending District schools if he/she has been placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty.

If official copies of an eligible child’s education records are not available at the time the eligible child is transferring, then the District shall:

- Pre-register and place an eligible child based on the eligible child’s unofficial education records pending receipt of the eligible child’s official records; and
- Request the eligible child’s official education records from the sending district.

The District has a limited open forum granting equal access to the Boy Scouts of America and other youth groups.

EXTRACURRICULAR ACTIVITIES - ELEMENTARY

Definitions

“Extracurricular activities” are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

“Field Trips” are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for planning, qualifying, or arranging for future programs or for receiving recognition.

“Inter-scholastic Activities” means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

“Intra-scholastic Activities” means athletic or non-athletic/academic activities where students compete with students from within the same school.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student’s educational experience. At the same time, the Board believes that a student’s participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments or other similar events excepted with approval of the Superintendent). All students are eligible for extracurricular activities unless specifically denied eligibility based on criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school’s administration, the student’s participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities because of disciplinary action taken by the administration for inappropriate behavior.

Any student who refuses to sit for a Statewide assessment or attempts to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following statewide ~~mandated~~ assessment, as applicable. The superintendent or designee may waive this paragraph’s provisions when the student’s failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of “eligible child” in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity. *Legal References: State Board of Education Standards for Accreditation 10.05 and 10.06; A.C.A. § 6-4-302; A.C.A. § 6-15-2907; A.C.A. § 6-18-712*

EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools’ subject to regulations of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student’s resident school zone as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if the superintendent of the student’s resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction to participate in an interscholastic activity

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail, or hand deliver the student’s request to participate to the student’s school’s principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one course³ in the District’s school where the student is intending to participate in an interscholastic activity.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student’s interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;
- permission slips, waivers, physical exams; and
- participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

1. Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
2. One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student would have been enrolled in seventh (7th) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school. *Legal References: A.C.A. § 6-15-509; A.C.A. § 6-18-232; A.C.A. § 6-18-712; Arkansas Activities Association Handbook.*

EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus?

The Superintendent or his/her designee shall give written notice to the parents, ~~or~~ legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days¹ following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardian, person having lawful control of the student, person standing in loco parentis, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, who gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence include statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of ~~not less than~~ one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents, ~~or~~ legal guardians, persons having lawful control of a student, or persons standing in loco parentis of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property.² The parents, ~~or~~ legal guardians, persons having lawful control of the student, or persons standing in loco parentis shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion. The District's program shall include offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled. To satisfy a student's due process rights, make sure that all the IDEA requirements are met for students receiving special education services. FERPA (CUSTODIAL AND NONCUSTODIAL PARENT RIGHTS AND RESPONSIBILITIES)

In accordance with the Family Educational Right to Privacy Act (FERPA), the Board of Education makes no distinction between the custodial and non-custodial parent about access to school records unless evidence has been provided through a court order, state statute, or legally binding document that specifically revokes these rights. "Parent" means a parent of a student and includes a natural parent, a legal guardian, or an individual acting as a parent in the absence of a parent or guardian. For the school's purposes, the parent who enrolls the student in school and with whom the student resides is considered the custodial parent unless school officials are informed otherwise by a certified court order.

Except when a court order regarding a student has been presented to the district to the contrary, parents have the right to inspect and review all student education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents to review the records. Schools may charge a fee for copies. Parents have the right to request that school correct records, which they believe to be inaccurate or misleading. Both parents can see the student at school unless prohibited by court order. Only the custodial parent has the right to remove the student from school property or grant permission for the student to be removed from school property by others.

The school district does not distinguish between a custodial and noncustodial parent, and a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian enables that parent or guardian to review or copy his/her child's records.

Notes: Districts must annually notify parents or students if over the age of 18 of the provisions of this policy and "shall effectively notify parents who have a primary or home language other than English." (34 CFR 99.7 (b) (2))

Districts may release directory information (DI) (as presently defined by the district) of former students to the

extent there is not a signed prohibition against such release. As the definition of DI changes over time, for example, the addition of email addresses to the definition of DI, districts may release DI according to the current definition. It also applies to the release of information that is now defined as DI for students who left the district prior to 1974, when there was no such thing as DI.

As stated in this policy, once a student turns 18, the rights to his/her educational records transfers to the student. The release of educational records to a parent becomes permissive and not a right. At that point, the school gets to decide if it wants to release educational records to parents. The student, however, doesn't have the right to object one way or the other. If the parents don't establish dependency, once the student turns 18, the parents don't have an absolute **right** to see their student's educational records. "Dependency" in this regard is defined according to the IRS; if the student is claimed by either of their parents (regardless of custody issues, or filing jointly or separately) as a dependent, then the rights of the parent once the student turns 18 is as described. Without dependency, the parents have no right to see their student's educational records once the student turns 18. ***Legal References:*** (A.C.A. §

FIELD TRIPS

School sponsored educational field trips are an integral part of the learning process and are approved by the building principal for students. All field trips are approved by the Building Principal and District Administration. Field trips are not required and are considered a privilege. School discipline policies are applicable for all field trips.

Because of the amount of liability incurred when transporting students and taking students from the school setting into a public setting, there are factors that may limit or prohibit student participation in attending field trips. Field trips are not required, and it is considered a privilege to attend a field trip. If a student has a history of being disruptive, disobedient, or unruly, he/she may be denied field trip privileges as determined by the building principal.

Parents will be given advanced notice of school field trips. The notice will contain information pertaining to prior requirements for student participation. Parents must submit written permission for their child to attend a field trip. Verbal permission will not be accepted. Students who are denied participation by the building principal or who do not receive written permission from a parent to attend a field trip will remain at school in a classroom under the supervision of school personnel. Absence from a field trip or absence from school on the day of a field trip will be recorded and counted as any other absence from school regardless of permission or denial of field trip participation by the building principal.

Parents or guests are not permitted to participate in field trips unless prior permission is granted by the building principal or parents and/or guests are invited to attend. Parents or guests must provide their own transportation and their own tickets if allowed to accompany a school field trip requiring cost or tickets. The school will not purchase tickets on behalf of parents or guests nor provide transportation for parents or guests unless the parent is asked to chaperone and have volunteer responsibility for students under the supervision of a classroom teacher or the building principal.

Students may not be transported by parents to or from a field trip unless given prior permission by the building principal. *(Students who are **granted** permission to be transported by a parent to a field trip location **are not** considered to be in attendance for the school day until school personnel supervising the field trip assume physical responsibility for the child. Students being transported home from a field trip are considered "checked out" once the student leaves the physical supervision of school personnel. It is imperative that parents understand when students are transported to or from a field trip in a personal vehicle the student(s) are not in attendance at school).*

FIGHTING

Fighting on school property, at school sponsored events, or while riding on a school bus will not be tolerated. Fighting, which includes the use of fists, weapons, shoving or other forces in trying to beat or overcome someone, will result in disciplinary action by the school administrator and may include corporal punishment or suspension.

Play fighting will be considered real fighting. Administrators will determine consequences based on the severity of

the fight, age, grade level, and any handicapping condition of those involved. The following is the minimum and maximum punishment.

- 1st Offense – One (1) to Three (3) day suspension
- 2nd Offense – Three (3) to Five (5) day suspension
- 3rd Offense – Five (5) to Ten (10) day suspension
- 4th Offense - Student will be suspended with recommendation for expulsion.

FINS PETITION (Family in Need of Services)

Students that have not complied with mandatory attendance laws or have repeatedly violated school rules shall be subject to the filing of a FINS (Family in Need of Services) Petition through the juvenile court system. The filing of the motion can be initiated by the school administration and/or the parents of the student.

FIREWORKS

A student shall not possess, handle or store firecrackers, smoke bombs, cherry bombs, incendiary devices, including ammunition, or any kind of fireworks that reasonably could be a danger to himself/herself or to other students, that could cause damage to school property or that could be disruptive to the learning environment of the school. Appropriate disciplinary action will be taken.

FLOWERS AND GIFTS

Deliveries of balloons, flowers and similar gifts for students will not be allowed at any school in the White Hall School District. These items disrupt the educational process and create potential danger on school buses and other forms of transportation.

FOOD IN THE CLASSROOM

The consumption of foods distributed to students in the classroom or school-wide that are not prepared by a commercial food distributor (commercially packaged or prepared in a commercial kitchen or bakery) is prohibited. Arkansas State Department of Education regulations grant schools nine days during the calendar year to offer foods to students other than meals prepared in the cafeteria. These nine event days are reserved for events such as school-wide holiday activities, special promotional days, etc. to be determined by the school administration. Parents are not allowed to bring any foods or beverages to school without explicit permission from the school administrator and will only be allowed on designated event days.

FOOD SHARING AND ITS REMOVAL FROM FOOD SERVICE AREA

Food Sharing Table

To reduce wasted food and to provide students access to healthy foods when possible, the District may have in the district cafeteria a food sharing table located at the end of the service line. Prior to leaving the service line, students may place on or retrieve items from the table, at no additional charge, any of the following:

- Raw whole fruit traditionally eaten without the peel (e.g. bananas and oranges);
- Raw whole fruit traditionally eaten with the peel provided the fruit is wrapped to prevent contamination (e.g. apples and grapes);
- Raw whole vegetables provided the vegetable is wrapped to prevent contamination (e.g. carrot sticks);
- Milk; and
- Juice.

Fruit and vegetables to be shared are to be placed into a designated container on the table. Milk and juice to be shared are to be placed in an ice-filled cooler. Milk and juice may not be taken by another student unless the carton is unopened and was completely covered by ice while in the cooler. A student may not return to the table to place an item for sharing after the student has left the service line.

At all times, the sharing table will be under the supervision of the food service staff. Remaining items should be discarded at the end of the meal period, and no item may remain on the table for longer than four (4) hours. At all times, the cooler will be under the supervision of the food service staff. Remaining items should be discarded at the end of the meal period, and no item is to remain in the cooler for longer than four (4) hours.

Removing Food Items from the Food Service Area

No student shall remove school provided food items from the food service area at the end of the meal period, especially milk, juice, and other items requiring temperature-controlled environments.

Except for food service workers as required by their job duties, District employees may only remove school provided food items from the food service area when required by a 504 plan or a student's IEP. Legal References: Commissioner's Memo FIN 08-076, Commissioner's Memo FIN 15-052.

GAMBLING

Students who play a game for money or property or who play a game to bet on an uncertain outcome will be disciplined. If money is confiscated, it will not be returned. Flipping coins, throwing dice, playing games on the computer are just a few examples. Appropriate disciplinary action will be taken.

GANGS AND GANG ACTIVITY

The Board is committed to ensuring a safe school environment conducive to promoting a learning environment where students and staff can excel. An orderly environment cannot exist where unlawful acts occurs causing fear, intimidation, or physical harm to students or school staff. Gangs and their activities create such an atmosphere and shall not be allowed on school grounds or at school functions.

The following actions are prohibited by students on school property or at school functions:

1. Wearing or possessing any clothing, bandanas, jewelry, symbol, or other sign associated with membership in, or representative of, any gang;
2. Engaging in any verbal or nonverbal act such as throwing signs, gestures, or handshakes representative of membership in any gang.
3. Recruiting, soliciting, or encouraging any person through duress or intimidation to become or remain a member of any gang; and/or extorting payment from any individual in return for protection from harm from any gang.
4. Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion.
5. Students arrested for gang related activities occurring off school grounds shall be subject to the same disciplinary actions as if they had occurred on school grounds. ***Legal References:*** A.C.A. § 6-15-1005(b)(2), A.C.A. § 5-74-201
6. Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. See Appendix **Arkansas State Laws:** Disorderly Conduct & Membership in Gangs.

GIFTED AND TALENTED PROGRAM

Paper work for students screened and placed for the GATE program must contain the signature of the building principal. The curriculum for the GATE Program is, *in place of* rather than *in addition to* required classroom work. Students identified as *gifted and talented* have passed district requirements and guidelines for placement, therefore teachers will excuse these students from routine, repetitive work missed while attending GATE classes. If make-up is warranted, especially where new skills are introduced, the student will be advised and allowed *adequate* time to complete the assignment.

GATE students are expected to perform academically above the average level on regular classroom work. A review of students' placement in the gifted/talented program is made annually. Should a student fail to meet expected

grade level standards and or continue to perform below average academically, the student will be placed on academic probation. Both the student and parent will be notified, by the GATE teacher, prior to placing the student on probation. A reasonable length of time will be extended to allow the student the opportunity to correct the academic deficiency. A committee consisting of the building principal, counselor, one regular classroom teacher, and the GATE teacher will re-evaluate whether the student shall continue the probationary time out, whether the student will be reinstated or dropped from the program.

GIFTED AND TALENTED PROGRAM AT THE SECONDARY LEVEL

For the district to follow the Arkansas Department of Education, the following will be implemented during the 2009-2010 school year for the secondary GATE identified students. The GATE coordinator and GATE teachers will meet with the identified GATE students. Pre-AP and AP Courses are counted as a program at the secondary schools.

GIFTED AND TALENTED FIELD TRIPS

The following criteria will be implemented:

1. The building principal must approve *Gifted and Talented* field trips.
2. Field trips should be related to *academic enhancement* in support of the school's ACSIP plan.
3. Gifted and Talented teachers requesting field trips should arrange for adequate supervision using volunteers.
4. The number of certified chaperones for field trips will be dependent on the number of students and the nature of the field trip.
5. For field trips requiring both Gifted and Talented teachers, the trips should be scheduled on Wednesdays, if possible. All parties, GATE teachers and Building Principals, must agree before arrangements are made.
6. Due to financial and academic concerns such as fuel costs, time out of class, etc; field trips for the Gifted and Talented Program will be limited.
- 7.

GRADING POLICY

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that reflect other educational objectives such as the student learning expectations contained in the curriculum framework may also be given. (*Arkansas State-Standard VII*)

Elementary report cards are given on a nine-week basis and are given to parents that attend the mandated Parent/Teacher Conference during the 1st and 3rd grading periods. For the 2nd grading period, report cards will be sent home in the "School to Home Folders" on the Monday following the end of the grading period and the 4th grading period report cards will be sent home with the student after the last school day. Four-and-a-half-week report will be sent midway between the quarters. The building principal will ensure the use of "School to Home" folders by designating a day of the week to communicate with parents regarding graded work, discipline reports, progress reports, and other relevant information intended for parents.

GRADING SCALE (KINDERGARTEN)

The following grading scale is designed to report student progress of district kindergarteners. The purpose is to report how well the student performs: academically, socially, and emotionally; uses his/her abilities; and exhibits the use of study skills. Progress will be reported as follows.

- S = Satisfactory Progress
- N = Progress Needs Improving
- U = Unsatisfactory Progress
- I = Improving

GRADING SCALE (GRADES 1-5)

The following grading scale and quality points will be used for all regular academic courses. Quality points are used to calculate grade point average (GPA).

A = 90% - 100%	A=4 Quality points
B = 80% - 89%	B=3 Quality points
C = 70% - 79%	C=2 Quality points
D = 60% - 69%	D=1 Quality points
F = 59% - and below	F=0 Quality points

GUIDANCE SERVICES

The Guidance Counselors and facilities are available to all students from 8:10 A.M. until 3:45 P.M. each day. Individual conferences may be requested by the student or the counselor.

Parents are encouraged to make an appointment with the counselor concerning their child's progress and plans. Parents and students are always welcome to visit the Guidance Department to see the many varied services provided. Information available in the Guidance Counselor's office includes: character education, grade level curricula, and social problem-solving. Information on standardized testing and resources for students with limited English skills is also available.

HALL PASSES

A hall pass must be obtained from the classroom teacher before a student enters the hall to go to any destination within the building.

If a student must leave class, he or she must obtain a hall pass from the classroom teacher. The pass must be kept in the possession of the student until the student returns to the room. The pass will then be returned to the teacher who issued it. Students may only go to the place for which permission was requested. Students are not to ask to leave the classroom during class to go to the restroom or water fountain, or for any other reason except for an emergency.

HANDBOOK (STUDENT)

It shall be the policy of the White Hall School District that the most recently adopted version of the Student Handbook be incorporated by reference into the policies of this district. If there is a conflict between the student handbook and a general board policy or policies, and the student handbook is more recently adopted than the general board policy, the student handbook will be considered binding and controlling on the matter.

WHITE HALL SCHOOL DISTRICT HEALTH SERVICES INFORMATION

MEDICATION POLICY

The only medications students may self-administer are asthma inhalers and epi-pens. All other medications prescription and non-prescription must come through the nurse. ALL appropriate paperwork must be complete for students to be given medications. ***Students Are Not to Transport Medications of Any Kind. All Medications Must Be Brought by A Parent/Guardian and Picked Up by A Parent/Guardian.***

STUDENT MEDICATIONS

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, students are not allowed to carry any medications, including over-the-counter (OTC) medications or any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, while at school. The parent or legal guardian shall bring the student's medication to the school nurse. The student may bring the medication if accompanied by a written authorization from the parent or legal

guardian. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). If the medications are brought by a student, the school nurse shall ask another school employee to verify, in the presence of the student the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-medication, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an *Individualized Health Plan* (IHP) may be given over-the-counter medications to the extent giving such medications are included in the student's IHP.

Schedule II Medications

The only Schedule II medications that shall be allowed to be brought to the school are methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse). For the student's safety, no student will be allowed to attend school if the student is currently taking any other Schedule II medication than permitted by this policy. Students who are taking Schedule II medications which are not allowed to be brought to school shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

The district's supervising registered nurse shall be responsible for creating both on campus and off campus procedures for administering medications.

Students who have written permission from their parent or guardian and a licensed health care practitioner to self-administer either a rescue inhaler or auto-injectable epinephrine, or both and who have a current consent form on file shall be allowed to carry and self-administer such medication while in school, at an on-site school sponsored activity, while traveling to or from school, or at an off-site school sponsored activity. Students are prohibited from sharing, transferring, or in any way diverting his/her medications to any other person. The fact that a student with a completed consent form on file can carry a rescue inhaler or auto-injectable epinephrine, or both does not require him/her to have such on his/her person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler or auto-injectable epinephrine, or both on his/her person shall provide the school with the appropriate medication which shall be immediately available to the student in an emergency.

Students may be administered Glucagon in emergency situations by the school nurse or, in the absence of the school nurse, a trained volunteer school employee designated as a care provider, provided the student has:

Emergency Administration of Epinephrine

The school nurse or other school employees designated by the school nurse as a care provider who have been trained and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an *Individualized Health Plan* (IHP) developed under Section 504 of the Rehabilitation Act of 1973 which provides for the administration of an epinephrine auto-injector in emergency situations. The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee certified to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with an order from and a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to

administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her epinephrine auto-injector or the nurse is unable to locate it.

The school nurse for each District school shall keep epinephrine auto-injectors on hand that are suitable for the students the school serves. The school nurse or other school employee designated by the school nurse as a care provider who has been trained and certified by a licensed physician may administer auto-injector epinephrine to those students who the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes is having a life-threatening anaphylactic reaction.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and regulations. **Legal References:** Ark. ADMINISTRATION OF MEDICATIONS PROCEDURES

Whenever possible, the White Hall School District requests that parents administer medication to their child at home before or after school. White Hall Schools recognize some medications are best given at Noon or another time during the school day to optimally enhance the student's educational experience.

- 1) All medication should be delivered to the school office by the student's parent/guardian in the original pharmacy-labeled or manufacturer's container. (Most pharmacists will provide an extra labeled prescription bottle for school use if asked). A medication release form will also be filled out at the time the medicine is brought to school.
- 2) Students are not allowed to have medication in their possession on school property or buses, except for inhalers, and epi-pens. For a student to carry an inhaler a self-medication form must be on file in the health office.
- 3) School staff will administer UP TO 4 DOSES per semester of pain reliever or other non-prescription medication with **PARENTAL PERMISSION** (Student Health Information sheet found in the Student Handbook). White Hall Schools will have a supply of acetaminophen (Tylenol) regular strength (See Tylenol Policy). A parent will be required to supply any other nonprescription medication to the health office in the original container for their child. **NO ZIPPER BAGS WILL BE ACCEPTED.** The decision to administer medication under these conditions will be at the discretion of the school nurse. In the absence of a Health Services staff member each building administrator will make the decision if nonprescription medications will be dispensed. Students will not be administered medication more than the dosage stated on the bottle's directions. No more than one dose of medicine will be given during the school day without a DOCTOR'S ORDER.
- 4) A **DOCTOR'S ORDER** is **REQUIRED** for prescription medication or nonprescription medication after the first 4 doses and a *Medication Release Form* must be completed before medication can be given to a student.
- 5) In the absence of the school nurse, or if the student is away on a field trip, school staff trained by the nurse and delegated by the nurse or principal may administer medication if all appropriate paperwork is in place. However, medication not ordered by a physician and is nonprescription will be administered at the discretion of the building administrator.
- 6) Homeopathic substances or vitamins will not be given at school without a licensed doctor order and a completed Medication Release Form. Students are not allowed to self-administer these items at school.
- 7) **ALL MEDICATIONS MUST BE PICKED UP BY A PARENT/GUARDIAN.** Any medications not picked up at the end of the school year will be delivered to the Arkansas Department of Health for disposal. ***If a situation arises where this policy cannot be met, a parent/guardian may come to school to administer medication to their child in the school office.*

BENADRYL POLICY

White Hall Schools will only use Benadryl in the case of an allergic reaction. We will not administer Benadryl for cold and congestion symptoms, unless ordered by a physician. Due to the nature of Benadryl and the most common side effect causing drowsiness, parents will be notified before the Benadryl is to be given and the student will need to be picked up from school.

CONTAGIOUS ILLNESS POLICY

It is our goal in Health Services to keep students healthy, in class, and learning. However, there are times when a student is sick or potentially contagious to other students and staff. When these times are observed parents/guardians will be contacted to pick up their child.

Parents/Guardians will be notified with the following conditions:

- *Temperature of 100 or higher;
- *Vomiting;
- *Diarrhea (if it interferes with classes);
- *Infections of the eyes;
- *Any open draining wound that has not been medically treated.

FEVER POLICY

Any student running a temperature of 100 degrees or greater will be sent home. Tylenol will be given with prior written permission by parents (Student Health Information Sheet in the Student Handbook).

Students should stay home until they are fever free for 24 hours without taking medication to reduce temperature.

Should your student get sent home the remainder of the day will be an excused absence, however, any day after that will either be a parent call-in excused day (if any are available), a medical excused day with a note from a doctor, or an unexcused day (if no parent call-in days are left).

HEAD LICE (Pediculosis)

The fact that head lice are transmitted from one person to another necessitates that students infested with lice be excluded from school until full treatment has been completed. Effective control of head lice in the public schools is essential; therefore, the following procedure will be followed in the identification and treatment of students with lice. Identification of infestation will be made by the school nurse, principal or other trained school personnel.

Parents will be required to come to school immediately and pick-up student for treatment. Information regarding treatment of student and home environment will be given to parent or legal guardian at that time. Proof of treatment (child must be lice and nit free) must be given to school personnel upon return to school.

Because pediculosis has varying effects on eggs or nits, the student must have all nits removed from hair. The benefit of nit removal is as follows:

1. Prevents self-re-infestation or transmission to others during the five (5) to seven (7) days prior to second treatment.
2. It eliminates diagnostic confusion and documents treatment for school nurse.
3. Reduces the need of pediculosis thereby permitting use of less toxic products.
4. Encourages parents to check children's hair often, which is the best form of prevention and control.
5. Students with 20% to 30% viable nits left in hair after shampooing are considered to still have lice and therefore will be excluded from school until nits are removed from hair.
6. Proof of secondary treatment will be given to school personnel seven (7) to ten (10) days after initial treatment. (Required to produce product label that was used in treatment.)
7. Environmental spraying of schools is to be avoided to the maximum extent possible. These sprays are of questionable benefit and can be toxic in the vaporous state; therefore, they are potentially harmful.

HEALTH CARE PLANS

All students identified with a chronic medical condition will require a student health care plan be initiated on them. Parents will be contacted to set up a Health Conference with the District RN. At the meeting health information will be reviewed and paperwork will be updated as needed.

HEALTH AND SAFETY

The school nurse/health aide is on duty during school hours. She is available to students who become ill or injured during school hours and will contact a parent/guardian when the situation warrants. Feel free to contact her with any questions or comments regarding the health and safety of your child. Because most of your child's waking hours are spent at school it is important that we have their health information on file as well as emergency contact names and phone numbers. Please update these with the school office when necessary.

ILLNESS/ACCIDENT

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student's parent or legal guardian. The student will remain in the school's health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school. Students who are eighteen (18) years of age or older are legal adults, and as such have the right to check themselves out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school's expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student's emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

Students with minor injuries occurring at school will be treated and returned to class. First aid treatments and preparations used are in accordance with Red Cross First Aid as recommended by the Arkansas State Board of Education, School Health Services Program.

LIFE-THREATENING MEDICAL CONDITIONS

If your child has been diagnosed with asthma, a severe allergy, or any other life-threatening illness, please provide the appropriate medication as prescribed by your child's physician to be kept at school for such emergencies. Having your child's medications immediately available is very important. It is acceptable for students to carry and self-administer inhalers for asthma and epi-pens for severe allergies. The proper paperwork must be on file in the office stating parental responsibility and physician's recommendation for self-administration. Duplicate medications should be kept in the Health Office.

PHYSICAL EXAMINATIONS OR SCREENINGS

The district conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The intent of the exams or screenings is to detect defects in hearing, vision, or other elements of health that would adversely affect the student's ability to achieve to his/her full potential.

The rights provided to parents under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by providing certification from a physician that he/she has recently examined the student.

This policy is not intended to and does not cover invasive physical examinations. "Invasive Physical Examinations" is defined in federal law as any medical examination that involves the exposure of private body parts, or any act during such

examination that includes incision, insertion or injection into the body. It is our understanding that most students who would receive an invasive physical examination would do so as part of the student's individual health plan (IHP) or while at a school-based health clinic; neither situation is intended to be covered by this policy.

In the event a student did not fall under one of the above situations, districts should be aware that an invasive physical examination requires that the student's parent/legal guardian be "directly" notified of the specific or approximate dates (to the extent known) during the school year when the invasive physical examination is scheduled within a reasonable period that would provide the parent and opportunity to object. Parents of a student whose IHP covers an invasive physical examination have granted permission for that specific type of exam as part of the establishment of the IHP.

"Directly notified" means by mail or email; inclusion in the student handbook does not meet the law's requirements.

Districts with students who participate as athletes in the Arkansas Special Olympics programs should be aware that the student's physical examination for participation in the program must be signed by either an advanced practice nurse or a licensed physician. Many of the participating students often have multiple health challenges, which can sometimes be deadly in the right circumstances (These are often referred to as "co-morbidities".) As a result, it is important that the Special Olympics athlete medical form be completed by the parent and the qualified health care provider. *A.C.A. § 6-18-701 (b), (c), (f)*

ANNUAL SCREENINGS-ELEMENTARY SCHOOLS

Dental: All students in Kindergarten, 1st, 2nd, and 3rd grades receive a dental screening. The exam is performed by a local dentist and a letter with his/her findings will be sent home.

Vision and Hearing: All students in Kindergarten, 1st, 2nd, 4th, 6th, and transfer students will have vision and hearing screenings. Should a student have difficulty with either screening, a letter of referral will be sent home.

Body Mass Index (BMI): All students in Kindergarten, 2nd, 4th, 6th, 8th, and 10th will have height and weight measured for BMI in accordance with current Arkansas School Law. A letter with the results will be sent home at the end of the school year.

Scoliosis (curvature of the spine): 6th grade female students and all 8th grade students are to be screened for scoliosis. You will be notified prior to the screening. Should any abnormalities be discovered, a letter of referral will be sent home.

Head Lice

Students will be sent home if they are found to have live lice in their hair. Students sent home with head lice must be rechecked by the nurse before being re-admitted to class. Proof of treatment is also required.

Kindergarten Physicals

Any student registering for Kindergarten must have a current physical exam by a licensed physician as well as a complete immunization record.

TYLENOL POLICY

Tylenol (acetaminophen) will be given as directed on the label for fever, headaches, or mild pain. A student will only be given Tylenol 4 times per semester unless ordered otherwise by a doctor. (Please see the Medication Policy for further explanation).

HOME SCHOOLING

Enrollment in Home School

Parents or legal guardians desiring to provide a home school for their children shall give written notice to the Superintendent of their intent to home school. The notice shall be given:

1. At the beginning of each school year, but no later than August 15;

2. Fourteen (14) calendar days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive absences) and at the beginning of each school year thereafter; or
3. Within thirty (30) calendar days of the parent or legal guardian establishing residency within the district during the school year.

Written notice of the parent or legal guardian's intent to home school shall be delivered to the Superintendent through any of the following methods:

- Electronically, including without limitation by email;
- By mail; or
- In person.

The notice shall include:

- a. The name, sex, date of birth, grade level, and the name and address of the school last attended, if any;
- b. The mailing address and telephone number of the home school;
- c. The name of the parent or legal guardian providing the home school;
- d. Indicate if the home-schooled student intends to participate in extracurricular activities during the school year;
- e. A statement of whether the home-schooled student plans to seek a high school equivalency diploma during the current school year;
- f. A statement if the home-school student plans to seek a driver's license during the current school year;
- g. A statement that the parent or legal guardian agrees that the parent or legal guardian is responsible for the education of their children during the time the parents or legal guardians choose to home school; and
- h. A signature of the parent or legal guardian, which must be notarized if the home-schooled student plans to seek a driver's license during the school year.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information that might indicate the need for special education services.

Enrollment or Re-Enrollment in Public School

A home-schooled student who wishes to enroll or re-enroll in a District school shall submit:

- A transcript listing all courses taken and semester grades from the home school;
- Score of at least the thirtieth percentile on a nationally recognized norm-referenced assessment taken in the past year; and
- A portfolio of indicators of the home-schooled student's academic progress, including without limitation:
 - Curricula used in the home school;
 - Tests taken, and lessons completed by the home-schooled student; and
 - Other indicators of the home-schooled student's academic progress.

If a home-schooled student is unable to provide a nationally recognized norm-referenced score, the District may either assess the student using a nationally recognized norm-referenced assessment or waive the requirement for a nationally recognized norm-referenced assessment score.

A home-schooled student who enrolls or re-enrolls in the District will be placed at a grade level and academic course level equivalent to or higher than the home-schooled student's grade level and academic course level in the home school:

1. As indicated by the documentation submitted by the home-schooled student;
2. By agreement between the public school and the home-schooled student's parent or legal guardian; or
3. If the home-schooled student fails to provide the documentation required by this policy, except for the nationally recognized norm-referenced assessment score, the District may have sole authority to determine the home-schooled student's grade placement and course credits. The District will determine the home-schooled student's grade placement and course credits in the same manner the District uses when determining grade placement and course credits for students enrolling or re-enrolling in the District who attended another public or private school.

The District shall afford a home-schooled student who enrolls or re-enrolls in a public school the same rights and a privilege enjoyed by the District's other students. The District shall not deny a home-schooled student who enrolls or re-enrolls in the District any of the following based on the student having attended a home school:

- a. Award of course credits earned in the home school;
- b. Placement in the proper grade level and promotion to the next grade level;
- c. Participation in any academic or extracurricular activity;
- d. Membership in school-sponsored clubs, associations, or organizations;
- e. A diploma or graduation, so long as the student has enrolled or re-enrolled in the District to attend classes for at least the nine (9) months immediately prior to graduation; or
- f. Scholarships.

HOMELESS STUDENTS

The White Hall School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

Receive appropriate time and training to carry out the duties required by law and this policy;

- coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - Are enrolled in school;
 - Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and
- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child: Continue the child's or youth's education in the school of origin for the duration of homelessness:

- In any case in which a family becomes homeless between academic years or during an academic year; and
- For the remainder of the academic year, if the child or youth becomes permanently housed during an academic

- year; or
- Enroll the child or youth in any public school that non-homeless students who live in the attendance area in which the child or youth is living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and are:

- Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
 - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
 - Living in emergency or transitional shelters;
 - Abandoned in hospitals; or
 - Awaiting foster care placement;
- A. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- B. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- C. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is part of the student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13. LEA liaisons who receive appropriate training may now affirm that a child or youth who is eligible for and participating in a program provided by the LEA, or the immediate family of such a child or youth, is eligible for homeless assistance programs administered under Title IV of the McKinney Vento Homeless Education Assistance Improvements Act without further determinations from other governmental entities.

The District's liability for transportation is more fully covered by 42 U.S.C. § 11432(g) (1) (J) (iii) (I) and (II), which read as follows: *If the child or youth continues to live in the area served by the local educational agency in which the school of origin is located, the child's or youth's transportation to and from the school of origin shall be provided or arranged by the local educational agency in which the school of origin is located.*

(II) If the child's or youth's living arrangements in the area served by the local educational agency of origin terminate and the child or youth, though continuing the child's or youth's education in the school of origin, begins living in an area served by another local educational agency, the local educational agency of origin and the local educational agency in which the child or

youth is living shall agree upon a method to apportion the responsibility and costs for providing the child or youth with transportation to and from the school of origin. If the local educational agencies are unable to agree upon such method, the responsibility and costs for transportation shall be shared equally 42 U.S.C. § 11431 et seq., 42 U.S.C. § 11431 (2), 42 U.S.C. § 11432(g) (1) (H) (I), 42 U.S.C. § 11432(g) (1) (H) (I)

HOMEWORK POLICY

It shall be the policy of the board of directors to delegate the responsibility of assigning homework for students to professional staff in accordance with the following principles and guidelines:

- A. Homework in grades K-12 will be assigned in accordance with the following principles and guidelines:
1. Assignments will be assigned to provide either massed practice for a skill/concept recently learned or distributive practice for a skill/concept, which was learned earlier, but review is needed to maximize retention.
 2. Massed practice of a new skill/concept is essential to achieve a high degree of mastery.
 3. Distributive practice (review) of previously learned skills/concepts is essential to promote maximum retention and recall.
 4. Practice is most effective if it is provided in short frequent sessions.
 5. Guided practice under the supervision of a teacher prior to independent practice is essential to ensure that the learner practices the skill/concept correctly.
 6. The more specific the linkage of practice to the skill/concept being taught for mastery or review, the more likely positive results will be achieved.
 7. The level of difficulty and complexity of practice must be at or below the level at which the learner may proceed without supervision and guidance.
 8. Increased meaningfulness of the practice increases the probability of effectiveness.
 9. Practice of specific and small bits of learning is most effective if meaning is not compromised.
- B. The following guidelines will be observed by professional staff in homework assignments:
1. Assignments will be considered as an extension of the classroom instruction for either independent skill practice for mastery or for review of previously mastered skills.
 2. Assignments will not involve skills/concepts, which have not been previously taught.
 3. Assignments to achieve mastery of new skills/concepts will focus specifically on these skills to promote mastery in a more effective and efficient manner.
 4. Assignments to achieve mastery of new skills/concepts will follow guided practice to ensure that the learner can successfully practice the skill/concept accurately.
 5. Maximum use of classroom time for input and supervised study should be planned for each lesson. Some homework assignments can best be accomplished during supervised study conducted as part of the allotted instructional period.
 6. Assignments will be designed to provide short frequent practice sessions focused on small segments of learning while maintaining maximum meaning for the learner.
 7. Assignments will be made which address common needs of groups of learners and specific needs of individuals rather than automatically assigning common homework to all learners without regard to individual learner's need or purpose of the assignment.
 8. Staff should provide immediate feedback to the learner. The feedback should communicate specifically what aspects of the assignment are correct and incorrect. At the elementary level, the time between completing the assignment and receiving knowledge of results should range from immediate to twenty-four hours while at the secondary level, this range should be from immediate to not more than three (3) days.
 9. Professional staff will exercise judgment relative to the quantity and frequency of homework assignments in relation to the above principles and guidelines. The emphasis will be on quality rather than quantity. The following guidelines should be considered in doing homework assignments:

Grades K-1

- a. Frequency of assignments: 2-3 days per week.
- b. Total time required to complete daily assignments: 15-30 minutes.

Grades 2-3

- a. Frequency of assignments: 3-4 days per week.

IMMUNIZATIONS

Definitions

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

"Serologic testing" refers to a medical procedure used to determine an individual's immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted attending classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubeola) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

- A. Licensed physician;
- B. Health department;
- C. Military service; or
- D. Official record from another educational institution in Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating "up-to-date", "complete", "adequate", and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student's record.

To continue attending classes in the District, the student must have submitted:

- 1) Proof of immunization showing the student to be fully age appropriately vaccinated;
- 2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, this includes a schedule of the student's next immunization;
- 3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or

- 4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization, waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student's admittance). No student shall be withdrawn and readmitted to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that is older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion from School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected. Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time. *Legal References: A.C.A. § 6-18-702, ADE Rules Governing Kindergarten through 12th Grade Immunization Requirements in Arkansas Public Schools, ADH Rules and Regulations Pertaining to Immunization Requirements*

The request shall be in writing not later than the 14th calendar day prior to the first day of classes at the beginning of the academic year. The school shall honor the request unless it would require the school to add an additional class to the sibling's grade level. If one parent of multiple birth siblings requests a placement that differs from that of the other parent of the same multiple birth siblings, the school shall determine the appropriate placement of the siblings.

The school may change the classroom placement of one or more of the multiple birth siblings if there has been a minimum of 30 instructional days since the start of the school year; and after consulting with each classroom teacher in which the siblings were placed, the school determines the parent's classroom placement request is:

1. Detrimental to the educational achievement of one or more of the siblings;
2. Disruptive to the siblings' assigned classroom learning environment; or
3. Disruptive to the school's educational or disciplinary environment.

If a parent believes the school has not followed the requirements of this policy, the parent may appeal the multiple birth siblings' classroom placement to the Superintendent. The Superintendent's decision regarding the appeal shall be final.

PRIVACY OF STUDENTS' RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the

school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, about an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may consider the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the White Hall School District does not distinguish between a custodial and noncustodial parent, and a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, "directory information" about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or the receipt of other types of

honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education (DOE) at Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 2020, *Legal References: A.C.A. § 9-28 -113(b)(6)20 U.S.C. § 1232g, 20 U.S.C. § 7908, 34 CFR 99.3, 99.7, 99.21, 99.22, 99.30, 99.31, 99.32, 99.33, 99.34, 99.35, 99.36, 99.37, 99.63, 99.64*

REMEDIATION

Any student in grades three through eight (3-8) failing to achieve at the proficient level on the state mandated Criterion Reference Test (CRT) and any student in grades Kindergarten through two (K-2) failing to score at the proficient level on the state mandated Norm Reference Test (NRT) shall be placed on an academic improvement plan (AIP) or (IRI) Intensive Reading Intervention.

All students scoring below the proficient level on the Math and/or Literacy sections of the previous spring Benchmark Exam and/or the End-Of-Course Algebra I Exam will be required to participate in a mandatory school remediation program.

ACT 35 does not allow students who score below proficient to opt out of the remediation program. Remedial instruction provided in grades K -12 may not be in lieu of English, Mathematics, Science, or Social Studies, or other core subjects required for graduation. The district shall determine the extent of the required participation in remediation as set forth in the student academic improvement plan (AIP). ACT 35 established that students in grades one through eight (1-8) *scoring below proficient* who do not participate in remedial programs developed by the schools, shall be retained.

Any student that has an AIP and fails to remediate, but scores at the Proficient level on the criterion-referenced assessments, shall not be retained.

RESIDENCE REQUIREMENTS

Definitions:

"In loco parentis" means relating to the responsibility to undertake the care and control of another person in the absence of:

1. Supervision by the person's parent or legal guardian; and
2. Formal legal approval.

“Reside” means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

“Resident” means a student whose parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis reside in the school district.

“Residential address” means the physical location where the student’s parents, legal guardians, persons having ~~legal~~ lawful control of the student ~~under order of a court~~, or persons standing in loco parentis reside. A student may use the residential address of a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty one (21) years whose parents, legal guardians, ~~or other~~ persons having lawful control of the student, or person standing in loco parentis reside within the District¹ and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing in loco parentis for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District’s schools separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing in loco parentis, the student is required to reside in the District for a primary purpose other than that of school attendance. However, a student previously enrolled in the district who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools. A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and his/her child or ward reside outside the district.

Children whose parent or legal guardian relocates within the state due to a mobilization, deployment, or available military housing while on active duty in or serving in the reserve component of a branch of the United States Armed Forces or National Guard may continue attending school in the school district the children were attending prior to the relocation or attend school in the school district where the children have relocated. A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian. *Legal References: A.C.A. § 6-4-302; A.C.A. § 6-18-107; A.C.A. § 6-18-202; A.C.A. § 6-18-203; A.C.A. § 9-28-113*

SCHOOL CHOICE (Arkansas Opportunity Public School Choice Act.) **Standard School Choice**

Exemption

The District is under an enforceable desegregation court order/court-approved desegregation plan¹ that explicitly limits the transfer of students between school districts and has submitted the appropriate documentation to the ~~Arkansas Department of~~ Division of Elementary and Secondary Education (ADESE). As a result of the desegregation order/desegregation plan, the District is exempt from the provisions of the Public School Choice Act of 2015 (Standard School Choice) and the Arkansas Opportunity Public School Choice Act ~~of 2004~~ (Opportunity School Choice). The District shall notify the superintendents of each of its geographically contiguous school districts of its exemption. The exemption prohibits the District from accepting any school choice applications from students wishing to transfer into or out of the District through standard School Choice or Opportunity School Choice.

Definition

"Sibling" means each of two (2) or more children having a parent in common by blood, adoption, marriage, or foster care.

Transfers into the District

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline; and the requirements and procedures for participation in the program; and include contact information for the primary point of contact at the District for school choice questions. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this District along with a copy to the student's resident district. Except for students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, ~~the~~ the transfer application must be postmarked, or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date, and time stamp all applications the District receives as both the resident and nonresident district as they are received in the District's central office. ~~It is the District's responsibility to send a copy of the application that includes the date and time stamp to the student's resident district within ten (10) days of the District receiving the application.~~⁷ Except for applications from students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, applications ~~Applications~~ postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

Students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base may apply and transfer at any time if the student's application:

1. Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
2. Includes the parent's or guardian's military transfer orders; and
3. Includes the parent's or guardian's proof of residency on the military base.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached. The superintendent shall contact a student's resident district to determine if the resident district's three percent (3%) cap has been met.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the

enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.⁸⁷

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who ~~either~~ fails to initially enroll under the timelines and provisions provided in this policy; ~~who~~ chooses to return to his/her resident district; or ~~who~~ enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School Choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against based on gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.⁹⁸

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the District.

An application may be provisionally rejected if the student's application was beyond the student's resident district's three percent (3%) cap. The student's resident district is responsible for notifying this District that it is no longer at its three percent (3%) cap. If a student's application was provisionally rejected due to the student's resident district having reached its three percent (3%) cap and the student's resident district notifies this District that it has dropped below its three percent (3%) cap prior to July 1, then the provisional rejection may be changed to a provisional acceptance and the student would have to meet the acceptance requirements to be eligible to enroll in the District.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 15 of the immediately preceding year. By December 15 of each year, ADESE shall determine and notify the District of the net number of allowable choice transfers. Students are not counted for determining the three percent (3%) cap if the student transfers:

- Through Opportunity School Choice due to the school receiving a rating of "F" or a district classified as in need of Level 5 Intensive Support under A.C.A. § 6-18-227;
- Due to the district's identification of Facilities Distress under A.C.A. § 6-21-812; or

- Through the Foster Child School Choice under A.C.A. § 6-18-233.

If, prior to July 1, the District receives enough copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect. The District shall immediately notify all receiving districts if it should drop back below its three percent (3%) cap prior to July 1.

When the last successful application requesting to transfer out of the District before the District's three percent (3%) cap was triggered belonged to an individual who was a member of a group of siblings who applied to transfer out of the District, the District shall allow all members of the individual's sibling group to transfer out of the District even though these applications are beyond the District's transfer cap.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences:

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student's resident district remains in facilities distress;
- The student is not required to meet the ~~June~~ May 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers into or Within the District

For the purposes of this section of the policy, a "lack of capacity"¹²¹ is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the ADESE Rules for the Standards of Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity¹²¹ at the District's school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student may transfer from the student's assigned school to another school in the District¹⁰ or from the student's resident district into the District if:

- Either:
 - The student's resident district has been classified by the state board as in need of Level 5 — intensive support; or
 - The student's assigned school has a rating of "F"; and
- By May 1 of the year before the student intends to transfer, the student's parent, guardian, or the student if the student is over eighteen (18) years of age has applied of the student's request to transfer to the:
 - DESE;
 - Sending school district; and
 - Receiving school district.

A student is not required to meet the May 1 application deadline if the student has a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base. The student may transfer at any time if the student's application:

- Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
- Includes the parent's or guardian's military transfer orders; and
- Includes the parent's or guardian's proof of residency on the military base.

Within thirty (30) days from receipt of an application from a student seeking admission under this section of the policy, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether

the Opportunity School Choice application has been accepted or rejected. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection. A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

A student's transfer under Opportunity School choice is effective at the beginning of the next school year and the student's enrollment ~~under Opportunity School Choice~~ is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity School Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school ~~has been classified by the ADE as being in academic distress~~ receives a rating of "F" or the District has been classified by ~~ADE~~ the State Board as in need of Level 5 Intensive Support, the District shall timely notify ~~the~~ parents, guardians, or students, if ~~the student is~~ over eighteen (18) years of age, as soon as practicable after the ~~academic distress or in need of Level 5 Intensive Support school or district~~ designation is made of all options available under Opportunity School Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to submit an application to enroll the student in any public school or school district that has not been classified by the ADE as a public school in academic distress or a school district that has not been classified by the State Board as in need of Level 5 Intensive Support or in a public school that does not have a rating of "F".

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.¹⁵⁴

Unsafe School Choice Program

Any student that becomes the victim of a violent criminal offense while in or on the grounds of a District school or who is attending a school classified by ADESE as a persistently dangerous public school shall be allowed to attend a safe public school within the District. *Legal References:* A.C.A. § 6-1-106; A.C.A. § 6-13-113; A.C.A. § 6-15-2915; A.C.A. § 6-18-227; A.C.A. § 6-18-233; A.C.A. 18-320; A.C.A. § 6-18-510; A.C.A. § 6-18-1901 et seq.; A.C.A. § 6-21-812; DESE Rules Governing the Guidelines, Procedures and Enforcement of the Arkansas Opportunity Public School Choice Act; DESE Rules Governing the Public-School Choice Act of 2015

SCHOOL LUNCH SUBSTITUTIONS

The district only provides substitute meal components on menus to accommodate students with handicapping conditions meeting the definition of a disability as defined in USDA regulations. A parent/guardian wishing to request such a dietary accommodation must submit to the district's Director of Child Nutrition a Certification of Disability for Special Dietary Needs Form completed by a:

- Physicians, including those licensed by:
 - a) The Arkansas State Medical Board;
 - b) The Arkansas State Board of Chiropractic Examiners (Chiropractors);

- c) The Arkansas Board of Podiatric Medicine (Podiatrists);
- Nurse Practitioners (APRNs in family or pediatric practice with prescriptive authority);
 - Physician Assistants (PAs who work in collaborative practice with a physician); and
 - Dentists

The district will not prepare meals outside the normal menu to accommodate a family's religious or personal health beliefs. *Commissioner's Memo FIN-09-044, Commissioner's Memo FIN-15-122, 7 CFR 210.10(g).*

SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given, and the student will be allowed to be present along with an adult witness; however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive considering the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Department of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee and leave both a day and an after-hours telephone number. SECTION 504 (REHABILITATION ACT of 1973)

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination against persons with a disability in any program receiving federal financial assistance. *Section 504* defines a person with a disability as anyone who:

1. Has mental or physical impairment which substantially limits one or more major life activities such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working;
2. Has a record of such impairment; or is regarded as having such impairment.

No discrimination against any person with a disability shall knowingly be permitted in any program or practice in the school district.

Under *Section 504*, the school district has the responsibility to identify, evaluate, and if the student is determined to be eligible under *Section 504*, to afford access to appropriate educational services. Students may be eligible for services under the provisions of *Section 504* even though they do not require services pursuant to the *Individuals with Disabilities Education Act (IDEA) P.L. 105-17*.

If any person believes that the White Hall School District or any of the District's staff has inadequately applied the principles and/or regulations of *Section 504* of the *Rehabilitation Act of 1973*, he/she may bring forward a complaint, which shall be referred to as a grievance. The District 504 Coordinator may be contacted for information regarding grievances. (870-247-2196.)

SELLING MERCHANDISE OR SOLICITING FUNDS

The selling of merchandise or soliciting funds for non-school related activities at any school in the White Hall District must be approved in advance by the School Board.

Food items sold to raise funds for school activities and activities approved by the Board must be prepared in a place approved by the county, state, or federal agency. The school will not be held responsible for lost or stolen merchandise or money.

Students cannot sell or take orders for any items or fundraisers not approved by the principal. Students selling any item on campus without approval of the principal will have all merchandise, money, and order forms confiscated and disciplinary action may be taken.

SEXUAL HARASSMENT/STUDENT

The White Hall School District is committed to providing an academic environment that treats all students with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to: the nature of sexual harassment; the District's written grievance procedures for complaints of sexual harassment;¹ that the district does not tolerate sexual harassment; that students can report inappropriate behavior of a sexual nature without fear of adverse consequences; the redress that is available to the victim of sexual harassment;² and the potential discipline for perpetrating sexual harassment.

"Sexual harassment" means conduct that is:

1. Of a sexual nature, including, but not limited to:
 - a. Sexual advances;
 - b. Requests for sexual favors;

- c. Sexual violence; or
- d. Other personally offensive verbal, visual, or physical conduct of a sexual nature;
- 2. Unwelcome; and
- 3. Denies or limits a student's ability to participate in or benefit from any of the District's educational programs or activities through any or all the following methods:
 - a. Submission to the conduct is made, either explicitly or implicitly, a term or condition of an individual's education;
 - b. Submission to, or rejection of, such conduct by an individual is used as the basis for academic decisions affecting that individual; and/or
 - c. Such conduct has the purpose or effect of substantially interfering with an individual's academic performance or creates an intimidating, hostile, or offensive academic environment.

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature that has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all the surrounding circumstances and may occur regardless of the sex of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;
- Performing sexual gestures or touching oneself sexually in front of others;
- Telling sexual or crude jokes;
- Spreading rumors related to a person's alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of if the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will aid on the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Complaints will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to: individuals who are responsible for handling the District's investigation to the extent necessary to complete a thorough investigation; the extent necessary to submit a report to the child maltreatment hotline; the Professional Licensure Standards Board for complaints alleging sexual harassment by an employee towards a student; or the extent necessary to provide the individual accused in the complaint due process during the investigation and disciplinary processes. Individuals who file a complaint have the right to request that the individual accused of sexual harassment not be informed of the name of the accuser; however, individuals should be aware that making such a request may substantially limit the District's ability to investigate the complaint and may make it impossible for the District to discipline the accused.

Students, or the parents/legal guardians/ other responsible adult of a student, who file a complaint of sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats, intimidation, coercion, or discrimination. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who filed the complaint:

- The final determination of the investigation;
- Remedies the District will make available to the student; and
- The sanctions, if any, imposed on the alleged harasser relevant to the student.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who was accused of sexual harassment in the complaint:

- The final determination of the investigation; and
- The sanctions, if any, the District intends to impose on the student.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following an investigation, any student who is found by the evidence to more likely than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals, who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

The U.S. Department of Education Office of Civil Rights requires that there are separate written grievance procedures in addition to the written policy. The grievance procedures should include the following:

- A statement of the school's jurisdiction over Title IX complaints;
- Adequate definitions of sexual harassment (which includes sexual violence) and an explanation as to when such conduct creates a hostile environment;
- Notice of where complaints may be filed;
- Reporting policies and protocols, including provisions for confidential reporting;
- Identification of the employee or employees responsible for evaluating requests for confidentiality;
- Provisions for adequate, reliable, and impartial investigation of complaints, including the opportunity for both the complainant and alleged perpetrator to present witnesses and evidence;
- Designated and reasonably prompt time frames for the major stages of the complaint process;
- Written notice to the complainant and alleged perpetrator of the outcome of the complaint;
- Notice that Title IX prohibits retaliation;
- Notice of a student's right to file a criminal complaint and a Title IX complaint simultaneously;
- Notice of available interim measures that may be taken to protect the student in the educational setting;
- The evidentiary standard that must be used (preponderance of the evidence) (i.e., more likely than not that sexual harassment occurred) in resolving a complaint;
- Notice of potential remedies for students;
- Notice of potential sanctions against perpetrators;
- Sources of counseling, advocacy, and support; and
- Assurance that the school will take steps to prevent recurrence of any sexual harassment and remedy discriminatory effects on the complainant and others, if appropriate.

Depending on the specific nature of the problem, remedies for the complainant might include, but are not limited to:

- Providing an escort to ensure that the complainant can move safely between classes and activities;
- Ensuring that the complainant and alleged perpetrator do not attend the same classes;
- Moving the complainant or alleged perpetrator to another school within the district;
- Providing counseling services (which must be free of charge to the student);
- Providing medical services;
- Providing academic support services, such as tutoring
- arranging for the complainant to re-take a course or withdraw from a class without penalty, including ensuring that any changes do not adversely affect the complainant's academic record; and
- Reviewing any disciplinary actions taken against the complainant to see if there is a causal connection between the harassment and the misconduct that may have resulted in the complainant being disciplined.

Factors to be considered when a complainant requests no investigation, or no disciplinary action be taken include:

- Circumstances that suggest there is an increased risk of the alleged perpetrator committing additional acts of sexual harassment or other violence, which include:
 - Whether there have been other sexual harassment complaints about the same alleged perpetrator;
 - Whether the alleged perpetrator has a history of arrests or records from a prior school indicating a history of violence;
 - Whether the alleged perpetrator threatened further sexual harassment or other violence against the student or others; and
 - Whether the sexual harassment was committed by multiple perpetrators;
- Whether the student's report reveals a pattern of perpetration, such as illicit use of drugs or alcohol, at a given location or by a group that suggests there is an increased risk of future acts of sexual harassment under similar circumstances;
- Whether the sexual harassment was perpetrated with a weapon;
- The age of the student subjected to the sexual harassment; and
- Whether the school possesses other means to obtain relevant evidence, such as through security cameras, eye witness accounts, or physical evidence.

SILENCE (OBSERVANCE OF A MINUTE OF SILENCE)

Teachers shall implement the *Minute of Silence*, required by statute, during the first-class period of each school day. Teachers shall include the *Minute of Silence* in their *Classroom Schedules*.

SMART CORE/CORE CURRICULUM TRAINING

Beginning with the seventh-grade class, the Smart Core curriculum and Core curriculum are to be standard components of the required course of study to graduate from Arkansas public schools. Students are to enroll in the Smart Core curriculum, unless parents choose to substitute enrollment in the Core curriculum on the informed Consent form. Failure to complete the Smart Core curriculum for graduation may result in negative consequences such as conditional admission to college and ineligibility for scholarship programs.

All 7th grade students will choose from the following curriculum tracts to meet graduation requirements. Failure to complete the Smart Core curriculum for graduation may result in negative consequences such as conditional admission to college and ineligibility for scholarship programs.

Teachers in grades kindergarten through five (K-5) will be trained to recognize Smart Core/Core Curriculum requirements. The elementary building counselors will conduct the training prior to sixth grade student enrollment at White Hall Middle School.

SMOKING/TOBACCO/SMOKELESS TOBACCO PRODUCTS

The District adheres to the fundamental elements of a *Comprehensive Tobacco Policy* to include the following:

1. Prohibits against tobacco/nicotine/smokeless tobacco use by anyone:
 - a. on school property;
 - b. in school vehicles;
 - c. at school events on campus;
 - d. at school-sponsored events off campus.
2. Prohibits against:

Students are not to smoke, have in possession, or use any type of tobacco on the school campus at any time during the school day. The school day is from the time you arrive on the campus until you leave the campus in the afternoon. This policy applies while riding on any school bus, at ballgames and all extracurricular activities. Possession of lighters or matches can also lead to disciplinary action. See Appendix – Arkansas State Laws – Smoking (A.C.A. 6-21-609)

Disciplinary action will be as follows:

1st offense	5 days In-School Suspension
2nd offense	10 days In-School Suspension

SPECIAL EDUCATION IDEA (LEA) INFORMATION

The district shall provide a free appropriate public education and necessary related services to all children with disabilities residing within the district, as required under the Individuals with Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and Arkansas Statutes.

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the state and federal statutes governing special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding students with disabilities. Among the coordinator's responsibilities shall be ensuring district enforcement of the due process rights of students with disabilities and their parents. *Legal References: 34 C.F.R. 300 et seq., 42 U.S.C. §12101 et seq. STUDENT ACCELERATION

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. It can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based, and grade based. Grade based

acceleration shortens the number of years a student would otherwise spend in K-12 education, while content-based acceleration occurs within the normal K-12-time span. Either form of acceleration can be triggered by a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the District Program Coordinator who shall convene the individuals necessary to make an informed decision which shall include the student's parents or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year. The District's Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing to the District's Program Coordinator. The District's Program Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed. **Legal Reference: ADE Gifted and Talented Rules.**

STUDENT ASSAULT OR BATTERY

A student shall not threaten, physically abuse, or attempt to physically abuse, or behave in such a way as to be perceived to threaten bodily harm to any other person (student, school employee, or school visitor). Any gestures; vulgar, abusive, or insulting language; taunting, threatening, harassing, or intimidating remarks by a student toward another person that threatens their well-being is strictly forbidden. This includes, but is not limited to, fighting, racial, ethnic, religious, or sexual slurs.

Furthermore, it is unlawful, during regular school hours, and in a place where a public school employee is required to be in the course of his or her duties, for any person to address a public school employee using language which, in its common acceptation,

- a. Cause a breach of the peace;
- b. Materially and substantially interfere with the operation of the school; or
- c. Arouse the person to whom it is addressed to anger, to the extent likely to cause imminent retaliation.

Students guilty of such an offense may be subject to legal proceedings in addition to any student disciplinary measures. *Legal Reference: A.C.A. § 6-17-106 (a)*

STUDENT DISCIPLINE

The White Hall School Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs: ~~at any time on the school grounds; off school grounds at a school sponsored function, activity, or event; going to and from school or a school activity.~~

- At any time on the school grounds;
- Off school grounds at a school sponsored function, activity, or event; and
- Going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include but are not limited to: a felony or an act that would be considered a felony if committed by an adult; an assault or battery; drug law violations; or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

The District's ~~licensed~~ personnel policy committees shall annually review the District's student discipline policies, including State and District student discipline data, and may recommend changes in the policies to the White Hall School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent, ~~or~~ legal guardian, person having lawful control of the student, or person standing in loco parentis shall sign and return to the school an acknowledgement form documenting that they have received the policies.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion.

The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying. To satisfy a student's due process rights, for events both on and off campus, make sure that all special education requirements are met when those requirements apply. *Legal References: A.C.A. § 6-18-502; A.C.A. § 6-17-113*

STUDENT PROMOTION AND RETENTION

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually to help each student who is not performing at grade level. Parents or guardians shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary to improve a student's academic success.

At least once each semester, the parents and teacher(s) of a student in kindergarten through eighth (8th) grade shall be notified in writing of the student's independent grade-level-equivalency in reading.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria. A student's SSP shall use multiple academic measures to personalize learning for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student needs additional support or acceleration. Academic measures to be used in creating and updating a student's SSP shall include, but are not limited to:

- Local assessment scores.

By the end of grade eight (8), the student's SSP shall:

Based on a student's score on the college and career assessment:

- Provide a basis for counseling concerning postsecondary preparatory programs.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion/retention or graduation of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable; the Superintendent and/or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day. *Legal References: A.C.A. § 6-15-2001; A.C.A. § 6-15-2005; A.C.A. § 6-15-2006; A.C.A. § 6-15-2907; A.C.A. § 6-15-2911; A.C.A. § 9-28-205ADE Rules Governing the Arkansas Educational Support and Accountability Act Murphy v. A student or group of students wishing to distribute more than ten (10) copies of non-school materials shall have school authorities² review their non-school materials at least three (3) school days³ in advance of their desired time of dissemination. School authorities shall review the non-school materials, prior to their distribution and will bar from distribution those non-school materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school materials.

5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.
6. -Students shall be responsible for the removal of excess literature that is left at the distribution point for more than ___ days.

The Superintendent, along with the student ~~publications~~ media advisors, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials. *Legal References: A.C.A. § 6-18-1202, 1203, & 1204; Tinker v. STUDENT SUPERVISION

Students will be supervised on district elementary campuses from the time the first bus arrives in the morning until the last bus leaves in the afternoon.

STUDENT SUSPENSION

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period not to exceed ten (10) school days,¹ including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to, that:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension (OSS) shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus?

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether to suspend a student:

- a. The student shall be given written notice or advised orally of the charges against him/her;
- b. If the student denies the charges, he/she shall be explained the evidence against him/her and be allowed to present his/her version of the facts; and
- c. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), person(s) having lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the responsibility of a student's parents², ~~or~~ legal guardians², person having lawful control of the student, or person standing in loco parentis ~~responsibility~~ to provide current contact information to the district, which the school shall use to immediately notify the parent, ~~or~~ legal guardian, person having lawful control of a student, or person standing in loco parentis upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number;
 - The contact may be by voice, voice mail, or text message.
- An email address;
- A regular first-class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent, ~~or~~ legal guardian, person having lawful control of the student, or person standing in loco parentis.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of OSS.

During the period of their suspension, students serving OSS are not permitted on campus except to attend a student/parent/administrator conference or when necessary as part of the District's engagement or access to education program.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

STUDENT TRANSFERS

The White Hall School District shall review and accept or reject requests for transfers, both into and out of the district, on a case by case basis at the July and December regularly scheduled board meetings.

The District may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school. The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

Any student transferring from a school accredited by the ~~Department of~~ Division of Elementary and Secondary Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from a school that is not accredited by the ~~Department of Education~~ DESE to a District school shall be evaluated by District staff to determine the student's appropriate grade placement. A student transferring from home school will be placed in accordance with Policy 4.6—HOME SCHOOLING.

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.

Except as otherwise required or permitted by law, the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both. *Legal References:* A.C.A. § 6-15-504; A.C.A. § 6-18-316; A.C.A. § 6-18-317; A.C.A. § 6-18-510; A.C.A. § 9-28-113(b)(4); A.C.A. § 9-28-205;

STUDENTS WHO ARE FOSTER CHILDREN

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services "DHS", the Arkansas Department of Education (ADE), and individuals involved with each foster child to ensure that the foster child is able to maintain his/her continuity of educational services fully that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise or DHS grants a request to transfer under Foster Child School Choice, ensure that the foster child remains in his/her school of origin, even if a change in the foster child's placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is being.

Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by ADE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted, the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance. If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:

1. The public school or District has reached the maximum student-to-teacher ratio allowed under federal law, state law, rules for standards of accreditation, or other applicable rule or regulation; or
2. Approving the transfer would conflict with a provision of an enforceable desegregation court order or a public-school district's court-approved desegregation plan regarding the effects of past racial segregation in student assignment.

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

- Graduates from high school; or
- Transfers to another school or school district under:
- The Foster Child School Choice Act;
- Opportunity Public School Choice Act of 2004;
- The Public-School Choice Act of 2015; or
- Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public-school district.

When a foster child transfers from the foster child's school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child's transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

TARDIES

Promptness is an important character trait that District staff is encouraged to model and help develop in our schools' students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which compromises potential student achievement. Students are expected to arrive at school on time.

*A student is tardy at Gandy, Moody and Taylor if: (1.) The student checks in between 8:30 and 10:00 a.m. or (2.) checks out between 2:30-3:15.

*A student is tardy at Hardin if: (1.) The student checks in between 8:10 and 9:40 a.m. or (2.) checks out between 2:20-3:05.

Students who arrive after the tardy bell rings are late and must proceed to the office before going to classes to obtain a tardy slip. Students may be required to have parents present for a conference with the principal should the tardies continue.

1. Gandy, Moody, Taylor: Any student arriving to school after 10:00 a.m. (Gandy, Moody, Taylor) will be recorded as one-half ($\frac{1}{2}$) day absence for school attendance purposes.
2. Hardin Elementary only: Any student arriving to school after 9:40 a.m. (Hardin) will be recorded as one-half ($\frac{1}{2}$) day absence for school attendance purposes.
3. Gandy, Moody, Taylor: Any student who checks out of school prior to 2:30 p.m. will be recorded as one-half ($\frac{1}{2}$) absence for school attendance purposes.
4. Hardin Elementary only: Any student who checks out of school prior to 2:20 p.m. will be recorded as one-half ($\frac{1}{2}$) absence for school attendance purposes.
5. Any student missing more than one-half ($\frac{1}{2}$) during a regular school day will receive one (1) full day absence for school attendance purposes.
6. Any child arriving late to school **MUST** be signed-in by a parent or guardian. Sign-in and sign-out sheets will be used to determine documented absences.

The following disciplinary actions will be taken when a student accumulates five (5) or more tardies:

- a. Five (5) tardies will be counted as one-half ($\frac{1}{2}$) day of absence and a conference with the parent and principal will be required.
- b. Ten (10) tardies will be counted as one (1) day of absence and a conference with the parent and principal will be required.

TEXTBOOKS

Textbooks are free and will be issued by the school. Damaged, lost, or stolen books must be paid for by the student to whom the books were issued.

VEHICLES

Students, who have presented a valid driver's license and proof of insurance to the appropriate office personnel, may drive their vehicle to school. Vehicles driven to school shall be parked in the area designated for student parking.

- a. Vehicles will be parked upon arrival at school and remain until school is dismissed each day.
- b. Students will not sit in vehicles after arrival at school.
- c. Campus speed limit of 15 MPH will be observed for all vehicles before, during, and after school hours.
- d. Students will not enter or molest in any way the vehicle belonging to another person while on a school campus.
- e. The appropriate principal of the school will develop additional policies and regulations as may

- be required to ensure the safety and well-being of all students and adults.
- f. The superintendent of schools will approve such policies and regulations.
 - g. Students who ride motorcycles, motorbikes, or bicycles to school will be expected to observe all rules outlined above.
 - h. It shall be considered a student privilege to operate a vehicle on the school campus.
 - i. The violation of these rules will result in immediate loss of this privilege.

Students are not permitted to loiter in parking areas and are not to return to their vehicles for any reason unless given permission to do so by school personnel.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle.

VIDEO SURVEILLANCE AND ANOTHER STUDENT MONITORING

To promote a safe and orderly environment at White Hall Schools, surveillance cameras are installed in various locations around the school campus. The addition of security cameras allows school personnel to monitor the areas where students congregate such as hallways, courtyard, and cafeteria. This will also allow the monitoring of individuals who enter the building. All activities are recorded to aid in the prosecution of any crime or violation committed against the facility and/or individuals. This includes disciplinary actions taken by the campus administration.

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, except for places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy's following paragraph, the district's video recordings may be erased any time greater than __ after they were created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook; any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

While 34 CFR 99.3 exempts records of law enforcement units (which for the purposes of this policy would include SROs, 34 CFR 99.8(b) effectively negates that exemption in relation to this policy with the following language.

(i) Records of a law enforcement unit does not mean--

- (ii) Records created by a law enforcement unit for a law enforcement purpose that are maintained by a component of the educational agency or institution other than the law enforcement unit; or*
- (iii) Records created and maintained by a law enforcement unit exclusively for a non-law enforcement purpose, such as a disciplinary action or proceeding conducted by the educational agency or institution.*

The law goes on to say that education records retain their status as such even when in the possession of a law enforcement unit and thus remain subject to the restrictions on the release of education records contained in FERPA. In short, you cannot deny access to the video recordings that may be used for student or staff disciplinary purposes by “hiding” them in your school’s law enforcement unit. **Legal References:** 20 USC 1232(g), 20 usc 7115, 34 CFR 99.3, 4, 5, 7, 8, 10, 12, 31.

VISITORS

The board strongly believes that the purpose of school is for learning. Social visitors, generally, disrupt the classroom and interfere with learning that should be taking place. Therefore, visiting with students at school is strongly discouraged, unless approved by the principal and scheduled in advance. This includes visits made by former students, friends, and/or relatives of teachers or students. Any visitation to the classroom shall be allowed only with the permission of the school principal and all visitors must first register at the office.

Students are not allowed to bring visitors to school. This includes siblings, relatives, friends, etc. Parents are always welcome at school but are encouraged to make an appointment to see the principal or to visit their child’s class. All adult visitors and volunteers are required to check in at the school office upon arriving at school. White Hall Schools do not allow non-students on the school campus unless they have written permission to be on the campus from the principal of that campus. Non-students are any person or persons not enrolled at the school to include siblings, relatives, friends, former students, etc. ARKANSAS CODE 6-21-607 requires that if a person wishes to visit on the school ground or in the school building, such person *shall* present himself to the office of the school and receive permission to visit and a pass to indicate that proper permission has been granted. Please dress appropriately when visiting the campus, refrain from wearing clothing with inappropriate language printed on sweatshirts or t-shirts. Please refrain from wearing pajamas or clothing that exposes undergarments.

WATER FOUNTAIN/WATER BOTTLES

Students should form a single line along the wall when drinking or waiting to drink from the water fountain. Students should not push anyone while drinking or waiting to drink from the water fountain.

During times of extreme heat of 90 degrees or greater, the building principal may allow students to bring water bottles (NO POWER DRINKS...WATER ONLY) for personal water consumption. Parents will be notified when temperatures are expected to exceed normal levels and notify them whenever students are granted permission to bring extra water. A water bottle must not come to school with a broken seal. A water bottle must have the students name on it. The water bottle is not to be shared by other students. A student’s permission to bring a water bottle will be revoked if the student is distracted by being unable to properly use the water bottle or fails to be responsible for his/her water bottle.

The weapon shall be confiscated and held in the office until the student's parent/legal guardian shall pick up the weapon from the school's office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of ~~not less than~~ one (1) year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis.

Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property.² Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a firearm policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs; hunting safety or military education; or before or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. AHERA ASBESTOS HAZARD EMERGENCY RESPONSE ACT

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA, Public Law 99-519). The law required EPA to develop regulations which provide a comprehensive framework for addressing asbestos problems in public and private elementary and secondary schools. On October 30, 1987, EPA published the Asbestos-Containing Materials in Schools Rule [40CFR Part 763 Subpart E]. This New Rule requires all public and private elementary and secondary schools to inspect for friable and non-friable asbestos develop asbestos management plans that address asbestos hazards in school buildings and implement response actions in a timely fashion. This rule became effective December 14, 1987.

White Hall School District conducted a complete inspection of its facilities in July of 1988, utilizing the services of Larron Laboratory, 529 Broadway, Cape Girardeau, Missouri, (314) 334-8910. The results of this inspection have been included in a management plan. This management plan is available in the administrative offices of White Hall School District (and in the offices of each school) during normal business hours, without cost or restriction, for inspection by representatives of the EPA and the State, the public, including teachers, other school personnel and their representatives, and parents. White Hall School District may charge a reasonable cost to make copies of management plans.

Periodic surveillance is required every six (6) months and is conducted in January and July of each year. A re-inspection of our facilities is required every three (3) years. Any fiber release episodes and any activities involving the disturbance of the ACM are also recorded in the management plan.

The purpose of the Federal and State regulations is to protect the health and well-being of all persons entering the buildings of the White Hall School District. The district takes very seriously the recommendations made in the management plan and has taken the necessary steps to comply with State and Federal regulations.

If additional information pertaining to asbestos-related activities is needed, please contact the central office administration at any time during working hours.

ARKANSAS SCHOOL LAW GOVERNING SCHOOL ATTENDANCE

SECTION 1. Arkansas *Code 6-18-222* is hereby amended to read as follows:

(a)(1)(A) The board of directors of each school district in this state shall adopt a student attendance policy as provided for in 6-18-209 which shall include a certain number of excessive absences which may be used as a basis for denial of course credits, promotion, or graduation. However, excessive absences shall not be a basis for expulsion or dismissal of a student. The legislative intent is that a student having excessive absences because of illness, accident, or other unavoidable reason should be given assistance in obtaining credit for the course.

(2) A copy of the school district's student attendance policy shall be provided to the student's parents, guardians, or persons in loco parentis at the beginning of the school year or upon enrollment, whichever event first occurs.

(3) The student's parents, guardians, or persons in loco parentis shall be notified when the student is absent. Notice shall be by telephonic contact with the student's parents, guardians, or persons in loco parentis by the end of the school day in which such absence occurred or by regular mail with a return address on the envelope sent no later than the following school day.

(4) Whenever a student exceeds the number of excessive absences provided for in the district's or the State Board of Vocational Education's student attendance policy, the school district or the adult education program shall notify the prosecuting authority, and the student's parents, guardians, or persons in loco parentis shall be subject to a civil penalty in such an amount as a court of competent jurisdiction, presiding in the presence of a representative of the school district, may prescribe, but not to exceed five hundred dollars (\$500) plus costs of court and any reasonable fees assessed by the court. The penalty shall be forwarded by the court to the school or the adult education program attended by the student.

(5) The penalty set forth in this section is to impress upon the parents, guardians, or persons in loco parentis the importance of school attendance and is not to be used as a primary source of revenue. When assessing penalties, the court shall be aware of any available programs designed to improve the parent-child relationship or parenting

skills. When practicable and appropriate, the court may utilize mandatory attendance to such programs as well as community service requirements in lieu of monetary penalties.

(6) In cases where the court determines the student's absences cannot be attributed to the parents, guardians, or persons in loco parentis, the action may be suspended or dismissed conditioned on a petition being filed in juvenile court to seek services on behalf of the student.

(7) As used in this section, prosecuting authority means the elected district prosecuting attorney or his appointed deputy for schools located in unincorporated areas of the county or within cities not having a police or municipal court and means the prosecuting attorney of the city for schools located within the city limits of cities having either a police court or a municipal court in which a city prosecutor represents the city for violations of city ordinances or traffic violations.

(8) In any instance where it is found that the school district or prosecuting authority is not complying with the provisions of this section, the State Board of Education may petition the circuit court to issue a writ of mandamus.

(b)(i) Each public, private, or parochial school shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school.

(2)(A) Upon receipt of such notification, the Department of Finance and Administration shall notify the licensee by certified mail, return receipt requested, that his motor vehicle operator's license will be suspended unless a hearing is requested in writing within thirty (30) days from the date of notice.

(B) The licensee shall be entitled to retain or regain his license by providing the Department of Finance and Administration with adequate evidence that: (i) The licensee is eighteen (18) years of age; (ii) The licensee is attending school; or (iii) The licensee has obtained a high school diploma or its equivalent.

(C)(i) In cases where demonstrable financial hardship would result from the suspension of the learner's permit or driver's license, the Department of Finance and Administration may grant exceptions only to the extent necessary to ameliorate the hardship.

(ii) If it can be demonstrated that the conditions for granting a hardship were fraudulent, the parent, guardian, or person in loco parentis shall be subject to all applicable perjury statutes.

(D) The Department of Finance and Administration shall have the power to promulgate rules and regulations to carry out the intent of this section and shall distribute to each public, private and parochial school a copy of all rules and regulations adopted under this section.

ARKANSAS STATE LAWS

This list of Arkansas State Statutes directly related to students and other individuals on or about school property. Students may be suspended or expelled for violation of these statutes. Criminal charges may also be filed against students or other individuals who are in violation of these laws.

PROCEDURAL RULES AND REGULATIONS FOR STUDENT SUSPENSION

SUSPENSION FROM SCHOOL

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to that which:

5. Is in violation of school policies, rules, or regulations;
6. Substantially interferes with the safe and orderly educational environment;
7. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
8. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding if to suspend a student:

- d. the student shall be given written notice or advised orally of the charges against him/her;
- e. if the student denies the charges, he/she shall be explained the evidence against him/her and be allowed to present his/her version of the facts; and
- f. if the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parents' or legal guardians' responsibility to provide current contact information to the district, which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

1. A primary call number;
 - a. The contact may be by voice, voice mail, or text message.
2. An email address;
3. A regular first-class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent or legal guardian. During the period of their suspension, students serving out-of-school suspensions are not permitted on campus except to attend a student/parent/administrator conference.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board. Suspensions initiated by the Superintendent may be appealed to the Board. *A.C.A. § 6-18-507; Goss v Lopez, 419 U.S. 565 (1975); A.C.A. § 6-18-507*

- A. When a student is suspended for any reason, parents will be notified by letter and/or by telephone as soon as possible. Parents may be requested to come to school to pick up the suspended student. A parent conference with the parent and principal is required before student can be readmitted to school.
- B. Students returning to school will be required to obtain an admission slip from the office for admittance to class. This admission slip must be signed by each teacher and returned to the attendance office by the eighth period teacher.
- C. Any student who is under suspension may not practice, perform, or otherwise participate in any activity, either academic or extracurricular, sponsored by any school organization, for the duration of the suspension.
- D. Students receiving out of school suspension or In-School Suspension will not be permitted to attend school-sponsored dances during the school year.
- E. Any conduct that tends to be disruptive of the educational process will be grounds for suspension. Some infractions may result in a recommendation for expulsion at the discretion of the administration. Criminal charges may be filed.
- F. Abnormal or Irrational Behavior - Any student whose actions are abnormal, or irrational shall be suspended from class or from school by the principal.
- G. Some of the specific grounds for suspension and/or expulsion are:
 - 1. Fighting
 - 2. Gambling or wagering
 - 3. Truancy
 - 4. Defiant and hostile acts
 - 5. Insubordination – failure to comply with the reasonable instructions of authorized school personnel
 - 6. Disrespect for authority
 - 7. Destruction of school property – Student will also pay damages.
 - 8. Act involving moral turpitude
 - 9. Possession or use of tobacco products

 - 14. Possession/Use of firearms, knives or weapons of any kind
 - 15. Refusing to identify yourself to a school authority on campus or at any school sponsored activity.
 - 16. Theft
 - 17. Vandalism

SEE APPENDIX FOR PROCEDURAL RULES AND REGULATIONS FOR SUSPENSION AND EXPLUSION.

PROCEDURAL RULES AND REGULATIONS FOR STUDENT EXPULSION **STUDENT EXPULSION**

The principal of a school may recommend that a student be expelled from school with loss of credit and shall make said recommendation to the superintendent in writing which shall include a written statement of the charge or charges against the student. If the superintendent concurs with the recommendation, a hearing before the School Board will be scheduled. The School Board may expel a student for the remainder of the semester or for the remainder of the school year or permanently for conduct it deems to be of such seriousness as to make a suspension inappropriate, or where it finds that the student's continued attendance at school would be unacceptably disruptive to the educational program or would be attended with unreasonable danger to other students and faculty members. Permanent expulsion is appropriate only for those instances in which serious bodily harm occurred or reasonably could have been expected to occur to another person.

The superintendent or designee shall give written notice, mailed within five (5) calendar days from the alleged incident causing the expulsion recommendation, to the parent if the student is a minor or to the student if they are an adult. Such hearing will be conducted not earlier than three (3) calendar days or more than seven (7) calendar days following the date of the notice except that the superintendent and the student and the student's parents may agree in writing to a date not conforming to this limitation. The notice will also state charges against the student in clear and concise terms, the names of witnesses who will appear against the student, and a brief statement concerning the nature of their testimony.

In every case of a hearing held by a school board regarding the expulsion of a student, the president of the board, or another member selected by the board, shall preside at the hearing. The student shall be entitled to representation by a lawyer or counsel. The superintendent or designee shall present evidence and may present witnesses or statements of those persons having personal knowledge of the events or circumstances giving rise to the expulsion recommendation at the hearing. The student or representative may then present witnesses or statements by witnesses with personal knowledge of events or circumstances relevant to the issues. Normally, formal cross-examination will not be permitted. If, during the hearing, the board determines that the credibility of any of the witnesses is in issue, then it will permit cross-examination as to why credibility has become an issue. Such cross-examination should be limited to the question or questions as to which credibility of the witness has become an issue. Opportunity shall be afforded for the student to observe all evidence offered against them. Members of the board may question any witness.

After the hearing, the board may discuss the matter and will dispose of it by vote. If the board does not expel the pupil with loss of credit, they may impose less severe disciplinary actions such as long-term suspension which may be with or without opportunity for make-up of school work. The board shall briefly state its finding in writing within ten (10) days after the hearing.

The board shall cause to be made a record of the evidence taken at the proceedings by use of either a court reporter and/or tape recorder. If the student desires, the record will be transcribed, and a copy will be furnished to the student. Copies of all statements used as evidence will be included with the record.

The school administration has the responsibility to present evidence to the board and the administration is entitled to open and conclude. The president of the board or the presiding officer has the authority to limit unproductively long or irrelevant questioning by non-board members.

GROUP HEARINGS FOR SUSPENSION OR EXPULSION

When two or more students are charged with violating the same rule and have acted in concert and the facts are basically the same for all such students, a single hearing may be conducted for them if the president of the board believes the following conditions exist:

1. A single hearing will not result in confusion.
2. No student will have their interest substantially prejudiced by group hearing.

If during the hearing the president finds that a student's interest will be substantially prejudiced by the group hearing, a separate hearing may be ordered for that student.

USE OF TOBACCO SMOKELESS TOBACCO / PRODUCTS

The District adheres to the fundamental elements of a *Comprehensive Tobacco Policy* to include the following:

4. Prohibits against tobacco/nicotine/smokeless tobacco use by anyone:
 - a. on school property;
 - b. in school vehicles;
 - c. at school events on campus;
 - d. at school-sponsored events off campus.
5. Prohibits against:
 - a. students exhibiting tobacco-related gear or paraphernalia
 - b. tobacco industry sponsorship, marketing or giveaways

6. Procedures for implementing or enforcing the policy:
 - a. Students: Offer smoking prevention and cessation curriculum
 - b. Faculty/staff: Include information about tobacco cessation programs available within the community and/or Arkansas Tobacco Quit line (1-800-QUIT-NOW)

Students are not to smoke, have in possession, or use any type of tobacco on the school campus at any time during the school day. The school day is from the time you arrive on the campus until you leave the campus in the afternoon. This policy applies while riding on any school bus, at ballgames and all extracurricular activities. Possession of lighters or matches can also lead to disciplinary action. See Appendix – *Arkansas State Laws – Smoking (A.C.A. 6-21-609)*

VIDEO SURVEILLANCE AND ANOTHER STUDENT MONITORING

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, except for places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy's following paragraph, the district's video recordings may be erased any time one week after created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook; any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

While 34 CFR 99.3 exempts records of law enforcement units (which for the purposes of this policy would include SROs, 34 CFR 99.8(b) effectively negates that exemption in relation to this policy with the following language.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

1. Records of a law enforcement unit does not mean
2. Records created by a law enforcement unit for a law enforcement purpose that are maintained by a component of the educational agency or institution other than the law enforcement unit; or
3. Records created and maintained by a law enforcement unit exclusively for a non-law enforcement purpose, such as a disciplinary action or proceeding conducted by the educational agency or institution.

The law goes on to say that education records retain their status as such even when in the possession of a law enforcement unit and thus remain subject to the restrictions on the release of education records contained in FERPA. In short, you cannot deny access to the video recordings that may be used for student or staff disciplinary purposes by "hiding" them in your school's law enforcement unit. **Legal References:** 20 USC 1232(g), 34 CFR 99.3, 4, 5, 7, 8, 10, 12, 31
