

South Gibson County High School Scholars' Prep Guide 2019-2020

Course: Large Animal Science

Curriculum for the upcoming course and information of which students should be aware:

Large Animal Science is an applied course in veterinary and animal science for students interested in learning more about becoming a veterinarian, vet tech, vet assistant, or pursuing a variety of scientific, health, or agriculture professions. This course covers anatomy and physiological systems of different groups of large animals, as well as careers, leadership, and history of the industry. Upon completion of this course, proficient students will be prepared for success in the level-four Veterinary Science course and further postsecondary training.

Areas that might be challenging for students:

This course covers principles of health and disease, basic animal care and nursing, clinical and laboratory procedures, and additional industry-related career and leadership knowledge and skills.

Suggestions on how students can prepare for the upcoming course:

Review material learned in Agriscience.
