

South Gibson County High School Scholars' Prep Guide 2019-2020

Course: Marching Band

Curriculum for the upcoming course and information of which students should be aware:

Band is a performance class, where students learn to read, notate, and interpret written music culminating in various performances. These performances include football games, competitions, a Christmas concert and parade. Attendance and participation at these events will be factored into the final grade, as well as any after-school rehearsals needed.

Areas that might be challenging for students:

Performing in front of crowds might make students nervous. The time commitment for all the rehearsals and performances will be challenging to some. Playing the music while marching at the same time will be challenging.

Suggestions on how students can prepare for the upcoming course:

Practice the music already given out. Practice scales to extend the range of your instrument. Start getting in cardiovascular shape to perform the music while marching.

South Gibson County High School Scholars' Prep Guide 2019-2020

Suggested activities or resources (if applicable):

Running, practicing your instrument, and watching videos of Drum Corps will help you prepare.
