

Statewide Dual Credit Statistics Course Calendar

| Time Period | Major Topics Covered | Standards Covered | Major Projects | Other Information |
|---------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First 4.5 Weeks | 1. Graphical Methods for Describing Data Distributions 2. Numerical Methods for Describing Data Distributions 3. Describing Bivariate Numerical Data | S-ID 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 12 | Chapter Portfolios Graphical Displays In-Class Project Describing Relationships with Data Project | Tests on August 9 th , August 16 th , and August 22 nd |
| Aug. 31 – Oct. 11 th Second 4.5 Weeks End of 1 st Quarter | 1. Collecting Data in Reasonable Ways 2. Probability 3. Random Variables and Probability Distributions | S-CP 1, 2, 3, 4, 5 S-MD 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 S-IC 1, 2, 3, 4, 5, 6, 7, 8, 10, 11 S-IC 18 | Experimental Design In-Class Project Chapter Portfolios | Tests on Aug. 31 st , Sept, 13 th , and Sept. 25 th Project due Sept. 27 th and 28 th Midterms are Oct. 10 th |

| | | | | |
|----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| Oct. 12 – Nov. 4 Third 4.5 Weeks | 1. Estimating a Population Proportion 2. Asking and Answering Questions about a Population Proportion 3. Asking and Answering Questions about the Difference Between Two Population Proportions | S-IC 9, 12, 13, 14, 15, 16 | Chapter Portfolios Hypothesis Testing Activities | Tests on Oct. 19 th and Nov. 1 st |
| Nov. 7 – Dec. 16 Fourth 4.5 Weeks End of Second Quarter End of Semester | 1. Asking and Answering Questions about a Population Mean 2. Asking and Answering Questions about the Difference Between Two Population Means | S-IC 9, 12, 13, 14, 15, 16, 19 | Chapter Portfolios Review Exercises | Test on Nov. 19 th and 20 th Finals on Dec. 17 th and 18 th |

Upon request, parents/guardians shall have the ability to inspect the following items: instructional materials; teaching materials; teaching aids; handouts; and tests that are developed by and graded by their child's teacher. Parents wishing to inspect such materials should contact the building level principal in writing.
