

CANVAS PARENT ACCOUNT

In conjunction with our 1:1 Initiative, Bixby Public Schools is transitioning to using a learning management system called Canvas. All secondary students will be using Canvas for grades. Parents will have access to their child's grades and additional class information if they sign up for a Canvas Parent Account.

After school begins, your child will need to generate an observer pairing code from his/her Canvas account.

Your child will go to Account, then Settings, then Pair with an Observer.

Your child will generate a unique observer code for EACH observer who would like to follow him/her in Canvas.

Go to bixbyps.instructure.com.

Click on:

[Parent of a Canvas User?](#)

[Click Here for an Account](#)

Desktop View

Complete all requested fields: Your Name, Your Email Address, Create a Password, Re-enter Password, Enter Student Pairing Code.

Check box to agree to terms of use and click on **Start Participating**.

If you have more than one child in Canvas:

Each student will need to generate a pairing code.

To add more pairing codes to your account in Canvas, Click on Account, then Settings. Click on Observing.

Type in or paste in a pairing code for the additional student and click on +Student.

Repeat this process for each additional student.

If you would like to receive notifications and your child's grade updates on your mobile device, download the Canvas by Instructure Parent App.

Log in to the app using the same credentials you created for your account.

To customize your notification preferences, click on Account, and Notification Preferences. You can access more information about notifications from [THIS LINK](#).
