District Planning Team Update: Meeting 1 June 26, 2020

The District Planning Team met on June 26, 2020. The purpose of the Team is to discuss and develop plan options for the opening of school in the fall of 2020 in order to provide for the safety of our students and staff, and to prepare recommendations that will be presented to the School Board. All plans are dependent on orders from the Governor regarding the opening of our school buildings. A second goal of the Team is to promote communication with the community regarding the work of the Team.

The Team reviewed the [CDC Flowchart](#) and [four plan options](#) that have been prepared by the administrative team. In addition, references were made to the [Framework for Returning to Class Instruction](#). Topics such as transportation, sanitizing and disinfecting, scheduling, training, and hygiene were discussed. In addition, it was suggested and agreed that a survey regarding remote learning be administered to students and parents as we work to grow professionally in the area of remote education.
