PART 3: Media Permission

During the school year, there may be times when we would like to submit pictures and/or articles to our district newsletter, local newspapers, digital media, and/or on our district website. Do know that no student will be interviewed without a teacher present. We are also in partnerships with Wright State University and the University of Dayton. University students who are assigned to our buildings are frequently asked to include photographs of the children with whom they are working in their portfolio; this serves as pictorial evidence of their working with students. They may also videotape a lesson as a learning tool; this video could include your child.

We are asking your permission to photograph/videotape your children for the sole purpose of showcasing student achievement, club and/or athletic events, as well as permission for our student teachers to fulfill their course requirements at the university.

_____ I **give** Milton-Union Exempted Village School District permission to photograph/videotape my child as stated above.

_____ I **do not give** Milton-Union Exempted Village School District permission to photograph/videotape my child as stated above.
