Dear Mentoring Program Participants:

Welcome to Globe Unified School District #1. We are excited to have you as a member of our team! The Globe Unified School District Mentoring and Peer Teacher Program is a joint effort on behalf of the Globe Unified School District (LIFT) Leaders Influence for Transformation Team, Administrators and Mentor Teachers. The program seeks to support new teachers and/or any teacher needing additional support both professionally and personally in their efforts to become "highly performing educators".

Research indicates that student achievement depends, in part, on constructing a school culture that fosters growth for students and staff alike. We believe that mentors, new teachers and teachers in need of support will learn and grow in this process. We recognize that the level of support will depend on the individual needs (i.e. experience and certification status) of the mentee-teacher.

We wish you every success in your new teaching/continued teaching experience, and will assist you in any way that we can. Please feel free to contact your mentor at any time.

Respectfully,
Globe Unified School District #1 LIFT Team

Mission Statement

It is the mission of the Globe Unified School District #1 Mentoring and Peer Teacher Program to provide information, support and encouragement for the success of educators new to the district.

Program Overview

New Teacher Orientation

This program assists new teachers in learning about the district by attending an orientation program. Time will be provided for the Mentees to meet with their Mentors, building principals and district administration.

Mentee/Mentor Meetings

The focus for each meeting is outlined within the Mentee/Mentor monthly checklist included in this portfolio. Attendance is mandatory.

Mentoring Program

All educators new to the district, educators experiencing a change in grade level or type of assignment, or teachers returning to the profession after time away will be assigned a mentor as needed, up to 3 years. The purpose of the mentor will be to provide information, support and encouragement for the success of all educators. A checklist of activities is located in this portfolio.

Statement of Purpose

The purpose of the Mentoring Program at Globe Unified School District #1 is to provide a new teacher in the district the assistance necessary to begin a successful teaching career through a mentoring relationship during their first two years of employment in our district. This program will assist new teachers and teachers new to our district in a further understanding of teaching techniques, procedures, requirements, and expectations of their specific grade level or subject area assignment.

The Mentoring and Peer Teacher Program will:

- Provide a system of induction for new faculty members in order to effectively assimilate new teachers to the culture of the community and school environment.
- Provide new teachers with professional support and guidance that will enhance teaching performance and student achievement.
- Provide information for new teachers on available resources and necessary district policies and procedures.
- Provide opportunities for the personal and professional growth of experienced teachers through collaboration with new teachers and other mentor teachers.
- Provide and facilitate an effective educational environment by encouraging the development and promotion of professional learning communities with the school district.

THE BENEFITS OF TEACHER MENTORING

GOAL: TO ENSURE THAT CHILDREN HAVE A QUALITY TEACHER IN EVERY CLASSROOM, EVERY DAY!

When trained mentors help guide new teachers, we see results reflected in higher student achievement (AYP).

Research tells us that if low-performing students have an effective teacher, the average gains will be 53% as opposed to students who have an ineffective teacher whose students will only have an average 14% gain. (Sanders and Rivers, 1996).

Research also tells us that with embedded professional development, such as that provided by an onsite mentor, student gains will be

measured at 93% as compared with teacher's obtaining masters degree (12%), professional development apart from other staff (20%), and school-wide professional development (38%). (NAAC Report, 2003)
