

**VT 4740 – DIGITAL MEDIA I**  
**VT 4745 – DIGITAL MEDIA II**

Digital Media/Television and Video Production is a two-year program that prepares students for entry-level employment or further training at a community or four-year college. Instruction includes such basics as understanding and using the video camera, story boarding, script writing, editing, lighting and set design. Advanced skills will be demonstrated in directing and producing programs. Students have the opportunity to learn how to produce newscasts, computer multimedia, public service announcements, video news magazines, and Hollywood style movie productions.

**Essential Learning Objectives:**

Students will demonstrate an understanding of or perform the following:

- Use of the video camera
- Story boarding
- Script writing
