- Any additional communication can be arranged via Parent Square

Journey of a Graduate Skills

Critical Thinking

- Students will effectively analyze school and local community news and communicate engaging and informative content.

Communication

- Students will communicate engaging and informative content via live broadcasts, recorded voice tracks.
- Students will share meaningful and informative content via the school radio station's social media platforms to disseminate information to other students, teachers, and the Eastside community.

Resilience

- Students focus on essential standards allowing them time to practice, understand, and demonstrate learning.
- Students continue to ask questions and persist in their pursuit of understanding.
- Students value making mistakes, as they are critical to learning.

Collaboration

- Students see value in getting assistance from peers. Peers assist in the development of understanding for classmates.
- Students value guidance and support from teachers as an additional resource in the development of understanding.
- Students share ownership of the creation of ideas and acknowledge other's experiences and contributions.

Content Knowledge

- Students will use skills learned in Introduction to Communication to create content and produce imaging.
- Students have freedom to create content, host shows and curate podcasts.
- Students are excited and inspired to explore content and problems beyond the scope of the class.

Citizenship

- Students are always considerate and respectful of other people's beliefs, practices, and cultures demonstrated through words and actions.
- Students are responsible for their own learning; get makeup work when they have been out, take necessary notes, stay engaged while in class.
