Welcome to the Southeastern Greene School District.

We are committed to excellence and we believe that our students deserve the very best. Our goal is for every child to be successful! We have very high expectations for our students and ask that they always give their best. By working together, we can ensure that all of our students will be successful. We encourage every student to be a difference maker.

Thank you for taking the time to learn a little more about us. Please feel free to contact us with any questions or concerns. Communication is essential for success.

Proud to be your Superintendent,
Rich Pekar

Vision Statement
Southeastern Greene School District students will succeed in society and become lifelong learners.

Mission Statement
Southeastern Greene School District provides a quality education that inspires students to be productive, contributing members of a global society.
Be a Difference Maker!

Bobtown Elementary installed a brand new playground. The new X2 playground from Game Time is not like a traditional playground found at most elementary schools. The SEGSD administration decided to replace the old playground with fitness based playground equipment that encourages physical fitness among all students. The new playground promotes higher levels of physical activities based on key elements of fitness. This highly engaging design provides an exciting, research-based way to promote healthy lifestyles and combat rising obesity in children. The activities are appropriate for children of different fitness levels and physical disabilities. The school district received the Pennsylvania State Obesity Grant and funding from the Greene County Memorial Hospital Foundation.

Bobtown Elementary enjoys hosting events that are enjoyable and actively involve community members within the school. Students and staff had the pleasure of honoring our veterans at the Veteran’s Day breakfast in the school cafeteria. Students were encouraged to invite any family member who served in the armed forces. Thank you for your service to our country!

Grandparents Day is celebrated on the first Sunday after Labor Day. At Bobtown Elementary School, we recognize grandparents by inviting them to eat lunch with their grandchildren. Our students and staff recognize the importance of family and we want to show our appreciation for their involvement. After lunch, grandparents and students are invited to participate in the school book fair.

Bobtown Elementary held an event to promote literacy. There were many activities, including, Readers Theatre, guest readers, free books, and prize drawings.
Advanced Placement

Mapletown Jr./Sr. High School offers many exciting programs and opportunities for students.

Advanced Placement classes were recently introduced to the school curriculum in the form of AP Calculus, AP Government, and AP Literature and Composition. We are expanding the program to include AP Statistics, AP Language and Composition, and AP Biology. Students who participate in AP classes have the opportunity to earn college credit by passing coinciding AP exams. Advanced Placement classes are an excellent way to build a robust college resume and allow Mapletown students to compete with peers across the country. Southeastern Greene School District has been awarded a $391,000 grant through the National Math and Science Initiative (NMSI) for the purchase of books, software packages, and lab materials for STEM based AP courses. In order to ensure that students are prepared for the rigors of AP courses, we have established honors classes in all core subjects at the high school level. These honors courses include: Biology, Environmental Science I & II, American History I & II, ELA (9-12), Algebra I & II, Geometry, Chemistry I & II, Physics. We currently have 40 students enrolled in AP courses and 70 students in honors courses.

Technology Education

Significant upgrades have been made to Mapletown’s Technology Education Program with state-of-the-art equipment that is transforming the traditional woodshop into a modern fabrication laboratory. The recent additions of a 3-D printer and CNC Router are the first in a series of planned acquisitions that allow students to design and produce projects from computer based software programs. Students use their imaginations to create products such as custom podiums, rocking chairs, and other decorative items. They are drawn using CAD (Computer Animated Drafting) programs and then produced on the router or printer. Programs can be saved and produced multiple times with the same specifications.

Making a Difference in Our Community

National Honor Society participated in the Walk to End Alzheimer’s

Envirothon Club released Trout at Meadow Run

The Future Is Mine sponsored a community Trunk or Treat

Interact Club volunteered at the Greene County Humane Society

National Honor Society donated back packs with school supplies for flood victims

Relay for Life volunteers had a Bake Sale to raise money

Varsity and Junior High Cheerleaders held a Youth Cheer Camp in support of Breast Cancer Awareness

Relay for Life team held a Paint for the Cure event

Relay for Life volunteers had a Bake Sale to raise money
