4.29— INTERNET SAFETY and ELECTRONIC DEVICE USE POLICY

Definition

For the purposes of this policy, “electronic device” means anything that can be used to transmit or capture images, sound, or data.

The District makes electronic device(s) and/or electronic device Internet access available to students, to permit students to perform research and to allow students to learn how to use electronic device technology. Use of district electronic devices is for educational and/or instructional purposes only. Student use of electronic device(s) shall only be as directed or assigned by staff or teachers; students are advised that they6 enjoy no expectation of privacy in any aspect of their electronic device use, including email, and that monitoring of student electronic device use is continuous.

No student will be granted Internet access until and unless an Internet and electronic device use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the Internet and electronic device use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Technology Protection Measures

The District is dedicated to protecting students from materials on the Internet or world wide web that are inappropriate, obscene, or otherwise harmful to minors; therefore, it is the policy of the District to protect each electronic device with Internet filtering software that is designed to prevent students from accessing such materials. For purposes of this policy, “harmful to minors” means any picture, image, graphic image file, or other visual depiction that:

- (a) Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- (b) Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
- (c) Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

Internet Use and Safety

The District is dedicated to ensuring that students are capable of using the Internet in a safe and responsible manner. The District uses technology protection measures to aid in student safety and shall also educate students on appropriate online behavior and Internet use including, but not limited to:

- Interacting with other individuals on social networking websites and in chat rooms;
- Cyberbullying awareness; and
- Cyberbullying response

Misuse of Internet

The opportunity to use the District’s technology to access the Internet is a privilege and not a right. Students who misuse electronic devices or Internet access in any way will face disciplinary action, as specified in the student handbook and/or internet safety and electronic device use agreement. Misuse of the Internet includes:

- The disabling or bypassing of security procedures, compromising, attempting to compromise, or defeating the district’s technology network security or Internet filtering software;
- The altering of data without authorization;
- Disclosing, using, or disseminating passwords, whether the passwords are the student’s own or those of another student/faculty/community member, to other students;
- Divulging personally identifying information about himself/herself or anyone else either on the Internet or in an email unless it is a necessary and integral part of the student’s academic endeavor. Personally identifying information includes full names, addresses, and phone numbers.
- Using electronic devices for any illegal activity, including electronic device hacking and copy right or intellectual property law violations;
- Using electronic devices to access or create sexually explicit or pornographic text or graphics;
- Using electronic devices to violate any other policy or is contrary to the Internet safety and electronic device use agreement.

4.29F – STUDENT ELECTRONIC DEVICE AND INTERNET USE AGREEMENT

Developed by the Clarksville School District and the Arkansas Department of Education, the computer network provides each Clarksville High School student with Internet/Intranet access and an e-mail account. Each junior high, middle, and elementary school student will have Internet/Intranet access only. A student must apply for a computer account at the beginning of each school year or at the time of enrollment.

The network administrator in the Clarksville School District, along with the Department of Information Service (DIS), has taken available precautions to restrict access to controversial materials on the Internet; however, due to the global nature of the Internet, it is impossible to control access to all materials that might be considered offensive. Nevertheless, the administration, faculty, and staff at Clarksville Schools believe that the valuable information and interaction available on this worldwide network far outweigh the possibility that a user may obtain material that is not consistent with the mission statement of Clarksville School District.

The Clarksville School District agrees to allow the student identified below to use the district's technology to access the Internet under the following terms and conditions which apply whether the access is through a District or student owned electronic device (as used in this Agreement, "electronic device" means anything that can be used to transmit or capture images, sound, or data):

1. Conditional Privilege: The Student's use of the district's access to the Internet is a privilege conditioned on the Student's abiding to this agreement. No student may use the district's access to the Internet whether through a District or student owned electronic device unless the Student and his/her parent or guardian have read and signed this agreement.

2. Acceptable Use: The student agrees that he/she will use the district's Internet/Intranet access for educational purposes only. In using the Internet/Intranet, the student agrees to obey all federal and state laws and regulations and any State laws and rules. The student also agrees to abide by any Internet/Intranet use rules instituted at the student's school or in the student's class, whether those rules are written or oral. Since the student may use the school's computers in various classrooms, in labs, or in the library, it is his/her responsibility to know and understand the specific computer use rules applicable in each location. Additionally, the student agrees to keep his/her password private and take advantage of account protection measures like changing his/her password periodically, not using obvious passwords, and logging out correctly.

3. Penalties for Improper Use: If the student violates this agreement and misuses the Internet/Intranet, the student shall be subject to disciplinary action. The principal may use any or all of the disciplinary measures but is not limited to the following:

1. Report to the legal authorities.
2. Suspend the student's computer access for a minimum of one (1) school day up to a maximum of ten (10) consecutive school days.
3. Revoke the student's access privileges.
4. Assign the student to in-school suspension for a minimum of three (3) consecutive school days.
5. Suspend the student from school for up to ten (10) consecutive school days.
6. Recommend expulsion.

4. "Misuse of the District's access to the Internet" includes, but is not limited to the following:

1. using the Internet/Intranet for other than educational purposes
2. gaining intentional access or maintaining access to materials which are "harmful to minors" as defined by Arkansas law
3. using the Internet for any illegal activity, including computer hacking, violation of federal, state, or local statutes, or violation of copyright or intellectual property law
4. making unauthorized copies of computer software
5. using the Internet to engage in sending numerous, unsolicited electronic mail messages at the same time or participate in chain letters which can degrade the performance of the network; or accessing "chat lines" unless authorized by the instructor for a class activity directly supervised by a staff member
6. using abusive, obscene, sexually explicit, threatening, or profane language or expressions regarding bigotry, racism, or hate in private messages on the system; or using the system to harass, insult, or verbally attack others (system refers to but is not limited to social media, email, and text messaging)
7. posting anonymous messages on the system
8. using encryption software
9. wasting limited resources provided by the school including paper
10. causing congestion of the network through lengthy downloads of files; or failing to delete old e-mail or other files which take up excessive space
11. vandalizing data of another user; or attempting to access or copy another user's files
12. obtaining or sending information which could be used to make destructive devices such as guns, weapons, bombs, explosives, or fireworks
13. gaining or attempting to gain unauthorized access to resources or files
14. identifying oneself with another person's name or password; or using an account or password of another user without proper authorization
15. invading the privacy of individuals
16. divulging personally identifying information about himself/herself or anyone else either on the Internet or in an email unless it is a necessary and integral part of the student's academic endeavor. Personally identifying information includes full names, address, and phone number.
17. using the network for financial or commercial gain without district permission. (The student may not buy or sell products or services through the system without prior permission from the network administrator.)
18. stealing or vandalizing data, equipment, or intellectual property
19. attempting to gain access or gaining access to student records, grades, or files
20. introducing a virus to or otherwise improperly tampering with the system
21. degrading or disrupting equipment or system performance
22. creating a web page or associating a web page with the school or school district without proper authorization
23. providing access to the district's Internet/Intranet access to unauthorized individuals
24. failing to obey school or classroom Internet/Intranet use rules
25. taking part in any activity related to Internet/Intranet use which creates a clear and present danger of the substantial disruption of the orderly operation of the district or any of its schools.

26. installing or downloading software on district computers without prior approval of the network administrator or his/her designee.
27. accessing web sites that contain obscene, derogatory, or inflammatory material. (If the student accidentally accesses this type of information, he/she should immediately notify his/her teacher.);
28. accessing or playing online games, unless instructed to do so by the teacher, or instructor.

5. Liability for debts: The students and his/her cosigners shall be liable for any and all costs (debts) incurred through the student's use of the computers or access to the Internet including penalties for copyright violations.

Clarksville School District makes no warranties of any kind for the services it provides and will not be responsible for loss of data resulting from delays, non-deliveries, miss-deliveries, or service interruptions. In addition, it denies any responsibility for the accuracy or quality of information obtained through its services.

6. No Expectation of Privacy: The student and parent/guardian signing below agree that if the student uses the Internet through the district's access, the student waives any right to privacy the student may have for such use. The student and the parent/guardian agree that the district may monitor the student's use of the district's Internet/Intranet access and may also examine all system activities in which the student participates including, but not limited to, e-mail, voice, and video transmissions to ensure proper use of the system. The district may share such transmissions with the student's parents/guardians.

7. No Guarantees: The district will make good faith efforts to protect children from improper or harmful matter which may be on the Internet. At the same time, in signing this agreement, the parent/guardian and student recognize that the district makes no guarantees about preventing improper access to such materials on the part of the student.

8. Clarksville School District Web Pages: The network administrator or his/her designee will be responsible for the creation of web pages or the association of web pages to the district's home page. On occasion, a student's name and/or picture may appear on a school web page; however, a student's picture will not be identified with his/her name.

CHEMICAL SCREEN TEST POLICY FOR CLARKSVILLE SCHOOLS

The Clarksville School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Clarksville Board of Education is determined to help students by providing another option for them to say "No." Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of legal drugs and medications.

Purpose of a Chemical Abuse Policy

1. To allow the students of Clarksville Schools to know that the school is concerned about their total well being. The School District is interested in helping the students who may be having problems.
2. To emphasize concerns for the health of students in areas of safety while they are participating in activities as well as the long-term physical and emotional effects of chemical use on their health.
3. To confirm and support state laws which restrict the use of such mood-altering chemicals.
4. To assist students of Clarksville Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.
5. To establish standards of conduct for students of Clarksville Schools who are considered leaders among their peers.
6. To work cooperatively with parents by assisting them in keeping their children free from mood-altering chemicals.
7. To assist students who need to be referred for assistance or evaluation regarding their use of illegal drugs.
8. To deter chemical abuse or misuse by all students through the use of random drug testing.

SCOPE

The provisions of this policy apply to students in Clarksville Schools in grades seven through twelve. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Positive screening results are considered cumulative and follow the student for the duration of enrollment in the Clarksville School District.

DEFINITION

Illegal Drugs are defined as any substance, including alcohol, considered illegal by Arkansas Statutes or which is controlled by the Food and Drug Administration unless prescribed by a licensed physician.

PRESCRIPTION MEDICATION

The existence of lawfully prescribed medication in the student's sample is not a violation of this policy when taken in accordance with a physician's recommendation or prescription to a specific student. Some over-the-counter medications may have similarities to unlawful drugs when tested. Students who are taking prescription medication may provide a copy of the prescription or a doctor's verification in a sealed envelope to school personnel at the time the sample is collected. The specific name of over-the-counter medication should also be disclosed to the school official. Students who refuse to provide verification and test positive will be subject to the actions specified in this policy for "positive test."

CONSENT FORM

Students and parents/guardians will be strongly encouraged to sign a consent form to the random testing. The form must be co-signed by the student's custodial parent/legal guardian. No student will be allowed to participate in any school activity (any activity outside the regular curriculum) or to park on school district property until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal. Consent forms for students participating in fall sports or extracurricular activities must be signed prior to physical examinations. All other students must sign the consent form during the first two weeks of school. Students moving into the district during the school year must sign the consent form during the first two weeks of enrollment. No student will be allowed to sign the consent form after these dates.

SELECTION PROCESS

While students are in school, they will be subject to random selection for testing. Particular days will be selected for testing. If a student is selected for testing but is absent on that day, he/she will be tested on the next test date. The number of names drawn will be no less than (2%) or greater than (15%) of the students in grades seven through twelve. A urinalysis will be the method utilized to test for the presence of chemicals in the body. All students selected must report to the designated testing site.

TESTING AGENCY

The district will choose a qualified agency for the purpose of processing samples and maintaining privacy with respect to test results and related matters.

COST

The cost of the test to be given during random selection will be paid by the district. Any test administered to a student to regain eligibility will be at the district's expense.

REFUSAL TO CONSENT TO TESTING

Students not consenting to be tested (in the random pool) are allowed to join clubs or organizations but are not allowed to attend after school meetings, participate in any activities, or park on campus.

REFUSAL TO SUBMIT TO TESTING

Any participant who refuses to submit to random drug testing and/or retesting is considered having tested positive.

TESTING PROCEDURE

All test results from the laboratory will be communicated to the Superintendent or his designee. All urine specimens will be taken at a designated restroom. Any student who is requested to provide a urine specimen will be directed to the collection site where the student will complete the necessary forms. Students who test positive will be required to sign an additional consent form.

The following precautions will be taken, as appropriate, at the collection site.

1. The examinee will be positively identified.
2. The observer will ask the individual to remove any unnecessary outer garments (i.e., coat, jacket, etc.) that might conceal items or substances that could be used to tamper with or alter the urine specimen. All personal belongings (i.e., purse, backpack, etc.) must remain with the outer garments. The observer will note any unusual behavior or appearance.
3. The student will not be outside of the presence of the observer and not have access to faucets, soap dispensers, or cleaning agents until after the specimen has been provided and sealed.
4. The student will be allowed to provide the specimen in a stall or other partitioned area that allows for individual privacy. After the specimen has been provided, the student should leave the stall.
5. At the collection site, toilet bluing agents will be placed in the toilet tanks, whenever possible. No other source of water will be available in the enclosure where urination occurs.
6. If a student fails to provide the necessary amount of urine for a valid specimen, the student will be given reasonable amounts of water for drinking and extra time to produce an adequate sample. During this time, the student will remain in the vicinity of the collection area and under the observation of the district staff.
7. Immediately after collection, the observer will check the temperature of the specimen and inspect the specimen for color and signs of contaminants.
8. Both the observer and student being tested will keep the specimen in view at all times prior to its being sealed and labeled.

ANALYSIS PROCESS

Testing protocol involves on-site collection and testing of urine samples. If a sample initially tests positive for any substance, that sample will be immediately retested. In the event that the second test reports negative, the sample will be considered negative for reporting purposes. A second positive test will result in the sample's being immediately delivered to an SAMHSA certified laboratory for GC/MS confirmation with results provided to the school in one or two days.

RESULTS AND NOTIFICATION

Test results will be reported to the Superintendent or his designee. All reports will be in writing. All specimens testing negative on the initial test or negative on the confirmation test will be reported as negative. Only specimens confirmed as positive will be reported as positive for a specific drug(s).

RECORDS

All records concerning chemical abuse testing will be maintained by the Superintendent or his designee in a separate, locked file.

The records will not be kept in a student's regular file. Only the Superintendent or his designee will have access to the files. The files on each student will be destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents/legal guardians may obtain a copy of his chemical abuse testing records upon written request.

FIRST POSITIVE TEST

Upon receipt of a positive test result for any student, a custodial parent or legal guardian will be notified and a meeting will be scheduled with the superintendent or his designee, the student, the custodial parent or legal guardian, the student's principal, the student's counselor, and the student's head coach or sponsor. Counseling/rehabilitation for the student will be strongly recommended for the student who tests positive. A referral/resource list will be made available to the student and parent/legal guardian. Any counseling/rehabilitation service costs will be the responsibility of the student and/or parent.

The student will be placed on probation for thirty days. If there are not thirty days left in the school year, the thirty day period will carry forward to the following school year. During the probation time, the student will not be allowed to participate and/or attend any curricular or extracurricular activities which occur outside the regular school day or park on campus. Students participating in a sport or activity that requires a physical must have doctor's approval to continue practicing during the probationary period. In order to regain eligibility after the thirty day probationary period, the student must be tested again at the district's expense and a written copy of the results will be given to the Superintendent or his designee. If the test is negative, the probation will be lifted. If the test is positive, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. A positive retest at the end of the thirty-day probation period will be considered a second positive test. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company and at the district's expense.

Exception: A student must be retested on day thirty-one. However, certain chemicals that take more than thirty days to leave the student's system will be considered differently if a doctor's written opinion details said residual effects of that particular substance.

SECOND POSITIVE TEST

For the second positive test, the student will not be allowed to participate in or attend extracurricular activities or park on campus for one calendar year. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company and at the district's expense.

THIRD POSITIVE RESULT

For the third positive result, the student will be permanently suspended from participating in or attending any activity program and parking on campus for the remainder of his enrollment with the school. A third positive screen could come from a third positive test from the random pool or a result of a rescreen at the end of a probation period.

NATURE OF POLICY

No student will be penalized academically for testing positive for illegal drugs. The results of any drug test pursuant to this policy will not be documented in any student's academic records.

OTHER DISCIPLINARY MEASURES

The district, by accepting this policy, is not precluded from utilizing other disciplinary measures set forth in the student handbook and this policy does not preclude the district from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug-related activities.

Clarksville School District Parental Involvement Policy

Part I: General Expectations

The Clarksville School District agrees to implement the following statutory requirements:

The school district will put into operation programs, activities and procedures for the involvement of parents in all of its schools with Title I, Part A programs, consistent with section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities and procedures will be planned and operated with meaningful consultation with parents of participating children.

Consistent with section 1118, the school district will work with its schools to ensure that the required school-level parental involvement policies meet the requirements of section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with section 1118(d) of the ESEA.

The school district will incorporate this district wide parental involvement policy into its LEA plan developed under section 1112 of the ESEA.

In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent practicable, in a language parents understand.

If the LEA plan for Title I, Part A, developed under section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the State Department of Education.

The school district will involve the parents of children served in Title I, Part A schools in decisions about how the 1 percent of Title I, Part A funds reserved for parental involvement is spent, and will ensure that not less than 95 percent of the one percent reserved goes directly to the schools.

The school district will be governed by the following statutory definition of parental involvement, and expects that its Title I schools will carry out programs, activities and procedures in accordance with this definition: Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring:

- (A) that parents play an integral role in assisting their child's learning;
- (B) that parents are encouraged to be actively involved in their child's education at school;
- (C) that parents are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child;
- (D) the carrying out of other activities, such as those described in section 1118 of the ESEA.

Part II: Parental Involvement Components

1. The Clarksville School District will take the following actions to involve parents in the joint development of its district wide parental involvement plan under section 1112 of the ESEA:
 - Inform parents in multiple languages of how they can be actively involved in their children's education, including notice of opportunities for and holding regular meetings.
 - Inform parents of ELL students in multiple languages reasons for identification, level of English proficiency, methods of instruction, how the program will help the child, and other information.
 - Inform parents of children with disabilities how the language instruction educational programs meets the objectives of the child's individualized educational program.
 - Inform parents of ELL students in multiple languages if the ELL program has not made progress on the annual measurable achievement objectives.

CJHS PARENT AND FAMILY ENGAGEMENT PLAN

CLARKSVILLE JR. HIGH SCHOOL
PARENT INVOLVEMENT PLAN
PRINCIPAL: MR. CHASE CARTER
ASST. PRINCIPAL: MR. BLAKE POOLE
FACILITATOR: MS. MEIKO WARREN

In 2003, the Arkansas legislature developed Act 603 which requires public schools to create a parent involvement plan. This Act has been periodically updated and improved to acknowledge the shared responsibility of the parents/guardians and the teachers in a child's education. Working together, the parents/guardians and the teachers will make great strides in improving student achievement.

This plan provides many opportunities for the parent/guardian to become familiar with the school's teachers, resources, programs and educational processes. Meetings, which include parent /teacher conferences, will be provided during the school year to give the parent/guardian the opportunities to learn about programs the school offers, such as Title I, remediation, building orientation, after school tutoring and annual meetings. For more information about a specific program or to contact school personnel, you can access the teacher's email addresses on the school's homepage at <http://csdar.org> or call the school between the hours of 7:45 am and 4:00 pm during each weekday that school is in session.

PARENT CENTER: Located in the CJHS library. At this location you would be able to find informative books, magazines, pamphlets and video material on topics that would benefit parents and their children. Magazines include many selections for men and women. The library is accessible before, during, and after school. Miss Kleck, CJHS librarian, would be glad to assist you in any way.

CJHS faculty and staff will be responsible for the following actions:

- Invite parents to special events such as: parent/teacher conferences, ball games, concerts, and programs provided during and after school hours.
- Report good news to parents regarding their child's behavior, classroom success, etc...
- Recognize honor roll students and their parents at an honor assembly held each spring.
- Assist parent with selected volunteer duties.
- Offer information for parents on developing better learning skills for their child.
- Conduct a "Parents Make the Difference" event, also called open house, where parents can meet their child's teacher(s) before the school year begins.
- Hold two parent/teacher conferences at the midway points of the first and third nine weeks period.
- CJHS will offer a variety of parent meetings at different times during the school year.
- Find ways to decrease barriers that would keep parents from attending school meetings by providing transportation, childcare, or offering various time opportunities.
- Provide an informative bulletin board at the entryway to the school.
- Teachers will be encouraged to attend out of school functions in support of their students.
- Mail or hand-out progress reports, report cards, and test scores to parents.
- Post student of the month and other awards in the newspaper.
- Review and evaluate the Parent Involvement and Arkansas Comprehensive School Improvement Plan (ACSIP) plan annually and making any needed adjustments to make the plans more effective for our school district.

CJHS FAMILY PACKET: A packet will be provided for all parents of students that attend CJHS. This packet will include helpful information that will last throughout the school year. The packet will include, but not be limited to:

- CJHS Parental Involvement Plan and Act 603 of 2003
- A list of many helpful ways that parents can become involved with their child's education.
- An all-in-one activity calendar for the school year which will include parent/teacher conferences, open house, holidays, early releases, and other important dates to remember.

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline; and the requirements and procedures for participation in the program; and include contact information for the primary point of contact at the District for school choice questions. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this District along with a copy to the student's resident district. Except for students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, the The transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications the District receives as both the resident and nonresident district as they are received in the District's central office. It is the District's responsibility to send a copy of the application that includes the date and time stamp to the student's resident district within ten (10) days of the District receiving the application.⁷ Except for applications from students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base, applications Applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

Students who have a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base may submit an application and transfer at any time if the student's application:

1. Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
2. Includes the parent's or guardian's military transfer orders; and
3. Includes the parent's or guardian's proof of residency on the military base.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached. The superintendent shall contact a student's resident district to determine if the resident district's three percent (3%) cap has been met.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy; who chooses to return to his/her resident district; or who enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School Choice is eligible to remain in the District until completing his/her secondary education. Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the District.

An application may be provisionally rejected if the student's application was beyond the student's resident district's three percent (3%) cap. The student's resident district is responsible for notifying this District that it is no longer at its three percent (3%) cap. If a student's application was provisionally rejected due to the student's resident district having reached its three percent (3%) cap and the student's resident district notifies this District that it has dropped below its three percent (3%) cap prior to July 1, then the provisional rejection may be changed to a provisional acceptance and the student would have to meet the acceptance requirements to be eligible to enroll in the District.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

Transfers Out of the District

All Standard School Choice applications shall be granted unless the approval would cause the District to have a net enrollment loss (students transferring out minus those transferring in) of more than three percent (3%) of the average daily membership on October 15¹ of the immediately preceding year. By December 15 of each year, ADESE shall determine and notify the District of the net number of allowable choice transfers. Students are not counted for the purpose of determining the three percent (3%) cap if the student transfers from a school or district in:

- Academic Distress Through Opportunity School Choice due to the school receiving a rating of "F" or a district classified as in need of Level 5 Intensive Support under A.C.A. § 6-18-227;
- Due to the district's identification of Facilities Distress under A.C.A. § 6-21-812; or
 - Through the Foster Child School Choice under A.C.A. § 6-18-233.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. The District will use confirmations of approved choice applications from receiving districts to make a final determination of which applications it received that exceeded the limitation cap and notify each district that was the recipient of an application to that effect. The District shall immediately notify all receiving districts if it should drop back below its three percent (3%) cap prior to July 1.

When the last successful application requesting to transfer out of the District before the District's three percent (3%) cap was triggered belonged to an individual who was a member of a group of siblings who applied to transfer out of the District, the District shall allow all members of the individual's sibling group to transfer out of the District even though these applications are beyond the District's transfer cap.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences.:

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student's resident district remains in facilities distress;
 - The student is not required to meet the June May 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers Into or Within the District

For the purposes of this section of the policy, a "lack of capacity" is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the ADESE Rules for the Standards of for Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity at the District's school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student may transfer from the student's assigned school to another school in the District or from the student's resident district into the District if: who is enrolled in or assigned to a school classified by the ADE to be in academic distress or in a district classified by ADE as in need of Level 5 Intensive Support is eligible to transfer to the school closest to the student's legal residence that is not in academic distress or in a district classified as in need of Level 5 Intensive Support. The student's parent or guardian, or the student if over the age of eighteen (18), must successfully complete the necessary application process by July 30 preceding the initial year of desired enrollment.

- Either:
 - The student's resident district has been classified by the state board as in need of Level 5 — intensive support; or
 - The student's assigned school has a rating of "F"; and
- By May 1 of the year before the student intends to transfer, the student's parent, guardian, or the student if the student is over eighteen (18) years of age has submitted an application of the student's request to transfer to the:
 - DESE:
 - Sending school district; and
 - Receiving school district.

A student is not required to meet the May 1 application deadline if the student has a parent or guardian who is an active-duty member of the military and who has been transferred to and resides on a military base. The student may transfer at any time if the student's application:

- a. Is filed with the nonresident school district within fifteen (15) days of the parent's or guardian's arrival on the military base;
- b. Includes the parent's or guardian's military transfer orders; and
- c. Includes the parent's or guardian's proof of residency on the military base.

Within thirty (30) days from receipt of an application from a student seeking admission under this section of the policy, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection.¹³² A parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District. A student's transfer under Opportunity School choice is effective at the beginning of the next school year and the student's enrollment under Opportunity School Choice is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity School Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school has been classified by the ADE as being in academic distress receives a rating of "F" or the District has been classified by ADE ~~the State Board~~ as in need of Level 5 Intensive Support, the District shall timely notify the parents, guardians, or students, if the student is over eighteen (18) years of age, as soon as practicable after the academic distress or in need of Level 5 Intensive Support school or district designation is made of all options available under Opportunity School Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to submit an application to enroll the student in any public school or school district that has not been classified by the ADE as a public school in academic distress or a school district that has not been classified by the State Board as in need of Level 5 Intensive Support or in a public school that does not have a rating of "F".

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.

Standard School Choice

Definition

"Sibling" means each of two (2) or more children having a ~~common~~ parent in common by blood, adoption, marriage, or foster care.

Transfers into the District

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall

state the application deadline and the requirements and procedures for participation in the program. Such pronouncements shall be made in the spring, but in no case later than March 1.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this District. The transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications as they are received in the District's central office. It is the District's responsibility to send a copy of the application that includes the date and time stamp to the student's resident district within ten (10) days of the District receiving the application. Applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

The approval of any application for a choice transfer into the District is potentially limited by the applicant's resident district's statutory limitation of losing no more than three percent (3%) of its past year's student enrollment due to Standard School Choice. As such, any District approval of a choice application prior to July 1 is provisional pending a determination that the resident district's three percent (3%) cap has not been reached.

The Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.⁸

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who either fails to initially enroll under the timelines and provisions provided in this policy, or who chooses to return to his/her resident district; or who enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School Choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.⁹

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the District.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application which must be done, in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Any applications that are denied due to the student's resident district reaching the three percent (3%) limitation cap shall be given priority for a choice transfer the following year in the order that the District received the original applications.

By December 15 of each year, ADE shall determine and notify the District of the net number of allowable choice transfers. For the purpose of determining the three percent (3%) cap, siblings are counted as one student, and students are not counted if the student transfers from a school or district in:

- Academic Distress or classified as in need of Level 5 Intensive Support under A.C.A. § 6-18-227; or
- Facilities Distress under A.C.A. § 6-21-812; or
- Foster Child School Choice under A.C.A. § 6-18-233.

If, prior to July 1, the District receives sufficient copies of requests from other districts for its students to transfer to other districts to trigger the three percent (3%) cap, it shall notify each district the District received Standard School Choice applications from that it has tentatively reached the limitation cap. Whereas:

- The Board of Directors of the Clarksville School District has approved by a vote of the Board, the following capacity resolution for school choice applicants for the current school-year under the provisions of policy 4.5—SCHOOL CHOICE and applicable Arkansas law.
- Applicants, whose applications meet the provisions of policy 4.5—SCHOOL CHOICE, will be sent a provisional acceptance notification letter which will give instructions on the necessary steps and timelines to enroll in the District. Provisional acceptance shall be determined prior to July 1 with a final decision to be made by July 1 based on the district's available capacity for each academic program, class, grade level, and individual school.

4.5F2--SCHOOL CHOICE PROVISIONAL ACCEPTANCE LETTER

Dear Parent's name,

The application you submitted for student's name has been provisionally accepted. While the Clarksville School District looks forward to welcoming student's name as a student, to further the application process and to better assist the district in determining the proper placement of student's name, please submit the information listed below to Clarksville School District or school's address by June 1. Failure to submit the information requested by the date specified shall void and nullify this letter's provisional acceptance. In addition to the information you submit, records may be requested from the student's current district/school, and final acceptance may depend on the content of those records as to appropriate grade placement, program placement or services required. A student who has not previously attended an Arkansas public school or did not attend an Arkansas public school in the previous academic year may be evaluated by the district prior to final acceptance, and the results of that evaluation could impact final acceptance.

1. For students applying to enroll in first grade or higher: a copy of the student's transcript from the school where the student is currently enrolled. The student's permanent record, including the original transcript, will be requested from the school immediately following the student's actual enrollment in our district.
2. Proof of the student's age; This can be a 1) birth certificate; 2) A statement by the local registrar or a county recorder certifying the child's date of birth; 3) An attested baptismal certificate; 4) A passport; 5) An affidavit of the date and place of birth by the child's parent or guardian; 6) United States military identification; or 7) Previous school records.
3. The student's health care needs at school.
4. Student's name age appropriate immunization record or an exemption granted for the previous school-year and a statement of whether or not the parent is intending to continue the exemption for the upcoming school year.

After reviewing the submitted documentation the District will determine if the applicant meets the District's capacity standards and notify you of its decision by August 1. Please note that the acceptance of an application can be reversed if it is determined that the application is in violation of student's name's resident district's limitation cap for available school choice transfers or if the resident

district has reached its statutory cap for transfers out of its district.

Respectfully,

David Hopkins
Superintendent

4.5F3--SCHOOL CHOICE ACCEPTANCE LETTER

Dear Parent's name,

I am pleased to inform you that the application you submitted for student's name has been accepted pending enrollment of student's name by insert date, however, failure to enroll student's name by this date will render this offer of acceptance null and void.

I look forward to welcoming student's name as part of the Clarksville School District.

Once your child has enrolled in school with us this coming school-year, student's name will be eligible to continue enrollment in the district until completing high school or is beyond the legal age of enrollment provided the student meets the applicable statutory and Clarksville School District policy requirements all other Clarksville School District students must meet (with the exception of residency in the Clarksville School District) to continue Clarksville School District enrollment. This information is contained in the student handbook.

Please Note: The Clarksville School District has no control over when a student's resident district might reach its statutory limit on allowable transfers out of its district. While we consider it unlikely, there is always the possibility that we could be forced to withdraw this acceptance if the resident district determines it reached its statutory cap for transfers out of its district prior to your student's application date to our District. You will be notified immediately should that rescission of acceptance be necessary. We apologize for this unavoidable uncertainty.

Respectfully,

David Hopkins
Superintendent

4.5F4--SCHOOL CHOICE REJECTION LETTER

Dear Parent's name,

- _____ Your child does not meet the openings identified for the coming school-year identified in the Board of Directors Resolution adopted on insert date.
The specific reason for rejection is that acceptance would cause the district to have to add:
 - _____ Staff

 - _____ classroom(s)
 - _____ the insert the name of the program, class, grade level, or school building's capacity

As noted in your original application, you have ten (10) days from receipt of this notice in which to submit a written appeal of this decision to the State Board of Education.

Respectfully,

David Hopkins

- e. A statement of whether the home-schooled student plans to seek a high school equivalency diploma during the current school year;
- f. A statement if the home-school student plans to seek a driver's license during the current school year;
- g. A statement that the parent or legal guardian agrees that the parent or legal guardian is responsible for the education of their children during the time the parents or legal guardians choose to home school; and
- h. A signature of the parent or legal guardian, which must be notarized if the home-schooled student plans to seek a driver's license during the school year.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information that might indicate the need for special education services.

Enrollment or Re-Enrollment in Public School

A home-schooled student who wishes to enroll or re-enroll in a District school shall submit:

- A transcript listing all courses taken and semester grades from the home school;
- Score of at least the thirtieth percentile on a nationally recognized norm-referenced assessment taken in the past year; and
- A portfolio of indicators of the home-schooled student's academic progress, including without limitation:
 - Curricula used in the home school;
 - Tests taken and lessons completed by the home-schooled student; and
 - Other indicators of the home-schooled student's academic progress.

If a home-schooled student is unable to provide a nationally recognized norm-referenced score, the District may either assess the student using a nationally recognized norm-referenced assessment or waive the requirement for a nationally recognized norm-referenced assessment score.

A home-schooled student who enrolls or re-enrolls in the District will be placed at a grade level and academic course level equivalent to or higher than the home-schooled student's grade level and academic course level in the home school:

1. As indicated by the documentation submitted by the home-schooled student;
2. By mutual agreement between the public school and the home-schooled student's parent or legal guardian; or
3. If the home-schooled student fails to provide the documentation required by this policy, with the exception of the nationally recognized norm-referenced assessment score, the District may have sole authority to determine the home-schooled student's grade placement and course credits. The District will determine the home-schooled student's grade placement and course credits in the same manner the District uses when determining grade placement and course credits for students enrolling or re-enrolling in the District who attended another public or private school.

The District shall afford a home-schooled student who enrolls or re-enrolls in a public school the same rights and privileges enjoyed by the District's other students. The District shall not deny a home-schooled student who enrolls or re-enrolls in the District any of the following on the basis of the student having attended a home school:

- a. Award of course credits earned in the home school;
- b. Placement in the proper grade level and promotion to the next grade level;
- c. Participation in any academic or extracurricular activity;
- d. Membership in school-sponsored clubs, associations, or organizations;
- e. A diploma or graduation, so long as the student has enrolled or re-enrolled in the District to attend classes for at least the nine (9) months immediately prior to graduation; or
- f. Scholarships.

4.7—ABSENCES

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in digital courses shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school. Students who are scheduled to have a dedicated period for a digital class shall not be considered absent if the student logs the correct amount of time and completes any required assignments; however, a student who fails to be physically present for an assigned period may be disciplined in accordance with the District's truancy policy.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons and the student brings a written statement to the principal or designee upon his/her return to school from the parent or legal guardian stating such reason. A written statement presented for an absence having occurred more than five (5) school days prior to its presentation will **not** be accepted.

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
2. Death or serious illness in their immediate family;
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal;
7. Participation in an FFA, FHA, or 4-H sanctioned activity;
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
11. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.³

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.⁴

Unexcused Absences

Absences not defined above or not having an accompanying note from the parent or legal guardian, presented in the timeline required by this policy, shall be considered as unexcused absences. Students with eight (8)⁵ unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has six (6)⁵ unexcused absences, his/her parents, guardians, or persons in loco parentis shall be notified⁶. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds twelve (12)⁵ unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, guardian, or persons in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, guardian, or person in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent, guardian, or person in loco parentis, and the school or district administrator or designee.⁷

Students who attend in-school suspension shall not be counted absent for those days.⁸

Days missed due to out-of-school suspension or expulsion shall be unexcused absences.⁸

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license

unless he/she meets certain requirements specified in the statute.

Applicants for an instruction permit or for a driver's license by persons less than eighteen (18) years old on October 1 of any year are required to provide proof of a high school diploma or enrollment and regular attendance in an adult education program or a public, private, or parochial school prior to receiving an instruction permit. To be issued a driver's license, a student enrolled in school shall present proof of a "C" average for the previous semester or similar equivalent grading period for which grades are reported as part of the student's permanent record.

4.8—MAKE-UP WORK

Students who miss school due to an excused absence shall be allowed to make up the work they missed during their absence under the following rules.¹

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up.²
2. Teachers are responsible for providing the missed assignments when asked by a returning student.²
3. Students are required to ask for their assignments on their first day back at school or their first class day after their return.²
4. Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.
5. Students shall have one class day to make up their work for each class day they are absent.³
6. Make-up work which is not turned in within the make-up schedule for that assignment shall receive a zero.⁴
7. Students are responsible for turning in their make-up work without the teacher having to ask for it.²
8. Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.
9. As required/permitted by the student's Individual Education Program or 504 Plan.

Work may not be made up for credit for unexcused absences **unless** the unexcused absences are part of a signed agreement as permitted by policy 4.7—ABSENCES.⁵ Out-of-school suspensions are unexcused absences.⁶

Work missed while a student is expelled from school may not be made up for credit and students shall receive a zero for missed assignments.⁷

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57—IMMUNIZATIONS.

4.9—TARDIES

Promptness is an important character trait that District staff is encouraged to model and help develop in our schools' students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which

compromises potential student achievement.

Date Adopted: 3-15-2010

Last Revised:

One good attribute a person can have is to always be on time. Students who are late to class take valuable time from themselves, other students, and teachers. Students are, therefore, expected to be in class and ready for instruction at the appointed time.

1. A student will be considered tardy if they are not in their seats when the tardy bell begins to ring.
2. A student who is tardy to school (first period) must go by the office to sign in and get a tardy slip before going to his/her first class. If a student is more than fifteen (15) minutes late the first period, this is counted as an absence.
3. A card system will be implemented to deal with class tardies. A student will be issued a special card with places for four signatures. These cards will be kept on the students' person at all times while they are at school. When a student is tardy to class (periods 1-7), the teacher in that class will sign the card. When the fourth signature is added to the card, the student will be sent to the office. This will result in a choice of corporal punishment or five days of noon detention. The student will also be issued a second card of a different color. This card will have a place for two signatures. The first signature on this card will have no consequence. The second signature, and any subsequent tardies, will result in ISS. If the first card is lost it will be considered as having four signatures with the corresponding consequence. If the second card is lost, it will be considered as having two signatures with the corresponding consequence. If a student leaves his/her card at home and is tardy to class, he/she may elect to bring it the following day and it will be signed twice. Students are reminded that if they lose their card or if they happen to leave it at home, there will be no consequence if they are never tardy to class.
4. A student who is more than five (5) minutes late to class should be sent to the office. Students who are on campus must attend class, or they will be considered truant.
5. Additional school tardies after exhausting the second card will result in ISS and in extreme cases (habitual tardies), suspension from school. Failure to attend ISS for tardies will lead to suspension from school for one day.
6. A student who is absent for more than fifteen (15) minutes (at the beginning, middle, or end) of a class will be counted absent in that class unless prior approval has been given.

4.10—CLOSED CAMPUS

All schools in the District shall operate closed campuses. Students are required to stay on campus from their arrival until dismissal at the end of the regular school day unless given permission to leave the campus by a school official. Students must be signed out in the office upon their departure.

4.12—STUDENT ORGANIZATIONS/EQUAL ACCESS

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during non-instructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during non-instructional time;
4. Employees or agents of the school are present at religious meetings only in a non-participatory capacity;

5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Non-school persons may not direct, conduct, control, or regularly attend activities of student groups.

All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the well-being of students and faculty, and to assure that attendance of students at meetings is voluntary.

Fraternities, sororities, and secret societies are forbidden in the District's schools. Membership to student organizations shall not be by a vote of the organization's members, nor be restricted by the student's race, religion, sex, national origin, or other arbitrary criteria. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity or sport program. Students who are convicted of participation in hazing or the failure to report hazing shall be expelled.

4.13—PRIVACY OF STUDENTS' RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days¹ of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

- In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:
- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.²

For purposes of this policy, the Clarksville School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.³

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, "directory information" about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements.⁴ "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance,⁵ his/her placement on the honor role (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.⁶

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education (DOE) at

5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.
6. Students shall be responsible for the removal of excess literature that is left at the distribution point for more than ____ days.

The Superintendent, along with the student publications media advisors, shall develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and timelines for the review of materials.

4.15—CONTACT WITH STUDENTS WHILE AT SCHOOL

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents.

Non-custodial parents who file with the principal a date-stamped copy of current court orders granting unsupervised visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal.¹ Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen (18) years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, custodian, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or person having lawful control of the student, or person acting in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

Contact by Professional Licensure Standards Board Investigators

Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

4.16—STUDENT VISITORS

The board strongly believes that the purpose of school is for learning. Social visitors, generally, disrupt the classroom and interfere with learning that should be taking place. Therefore, visiting with students at school is strongly discouraged, unless approved by the principal and scheduled in advance. This includes visits made by former students, friends, and/or relatives of teachers or students. Any visitation to the classroom shall be allowed only with the permission of the school principal and all visitors must first register at the office.

4.40—HOMELESS STUDENTS

The Clarksville School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive Professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
 - Are enrolled in school;
 - Have opportunities to meet the same challenging State academic standards as other children and youths; and
 - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.¹

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and
- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child:

- Continue the child's or youth's education in the school of origin for the duration of homelessness:
 - In any case in which a family becomes homeless between academic years or during an academic year; and
 - For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year;or
- Enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.²

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

1. Are:
 - Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
 - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
 - Living in emergency or transitional shelters;
 - Abandoned in hospitals
2. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

3. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
4. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is part of the student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13.³

PROGRESS REPORTS/REPORT CARDS

Each student will receive a progress report for each class during each nine weeks period. Students are required to return their progress reports with parent signatures to their teachers.

A student will receive a report card every nine weeks. Formal parent/teacher conferences will be held during the first and third nine weeks. Student report cards will be mailed at the end of each nine weeks. Final report cards will be withheld until all required books and/or materials are returned and all fines, fees, and outstanding debts owed to any school organization are paid.

A parent is encouraged to communicate with the teachers during his/her planning period or before or after school.

5.65 PARENT/TEACHER COMMUNICATION

The School Board recognizes the importance of communication between teachers and parents/legal guardians. To help promote positive communication, parent/teacher conferences shall be held once each semester. Parent/teacher conferences are encouraged and may be requested by parents or guardians anytime they need to discuss their child's progress with his/her teacher. (Act 603)

Parents shall be notified by letter prior to each parent/teacher conference, and local news media shall be used to make public announcement of the conferences. Provisions shall be made to accommodate working parents.

Teachers are required to communicate personally with the parent(s) or guardian(s) of each student during the school year to discuss the student's academic progress and shall have more frequent communication with the parent(s) or guardian(s) of students not performing at the level expected for their grade. ADE Standard 12.04.1)

Elementary school teachers, kindergarten through sixth grade (K-6), shall meet with the parent(s) or guardian(s) of each student at least once a semester through a parent/teacher conference, telephone conferences, or a home visit. (ADE Standard 12.04.2)

All grade level conferences with parent(s) or guardian(s) shall be scheduled at a time and place to best accommodate those participating in the conference. The school shall document participation or nonparticipation in required conferences. (ADE Standard 12.04.3)

If a student is to be retained at any grade level, notice of retention and the reasons for retention shall be communicated promptly in a personal conference (ADE Standard 12.04.3)

Progress reports will be sent to parents every four and one-half (4.5) weeks to alert parents of possible problems, and other contact will be made as needed to monitor student behavior and/or progress.

Any employee who needs to make a home visit for any reason shall discuss the need for the visit with the building principal. After the building principal has given approval for scheduling a visit, the employee shall call the parent or guardian of the student to make an appointment for a visit. The principal may require the employee to be accompanied by another school employee during the home visit. At the request of the employee, an administrator shall accompany the employee on the home visit. If a parent or guardian is not home at the time of the visit, the school employee(s) are not to enter the home. If the home visit is performed, the employee is to report the outcome of the visit to the building principal.

STUDENT IDENTIFICATION

A student is required to identify himself/herself upon the request of any school personnel while on school property and at all school-sponsored functions, home and away.

At the time of registration, a student will be issued an identification card. This card will be used primarily in the cafeteria and in the library media center; however, each student must have an ID card even though he/she does not eat in the lunchroom or use the library. This card should be kept with the student during the school day and should not be bent or mutilated. If the card cannot be

scanned or has been lost, the student will be required to purchase a replacement in the office. The replacement prices will be available in the office.

PROCEDURE FOR SIGNING OUT IN THE OFFICE

Should an occasion arise when a student must leave school for reasons other than school-sponsored activities, the student must sign out through the office and secure parental and administrative permission before leaving campus. A student who fails to secure permission through the office before leaving campus may be considered truant. Permission from a parent/guardian to leave or sign out doesn't automatically mean that the absence will be acceptable to the school. A student who knows in advance that he/she will be checking out needs to secure an early dismissal from the office to show his/her teacher.

VISITORS

Clarksville Junior High School cordially welcomes parents, study groups, and other guests who wish to visit classrooms, other facilities, or programs of interest. Anyone wishing to visit a student or a classroom must make prior arrangements with the principal's office before each visit. Visitors must report to the office upon arriving at CJHS and secure permission before visiting the school or school grounds. An individual needing to speak directly with a student will conduct the visit in the office after permission has been granted by a school official.

SCHOOL HOLIDAYS

School holidays are normally scheduled for Labor Day, Thanksgiving, Christmas, Martin Luther King Day, President's Day and spring break. A parent/guardian or student planning activities during a school holiday needs to be sure the student is present when school resumes following holidays. Allowance will not be made for a student who misses school due to extended holidays. A parent/guardian or student planning activities for spring break and the end of the school year should remember that inclement weather may result in the changing of these dates.

SCHOOL CLOSINGS INCLEMENT WEATHER

During times of inclement weather, the local radio stations (KLYR 92.7 and KXIO 106.9) will be notified by the superintendent at the earliest possible time regarding plans for that school day. In addition the ALERTNOW Notification Service will notify you of school delays or cancellations. During times of bad weather when school is in session but some of the buses are unable to run, all students unable to attend classes because the buses can't run will be excused.

4.37—EMERGENCY DRILLS

All schools in the District shall conduct fire drills at least monthly. Tornado drills shall also be conducted no fewer than three (3) times per year with at least one each in the months of September, January, and February. Students who ride school buses,¹ shall also participate in emergency evacuation drills at least twice each school year.

The District shall annually conduct an active shooter drill and school safety assessment for all District schools in collaboration with local law enforcement and emergency management personnel. Students will be included in the drills to the extent that is developmentally appropriate for the age of both the students and grade configuration of the school.²

Drills may be conducted during the instructional day or during non-instructional time periods.

Other types of emergency drills may also be conducted to test the implementation of the District's emergency plans in the event of an earthquake or terrorist attack that might include the use of biological or chemical agents. Students shall be included in the drills to the extent practicable.²

EMERGENCY/CRISIS SITUATION ON SCHOOL CAMPUS

In the event of a school closing or crisis situation on any of our school campuses, up-to-date information will be supplied to the local radio station. Parents are asked to listen to that information instead of calling the school. School phones will be involved in handling the situation.

EVACUATION PROCEDURE

Under certain conditions an evacuation of the building might be necessary. At this time, the principal will notify the staff and students to immediately leave the building and relocate to another location. All visitors in the building will evacuate and go to designated site with students and school personnel until clearance is received. No vehicles are to be moved, buses will be sent to transport all students. In case of an emergency or early dismissal from school, students will be dismissed by the Principal or Assistant Principal.

REGISTRATION RETURNING STUDENTS

A student who has been currently attending Clarksville Schools will pre-register in the spring for the following year. Schedules may

be picked up in the principal's office prior to the beginning of school on the dates announced through the local media. All books must be returned and all fines, fees, and outstanding debts owed to any school organization from the previous year must be paid before a student will be allowed to enroll for the new year.

SCHEDULE CHANGES

All schedule changes must be approved by the principal and made by the counselor during the first week of either semester.

WITHDRAWAL FROM SCHOOL

A student withdrawing from school must secure the appropriate forms from the school secretary and have them properly completed before being considered officially withdrawn. All books and/or materials must be returned and all fines, fees, and outstanding debts owed to any school organizations must be paid before records will be transferred to another school.

ATTENDANCE

ATTENDANCE REQUIREMENTS FOR STUDENTS IN GRADES 9-12

Students in grades nine through twelve (9-12) are required to schedule and attend a full school day. Part of this requirement may be met by students taking post-secondary courses. Eligible students' enrollment and attendance at a post-secondary institution shall count toward the required weekly time of school attendance. Each credit hour shall count as three (3) hours of attendance time. This means a three (3) hour course shall count as nine (9) hours of the weekly required time of attendance.

Study Halls - Students may be assigned to no more than one (1) class period each day for a study hall that the student shall be required to attend and participate in for the full period. Such study halls are to be used for the purposes of self-study or for organized tutoring which is to take place in the school building.

Extracurricular Classes - Students may be assigned to no more than one (1) class period each day for organized and scheduled student extracurricular classes that the student shall be required to attend and participate in for the full class period. Extracurricular classes related to a seasonal activity shall meet for an entire semester whether or not the season ends prior to the end of the semester. Students must attend and participate in the class for the entire semester in order to receive credit for the course. For the purpose of this policy, extracurricular classes is defined as school sponsored activities which are not an Arkansas Department of Education approved course counting toward graduation requirements or classes that have not been approved by the Arkansas Department of Education for academic credit. Such classes may include special interest, fine arts, technical, scholastic, intramural, and interscholastic opportunities.

Course Enrollment Outside of District - Enrollment and attendance in vocational-educational training courses, college courses, school work programs, and other department-sanctioned educational programs may be used to satisfy the student attendance requirement even if the programs are not located at the public schools. Attendance in such alternative programs must be pre-approved by the school's administration. The district shall strive to assign students who have been dropped from a course of study or removed from a school work program job during the semester into another placement or course of study. In the instances where a subsequent placement is unable to be made, the district may grant a waiver for the student for the duration of the semester in which the placement is unable to be made.

In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.

HOMEWORK

Homework will be appropriate and meaningful in the development and learning of new instructional skills, which will reinforce skills being taught by teachers during their lessons.

HOMEWORK DURING ABSENCE

Student assignments are available through Schoology. Parents may call before 10:30 a.m., to request homework to be picked up after 3:00 p.m. on day of absence. Homework will then be due when the student returns to school.

5.15 GRADING

Parents, or legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, persons having lawful control of a student, persons standing in loco parentis, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reasons for difficulties and shall develop, cooperatively with the parents, a plan for remediation, which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine (9) week

grading period¹ to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to:²

1. A change in the child's school enrollment;
2. The child's attendance at a dependency-neglect court proceeding; or
3. The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows:

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69 – 60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

The grade point values for Advanced Placement (AP), approved courses for weighted credit, International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) days while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus the final grade would be $(0.25 \times 83) + (0.75 \times 75) = 77\%$.

GRADING

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that reflect other educational objectives such as the student learning expectation contained in the curriculum frameworks may also be given.

The Board directs that letter grades be used for grades one through twelve to report progress to parents. Letter grades will conform to the same percentage scale for both levels. Kindergarten will use a standards checklist to report grades to parents. Special symbols appropriate to non-graded programs will be used to indicate progress. Grades will be recorded as points earned/points possible. From these points, percentages will be figured and appropriate grades assigned at the end of each grading period for reporting purposes.

Schools will use report cards appropriate to the level being reported.

The Superintendent is directed to provide guidelines to be used by teachers in reporting grades. These guidelines will include values for regular course work, as well as honors courses and will be included in each school's Student Handbook.

GRADING POLICY

The nine weeks grade will be computed on total points up to that time. Daily grades will count 50 percent of the grade. To determine a student's grade, the semester test counts one-fifth of his/her semester grade. To compute this grade, double the first nine weeks percent, double the second nine weeks percent, add in the semester test percent and divide by five (5).

Approved 8/19/89

SEMESTER TEST POLICY

Semester tests, which count as one fifth (1/5) of the semester grade, will be given in all classes both semesters. All students must take semester tests at the end of first semester. Semester tests will be given in all classes at the end of both semesters to those

students who do not meet exemption requirements. A student may be exempt from a semester test for the current semester if he/she meets the following requirements:

1. The student has a grade of C or higher in the class for the semester.
2. The student has 5 or fewer absences in the class for the semester.
3. The student has not received Out of School Suspension **at any time during the school year**.

School-related or school-sponsored absences will be considered a school activity and will not count as an absence when figuring exemptions.

No semester tests will be given early without approval from the principal or the principal's designee.

STUDENT SERVICES

BOOKS AND MATERIALS

The State of Arkansas provides free textbooks in all subjects for each student. Each student is responsible for every book issued to him/her and upon request must return the books to the school in the same condition as when issued except for wear and tear from normal usage. If books are lost or damaged, the student will be assessed the cost of replacement or repair. Fines for marked or torn pages, damaged covers, etc. will be assessed and collected through the principal's office.

A student who fails to turn in his/her books at the end of the school year or who fails to pay any fees or fines associated with damaged or lost books will not be issued books for the next school year until the books have been returned or the fees or fines have been paid in full. A senior who fails to pay fines for lost or damaged books will have all information requests (transcripts, etc.) withheld until the fines or fees have been paid or the books have been returned.

GUIDANCE AND COUNSELING

The counselor's office will be open to all students in grades seven (7) through nine (9) each day of the school year for seven periods. Conferences with the counselor should be scheduled during a study hall if at all possible. If a student does not have a study hall or needs information during a class period, the counselor will help to make the arrangements for a conference at a convenient time. When possible, an appointment needs to be made in advance.

A student should begin considering career choices and post-high school educational training early in his/her junior high school career. Information about colleges, technical schools, and special interest schools is available in the counselor's office and in the library. A student should investigate available materials in order to plan wisely his/her course of study during the high school years. For those planning to seek additional training after high school, financial aid information about the government grant program, loans, scholarships, work study programs, and the Arkansas-sponsored state scholarship program is available. Additional information is available on occupations, local job opportunities, and other areas of concern to a student.

The counselor is responsible for the testing program in the school. Tests which may be administered include the following:

ACT Aspire – is given to all students in grades 3-10.

NRT -- The test is given to all students in grade nine (9). It compares student competency across the nation in reading comprehension and math problem solving. The NRT will be given in the spring.

PSAT/NMSQT--This test is used as the qualifying test for National Merit Scholarship consideration. It is given to interested sophomores and juniors in October of each year. A student interested in taking the test pays a small fee.

ASVAB -- The Armed Services Vocational Aptitude Battery is administered to juniors during the junior year.

ACT and SAT--Registration forms for the ACT and SAT are available in the counselor's office. Both of these tests are aptitude tests for college, and most colleges require that a student seeking admission take one of the tests. Many college scholarships are awarded on the basis of scores received on either the ACT or SAT. Some schools have minimum scores required for entry into the school itself or into programs within the schools. A student must pay a fee to take either of these tests.

AP Tests – AP tests are given in May to students enrolled in AP courses. To receive weighted credit a student is required to take the test.

ANNOUNCEMENTS

Announcements will be made at the beginning of first and third periods only; announcements will also be posted on the office bulletin board. Each student should pay careful attention to the information given on the announcements. It is each student's responsibility to find out announcements he/she may have missed when not present on any given day.

LOCKERS

A student will pay a \$2.00 maintenance fee for using a locker during the school year. A student wishing to use a locker will need to come to the office to get his/her locker assignment. The lockers are small and will accommodate only one student; therefore, students are not to share lockers. A student is responsible for taking proper care of the locker throughout the year. Abusive treatment of any locker may result in the loss of locker privileges for a period of time specified by the principal. The school assumes no responsibility for items missing or stolen from the locker. A parent/guardian should be aware that school officials may search lockers. The guidelines for locker searches are listed under "Search and Seizure" in the "Student Safety" section of this handbook.

TELEPHONE

Office telephones are for official school business and must be used by students only for emergency purposes. Any tardies resulting from telephone usage between classes will be unexcused.

CAFETERIA

CJHS has a cafeteria for those who wish to eat breakfast and/or lunch. Breakfast and lunch prices will be announced at the

beginning of each year, and a student may pay into his/her lunch account by the day, week, or month. A student may pay into his account between 7:45 and 8:00 a.m. or between 12:02 and 12:32 p.m. A student may not pay into his account when going through the breakfast or lunch line, nor will a student be allowed to charge any meal. Free and reduced-price forms will be sent home with the student the first day of school, or a student may pickup a form in the principal's office, the lunchroom supervisor's office, or the cafeteria at any time. These forms need to be returned to the cafeteria manager. Each person will be issued an identification card at the beginning of the year. This card will also serve as a lunch card and must be used daily. If a student loses his/her card, he/she must pay a \$1.00 fee to replace the card. Cards may be picked up on the way to lunch the next day in the school office. Rules for cafeteria conduct are listed in the "Conduct" section of this handbook.

Meal Charges

Food Service Prepayment 4.51

The District does not provide credit for students to charge for meals, a la carte, or other food and beverage items available for purchase in the school food service areas. Meals, a la carte, or other food and beverage items may be purchased by either providing payment for the items at the time of receipt or by having a prepaid account with the District that may be charged for the items. Parents, or students choosing to do so, may pay in advance for meals, a la carte, or other food and beverage items through any of the following methods:

- Submitting cash or check payment in the school cafeteria or the school office.
- Depositing funds through the District's online service: www.mymealtime.com (a small fee applies)

A student's parents will be contacted by authorized District personnel regarding a student's prepaid account balance at the following times :⁴

- Negative balances slips will be sent home with students on a weekly basis to parents with student in grades K-7th.
- Negative balance slips will be mailed home to parents of students 8th-12th grade.

Unpaid Meal Access

In accordance with Arkansas law, the District allows students whose accounts do not have enough funds to purchase a meal to receive an unpaid reimbursable meal. The District will notify a student's parents:

- When the student's prepaid account balance has dropped to the point that the student will begin receiving unpaid meals;
- Each time the student receives the first unpaid meal after money has been deposited into the student's prepaid account; and
- After the student has received five (5) unpaid meals.

Students who have submitted proper documentation to receive a meal modification in accordance with Policy 4.50—SCHOOL MEAL MODIFICATIONS shall receive the same type of modification for an unpaid meal.

Good nutrition and learning go hand in hand. The Food Service Department is made up of a team of food and nutrition professionals that are dedicated to students' health, well-being and their ability to learn. We support learning by promoting healthy habits for lifelong nutrition and fitness practices.

Clarksville School District participates in the National School Breakfast & Lunch Program. The NSBP and NSLP allows for free and reduced priced meals. Applications for free/reduced priced meals are sent home at the beginning of the school year and are also available in school offices, cafeterias and the office of the assistant food service director. Applications can be submitted at any time during the school year. We encourage parents to apply for free or reduced price meals by completing an application and returning it to the school office, cafeteria, Child Nutrition Office or the Superintendent's Office.

Meals, foods and beverages sold or served at District Schools meet state and federal requirements which are based on the USDA DIETARY GUIDELINES. We provide students with access to a variety of affordable and appealing foods that meet the health and nutrition needs of students.

Send suggestions, feedback or questions on our food service program to Cathy Holland, Assistant Food Service Director @ cathy.holland@cstar.org

- Physicians, including those licensed by:
 - The Arkansas State Medical Board;
 - The Arkansas State Board of Chiropractic Examiners;

If the information provided in the medical statement is unclear, or lacks sufficient detail, the District Child Nutrition Department shall request additional information so that proper and safe meal can be provided.

When choosing an appropriate approach to accommodate a student's disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child's disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District's 504 Coordinator who will schedule a hearing on the grievance to be held as soon as possible. The 504 Coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

4.52—STUDENTS WHO ARE FOSTER CHILDREN

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services ("DHS"), the Arkansas Department of Education (ADE), and individuals involved with each foster child to ensure that the foster child is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.¹

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise or DHS grants a request to transfer under Foster Child School Choice, ensure that the foster child remains in his/her school of origin, even if a change in the foster child's placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.²

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.³

A foster child's grades shall not be lowered due to absence from school that is caused by a change in the child's school enrollment, the child's attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment.

Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.⁴

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by ADE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent, or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted, the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance. If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:⁵

1. The public school or District has reached the maximum student-to-teacher ratio allowed under federal law, state law, rules for standards of accreditation, or other applicable rule or regulation; or

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

- Graduates from high school; or
- Transfers to another school or school district under:
 - The Foster Child School Choice Act;
 - Opportunity Public School Choice Act of 2004;
 - The Public School Choice Act of 2015; or
 - Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public school district.

When a foster child transfers from the foster child's school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child's transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

4.53— PLACEMENT OF MULTIPLE BIRTH SIBLINGS

The parent, guardian or other person having charge or custody of multiple birth siblings in grades pre-K through 6 may request that the multiple birth siblings are placed in either the same or separate classrooms. The request shall be in writing not later than the 14th calendar day prior to the first day of classes at the beginning of the academic year. The school shall honor the request unless it would require the school to add an additional class to the sibling's grade level. If one parent of multiple birth siblings requests a placement that differs from that of the other parent of the same multiple birth siblings, the school shall determine the appropriate placement of the siblings.

The school may change the classroom placement of one or more of the multiple birth siblings if:

- There have been a minimum of 30 instructional days since the start of the school year; and
 - After consulting with each classroom teacher in which the siblings were placed, the school determines the parent's classroom placement request is:
 - Detrimental to the educational achievement of one or more of the siblings;
 - Disruptive to the siblings' assigned classroom learning environment; or
 - Disruptive to the school's educational or disciplinary environment.

If a parent believes the school has not followed the requirements of this policy, the parent may appeal the multiple birth siblings' classroom placement to the Superintendent. The Superintendent's decision regarding the appeal shall be final.

5.5—SELECTION/INSPECTION OF INSTRUCTIONAL MATERIALS

The use of instructional materials beyond those approved as part of the curriculum/textbook program must be compatible with school and district policies. If there is uncertainty concerning the appropriateness of supplemental materials, the personnel desiring to use the materials shall get approval from the school's principal prior to putting the materials into use.

All instructional materials used as part of the educational curriculum of a student shall be available for inspection by the parents or guardians of the student. For the purposes of this policy, instructional materials is defined as instructional content provided to the student regardless of its format, including printed or representational materials, audio-visual materials, and materials in electronic or digital formats. The term does not include academic tests or academic assessments.

Parents or guardians wishing to inspect instructional materials used as part of the educational curriculum for their child may schedule an appointment with the student's teacher at a mutually agreeable time. Parents/guardians wishing to challenge the appropriateness of any instructional materials shall follow the procedures outlined in Policy 5.6—CHALLENGE OF INSTRUCTIONAL/SUPPLEMENTAL MATERIALS.

The rights provided to parents under this policy transfer to the student when he/she turns 18 years old.

5.6—CHALLENGE TO INSTRUCTIONAL/SUPPLEMENTAL MATERIALS

Instructional and supplemental materials are selected for their compatibility with the District's educational program and their ability to help fulfill the District's educational goals and objectives. Individuals wishing to challenge or express concerns about instructional or supplemental materials may do so by filling out a *Challenge to Instructional Material* form available in the school's office.

The contesting individual may present a copy of the form to the principal and request a conference be held at a time of mutual convenience. Prior to the conference, the principal shall consult with the teacher regarding the contested material. In the conference, the principal shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.

Following the conclusion of the meeting, the principal shall have five (5) working days to submit a summary of the concerns expressed by the individual and the principal's response to those concerns to the Superintendent¹.

If the contesting individual is not satisfied with the principal's response, the individual may, after the five (5) working day period, request a meeting with the Superintendent where the individual shall present the same *Challenge to Instructional Material* form previously presented to the principal. The Superintendent shall explain to the contesting individual the criteria used for the selection of the material and its relevancy to the educational program as well as any other pertinent information in support of the use of the material.²

Following the conclusion of the meeting, the Superintendent shall have five (5) working days to write a summary of the concerns expressed by the individual and the Superintendent's response to those concerns. The Superintendent shall create a file of his/her response along with a copy of the principal's response and a copy of the contesting individual's *Challenge to Instructional Material* form.

If, after meeting with the Superintendent, the contesting individual is not satisfied with the Superintendent's response regarding the appropriateness of the instructional or supplemental material, he/she may appeal the Superintendent's decision to the Board. The Superintendent shall present the contesting individual's *Challenge to Instructional Material* form to the Board at the next regularly scheduled meeting along with the written responses to the challenge. The Board may elect, if it so chooses, to hear brief verbal presentations from the parties involved in the challenge.

The Board shall decide at that meeting or their next regularly scheduled meeting whether to retain the material, limit the availability of the material, or remove the material from the school. The Board's primary consideration in reaching its decision shall be the appropriateness of the material for its intended educational use.

The staff's greatest desire is to promote the love of reading and a thirst for knowledge in the students. Students are urged to make use of every opportunity to enter the door of the CJHS library media center.

5.7—SELECTION OF LIBRARY/MEDIA CENTER MATERIALS

The ultimate authority for the selection and retention of materials for the schools' media centers rests with the Board of Education which shall serve as a final arbiter in resolving a challenge to any media center materials. Licensed media center personnel shall make the initial selections in consultation with school and district licensed staff. Materials selected shall be in accordance with the guidelines of this policy.

The purpose of the schools' libraries/media centers is to supplement and enrich the curriculum and instruction offered by the District. Promoting the dialogue characteristic of a healthy democracy necessitates the maintenance of a broad range of materials and information representing varied points of view on current and historical issues. In the selection of the materials and resources to be available in each library/media center consideration will be given to their age appropriateness. Materials should be available to challenge the different interests, learning styles, and reading levels of the school's students and that will help them attain the District's educational goals.

Selection Criteria

The criteria used in the selection of media center materials shall be that the materials:

1. Support and enhance the curricular and educational goals of the district;
2. Are appropriate for the ages, learning styles, interests, and maturity of the schools' students, or parents in the case of parenting literature;
3. Contribute to the examination of issues from varying points of view and help to broaden students understanding of their rights and responsibilities in our society;
4. Help develop critical thinking skills;
5. Are factually and/or historically accurate, in the case of non-fiction works and/or serve a pedagogical purpose;
6. Have literary merit as perceived by the educational community; and
7. Are technically well produced, physically sound (to the extent appropriate), and represent a reasonably sound economic value.

Retention and Continuous Evaluation

Media center materials shall be reviewed regularly to ensure the continued appropriateness of the center's collection to the school's curriculum and to maintain the collection in good repair. Those materials no longer meeting the selection criteria, have not been used for a long period of time, or are too worn to be economically repaired shall be withdrawn from the collection and disposed of. A record of withdrawn media materials including the manner of their disposal shall be maintained for a period of three years.

Gifts

Gifts to the media centers shall be evaluated to determine their appropriateness before they are placed in any media center. The evaluation shall use the same criteria as for all other materials considered for inclusion in the media centers. Any items determined to be unacceptable shall be returned to the donor or disposed of at the discretion of the media specialist. The media centers shall have a list of desired items to give to prospective donors to aid them in their selection of materials to donate.

Challenges:

The parent of a student affected by a media selection, or a District employee may formally challenge the appropriateness of a media center selection by following the procedure outlined in this policy. The challenged material shall remain available throughout the challenge process.

Before any formal challenge can be filed, the individual contesting (hereinafter complainant) the appropriateness of the specified item shall request a conference through the principal's office with a licensed media center employee. The complainant shall be given a copy of this policy and the *Request for Reconsideration of Library/Media Center Materials Form* prior to the conference. The meeting shall take place at the earliest possible time of mutual convenience, but in no case later than five (5) working days from the date of the request unless it is by the choice of the complainant.

In the meeting, the media specialist shall explain the selection criteria and how the challenged material fits the criteria. The complainant shall explain his/her reasons for objecting to the selected material. If, at the completion of the meeting, the complainant wishes to make a formal challenge to the selected material, he/she may do so by completing the *Request for Reconsideration of Library/Media Center Materials Form* and submitting it to the principal's office.

To review the contested media, the principal shall select a committee of five (5) or seven (7) licensed personnel consisting of the principal as chair and at least one media specialist. The remaining committee members shall be personnel with curriculum knowledge appropriate for the material being contested and representative of diverse viewpoints. The task of the committee shall be to determine if the challenged material meets the criteria of selection. No material shall be withdrawn solely for the viewpoints expressed within it and shall be reviewed in its entirety and not selected portions taken out of context.

The principal shall convene a meeting after a reasonable time for the committee members to adequately review the contested material and the *Request for Reconsideration of Library/Media Center Materials Form* submitted by the complainant. The complainant shall be allowed to present the complaint to the committee after which time the committee shall meet privately to discuss the material. The committee shall vote by secret ballot to determine whether the contested material shall be removed from the media center's collection. A member from the voting majority shall write a summary of the reasons for their decision (see page 73 for a copy of this form). A notice of the committee's decision and the summary shall be given (by hand or certified mail) to the complainant.

If the decision is to not remove the material, the complainant may appeal the committee's decision to the district Board of Directors by filing a written appeal to the Superintendent within 5 working days of the committee's decision or of written receipt of the decision. The Superintendent shall present the original complaint and the committee's decision along with the summary of its reasons for its position plus a recommendation of the administration, if so desired, to the Board within 15 days of the committee's decision. The Board shall review the material submitted to them by the Superintendent and make a decision within thirty (30) days of receipt of the information. The Board's decision is final.

STUDENT HEALTH

Clarksville School District Wellness Policy

The Clarksville School District, in accordance with Act 1220 of 2003, has an established wellness policy filed with the Arkansas State Department of Education. The school district has adopted objectives for improving the school nutrition environment, promoting student health, and reducing childhood obesity (Public Law 108-265, Section 204).

The school district can only allow non-healthy items to be brought to school nine days per year for such things as class parties or special events. Those days will be decided by the administration and faculty of each building in Accordance with the Arkansas Department of Education Rule 5.02.4.

Snacks may be provided or distributed by the school as part of the planned instructional program. Snacks can be provided by parents as long as they meet the United States Department of Agriculture Snack Patterns.

This policy does not restrict what parents may provide for their own child's lunch or snacks. Parents may provide foods of minimal nutritional value or candy items for their child's own consumption, but they may not provide restricted items to other children at school.

STUDENT ILLNESS/ACCIDENT

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student's parent or legal guardian. The student will remain in the school's health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school's expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for treatment of the student. When available, current, and applicable, the student's emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

4.35—STUDENT MEDICATIONS

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer or otherwise authorized by this policy, students are not allowed to carry any medications, including over-the-counter (OTC) medications or any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, while at school. The parent or legal guardian shall bring the student's medication to the school nurse. The student may bring the medication if accompanied by a written authorization from the parent or legal guardian. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). If the medications are brought by a student, the school nurse shall ask another school employee to verify, in the presence of the student the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-medication, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an individualized health plan (IHP) may be given OTC medications to the extent giving such medications are included in the student's IHP.

The district's supervising registered nurse is responsible for creating procedures for the administration of medications on and off campus.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and rules.¹

Schedule II Medications

Students taking Schedule II medications methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse) shall be allowed to attend school.

Students taking Schedule II medications not included in the previous sentence shall be allowed to bring them to school under the provisions of this policy and shall be permitted to attend and participate in classes **only** to the extent the student's doctor has specifically authorized such attendance and participation. A doctor's prescription for a student's Schedule II medication is **not** an authorization. Attendance authorization shall specifically state the degree and potential danger of physical exertion the student is permitted to undertake in the student's classes and extracurricular activities. Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall **not** be eligible to attend classes, but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or any combination on his/her person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

Students with an order from and a licensed health care provider to self-administer auto-injectable epinephrine and who have written permission from their parent or guardian shall provide the school nurse an epinephrine auto-injector. This epinephrine will be used in the event the school nurse, or other school employee certified to administer auto-injector epinephrine, in good faith professionally believes the student is having a life-threatening anaphylactic reaction and the student is either not self-carrying his/her /epinephrine auto-injector or the nurse is unable to locate it.

4.34—COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant *Staphylococcus aureus*), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally).¹ A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any bloodborne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57—IMMUNIZATIONS, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

4.57—IMMUNIZATIONS

Definitions

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

"Serologic testing" refers to a medical procedure used to determine an individual's immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against¹:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubeola) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

- A. Licensed physician;
- B. Health department;
- C. Military service; or
- D. Official record from another educational institution in Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating "up-to-date", "complete", "adequate", and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted. Valid proof of immunization and of immunity based on serological testing shall be entered into the student's record.

In order to continue attending classes in the District, the student must have submitted:

- 1) Proof of immunization showing the student to be fully age appropriately vaccinated;
- 2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student's next immunization;
- 3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
- 4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization waiver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student's admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion From School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for twenty-one (21) days or longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.²

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

Annually by December 1, the District shall create, maintain, and post to the District's website a report that includes the following for each disease requiring an immunization under this policy:

The number of students in the District that were granted an exemption by the Department of Health from an immunization;

The percentage of students in the District that were granted an exemption by the Department of Health from an immunization; and

The percentage of a population that must receive an immunization for herd immunity to exist.

EXTRACURRICULAR ORGANIZATIONS

Clarksville Junior High School offers a variety of extracurricular organizations for each student who wishes to broaden his/her social and academic growth. Every student is encouraged to belong to an organization or organizations of his/her choice. A student who wishes to join an organization is advised to talk with the sponsor beforehand and find out as much as possible about the organization before joining. A list of organizations will be posted on the student bulletin board. Once a student has decided on a particular organization, he/she must realize that there will be basic expectations and contributions that must be made as a member of that organization. All members of any club or organization must abide by all rules and regulations adopted by that organization.

All student clubs or organizations will organize in the fall during the first two weeks of school. Meetings will be scheduled in the morning before school starts, at noon, after school, or during a scheduled activity period. Class time will not be used for club meetings in most cases.

Organizations wishing to meet at school during out-of-school hours must make the appropriate arrangements with the principal in advance.

4.56—EXTRACURRICULAR ACTIVITIES – SECONDARY SCHOOLS

Definitions:

"Academic Courses" are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the ADESE. Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by ADESE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

"Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

"Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.¹

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.¹

"Supplemental Improvement Program (SIP)" is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association (AAA) Handbook.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed fifteen per semester per extracurricular activity (tournaments excepted)². Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

Any student who refuses to sit for a Statewide assessment or attempts to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable. The superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances.³ Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.⁴

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

Interscholastic Activities

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.⁵

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

1. Have earned a minimum Grade Point Average (GPA) of 2.0 from all academic courses the previous semester; or
2. If the student has passed four (4) academic courses the previous semester but does not have a 2.0 GPA the student must be enrolled and successfully participating in an SIP to maintain their competitive interscholastic extracurricular eligibility.

STUDENTS WITH AN INDIVIDUAL EDUCATION PROGRAM

In order to be considered eligible to participate in competitive interscholastic activities, students with disabilities must pass at least four (4) courses per semester as required by their individual education program (IEP).

ARKANSAS ACTIVITIES ASSOCIATION

In addition to the foregoing rules, the district shall abide by the rules and regulations of AAA governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.⁶

Intrascholastic Activities

AAA Governed Activities

Students participating in intrascholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable intrascholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.⁷

Non-AAA Governed Activities

Unless made ineligible by District policies, all students shall be eligible to participate in non-AAA governed intrascholastic extracurricular activities. Intrascholastic activities designed for a particular grade(s) or course(s) shall require the student to be enrolled in the grade(s) or course(s).

4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to regulations of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.¹

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone² as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if the superintendent of the student's resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction in order to participate in an interscholastic activity.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the student's school's principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one course³ in the District's school where the student is intending to participate in an interscholastic activity.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

No student shall be required to pay for individual or group instruction in order to participate in an interscholastic activity.

A home-schooled student who has met the try out criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;⁴
- permission slips, waivers, physical exams; and
- participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

- a. Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
- b. One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student would have been enrolled in seventh (7th) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A student who withdraws from an Arkansas Activities Association member school to be home-schooled shall not participate in an interscholastic activity in the resident school district for a minimum of three hundred sixty-five days after the student withdraws from the member school.

4.59—ACADEMIC COURSE ATTENDANCE BY PRIVATE SCHOOL AND HOME SCHOOL STUDENTS

The District allows private school and home schooled students whose parents, legal guardians, or other responsible adult with whom the student resides are residents of the District to attend academic courses offered in grades the district. The District will place a list of courses that a private school or home school student may request to attend on its website by:²

1. June 1 for courses to be offered during the Fall semester; and
2. November 1 for courses to be offered during the Spring semester.

A private school or home schooled student who desires to attend one or more of the available academic courses shall submit a written request to attend the academic course(s) to the superintendent, or designee, no later than:²

- a. August 1 for Fall semester courses; or
- b. December 1 for Spring semester courses.

The superintendent, or designee, is authorized to waive the application deadline on a case by case basis.

The District permits a private school or home schooled student to attend a maximum of six (6) courses per semester.

The District may reject a private school or home schooled student's request for attendance if the District's acceptance would:

- Require the addition of staff or classrooms;
- Exceed the capacity of a program, class, grade level, or school building;
- Cost the District more for the student to attend the academic course than the District receives for the student's attendance;
- Cause the District to provide educational services the District does not currently provide at a financial burden to the District; or
- Cause the District to be out of compliance with applicable laws and regulations regarding desegregation.

Requests to attend an academic course will be granted in the order the requests are received. Upon the receipt of a private or home schooled student's request to attend academic course(s), the District will date and time stamp the request for attendance. If a private school or home schooled student is denied attendance based on a lack of capacity and an opening in the requested course occurs prior to the start of the course, the District will use the date and time stamp on the request for attendance to determine the private school or home schooled student who will be notified of an opening in the requested course.

As part of the request to attend academic courses in the District, a private school or home schooled student shall:

- Indicate the course(s) the private school or home schooled student is interested in attending;
- If the course(s) the private school or home schooled student is interested in attending is being offered by the District in both a physical and a digital format, whether the private school or home schooled student intends to attend the physical course or the digital course;
- Submit, along with the student's application, a copy of the student's transcript indicating that the student has received credit for the course(s), or equivalent course(s), that are a prerequisite to the course(s) the student desires to attend at the District;
- Agree to follow the District's discipline policies; and
- Submit immunization documentation required by Policy 4.57—IMMUNIZATIONS. In addition to the documentation methods provided in Policy 4.57, a home school student may submit a letter to the superintendent, or designee, stating an objection to immunizations and listing the immunizations the student has received, if any.

A private school or home schooled student who fails to attend an academic course by the eleventh (11) day of class or who is absent without excuse for eleven (11) consecutive days during the semester shall be dropped from the course.; however, a private school or home schooled student shall not be considered truant for unexcused absences from the course(s) the student is attending at the District.

Private school or home schooled students shall receive a final grade and transcript for each academic course the student completes.

The responsibility for transportation of any private school or home schooled student attending academic courses in the District shall be borne by the student or the student's parents.

The opportunity provided to home schooled students under this policy is in addition to the opportunity provided in Policy 4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS.

AWARDS AND HONORS

Throughout the course of the school year, there are many honors and awards earned by CJHS students. Every attempt will be made to recognize student achievements through the school paper, local media, awards assemblies, special banquets, and local service clubs. Awards and honors that are recognized each year fall into the following categories:

1. Perfect Attendance Awards -- These are given to a student who has been present each day -- periods one (1) through (7) seven -- that school has been in session or has been present the full school day that he/she is required to attend.
2. Athletic and Band Awards -- These awards are based on individual, outstanding achievement in a particular area of these activities.
3. Individual Awards -- These are given in each subject matter area to those students who have excelled in that area of study during the year and are given during the annual awards assembly. Honor Roll Students -- A student who earns and maintains a "B" or better in all subjects will be recognized in the local media each nine weeks. These students will also be recognized at the annual awards assembly if they have maintained this average for the entire year, and the senior honor graduates will also be recognized during graduation ceremonies.
4. Students of the Month. Each month faculty members select by a secret-ballot rating system one boy and one girl from each grade to be designated as Student of the Month.
5. Accelerated Reader -- Students receiving the top points for reading books and passing tests will be recognized at our honors assembly. They will also receive prizes according to points earned.

FORM: 5.17F—HONOR ROLL AND GRADUATE OPT OUT FORM

I, the undersigned, being a parent or guardian of a student, or a student eighteen (18) years of age or older, hereby note my objection to having the student named below publicly identified as an honor roll or honor graduate student.

ASSEMBLIES

A planned program of assemblies is provided to supplement and enrich the overall educational offerings at the junior high school. Assemblies are to promote student talent and participation, to provide cultural experiences and broaden interests, to present important school and civic matters to the students, to bring outstanding personalities and cultural information to the students, and to enrich school spirit. All assemblies will be scheduled and approved through the building principal. The student council president will usually be asked to open and close all assemblies. Constructive suggestions from students, faculty, or parents concerning programs or other assembly practices are encouraged.

Pep rallies and assemblies of this nature will meet in the gymnasium. More formal assemblies will be held in the cafetorium or fine arts building. In the event a parent/guardian objects to a student's attending a particular assembly, the student may report to the principal for instructions.

All students will be required to attend all scheduled assemblies except those requiring a fee. A student who does not wish to attend an assembly requiring a fee will be told where to report. Assemblies are a part of the regular school day and not time for a student to schedule his/her own activities away from school. As a rule, a student will not be excused from assembly programs to carry on personal business.

CLASSROOM PARTIES

A teacher desiring to have a classroom party must submit the appropriate form to the principal and provide necessary cleanup.

SCHOOL-RELATED ACTIVITIES

FIELD TRIPS

The school encourages participation in extracurricular activities which, on occasion, may require that trips be made. All trips taken by a student group must have adult supervision and be approved by the principal. School-sponsored organizations may secure use of school buses through the building principal. All CJHS students who attend school-sponsored, off-campus events will be governed by school district rules and regulations and are subject to the authority of school personnel. A student is expected to dress appropriately (as determined by the sponsor and/or principal) when representing CJHS on school-sponsored events.

A student who makes trips representing the school will use transportation designated by school officials. Before participating in a field trip, a student must have a permission slip signed by his/her parent/guardian. A student will return from all trips by the same school transportation unless (1) a parent/guardian has contacted the sponsors personally and requested that his/her son or daughter ride home with him/her or other designated parents or (2) the parent/guardian has contacted the sponsor in writing prior to the trip requesting that his/her son or daughter ride home with him/her or another designated parent. Only current CJHS students, authorized sponsors, and school personnel may ride in transportation furnished by the school except in the case of a pep bus.

4-H

Act 245 (A.C.A.16-18-220) of 1981 encourages a student to participate in 4-H activities and instructs a district to excuse participation in 4-H activities away from the school. Prior approval must be obtained from the principal.

DANCES/PROM

Dances may be held on school property; however, all dances scheduled must meet the following guidelines and any other guidelines adopted at a later date:

1. All dances will be school sponsored.
2. All dances must be sponsored by a recognized school organization.
3. All dances must be scheduled at least two weeks ahead of time.
4. The times the dance begins and ends will be set by the principal.
5. All dances will be chaperoned by certified school employees.
6. Proceeds from a dance will go to the sponsoring organization to pay for all expenses incurred.
7. The sponsoring organization will be responsible for cleaning the facility used for the dance before the next school day begins.

A student attending a school sponsored dance must comply with the following requests and any other requests deemed necessary:

1. A student must pay the required fee to enter the dance.
2. A student who leaves before the dance is over does so with the understanding that he/she will not be allowed back into the dance and his/her money will not be refunded. A student must leave the school premises upon leaving the dance.
3. All dances will be for CJHS students only. Dances are not open to the general public.
4. Use or possession of tobacco, alcoholic beverages, or any form of illegal drug is prohibited at all school functions. A student who, in the judgment of the certified personnel on duty at any dance, is under the influence of alcohol or drugs will not be admitted to the dance, and the proper authorities and a parent/guardian will be notified.
5. There will be no loitering on school grounds during the time any dance is scheduled.
6. A student involved in any disorderly conduct or any conduct which may be inappropriate in the judgment of any certified person chaperoning the dance will be asked to leave the dance and school premises. The student's money will not be refunded.

4.46—PLEDGE OF ALLEGIANCE

The Pledge of Allegiance shall be recited during the first class period of each school day. Those students choosing to participate shall do so by facing

the flag with their right hands over their hearts, or in an appropriate salute if in uniform, while reciting the Pledge. Students choosing not to participate shall be quiet while either standing or sitting at their desks.

Students shall not be compelled to recite the Pledge, but students who choose not to recite the Pledge shall not disrupt those students choosing to recite the Pledge.

Students choosing not to recite the Pledge shall not be subject to any comments, retaliation, or disciplinary action.

5.10—RELIGION IN THE SCHOOLS

The First Amendment of the Constitution states that “Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof...” As the Supreme Court has stated (*Abington School District v. Schempp*, 374 U.S. 203) the Amendment thus, “embraces two concepts—freedom to believe and freedom to act. The first is absolute but, in the nature of things, the second cannot be.” Therefore, it is the Board’s policy that the school system, as an agency of the government, shall be neutral in matters regarding religion and will not engage in any activity that either advocates or disparages religion. The District shall assume no role or responsibility for the religious training of any student.

The need for neutrality does not diminish our school system’s educational responsibility to address the historical role of religion in the development of our culture. Since we live in a diverse society, the District’s goal shall be to address the subject of religion objectively in such a way that it promotes an understanding of, and tolerance for, each other’s religious or non-religious views.

Discussions concerning religious concepts, practices, or disciplines are permissible when presented in a secular context in their relation to an inclusive study of religion or to the study of a particular region or country. The discussions shall be so that they are objective and academically informational and do not advocate any particular form of religious practice.

Instructional activities in the schools that are contrary to a pupil’s religious beliefs or teachings shall be optional.

The teacher in charge of each classroom may, at the opening of school each day, conduct a brief period of silence with the participation of all students in the classroom who desire to participate.*

Students and employees may engage in personal religious practices, such as prayer, at any time, and shall do so in a manner and at a time so that the educational process is not disrupted.

REMEDIATION AND ACADEMIC IMPROVEMENT PLAN (AIP)

In accordance with Act 35 of the 2nd Extraordinary Session of 2003, students in grades kindergarten through twelve (K-12) who do not demonstrate proficiency on the Arkansas Comprehensive Assessment Program exams, including those who are not present for testing, shall participate in an intense remediation program. The building principal and the director of instruction will determine the length and type of remediation. Credit will not be given for the remediation course. Any student failing to achieve at the proficient level on the State mandated exams shall be evaluated by school personnel, who shall develop a student Academic Improvement Plan (AIP) to assist the student in achieving the expected standard in subject area(s) the student was not proficient. The AIP shall describe the consequences for the student's failure to participate in the plan. Parents will sign and be provided a copy of the student's AIP.

Participation in the testing and remediation program is mandatory. Students in grades one through eight, identified for an AIP who do not participate in the remediation program shall be retained. Students not proficient on the End-of-Course tests or on the Grade 11 Literacy test shall participate in a remediation program to receive credit for the corresponding course.

Approved by School Board: May 19, 2005

Legal Reference: Act 35 of the 2nd Extraordinary Session of 2003

4.55—STUDENT PROMOTION AND RETENTION

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents, or legal guardians, legal guardians, persons having lawful control of the student, or persons acting in loco parentis shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

At least once each semester, the parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis, and teacher(s) of a student in kindergarten through eighth (8th) grade shall be notified in writing of the student's independent grade-level-equivalency in reading.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on their academic performance, however other criteria may be considered. If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals:

- a. The building principal or designee;
- b. The student's teacher(s);
- c. School counselor;
- d. A 504/special education representative (if applicable); and
- e. The student's parents, legal guardians, persons with lawful control of the student, or persons standing in loco parentis.

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision shall rest with the principal or the principal's designee.

Each student shall have a student success plan (SSP) developed by school personnel in collaboration with the student's parents and the student that is reviewed and updated annually. A student's SSP shall use multiple academic measures to personalize learning in order for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student is in need of additional support or acceleration. Academic measures to be used in creating and updating a student's SSP shall include, but are not limited to:

- Statewide student assessment results;
 - Subject grades;
 - Student work samples; and
 - Local assessment scores.
-
- By the end of grade eight (8), the student's SSP shall:
 - Guide the student along pathways to graduation;
 - Address accelerated learning opportunities;
 - Address academic deficits and interventions; and
 - Include college and career planning components.

Based on a student's score on the college and career assessment:

- The student's SSP will be updated in order to assist the student with college and career readiness skills, course selection in high school, and improved academic achievement; and
- Provide a basis for counseling concerning postsecondary preparatory programs.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion/retention or graduation of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP or completion of the Alternate Pathway to Graduation when applicable.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following Statewide assessment, as applicable. The Superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

Promotion/Retention--Grades 7 and 8

The promotion and retention of students in the Clarksville Junior High is determined by an evaluation team consisting of teachers at that particular grade level and the building principal. When appropriate, the Special Education teacher and other support staff will be included.

Following third quarter grades, the principal will conference with the building staff to review grades and identify students who may be recommended for retention due to lack of academic progress. The parents(s) of students who are candidates for retention shall be notified in writing within two (2) weeks following the third quarter of their child's possible retention and that a conference with the Principal is desired.

Within two weeks of the closing of the school year, the evaluation team will make a final recommendation concerning retention. The retention of selected students and the promotion of others shall be based upon the following evaluation criteria as determined by the evaluation team on each grade level.

1. Academic Ability: To be determined by the evaluation team incorporating standardized test scores, previous grades, and all other obtainable information relevant to a student's academic performance and ability in his/her particular subjects and grade level.
2. Effort: The amount of effort a student exhibits in all academic subjects shall be considered by the evaluation team. The amount of effort a student demonstrates as measured by his/her completion of class assignments, attitudes directed towards school and subjects and school conduct shall be considerations in determining the degree of effort a student has demonstrated.
3. Maturity: The maturation of a student as measured in terms of: age, physical size, personality, social adaptation, and other determinants concerning maturity shall be considered as a factor by the evaluation team.

If a student's academic progress is unsatisfactory, (failing two or more core subjects), he/she may be retained.

In the absence of a consensus by the evaluation team, the principal shall make the final decision for promotion or retention.

**MINIMUM CORE CURRICULUM OF HIGH SCHOOL COURSES
RECOMMENDED FOR PREPARATION FOR HIGHER EDUCATION**

The recommended core of courses is designed to be a standards-based set of rigorous courses for students preparing themselves for success in college. The core curriculum consists of two components. The first component designates the core courses designed for unconditional admission to any public two-year or four-year institution of higher education in Arkansas. The second component designates the core requirements for the Arkansas Academic Challenge Scholarship.

Component One:

Core Curriculum for Unconditional Admission

F = 0 points

Students taking AP or International Baccalaureate courses shall receive weighted credit as described in this policy. Credit shall be given for each grading period during the course of the year, but shall be retroactively removed from a student's grade for any course in which the student fails to take the applicable AP exam. ARKANSAS VIRTUAL HIGH SCHOOL

Arkansas Virtual High School is a program funded by the Arkansas Department of Education. The purpose of the Arkansas Virtual High School is to provide an online alternative learning environment for the students of Arkansas' public schools who need assistance in completing coursework that is difficult to receive due to factors such as schedule conflicts, homebound due to extenuating circumstances, and other factors that might impede a student's progress through grades 9 through 12.

CORRESPONDENCE COURSES/SUMMER SCHOOL

All correspondence work must be approved by the principal and/or counselor prior to enrollment in the course. A student may elect to take a correspondence course, but only one (1) unit will be counted toward fulfilling graduation requirements unless a student has failed more than one (1) unit and desires to take those courses or their equivalents by correspondence. A student who has failed a semester course may take an equivalent course and receive one-half (1/2) unit of credit. All correspondence work must be earned through an institution accredited by the North Central Association of Schools and Colleges (NCA) or one of the other regional accrediting associations.

A senior must complete all correspondence work, and grades must be received by the counselor on or before April 30 in order to complete graduation requirements and participate in graduation exercises. If graduation requirements are met, but correspondence course grades are received after April 30, the student will not be able to participate in the graduation ceremonies, but he/she may pick up his/her diploma in the principal's office on the next working day following the graduation exercises. All summer school credit must be from an accredited school whose teachers and administrators meet NCA standards. A student may not take the second semester of Senior English by correspondence.

No later than five (5) school days after a student begins alternative education interventions, the Alternative Education Placement Team shall develop a signed agreement between the ALE.; the parent, or legal guardian, person having lawful control of the student, or person standing in loco parentis (if they choose to participate); and the student, outlining the responsibility of the ALE.; parent, or legal guardian, person having lawful control of the student, or person standing in loco parentis; and the student to provide assurance that the plan for each student is successful.

No later than one (1) week after a student begins alternative education interventions, the Alternative Education Placement Team shall assess the student's current functioning abilities and all relevant social, emotional, academic, career, and behavioral information and develop an SAP outlining the intervention services to be provided to the student that is in compliance with the Arkansas Department of Division of Elementary and Secondary Education (ADESE) Rules. The SAP may be revised from time to time by the ALE placement team and a positive behavior or transitional plan shall be developed and added to the SAP prior to a student's return to the regular educational environment.

 2. A request of any or all of the following will have a student's referral brought before the screening committee: counselor, principal, teacher, and parent/guardian.
 3. The principal or an appointed committee member will gather information concerning the student being considered for referral.
 4. The screening committee, using information acquired by the administration, will make recommendations on student referral.
 5. The committee may entertain referrals that may not necessarily follow the entrance criteria.
 6. A student with the greatest needs will be considered by the committee for placement first
 7. Student placement in the program will be made by the committee.
- B. Length of student placement
 1. A student will be placed for a minimum of one grading period.
 2. A student may remain in the alternative school as long as necessary.
 3. Attendance will be recorded and credited to the student's participating school.

ENGLISH LANGUAGE LEARNERS

The district shall utilize the special needs funding it receives for identified English Language Learners (ELL) on activities, and materials listed in the ADE Rules Governing the Distribution of Student Special Needs Funding and the Determination of Allowable Expenditure of These Funds.

The expenditures of ELL supplemental funding shall be evaluated at least annually to determine their overall effectiveness. The evaluation shall specifically address how the use of ELL funds is in alignment with the district's ACSIP in addressing identified achievement gaps and student performance deficiencies.

5.29—WELLNESS POLICY

The health and physical well-being of students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education (ADESE), but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions that improve the health and physical activity of our students.

Wellness Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall include a representative or representatives from each appropriate grade level group (primary, elementary, middle, jr. and sr. high) on the membership of the district committee. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference.² The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, 10, and 11 of the Centers For Disease Control' (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the district's support plan (SDSP) provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The SNPAAC shall be made up of Individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:³

- Members of the District's Board of Directors;
- School administrators;
- School nutrition personnel;
- Teacher organizations;
- Teachers of physical education;
- Parents;
- Students;
- Professional groups (such as nurses);
- School health professionals (such as school nurses, school counselors, and social workers); and
- Community members.

The SNPAAC shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.⁴

The SNPAAC will meet at least quarterly. Meeting dates for the SNPAAC will be placed on the District's calendar.

School Health Coordinator

To assist the SNPAAC in ensuring that the District fulfills the requirements of this policy, a District level School Health Coordinator (Designated District Official) shall be appointed.

Goals

In its efforts to improve the school nutrition environment, promote student health, and reduce childhood obesity, the District will adhere to the ADESE Rules Governing Nutrition and Physical Activity Standards And Body Mass Index For Age Assessment Protocols. To promote nutrition, physical activity, and other school based activities that will improve student wellness, the District, working with the SNPAAC, has established the following goals:⁶

1. Implement a grade appropriate nutrition education program that will develop an awareness of and appreciation for nutrition and physical activity throughout the curriculum;
2. Enforce existing physical education requirements and engage students in healthy levels of vigorous physical activity;
3. Strive to improve the quality of physical education curricula and increase the training of physical education teachers;
4. Follow the Arkansas Physical Education and Health Education Frameworks in grades K-12;
5. Not use food or beverages as rewards for academic, classroom, or sports performances;
6. Establish class schedules and bus routes that do not directly or indirectly restrict meal access;
7. Provide students with ample time to eat their meals in pleasant cafeteria and dining areas;
8. Abide by the current allowable food and beverage portion standards;
9. Meet or exceed the more stringent of Arkansas' or the U.S. Department of Agriculture's (USDA) Nutrition Standards for reimbursable meals and a la' carte foods served in the cafeteria;⁷
10. Restrict access to competitive foods as required by law and Rule;
11. Conform new and/or renewed vending contracts to the content restrictions contained in the Rules and reduce district dependence on profits from the sale of competitive foods.
12. Provide professional development to all district staff on the topics of nutrition and/or physical activity;⁸
13. Utilize the School Health Index available from the CDC to assess how well the district is doing at implementing this wellness policy and at promoting a healthy environment for its students.

Food and Beverages Outside of the District's Food Service Programs

The District will insure that drinking water is available without charge to all students throughout the school including, but not limited to, in the District's food service areas.

All food and beverages sold to students on school campus during the school day by school administrators or school non-licensed or licensed staff (principals, coaches, teachers, club sponsors, etc.); students or student groups; parents or parent groups; or another person, company, or organization associated with the school shall meet the Federal Smart Snacks requirements and Arkansas Nutrition Standards at a minimum.⁹ These restrictions include, but are not limited to, food and beverages sold in vending venues (machines, ice chests, cabinets) in school stores or as part of school fundraisers.

All food and beverages provided, but not sold, to students on the school campus during the school day by school administrators or school non-licensed or licensed staff (principals, coaches, teachers, club sponsors, etc.); students or student groups; parents or parent groups; or another person, company, or organization associated with the school shall meet the Federal Smart Snacks requirements and Arkansas Nutrition Standards at a minimum.⁹ These restrictions include, but are not limited to, food and beverages provided in vending venues (machines, ice chests, cabinets) in school stores or as part of school fundraisers.

Up to a maximum of nine (9)¹⁰ times per school year, school administration may schedule school wide events where food and beverages provided to students are not required to meet the Federal Smart Snacks standards during the scheduled time. The schedule of the events shall be by school, approved by the principal, and shall be part of the annual school calendar.

Food and beverages outside of the District's food service programs may not be sold, served, or provided to students in the District's food service areas during meal times.

Elementary students shall not have in-school access to vending machines.

The District does not place nutrition restrictions on food or beverages brought from home that are intended for personal consumption only.⁹

Advertising

In accordance with the USDA regulations, oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product that are made by the producer, manufacturer, seller, or any other entity with a commercial interest in the product shall only be permitted on school campus during the school day if they meet or exceed the Federal Smart Snacks standards.¹¹ This restriction does not apply to:

- Materials used for educational purposes in the classroom, including, but not limited to:
 - The use of advertisements as a media education tool; or
 - Designing and implementing the health or nutrition curriculum;
- Clothing, apparel, or other personal items used by students and staff;
- The packaging of products brought from home for personal consumption; and
- Currently existing advertisements on school property, including but not limited to, the exterior of vending machines, posters, menu boards, coolers, trash cans, cups used for beverage dispensing, and other food service equipment; however, all future contracts and replacement items shall meet the Federal Smart Snacks standards.

- The amounts and specific sources of funds received and expenditures made from competitive food and beverage contracts.

Assessment of District's Wellness Policy

At least once every three years,¹² with input from the SNPACC, the District shall assess both the District as a whole and individual schools' status in regards to the implementation and compliance of the goals of this policy, including the health and wellness goals in the SDSP. The assessment shall be based, at least in part, on:

- The extent to which District schools are in compliance with this policy;
- The extent to which this policy compares to other model local school wellness policies;
- The annual reviews of this policy based on modules 1, 2, 3, 4, and 8 of the CDC's School Health Index; and

CHS GRADUATION REQUIREMENTS

To receive a diploma and be considered a graduate of Clarksville High School, a student must complete **twenty-three units** of credit in grades 9-12. Twenty-two of the units must be academic courses. Only one unit of activity credit can be counted toward the twenty-three units needed for graduation. The following units are required.

English	4 units	
Mathematics	4 units	(One unit of Algebra I and one unit of geometry)
Science	3 units	(One unit of biology and one unit of a physical science)
Social Studies	3 units	(One unit of world history, one unit of American history, and a half unit of civics or government.)
Physical Education	1 unit	
Computer Tech./Business Applications or Word Processing I and II	1 unit	
Oral Communication	½ unit	
Fine Arts	½ unit	
Health Education	½ unit	
Electives	5-1/2 units	

A student must earn enough credits to fulfill graduation requirements. A unit of credit is defined as the credit given for a course which meets for the equivalent of a regular school period each day for a full year. A student must enroll in a minimum of five (5) solid subjects each semester and must fill the rest of his/her schedule with other academic classes, study hall, or activity classes which will complete the seven (7) period day. A student must attend classes all day with the exception of those who are enrolled in a work-study program, enrolled in college courses off campus, or are a fifth-year senior. A fifth-year senior may enroll for only those classes needed for graduation.

A student will be allowed to count one (1) unit taken by correspondence toward fulfilling his/her graduation requirements unless he/she had failed one or more classes and needs to make them up through correspondence in order to graduate. The conditions for acceptance of correspondence courses are listed in the "Curriculum" section of this handbook.

A student will be allowed to count summer school credit toward fulfilling graduation requirements provided he/she follows the conditions listed in the "Curriculum" section of this handbook.

Any and all the above requirements may be waived for any student who has completed four years' attendance beyond grade eight and who is certified according to Act 102 of 1973 as amended and Public Law 92-142 as having a primary handicapping condition, is receiving special education services, and has demonstrated successful attainment of his/her individual education plan to the satisfaction of the developers of the IEP.

4.45.1—SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASS OF 2021 AND THEREAFTER

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, both a *Smart Core Informed Consent Form* and a *Smart Core Waiver Form* will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12th) grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent record.¹ This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the requirements of their IEP (when applicable) to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the time they are required to sign the consent forms.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year.² Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year³ to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This may be accomplished through any or all of the following means:⁴

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter;
- Discussions held by the school's counselors with students and their parents; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.⁵

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. In addition to the twenty-two (22) units required for graduation by the Arkansas Department of Education, the district requires an additional 1 unit to graduate for a total of 23 units. The additional required unit to be taken is Computer Business Applications.⁶ There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements.

All students must pass the test approved by ADE that is similar to the civics portion of the naturalization test used by the United States Citizenship and Immigration Services in order to graduate.

Digital Learning Courses

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format.⁷ In addition to the other graduation requirements contained in this policy, students are required to take at least one (1) digital learning course for credit while in high school.

Personal and Family Finance

In tenth (10th), eleventh (11th), or twelfth (12th) grade, all students shall cover the Personal and Family Finance Standards by receiving credit for:⁸ (To be determined at a later date).

5.8—USE OF COPYRIGHTED MATERIALS

Use of Copyrighted Work in Face-to-Face Classroom

The Board of Education encourages the enrichment of the instructional program through the proper use of supplementary materials. To help ensure the appropriate use of copyrighted materials, the Superintendent, or designee, will provide district personnel with information regarding the “fair use” doctrine of the U.S. Copyright Code as detailed in the “Agreement on Guidelines for Classroom Copying in Not-for-Profit Educational Institutions with Respect to Books and Periodicals” and “Guidelines for Educational Uses of Music.”¹

Use of Copyrighted Works in Digital Transmissions

Definitions

“Class session”² means the length of time provided for students to access the materials necessary for the completion of course assignments and tests. Depending on the copyrighted work’s overall importance to the course, which can vary from a single assignment to an entire course focusing on the copyrighted work, the class session will end on:

- The date set by the teacher for an assignment to be submitted; or
- The date on the school calendar for the end of classes.

“Course packs” are premade compilations of book excerpts; newspaper, magazine, and journal articles; and instructor-authored materials.

“Mediated Instructional activities” includes textbooks, workbooks, and course packs.

“Transmission” is the remote accessing, whether on or off campus, by students of a copyrighted work by means of a closed circuit television, an educational television channel, or in a digital format on a password protected secure webpage.³

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District’s teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

The District shall make sure the server where materials are stored is secured, whether the server is located locally or remotely.

The District’s Informational Technologies staff shall develop the proper protocols and train teachers on their use in order to ensure:

1. The transmission of the copyrighted work is limited to only the students enrolled in the course;
 - Each student shall have a unique ID and password for accessing digital courses/materials⁴; or
 - Each course shall have a unique password to access course materials; and
 - The password to access the course materials shall be changed immediately following the close of the course.
2. To prevent students from retaining or further disseminating the copyrighted work for more than one class session;
 - The print function will be disabled;
 - A transparency shall be placed over any literary work, sheet music, or photograph;
 - Audio and video transmissions will be set to be streamed; and
 - The link to the webpage with a copyrighted work shall be deactivated at the end of the applicable class session.

Teachers who wish to provide copyrighted works to students through a digital transmission as part of a digital course as well as teachers wishing to supplement a face-to-face classroom course with a digital transmission must meet applicable copyright statutes and policy 5.11—DIGITAL LEARNING COURSES as well as the following requirements in order to use a copyrighted work:

- A. The use of the copyrighted work(s), whether in whole or in part, must be a part of regular classroom instruction and must be directly related and of material assistance to the course content;
- B. The extent of a copyrighted work that is used must comply with one or more of the following criteria:
 - The entirety of a non dramatic literary or musical work may be used. A non dramatic literary work includes poems and short stories. A non dramatic musical work covers all music that is not part of an opera or musical and does not cover the use of the music video format of a song.
 - Dramatic literary and musical works as well as videos may only be used in limited portions. Dramatic literary and musical works may only be used in the same amount as set forth in the requirements for a face-to-face classroom while videos, including music videos, may only have the portion used that is directly related to the subject of the class session and may not be transmitted in their entirety.
 - Still images or slides that a teacher would have used in the ordinary course of a face-to-face classroom session on a projector or a transparency may be used in a transmission.
 - Works primarily produced or marketed for use in the digital education market may not be transmitted.
 - Works the teacher had knowledge or reasonably believes to be unlawfully made or acquired may not be used.
 - Mediated Instructional activities may not be transmitted.
- C. A statement that works may be subject to copyright shall be placed in at least one of the following areas to provide notice to students of copyright status:⁵
 - Course syllabus;
 - Home webpage for the course;
 - Webpage for the particular class session; and/or
 - webpage with the copyrighted work.

The teacher and the District librarian shall work together when making digital copies of copyrighted work from physical or analog versions and shall fulfill the following requirements:

5.11—DIGITAL LEARNING COURSES

Definitions

For the purposes of this policy:

"Blended Learning" is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

"Digital Learning" means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

1. Traditional books, textbooks, and trade books in printed and bound form;
2. Activity-oriented programs that may include:
 - a. Manipulatives;
 - b. Hand-held calculators;
 - c. Other hands-on materials; and
3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

"Online Learning" is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

"Public School Student Accessing Courses at a Distance" means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

As an approved digital learning provider, the District shall annually determine what District created digital learning courses it will provide to our students.¹ The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved by the Arkansas Division of Elementary and Secondary Education (ADESE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by ADESE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8—USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any or all of his/her scheduled courses digitally. The student's attendance in his/her digital course(s) shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school.²

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.³

Regardless of any other provisions of this policy, the District may restrict a student's access to digital courses when the student's building principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.⁴

GRADING SCALE AND GRADE POINT AVERAGES

Cumulative GPA's and honor graduates are figured on eight semesters. Grades and grade-point averages (GPA) are determined by the following scales:

<u>Uniform Grading Scale (Grades 7-12)</u>	<u>GPA Regular Classes</u>	<u>GPA *AP, IB, and ADE Honor Classes</u>
A=90-100	A=4 points	A=5 points
B=80-89	B=3 points	B=4 points
C=70-79	C=2 points	C=3 points
D=60-69	D=1 point	D=2 points
F=59	F=0 points	F=0 points

Grades of .5 or above will be rounded up. Pluses and minuses will be disregarded. Each grade point average will be rounded off to four decimal places. In the case of an exact tie in which two or more students' grade-point averages are the same number, the same class rank will be shared by those students.

The final grades of students who transfer in for part of a semester will be determined by blending the grades earned in the district with those earned outside the district.

*Contingent on teacher training (AP or IB documentation is required)

5.17—HONOR ROLL AND HONOR GRADUATES

HONOR ROLL

Students in grades K-6 who have no grade lower than a B will be recognized as honor roll students for that grading period.

Students in grades 7-12 who have no grade lower than a B will be recognized as honor roll students for that grading period.

HONOR GRADUATES

Students who have successfully completed the minimum core of courses recommended for preparation for college as defined by the State Board of Higher Education and the State Board of Education and have a cumulative GPA of 3.65 will be designated as honor students.² The GPA shall be derived from courses taken in public schools in grades nine (9) through twelve (12).

Valedictorian/Salutatorian

A student must attend Clarksville High School for both his/her junior and senior years in order to qualify for Valedictorian or Salutatorian. The students who are ranked number one and number two will be designated as the Valedictorian and Salutatorian, respectively, provided each has taken the following courses:

AP English III, AP English IV or Comp. I/II
Physics or Chemistry

French II or Spanish II
Fourth Math course above Algebra II

In addition to the above requirements, the Valedictorian and Salutatorian must choose any three classes (two of the three selections must be AP courses or Concurrent Credit Courses) from the following list:

AP American History
AP English III
AP English IV
AP Calculus
Chemistry

AP Chemistry
Physics
Spanish III
Vo-Tech II
Concurrent College Course/s
(3 hours = ½ unit)

All Valedictorians will be ranked #1, and Salutatorians will be ranked #2. The next students will be ranked according to the total number of Valedictorians and Salutatorians. (For instance, if there are two Valedictorians and three Salutatorians, the next ranking would be 6th). For more detailed information regarding Valedictorian, Salutatorian, and class ranking, please see the student handbook.

In order to be as fair as possible when designating Valedictorian and Salutatorian, the following guidelines have been established to govern the computation process:

If two or more students have taken the required classes to be named Valedictorian or Salutatorian, have made all A's in all classes for all four years, and have taken the same number of AP classes (and no other students have taken more AP classes), the following process will be followed when the selections are made for Valedictorian and Salutatorian in order to ensure that a student

will not be adversely affected by taking additional non-weighted courses to broaden his/her education. The lesser GPA will be subtracted from the greater GPA, and the difference between the two will be added to the lesser GPA. The result will be a tied GPA. This computation is necessary because the number of four-point courses adversely affects the GPA of students with the same number of five-point courses. The formula will be applied at the end of eight semesters and will remain a part of the student's permanent GPA.

Should an occasion arise in which the candidates for Valedictorian and Salutatorian have exactly the same grades, have taken the same number of AP courses (with no other students having taken more AP classes), do NOT have all A's, have the same number of B's in classes of the equal point value, and have no other grades of a value lower than B, the same equalization process will be used to create a tied GPA.

Any other extenuating circumstances will be decided by the Academic Committee* and the administration. The basis for their decision will be to provide the best chance for equality and fairness to students in equal academic circumstances. The top-ranked student will be designated as the Valedictorian, and the second-ranked student will be designated as the Salutatorian. In the event a tie exists based on the above computation rules, students will share the appropriate designation.

*The Academic Committee is a standing committee consisting of the principal, the counselor, and a teacher from each academic discipline. They review the transcripts of the top students prior to the announcement of the Valedictorian/Salutatorian. This committee is also consulted when any problems arise in academics concerning curriculum, GPA, and honors. They make recommendations to the Board of Education in matters of academic concern.

GRADUATION CEREMONY

The Clarksville School District provides a commencement exercise in honor of the graduating seniors. This ceremony is a formal celebration of the completion of a student's high school years. Participation in the ceremony is not required, but the decision to participate is an agreement to dress and behave in a manner appropriate for a formal ceremony. The following rules govern participation in the ceremony:

1. Only a student who has successfully completed all graduation requirements, paid fines, and has turned in books /materials, etc. before graduation--or by April 30 in the case of correspondence courses -- will be eligible to participate.
2. A student must wear appropriate attire, including the red cap and gown selected by the school. The mortar board cap is worn pulled down on the forehead and parallel to the top of the head. Each boy should wear a tie, slacks, socks, and dress shoes. Each girl should wear a dress and dark dress shoes. Tennis shoes, sandals, jeans, and shorts are not considered proper attire for this formal ceremony. No signs, protests, etc. will be permitted.
3. A student must attend the practice sessions in order to participate in graduation exercises unless prior approval has been given by the principal in an emergency situation.

A student who does not desire to participate in the ceremony may pick up his/her diploma in the principal's office on the next school day following the ceremony. Upon the student's request, the diploma will be mailed to him/her after the graduation exercises.

GRADUATION COMMITTEE

The Graduation Committee will consist of 15 members and the Senior Class officers. The members will be selected by the senior sponsors from a list of interested students who have signed a list. Selection will be based upon citizenship, cooperation, dependability, previous work record in other organizations -- especially the Prom Committee if applicable -- and/or creativity. This committee; with the approval of administration and class sponsors, designs/sells senior shirts, selects the graduation speaker, singer, themes, and designs the backdrop.

The Senior Class provides any honorarium or fee for the graduation speaker, and the district office has a budget for other expenses. Any funds left in the Senior Class account at the end of the year will be donated to a particular school need or improvement by a vote of the Graduation Committee. No monies are ever carried in accounts for reunions!

4.49—SPECIAL EDUCATION

The district shall provide a free appropriate public education and necessary related services to all children with disabilities residing within the district, as required under the Individuals With Disabilities Education Act ("IDEA"), Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act, and Arkansas Statutes.

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the state and federal statutes governing special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and

that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding ~~handicapped~~ students with disabilities.¹ Among the coordinator's responsibilities shall be ensuring district enforcement of the due process rights of ~~handicapped~~ students with disabilities and their parents.

CONDUCT RESPONSIBILITY FOR STUDENT CONDUCT

Freedom is a constitutional right, but it does not mean the absence of reasonable rules and regulations which serve to guide the actions of individuals. Along with freedom comes the responsibility to act in such a manner as to ensure that all participants may enjoy the same freedom. To obtain the greatest possible benefit to the students, teachers, administrators, parents, Board of Education, and the entire community, it is essential that all work together to ensure that all persons are treated equally and with dignity in respect to their rights and responsibilities.

STUDENT

Each student has the responsibility to pursue his/her education in the Clarksville School District in a manner that shows respect for other students, faculty members, staff, parents, and other citizens. A student should be aware that he/she has a responsibility to cooperate with and assist the school staff in the orderly and efficient management of the school by following the rules and regulations established by the Board of Education and Clarksville Junior High School and implemented by teachers, school administrators, and staff. Each student is responsible for his/her own conduct at all times.

PARENT/GUARDIAN

A parent/guardian is responsible for exercising the required controls so his/her child's behavior at school will be conducive to his/her own progress and not disruptive to the school's educational program. A parent/guardian is responsible for alerting school personnel when he/she has reason to believe that his/her child is experiencing difficulties at school or at home.

TEACHER

All teachers are responsible for the supervision of the behavior of all students in the school. Supervision includes not only the students who are regularly assigned to the teacher but also all students with whom the teacher comes in contact. Each teacher is expected to maintain the kind of atmosphere and decorum which will promote the learning process and to utilize sound techniques which seem appropriate. These techniques include conferences with students and parents, referral to counselors at the school, or referral to other support service personnel of the district (for example, nurse or educational examiner). A teacher is authorized to administer corporal punishment according to guidelines established by district policy. A teacher may dismiss a student from his/her class for disciplinary reasons for a designated period. When the teacher is unable to assist the student in maintaining proper control of his/her behavior, the student is to be referred to the appropriate administrator in the school.

PRINCIPAL

The principal will inform all students of the rules and regulations. The principal is expected to involve representatives of the teaching staff, the student body, and the patrons of the school in developing the student discipline policies and to interpret and implement established policies. The principal is responsible for conducting in-service education for all personnel on a regular basis. The principal, or the principal's designee, is authorized to implement punishment as directed for specific infractions listed, to assign a student ISS, to suspend a student, to recommend the expulsion of a student, or when necessary, to make referrals to alternative school. The principal is expected to inform a parent/guardian of any student whose behavior is in serious conflict with established laws, rules, and procedures.

4.48—VIDEO SURVEILLANCE AND OTHER STUDENT MONITORING

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, students, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs shall be posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased¹ which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy's following paragraph, the district's video recordings may be erased any time greater than seven (7) days after they were created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook;² any release or viewing of such records shall be in accordance with current law.

Students who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment, automatic identification, or data compilation devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

STANDARDS OF BEHAVIOR

A student who is well informed concerning his/her rights and responsibilities and the standards of behavior expected should not require disciplinary action. For the information of all students, however, unacceptable behavior and recommended disciplinary actions are presented below.

A student who engages in unacceptable behavior will be subject to disciplinary action including, but not limited to, detention hall, ISS, corporal punishment, suspension or expulsion from school, notification of law enforcement officials, and in specific situations, loss of privileges when applicable. The violation of a rule will occur when the conduct takes place at any time while the student is on or off the school grounds or at a school-related school-sponsored activity, function, or event. The minimum penalty for a rule infraction will be a verbal reprimand and the maximum penalty will be expulsion.

USE OF DRUG DOG

It is the desire of the Clarksville School Board, administration, and staff to have a safe and drug free school environment. Therefore, the school board has approved the use of a drug dog to search for drugs in school. All school property and vehicles parked on school property are subject to being searched for drugs by use of a drug dog.

The primary purpose for using the dog is to serve as a deterrent against drugs being brought onto the school campuses. It is hoped that very few students will have to be subjected to suspension, expulsion, or legal action.

A school official will accompany the handler during the sniffing search of lockers and automobiles. Sniff search will take place while students are in class so that students will not be exposed to the dog, and the instructional program will not be disrupted. Should a suspicious locker or automobile be identified the affected student will be notified before a search is conducted. The student will be advised of his/her rights. Every effort will be made to protect students from embarrassment. If possible, the search of a locker or automobile will be conducted while other students are not present. The investigative interview will be conducted in the privacy of the school official's office with the school official present.

Periodic, unannounced visits to the school and school activities may be made by the dog and handler in an effort to prevent possession of drugs on the campuses. Students are responsible for the contents of their lockers and automobiles. Should contraband be located, the responsible student will be subject to school district policies, and local, state, and federal laws.

ACT 888 OF 1995

REQUIRED REPORTING OF ALL FELONIES OR OTHER VIOLENT CRIMINAL ACTS

By law, local law enforcement (SRO) must be notified when a felony or act of violence may have been committed on campus. The SRO may write a citation on any behavior covered by this act, in addition to any consequence administered by the school administrator.

FIGHTS OR OTHER CRIMINAL BEHAVIOR

It is a privilege for the Clarksville Public School District to serve in the educational growth of your child. One of the goals of our school system is to provide an atmosphere that encourages learning in a safe environment. Any student involved in a fight or other criminal behavior on any Clarksville school campus may be transported to the appropriate law enforcement agency by the Clarksville resource officer or any other law enforcement officer at the discretion of school administrators and law enforcement officials. The juvenile authorities will be notified. The student's school will make an effort to notify the parent/guardian of the student if such a situation occurs. This procedure will be in effect to ensure that our students have a safe environment in which to pursue academic success.

4.24—DRUGS AND ALCOHOL

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Clarksville School District shall possess, attempt to possess, consume, use, distribute, sell, buy, attempt to sell, attempt to buy, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. This policy applies to any student who; is on or about school property; is in attendance at school or any school

sponsored activity; has left the school campus for any reason and returns to the campus; is en route to or from school or any school sponsored activity.

Prohibited substances shall include, but are not limited to, alcohol, or any alcoholic beverage, inhalants or any ingestible matter that alter a student's ability to act, think, or respond, LSD, or any other hallucinogen, marijuana, cocaine, heroin, or any other narcotic drug, PCP, amphetamines, steroids, "designer drugs," look-alike drugs, or any controlled substance.

The sale, distribution, or attempted sale or distribution of over-the-counter (OTC) medications, dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, or prescription drugs is prohibited. The possession or use of OTC medications, dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, or prescription drugs is prohibited except as permitted under Policy 4.35—STUDENT MEDICATIONS.

4.22—WEAPONS AND DANGEROUS INSTRUMENTS

Definitions

"Firearm" means any device designed, made, or adapted to expel a projectile by the action of an explosive or any device readily convertible to that use.

"Possession" means having a weapon on the student's body or in an area under the student's control.

"Weapon" means any:

- Firearm;
- Knife;
- Razor;
- Ice pick;
- Dirk;
- Box cutter;
- Nunchucks;
- Pepper spray, mace, or other noxious spray;
- Explosive;
- Taser or other instrument that uses electrical current to cause neuromuscular incapacitation; or
- Any other instrument or substance capable of causing bodily harm.

No student, except for Military personnel (such as ROTC cadets) acting in the course of their official duties or as otherwise expressly permitted by this policy, shall possess a weapon, display what appears to be a weapon, or threaten to use a weapon before or after school while:

- In a school building;
- On or about school property;
- At any school sponsored activity or event;
- On route to or from school or any school sponsored activity; or
- Off the school grounds at any school bus stop.

If a student discovers prior to any questioning or search by any school personnel that he/she has accidentally brought a weapon, other than a firearm, to school on his/her person, in a book bag/purse, or in his/her vehicle on school grounds, and the student informs the principal or a staff person immediately, the student will not be considered to be in possession of a weapon unless it is a firearm. The weapon shall be confiscated and held in the office until such time as the student's parent/legal guardian shall pick up the weapon from the school's office. Repeated offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy. Except as permitted in this policy, students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of one (1) year. The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis.

Parents or legal guardians of students expelled under this policy shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. Parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to readmitting the student. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a firearm policy violation shall also be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a firearm on school property. The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school. The mandatory expulsion requirement for possession of a firearm does not apply to a firearm brought to school for the purpose of participating in activities approved and authorized by the district that include the use of firearms. Such activities may include ROTC programs; hunting safety or military education; or before or after-school hunting or rifle clubs. Firearms brought to school for such purposes shall be brought to the school employee designated to receive such firearms. The designated employee shall store the firearms in a secure location until they are removed for use in the approved activity.

The district shall report any student who brings a firearm to school to the criminal justice system or juvenile delinquency system by notifying local law enforcement.

4.47— POSSESSION AND USE OF CELL PHONES AND OTHER ELECTRONIC DEVICES

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments, no electronic device, as defined in this policy, shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program (IEP) or individual health plan; this means that when a student is taking an AESAA assessment, the student shall not have his/her electronic

device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to record audio or video or to take photographs in locker rooms or bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student's IEP or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Students may be allowed to use their cell phones before school, during lunch, and after school in accordance with the Electronic Devices policy in the handbook. Use during class time is prohibited except as prescribed in the Electronic Devices policy in the handbook. Use during passing periods is prohibited. Use of a cell phone while operating a vehicle is prohibited. If a student's cell phone is put away and emits a sound due to the student having inadvertently failed to silence it, the teacher may issue a warning for the first offense. Any further offenses will be considered as violations of the cell phone policy. Failure to surrender a cell phone to a staff member shall constitute insubordination, as well as the cell phone violation, and will be dealt with in accordance with policy.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. 4.32—SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community.¹ School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness; however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Department of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion. The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the

Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement. The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

6. **STUDENT SEXUAL HARASSMENT**

The Clarksville School District is committed to having an academic environment in which all students are treated with respect and dignity. Student achievement is best attained in an atmosphere of equal educational opportunity that is free of discrimination. Sexual harassment is a form of discrimination that undermines the integrity of the educational environment and will not be tolerated.

The District believes the best policy to create an educational environment free from sexual harassment is prevention; therefore, the District shall provide informational materials and training to students, parents/legal guardians/other responsible adults, and employees on sexual harassment. The informational materials and training on sexual harassment shall be age appropriate and, when necessary, provided in a language other than English or in an accessible format. The informational materials and training shall include, but are not limited to: the nature of sexual harassment; the District's written grievance procedures for complaints of sexual harassment;¹ that the district does not tolerate sexual harassment; that students can report inappropriate behavior of a sexual nature without fear of adverse consequences; the redress that is available to the victim of sexual harassment;² and the potential discipline for perpetrating sexual harassment.

"Sexual harassment" means conduct that is:

The terms "intimidating," "hostile," and "offensive" include conduct of a sexual nature which has the effect of humiliation or embarrassment and is sufficiently severe, persistent, or pervasive that it limits the student's ability to participate in, or benefit from, an educational program or activity.

Within the educational environment, sexual harassment is prohibited between any of the following: students; employees and students; and non-employees and students.

Actionable sexual harassment is generally established when an individual is exposed to a pattern of objectionable behaviors or when a single, serious act is committed. What is, or is not, sexual harassment will depend upon all of the surrounding circumstances and may occur regardless of the sex(es) of the individuals involved. Depending upon such circumstances, examples of sexual harassment include, but are not limited to:

- Making sexual propositions or pressuring for sexual activities;
- Unwelcome touching;
- Writing graffiti of a sexual nature;
- Displaying or distributing sexually explicit drawings, pictures, or written materials;

- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the student self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or parents of a student who believes their child has been subjected to sexual harassment, are encouraged to file a complaint by contacting a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process. Under no circumstances shall a student be required to first report allegations of sexual harassment to a school contact person if that person is the individual who is accused of the harassment.

Complaints will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to: individuals who are responsible for handling the District's investigation to the extent necessary to complete a thorough investigation; the extent necessary to submit a report to the child maltreatment hotline; the Professional Licensure Standards Board for complaints alleging sexual harassment by an employee towards a student; or the extent necessary to provide the individual accused in the complaint due process during the investigation and disciplinary processes. Individuals who file a complaint have the right to request that the individual accused of sexual harassment not be informed of the name of the accuser; however, individuals should be aware that making such a request may substantially limit the District's ability to investigate the complaint and may make it impossible for the District to discipline the accused.³

Students, or the parents/legal guardians/ other responsible adult of a student, who file a complaint of sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats, intimidation, coercion, or discrimination. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Following the completion of an investigation of a complaint, the District will inform the parents/legal guardian/other responsible adult of the student, or the student if over the age of eighteen (18), who filed the complaint:

- The final determination of the investigation;
- Remedies the District will make available to the student; and
- The sanctions, if any, imposed on the alleged harasser relevant to the student.

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following an investigation, any student who is found by the evidence to more likely than not have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion.

Students who knowingly fabricate allegations of sexual harassment shall be subject to disciplinary action up to and including expulsion.

Individuals who withhold information, purposely provide inaccurate facts, or otherwise hinder an investigation of sexual harassment shall be subject to disciplinary action up to and including expulsion.

STUDENT DRESS AND GROOMING.

The Clarksville Board of Education recognizes that dress can be a matter of personal taste and preference. At the same time, the District has a responsibility to promote an environment conducive to student learning. This requires limitations to student dress and grooming that could be disruptive to the educational process because they are immodest, disruptive, unsanitary, unsafe, could cause property damage, or are offensive to common standards of decency.

Students are prohibited from wearing, while on the school grounds during the school day and at school-sponsored events, clothing that exposes underwear, buttocks, or the breast of a female. This prohibition does not apply, however, to a costume or uniform worn by a student while participating in a school-sponsored activity or event.

The Superintendent shall establish student dress codes for the District's schools, to be included in the student handbook, and are consistent with the above criteria.

A student has the right to dress as his/her taste and inclination direct; however, the student must be clean and decently attired. A student's personal appearance will not present a health or safety hazard or distract from the educational process in any way. Examples of wearing apparel **NOT** allowed will be transparent or see-through apparel; clothes with patches or lettering of a controversial or provocative nature; unhemmed cut-offs, gym or P.E. shorts, or boxer shorts; spandex and tights worn as outer garments; tank tops; cut-out clothing; sagging pants; pajamas; house shoes; dropped underarm shirts; and strapless blouses or bare midriffs. Shorts and skirts are to be no shorter than mid-thigh. **No** clothes which advertise alcohol, tobacco, or drugs will be allowed. Clothes with sexually suggestive pictures or remarks will **not** be allowed. Accessories that may be considered as weapons will not be allowed. Mohawks will not be allowed. Piercing of body parts with the exception of the ears will not be allowed. A student who comes to school inappropriately dressed will have to change to appropriate clothing before being allowed to continue in class. All class time lost will be unexcused and missed work cannot be made up.

BEHAVIOR NOT COVERED IN STATED POLICIES

The Clarksville School District and Clarksville Junior High School reserves the right to pursue legal or disciplinary action for behavior which is subversive to good order and discipline in the school even though such behavior may not be specified in the preceding written rules.

PERSISTENT DISREGARD FOR SCHOOL RULES

A student who persists in acts of misconduct after reasonable efforts have been made by the school to secure the student's adherence to the established rules will be recommended for expulsion. Efforts toward behavior modification will be made prior to recommendation for expulsion except when very serious offenses have been committed.

DISCIPLINE FOR HANDICAPPED STUDENTS

A handicapped student who engages in conduct which is prohibited or which violates the rules and regulations of the school district is subject to normal disciplinary procedures so long as such treatment does not abridge the right to free, appropriate public education. The Individualized Education Plan Team for each handicapped student will consider whether a particular discipline procedure should be adopted for that student, and such procedure will be included in that student's IEP.

If it is found to be necessary to suspend a handicapped student from school, the principal suspending the student will immediately notify the head of the IEP Team for that student. The IEP Team will assess the effectiveness and appropriateness of the student's suspension. In no case should a handicapped student be excluded for more than ten (10) days in a school year unless it is so recommended by the IEP Team. An alternative educational program for the student might be recommended by the IEP Team.

TYPES OF DISCIPLINE DETENTION HALL

Detention hall is held daily from 12:06 p.m. until 12:32 p.m. for assigned consequences.

4.39—CORPORAL PUNISHMENT

The Clarksville School Board authorizes the use of corporal punishment to be administered in accordance with this policy by the Superintendent or the superintendent's designated staff members who are required to have a state-issued license as a condition of their employment.

Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be given an explanation of the reasons for the punishment and be given an opportunity to refute the charges.

All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, shall not be excessive, or administered with malice, and shall be administered in the presence of another school administrator or designee who shall be a licensed staff member employed by the District.

Corporal punishment shall not be used as a form of discipline for a student who is intellectually disabled, non-ambulatory, non-verbal, or autistic.

SUSPENSION FROM CLASS BY A TEACHER

A teacher may dismiss, for disciplinary reasons, a student from his/her class. The teacher will, when feasible, accompany the student to the office of the principal and will, as soon as practical, file with the principal a written statement of the reason or reasons for the student's dismissal from class. The principal or his designee will determine what disciplinary action to take. Before the student re-enters the class, a meeting with the teacher and the principal will be held to determine under what terms the student may return to the class.

IN-SCHOOL SUSPENSION

The program will serve those students whom through their behavior violate school policy, and/or exhibit tendencies that could lead to suspension from school or in extreme cases expulsion because of disregard to school policy. The respective school administrators will assign students to ISS. Students may be assigned to ISS from one to ten school days. Extra days may be assigned by the ISS teacher for failure to abide by ISS guidelines. When a student is assigned to ISS, a school administrator will inform the student's parent of their child's ISS assignment.

Students assigned to ISS will not be allowed on campus before or after school nor to attend or participate in any school activity until the day following his/her last day in ISS.

Prior to an ISS assignment the parent or guardian of any student may request in writing their child be suspended out of school with the following penalties.

- A. No credit or make-up work will be given during the suspension. The student will receive a grade of zero (0) for all work missed.
- B. All days that are missed will count as unexcused absences under the school's absentee policy.
- C. The parent/guardian must accompany the student upon his/her return to school for a review of the student's total school status.
- D. Students will not be allowed to participate in or attend any school activity until they have returned to school and completed a full day in their regular classes.

4.30—SUSPENSION FROM SCHOOL (ADD STATEMENT FOR SEMESTER TESTS AND STANDARDIZED TESTS TO ALLOW)
Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of

a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days,¹ including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to, that which:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension (OSS) shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

1. The student shall be given written notice or advised orally of the charges against him/her;
2. If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
3. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the parents' or legal guardians' responsibility to provide current contact information to the district, which the school shall use to immediately notify the parent or legal guardian upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number;
 - The contact may be by voice, voice mail, or text message.
- An email address;
- A regular first-class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent or legal guardian.

During the period of their suspension, students serving OSS are not permitted on campus except to attend a student/parent/administrator conference.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

EMERGENCY SUSPENSION

A student may be suspended indefinitely without notice, without hearing, and without the other rights provided in this handbook being first given when the school is undergoing a violent upheaval or where orderly educational processes have otherwise been substantially disrupted.

This emergency circumstance would apply in rare instances such as when riots are taking place and when emergency circumstances make it unreasonable for the administration and Board to consider the case under their usual time frame. In all such cases, notice, hearings, and other rights will be provided in accordance with the normal provisions at the earliest practical date that the restoration of order permits.

4.31—EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents or legal guardians (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days¹ following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, that gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of not less than one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents or legal guardians of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property.² The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion. The District's program shall include offering an expelled student an opportunity for enrollment in digital learning courses or other alternative educational courses that result in the receipt of academic credit that is at least equal to credit the expelled student may have received from the District if the student had not been expelled.

GRIEVANCES AND COMPLAINTS

If a parent or guardian has a complaint or grievance concerning a policy of Clarksville School District, the following procedure should be followed:

- Step 1 A parent or guardian who feels that he/she has a grievance should present the matter orally or in writing to the individual staff member. A conference should be scheduled between the two parties.
- Step 2 If the parent or guardian feels the complaint or grievance is unresolved after the first step, the parent or guardian may request a meeting with the building principal.
- Step 3 If the parent or guardian feels the complaint or grievance is unresolved after the second step, the parent or guardian may request a meeting with the Superintendent.
- Step 4 If the parent or guardian feels the complaint or grievance is unresolved after the third step, the parent or

guardian may request a meeting with the Board of Education. This request must be in writing to the Superintendent a minimum of one (1) week prior to the scheduled Board meeting. The request must state the reason(s) for the meeting. The request to meet with the school board shall be considered by the superintendent and the president of the school board. The president of the school board shall make the decision as to whether or not the matter is placed on the school board agenda. The president is under no obligation to place the matter on the school board agenda. The decision of the Board of Education shall be final.

If a parent or guardian has a complaint or grievance concerning a staff member of Clarksville Junior High School, the following procedure should be followed:

Citizen complaints involving school personnel may not be presented to the School Board, due to the fact that presentations to the Board concerning personnel are closely governed by state and constitutional law.

Any patron who has a complaint about an employee should first attempt to resolve any such issues with the employee. If no satisfactory result is obtained, or if the nature of the complaint would render such an approach to the employee futile, the patron may present the complaint to the employee's immediate supervisor (usually the Principal).

If no satisfactory result is obtained from the immediate supervisor, the patron may then present the complaint to the next level of supervision (usually the Superintendent). The Superintendent is the final authority in such matters, unless some employment action is justified which would require action by the School Board on the recommendation of the Superintendent. In such a circumstance, the Superintendent has the sole discretion in deciding whether to make such a recommendation.

The disciplinary action, if any, taken against the employee may not be revealed to the patron bringing the complaint, since to do so could violate statutory and constitutional prohibitions.

INTERNET AND OTHER NETBOOK NETWORKS

ACCEPTABLE USE AND INTERNET SAFETY POLICY

The Clarksville Public School District is pleased to make available to students and staff access to interconnected computer systems within the district and to the Internet, the worldwide network that provides access to significant educational materials and opportunities.

In order for the school district to ensure the continued accessibility of its computer network and the Internet, all students and staff must take responsibility for appropriate and lawful use of this access. Students and staff must understand that one person's misuse of the network and Internet access may jeopardize the ability of all students and staff to enjoy such access. While the school's teachers and other staff will make reasonable efforts to supervise student use of network and Internet access, they must have student cooperation in exercising and promoting responsible use of this access.

Below is the Acceptable Use and Internet Safety Policy ("policy"). Upon reviewing, signing, and returning this policy as directed, each student and staff member agrees to follow the policy and will be given the opportunity to enjoy Internet access at school. If a student is under 18 years of age, he or she must have his or her parent or guardian read and sign the policy. The school district shall not provide access to any student who, if 18 or older, fails to sign and submit the policy to the school as directed or, if under 18, does not return the policy as directed with the signatures of the student and his/her parent or guardian.

Listed below are the provisions of the agreement regarding computer network and Internet use. The district has designated a staff member to whom users may direct questions. If any user violates this policy, the user's access will be denied or withdrawn, and the user may be subject to additional disciplinary action.

Use of Laptop/Mobile Device on the District Network

Clarksville School District is committed to the importance of a student being able to continue with his work when his/her laptop/mobile device is experiencing problems. To assist with this problem the District is providing the following:

Student Network Drives

The students will have a network drive setup from their login. Students can save important items on this network drive, keeping a backup that they can access from anywhere on the network.

Laptop/Mobile Device In For Repair

From time to time, students may need to turn their laptop/mobile device in to the School's Technology Center for repair. Our goal as a district is to get the repairs completed and return the mobile device back to the students as soon as possible.

Internet Safety

There are many sites on the Internet that can be potentially dangerous to minors. These sites are blocked with the District content filter while students are logged on to the District network, but may be unprotected outside of school. Students are in violation of district policy if they access these sites through proxies. Parents may want to restrict their home Internet access. To find more information about Internet safety, go to www.isafe.org.

Music, Videos, Games, or Programs

- All software loaded on the system must be District approved.
- Music, videos and games may not be downloaded or streamed over the Internet. This may be a violation of copyright laws.
- Illegal downloading and distribution of copyrighted works are serious offenses that carry with them the risk of substantial monetary damages and, in some cases, criminal prosecution.
- Copyright infringement also violates the District's Internet Service Provider's terms of service and could lead to limitation or suspension of the District's Internet services.
- Students found with illegal files on their computer, will have their laptop/mobile device confiscated and re-imaged.

Unauthorized Access

- Access to another person's account or computer without their consent or knowledge is considered hacking and is unacceptable.

Transporting Laptops/Mobile Devices

- To prevent hard drive damage, laptops/mobile devices should be shut down between classes.

E-Mail

- E-mail should be used for educational or administrative purposes only.
- E-mail transmissions, stored data, transmitted data, or any other use of the District's computer online services by students, employees, or any other user shall not be considered confidential and may be monitored at any time by designated staff to ensure appropriate use.
- All e-mail and all e-mail contents are property of the District.

Personal Responsibility

By signing this policy, the user agrees not only to follow the rules in this policy, but also to report any misuse of the network to the person designated by the school for such reporting. Misuse means any violations of this policy or any other use that is not authorized under this policy, and having the effect of harming another or his or her property.

Term of the Permitted Use

A student or staff member who submits to the school, as directed a properly signed policy and follows the policy to which she or he has agreed will have computer network and Internet access during the course of the school year only. Students and staff will be asked to sign a new policy each year during which they are students or staff members in the school district before they are given an access account.

Acceptable Uses

1. Educational Purposes Only. The school district is providing access to its computer networks and the Internet for educational purposes only. If the user has any doubt about whether a contemplated activity is educational, the user may consult with the person(s) designated by the school to help decide if a use is appropriate.
2. Unacceptable Uses of Network. Among the uses that are considered unacceptable and which constitute a violation of this policy are the following:
 - A. Uses that violate the law or encourage others to violate the law. Do not transmit offensive or harassing messages; offer for sale or use any substance the possession or use of which is prohibited by the school district's student discipline policy; view, transmit or download pornographic materials or materials that encourage others to violate the law; intrude into the networks or Netbooks of others; and download or transmit confidential, trade secret information, or copyrighted materials. Even if materials on the networks are not marked with the copyright symbol, the user should assume that all materials are protected unless there is explicit permission on the materials to use them.
 - B. Uses that cause harm to others or damage to their property. For example, do not engage in defamation (harming another's reputation by lies); employ another's password or some other user identifier that misleads message recipients into believing that someone other than the user is communicating or otherwise using his/her access to the network or the Internet; upload a worm, virus, "Trojan horse," "time bomb," or other harmful form of programming or vandalism; participate in "hacking" activities or any form of unauthorized access to other computers, networks, or information systems.
 - C. Uses that jeopardize the security of student and staff access and of the computer network or other networks on the Internet. For example, do not disclose or share your password with others; do not impersonate another user.
 - D. Uses that are commercial transactions. Students, staff, and other users may not sell or buy anything over the Internet. The user should not give others private information about the user or others, including credit card numbers and social security numbers.
3. Netiquette. All users must abide by rules of network etiquette, which include the following:
 - A. Be polite. Use appropriate language. No swearing, vulgarities, suggestive, obscene, belligerent, or threatening language.
 - B. Avoid language and uses that may be offensive to other users. Do not use access to make, distribute, or redistribute jokes, stories, or other material that is based upon slurs or stereotypes relating to race, gender, ethnicity, nationality, religion, or sexual orientation.
 - C. Do not assume that a sender of e-mail is giving his or her permission for the user to forward or redistribute the message to third parties or to give his/her e-mail address to third parties. This should be done only with permission or when the user knows that the individual would have no objection.
 - D. Be considerate when sending attachments with e-mail (where this is permitted). Be sure that the file is not too large to be accommodated by the recipient's system and is in a format that the recipient can open.

4. Cyber Bullying - Cyber bullying is when one or more people intentionally harm, harass, intimidate, or reject another person using technology. This includes but is not limited to the following:
 - A. Sending mean or threatening messages via email, IM (instant messaging), or text messages.
 - B. Spreading rumors about others through email, IM, or text messages.
 - C. Creating a Web site or MySpace (or other social-networking) account that targets another student or other person(s).
 - D. Sharing fake or embarrassing photos or videos of someone with others via a cell phone or the Web.
 - E. Stealing another person's login and password to send mean or embarrassing messages from his or her account.

It shall be the policy of Clarksville Public Schools that cyber bullying will not be tolerated under any circumstances. A student caught violating this policy will lose computer privileges and these actions may result in further disciplinary action including suspension or expulsion from school of the student(s) involved. In addition, violators and their parents/guardians may be subject to civil and/or criminal penalties as specified by Arkansas and/or federal law.

Internet Safety

1. General Warning: Individual Responsibility of Parents and Users. All student users and their parents/guardians are advised that access to the electronic network may include the potential for access to materials inappropriate for school-aged students. Every user must take responsibility for his or her use of the computer network and Internet and stay away from these sites. Parents of minors are the best guides to materials to shun. If a student or staff member finds that other users are visiting offensive or harmful sites, he or she should report such use to the appropriate school designee.
2. Personal Safety. Be safe. In using the Netbook network and Internet, the user should not reveal personal information such as the user's home address or telephone number. The user should not use his/her real last name or any other information which might allow a person to locate the user without first obtaining the permission of a supervising teacher. Do not arrange a face-to-face meeting with someone "met" on the Netbook network or Internet without a parent's permission (if the user is under the age of 18). Regardless of the user's age, the user should never agree to meet a person the user has only communicated with on the Internet in a secluded place or in a private setting.
3. "Hacking" and Other Illegal Activities. It is a violation of this policy to use the school's computer network or the Internet to gain unauthorized access to other computers or computer systems, or to attempt to gain such unauthorized access. Any use which violates state or federal law relating to copyright, trade secrets, the distribution of obscene or pornographic materials, or which violates any other applicable law or municipal ordinance, is strictly prohibited.
4. Confidentiality of Student Information. Personally identifiable information concerning students may not be disclosed or used in anyway on the Internet without the permission of a parent or guardian or, if the student is 18 or over, the permission of the student. Users should never give out private or confidential information about themselves or others on the Internet, particularly credit card numbers and Social Security numbers. A supervising teacher or administrator may authorize the release of directory information, as defined by law, for internal administrative purposes or approved educational projects and activities.
5. Active Restriction Measures. The school will utilize filtering software or other technologies to prevent users from accessing visual depictions that are (1) obscene, (2) pornographic, or (3) harmful to minors. We are using state of Arkansas filtering system and Lightspeed for our technology protection measure (internet filtering software) to ensure that users are not accessing such depictions or any other material that is inappropriate for minors.

Internet filtering software or other technology-based protection systems may be disabled by a supervising teacher or school administrator, as necessary, for purposes of bona fide research or other educational projects.

Privacy

Network and Internet access is provided as a tool for the user's education. The school district reserves the right to monitor, inspect, copy, review, and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the school district and no user shall have any expectation of privacy regarding such materials.

Failure to Follow Policy

The user's use of the computer network and Internet is a privilege, not a right. A user who violates this policy, shall at a minimum, have his or her access to the computer network and Internet terminated, which the school district may refuse to reinstate for the remainder of the student's enrollment or the staff member's employment in the school district. A user violates this policy by their own action or by failing to report any violations by other users that come to the attention of the user. Further, a user violates this policy if he or she permits another to use his or her account or password to access the computer network and Internet, including any user whose access has been denied or terminated. The school district may also take other disciplinary action in such circumstances.

Warranties/Indemnification

The school district makes no warranties of any kind, either express or implied, in connection with its provision of access to and use of its computer networks and the Internet provided under this policy. It shall not be responsible for any claims, losses, damages, or costs

(including attorney's fees) of any kind suffered, directly or indirectly, by any user (or his or her parents or guardian) arising out of the user's use of its computer networks or the Internet under this policy. By signing this policy, users are taking full responsibility for their own use, and the user who is 18 or older or the parent(s) or guardian(s) of a minor student are agreeing to indemnify and hold the school, the school district, and all of their administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from the user's access to its computer network and the Internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user. The user or the parent(s) or guardian(s) of a minor student agree to cooperate with the school in the event of the school's initiating an investigation of a user's use of his or her access to its computer network and the Internet, whether that use is on a school computer or on another computer outside the school district's network.

Updates

Users, and if appropriate, their parents/guardians, may be asked from time to time to provide new or additional registration and account information or to sign a new policy reflecting developments in the law or technology or changes in district policy. Such information must be provided by the user (or his/her parents or guardian) or such new policy must be signed if the user wishes to continue to receive service. If after account information is provided, some or all of the information changes, the user must notify the person designated by the school to receive such information.

CODE OF CONDUCT FOR INTERNET AND OTHER COMPUTER NETWORK ACCESS

The purpose of providing Internet and other computer network access in this district is to promote the exchange of information and ideas with the global community. The following represents a guide to the acceptable use of the technology provided by this district. All network use must be consistent with the policies and goals of this school district. Inappropriate use of district technology will result in the loss of technology use, disciplinary action, and/or referral to legal authorities. The district may monitor use of district technology at any time. All Internet and computer network users are hereby informed that there shall be no expectations of privacy in that school official may monitor users at any time.

All Internet and other computer network users will be expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

1. Be polite. Messages should not be abusive to others.
2. Take pride in communications. Check spelling and grammar.
3. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language, symbols, or pictures.
4. Protect password confidentiality. Passwords are not to be shared with others. Using another user's account or password or allowing such access by another may be permitted only with the approval of the supervising teacher or system administrator.
5. Do not reveal your personal address or telephone number or those of other persons. No student information protected by FERPA should be electronically transmitted or otherwise disseminated through the network.
6. Do not disguise the point of origin or transmission of electronic mail.
7. Do not send messages that contain false, malicious, or misleading information that may be injurious to a person or a person's property.
8. Illegal activities are strictly prohibited: transferring offensive or harassing messages; offering for sale or use any substance the possession or use of which is prohibited by the school district's staff and student policies; viewing, transmitting, or downloading pornographic materials or materials that encourage others to violate the law; intruding into the networks or computers of others; and downloading or transmitting confidential, trade secret information, or copyrighted materials.
9. The district technology is not to be used for playing multi-user or other network intensive games, commercial ventures, Internet relay chat lines, or downloading excessively large files.
10. No charges for services, products, or information are to be incurred without appropriate permission.
11. Do not use the network in such a way that you would disrupt the use of the network by other users.
12. Users shall respect the privacy of others and not read the mail or files of others without their permission. Copyright and licensing laws will not be intentionally violated.
13. Vandalism will result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy hardware, data of another user, Internet, or any other agencies or other networks that may be accessed. This includes, but is not limited to, the uploading or creation of computer viruses.
14. Report security problems to the supervising teacher or system administrator.
15. Violators of this policy shall hold the district, including its employees and agents, harmless against any and all causes of action, damages, or other liability resulting from the willful or negligent violation of this policy.

INTERNET FILTERING REGULATION

Clarksville Schools utilizes state of Arkansas filtering system and Lightspeed hardware for Internet filtering and Internet usage reporting while the student is at school. However, please keep in mind the Internet changes rapidly, making it impossible to filter all objectionable sites. Therefore, the staff role in supervising and monitoring student access to the Internet is critical. Additionally, staff members have the responsibility to monitor their own navigation on the Internet to avoid undesirable sites.

Filtering should be viewed as only one of a number of techniques used to manage student access to the Internet and encourage acceptable usage. Filtering should not be viewed as a foolproof approach to preventing access to inappropriate material and should be used in conjunction with:

- Educating students to be "Internet smart;"
- Using recognized Internet gateways as a searching tool and/or homepage for students, in order to facilitate access to appropriate material;
- Using "Acceptable Use Agreements;"
- Using behavior management practices for which Internet access privileges can be earned or lost; and
- Appropriate supervision, either in person and/or electronically.

The placement of filters on district Laptops/Mobile Device systems is viewed as an exercise of the board's ability to determine educational suitability of all material used in the schools.

Filters may be utilized with district schools to (1) block pre-selected sites, (2) block by word, (3) block entire categories like chat and newsgroups, and (4) through a pre-selected list of approved sites.

Procedure for Suggesting Sites be blocked

If district staff members observe a site that they believe to contain inappropriate material according to the above criteria, they may request that the site (URL) be blocked. Education Technology staff will review the site for inappropriateness. If the site meets the criteria for filtering, steps will be taken to block the site.

GENERAL USE AND CARE OF THE COMPUTERS

1. Students are expected to treat their Laptop/Mobile Device with care and respect. The Laptop/Mobile Device should be kept clean and free of marks at all times. No stickers, writing, drawing, engraving, decorations or otherwise defacing the Laptop/Mobile Device, power cords, battery, or otherwise defacing the school property will be allowed and will result in loss of privileges.
2. Students should protect their Laptop/Mobile Device from extreme heat or cold. Laptops/Mobile Devices should be protected from the weather, water or other liquid, food, and pets.
3. Heavy objects should never be placed or stacked on top of the Laptop/Mobile Devices (this includes books, musical instruments, sports equipment, etc.).
4. Students should not use their Laptop/Mobile Device while walking. Always use computers on a stable surface.
5. Any inappropriate or careless use of a Laptop/Mobile Device should be reported to a teacher or other staff member immediately.
6. Students are responsible for saving and backing up their data. Clarksville Public Schools are providing external storage devices to all students, using the allocated money budgeted. Clarksville Public Schools will not be held responsible for lost data.
7. The Laptop/Mobile Device should never be left unsupervised. Students and parents/guardians are responsible if a Laptop/Mobile Device is stolen.
8. The Laptop/Mobile Device and battery are subject to inspection at any time without notice.
9. Students are not allowed to download or install any software or other materials without permission from the District Technology Directors.
10. Student work should be saved to the Clarksville Public Schools Site. All teachers and students will have access to a network folder for saving all projects.

COMPUTER USE AT SCHOOL

1. Students should never swap or share their Laptop/Mobile Device with another student.
2. Students should never share their password with another student. Passwords should be kept confidential.
3. Students have permission to take their Laptop/Mobile Device home and are responsible for bringing their Laptop/Mobile Device, fully charged, to school each day. Failure to have your assigned Device in class is the same as not having your assigned textbook or homework. A replacement Laptop/Mobile Device will only be given at the discretion of the administrator or teacher. Students will be responsible for completing all work at home when they fail to complete it at school due to not having their device.
4. If the Laptop/Mobile Device is damaged or not working properly, it must be turned in to the designated location for repair or replacement.
5. Students will be offered access to another school Laptop/Mobile Device if their Laptop/Mobile Device is lost, stolen, or is being repaired.

However, if a student continually leaves his/her laptop/mobile device at home, disciplinary action may be taken.

In result of a violation of Clarksville's Laptop/Mobile Device policy, one or more of the following disciplinary actions may be taken:

1. Removal of Laptop/Mobile Device
2. Parent contact
3. Loss of computer rights
4. In-school suspension
5. Suspension
6. Notification of outside authority/police (charges filed if appropriate)
7. Administrator's discretion
8. Expulsion

COMPUTER USE AT HOME

1. Students will not be allowed to take their laptop/mobile device home without their parent/guardians signing the Acceptable Use Contract.
2. Students are responsible for recharging their Laptop/Mobile Device at home on a daily basis.
3. If the Laptop/Mobile Device is damaged or not working properly, it must be turned in to Clarksville Public Schools for repair or replacement.

Students who leave the district must return their Laptop/Mobile Device to the district before leaving. Laptop/Mobile Devices not returned will be reported to Clarksville Police Department as stolen and charges will be filed.

DAMAGE, INSURANCE AND INVENTORY CONTROL

Due to financial constraints, Clarksville Public Schools concluded that it would be most effective to only insure the devices and not provide tracking software. The insurance we have will provide complete protection against loss, theft, or irreparable damage. Computer failure related to hardware/software issues will be covered by the manufacturer's warranty. A replacement computer will be issued, if available, while repairs are being made. Students/Guardians/Teachers are not authorized to attempt repairs themselves or contract with any other individual or business for the repair of the computer.

Intentional damage will be considered vandalism. In this case, full repair or replacement cost of the computer will be charged and further disciplinary action may be taken.

If a Laptop/Mobile Device is lost or stolen, school administration should be contacted and a report must be filed with the Clarksville Police Department within 48 hours. If a report is not filed with the proper authorities, a replacement computer will not be issued until full replacement cost is paid.

Upon completion of training and usage agreement contracts, each student will be issued a Laptop/Mobile Device. The Laptop/Mobile Device will be "checked out" in much the same fashion as a library book using scanned barcodes according to computer serial number, battery serial number, and power adapter serial number. The student is responsible for all equipment checked out in his/her name. Therefore, students are not to exchange Laptop/Mobile Devices, batteries, or power adapters.

At the conclusion of each school year, students will be required to check in their Laptop/Mobile Device. Laptops/Mobile Devices will be inspected by the Technology Department at this time. Students will be expected to check in the same serial numbered equipment as originally checked out unless replacement equipment has been issued by the technology department.
