One should be aware the information presented in these safety guidelines is to inform the athlete of proper techniques and inherent dangers involved with volleyball. There is a chance of broken bones, muscle and soft tissue and back injuries, which could lead to some form of paralysis. Not all potential injury possibilities in this sport are listed, but athletes should be aware that fundamentals, coaching and proper safety equipment are important to the safety and enjoyment of the sport.

1. Proper warm-up is essential before strenuous activity takes place. Be aware of the potentially serious injuries if you do not follow correct procedures in stretching, and conditioning.

11. Players should hydrate themselves frequently during practice and meets and follow the coaches' direction on hydration prior to and following practices and meets.
12. Notify the coach immediately if injured.
13. Practice only when your coach is present.
14. Collect all loose volleyballs and return them to the proper container or location so they do not create a trip and fall hazard.
15. Jumping vertically helps avoid collisions with opponents, teammates and nets.
16. Spike the ball with the correct techniques taught by your coach.

I understand the list of rules, safety regulations/warnings and procedures. I also understand the necessity of using the proper techniques while participating in the volleyball program.
