

HPS COVID-19 Student Screening

Campus COVID-19 Screener will:

- Perform initial screening on students when they arrive.
- Form is to be filled out daily and maintained for possible contact tracing needs.
 - If a student answers no to the screening questions and does not have a temperature over 100.4, he/she will proceed with normal activities.
 - If a student has a temperature over 100.4 or answers yes to one or more screening questions, contact the campus nurse for further screening. (Do not send students to the nurse's office without contacting the nurse first. The nurse will determine where the student will be seen.

Campus Nurse will:

Evaluate/Isolate/Contact

- Parent will be notified that student needs to be checked out from school for medical evaluation.
- If the student is registered with the Bobcat Clinic, ask the parent if they want the student seen.
 - If the parent wants a student seen at the Bobcat Clinic, call the clinic to arrange an appointment. (Do not send the student before notifying the parent and talking with clinic staff.)
 - Inform the parent that students referred to the Bobcat Clinic with elevated temperatures will need to have arrangements for transportation home.
- If the student is not registered with the Bobcat Clinic, inform the parent that the student needs to be checked out of school.
 - The parent can obtain a Bobcat Clinic registration packet if they are interested in having the student seen at the clinic.
 - The parent will have to submit the registration packet prior to the student being seen.
- If a parent/guardian is not available, contact the Principal/Administrator for transportation arrangements.

Parents/Guardians/Students will:

- Follow CDC recommended guidelines regarding when students can return. The campus nurse will send the document home with the student.
