Technology Acceptable Use Student Agreement
Grades K-2

Student Name: ___________________________________________  ID: ____________

School: ___________________________  Grade: ____  Homeroom: ___________________

NOTE TO PARENTS/GUARDIANS - The use of the Internet provides great educational benefits to students. While some materials accessible via the Internet may contain items that are illegal, defamatory, or potentially offensive to some people, the Wood County school system does not condone the use of such materials. Access to the Internet is provided as a privilege to students who agree to act in a considerate and responsible manner. Wood County Schools Policy 6144.1 requires that students and their parent/guardian read, accept, and sign the following agreement for acceptable use of technology equipment and resources. This abbreviated version of the agreement is intended for parents to discuss with their children in Grades K-2 and is designed to be easier for primary students to understand. Please discuss this with your child, then sign and return it to school. Thank you.

I agree to the following rules when using computers and the Internet:

• I will follow school rules at all times, including when I use computers.
• I will only use computers and the Internet to do work assigned by my teacher.
• I will only use computers when my teacher or another school adult is present in the room.
• I will not change any settings on the computers.
• I will not download music, videos or games without my teacher’s permission.
• I will never use bad language, say bad things about other people, or send mean messages using the computer or Internet. I will tell my teacher and parents if others use the computer or Internet to do these things to me.
• I will notify my teacher if I see something on my computer screen or another screen that is bad or harmful.
• I will never pretend to be someone else when using the computer, and I won’t allow others to pretend to be me.
• I will not give my passwords to other students.
• I will never provide my name, address, phone number, or other personal information about myself or others without my teacher’s permission.
• I will only publish things to the Internet when my teacher helps me.

I am aware that policies may be modified at any time by governing boards, but that any such modification will be communicated to users in a timely manner. I have discussed this agreement for acceptable technology use with my child, and we agree to comply with all policies and rules. We understand that any violation of policy or rules could result in the loss of technology use.

As the parent or legal guardian of the student named above, I grant permission for this student to access networked computer services such as e-mail and the Internet. I understand that some materials on the Internet may be objectionable, but I accept responsibility for providing guidance to my child on Internet use, both inside and outside of school including the setting and conveying of standards to follow when selecting, sharing or exploring information and media.
