BETH ANN COLEMAN
Business Administrator/Board Secretary

November 8, 2019

Honorable President and
Members of the Board of Education
Collingswood School District
County of Camden
Collingswood, New Jersey

Dear Board Members:

The comprehensive annual financial report of the Collingswood School District (District) for the fiscal year ended June 30, 2019, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the District's organizational chart, and a roster of officials and consultants. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of federal regulations, cost principals, and audit requirements for federal awards (uniform guidance): and the State of New Jersey Circular OMB15-08. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws, regulations, findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES

Collingswood School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement No. 14. All funds and account groups of the District are included in this report. The Collingswood Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels PreK through 12. These include regular, vocational, and English as a Second Language for limited English speakers and special education for disabled youngsters. The District completed the 2018-19 fiscal year with an enrollment of 2,114 students, which is 121 students more than the previous year's enrollment. The following details the changes in the student enrollment of the District over the last five years.

<u>Fiscal Year</u>	<u>Average Daily Enrollment Student Enrollment</u>	<u>Percent Change</u>
2014-2015	1,864	-1.1%
2015-2016	1,942	4%
2016-2017	1,955	.6%
2017-2018	1,993	2%
2018-2019	2,114	6%

2. ECONOMIC CONDITION AND OUTLOOK

The Borough of Collingswood continues to remain focused on its goal of maintaining existing ratables while examining ways to attract new ventures. Neighborhood redevelopment efforts continue to provide resources for community members to maintain their properties. The Borough uses the business improvement districts to provide funding for professional services to make the business districts a competitive environment. The program to convert multi-family dwellings back to single-family homes continues to promote long-term family community commitment. The Haddon Avenue merchant area is thriving and includes a variety of dining and shopping opportunities. This area has become known throughout south Jersey and attracts nonresidents as well as residents to experience the restaurants and shopping opportunities. The continued efforts of the Borough suggest preservation of a standard of living the community has come to expect.

3. MAJOR INITIATIVES

The Collingswood Public School District will pursue the following initiatives during the 2018-2019 school year:

District:

- The board of education will continue to review cost saving measures and potential for shared services. The Collingswood Public Schools provide:
 - Custodial and Maintenance services to Oaklyn
 - Child Study Team services to Oaklyn
 - Technology services to Oaklyn
 - Administrative services to Oaklyn
 - Business office services to Oaklyn
 - Curriculum and Professional Development services to Oaklyn
 - As needed Maintenance services to the following school districts:
 - Bellmawr
 - Clementon
 - Haddon Township
 - Mount Ephraim
 - Audubon
 - Stratford
 - Brooklawn
 - Woodlynne

Collingswood continues to explore areas for sharing services in the area in order to limit our tax impact on the citizens while continuing to provide services and programming for our pupils.

We will continue to optimize our resources to encourage the effective use of technology and energy-efficient/sustainable practices.

In October 2018, to meet the needs of the parents in Collingswood, the District applied for and received funding for full day preschool under the Preschool Expansion Aid funding from the New Jersey Department of Education. In January 2019, Collingswood welcomed 42 preschoolers.

The district applied for and received funding to expand Pre-K into 19-20 and serve 112 additional children.

Looking forward, we shall:

- Continue to offer STEM- centered, problem solving courses.
- Continue to maintain our facilities.
- Implement trauma informed practices.

4. INTERNAL ACCOUNTING CONTROLS

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit, described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the Borough of Collingswood. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end either are canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2019.

6. ACCOUNTING SYSTEM AND REPORTS

The District's account records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

7. CASH MANAGEMENT

The investment policy of the District is guided in large part by state statute as detailed in “Notes to the Financial Statements,” Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act.

8. RISK MANAGEMENT

The Board carries various forms of insurance, including but not limited to, general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

9. OTHER INFORMATION

Independent Audit:

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Inverso & Stewart, CPAs, was selected by the Board’s finance committee. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations, cost principles, and audit requirements for federal awards (uniform guidance); and State of New Jersey Circular OMB15-08. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10. ACKNOWLEDGEMENTS

We would like to express our appreciation to everyone involved in the audit process. The audit was completed in a timely manner without inconveniences or interruptions to the regular operation of the business office. We value the efforts of our Finance Committee as they work with District administrators in the preparation of the budget and the hard work and dedication of the entire Board as they seek to provide fiscal accountability to the citizens and taxpayers of Collingswood.

Respectfully submitted,

Scott A. Oswald
Superintendent of Schools

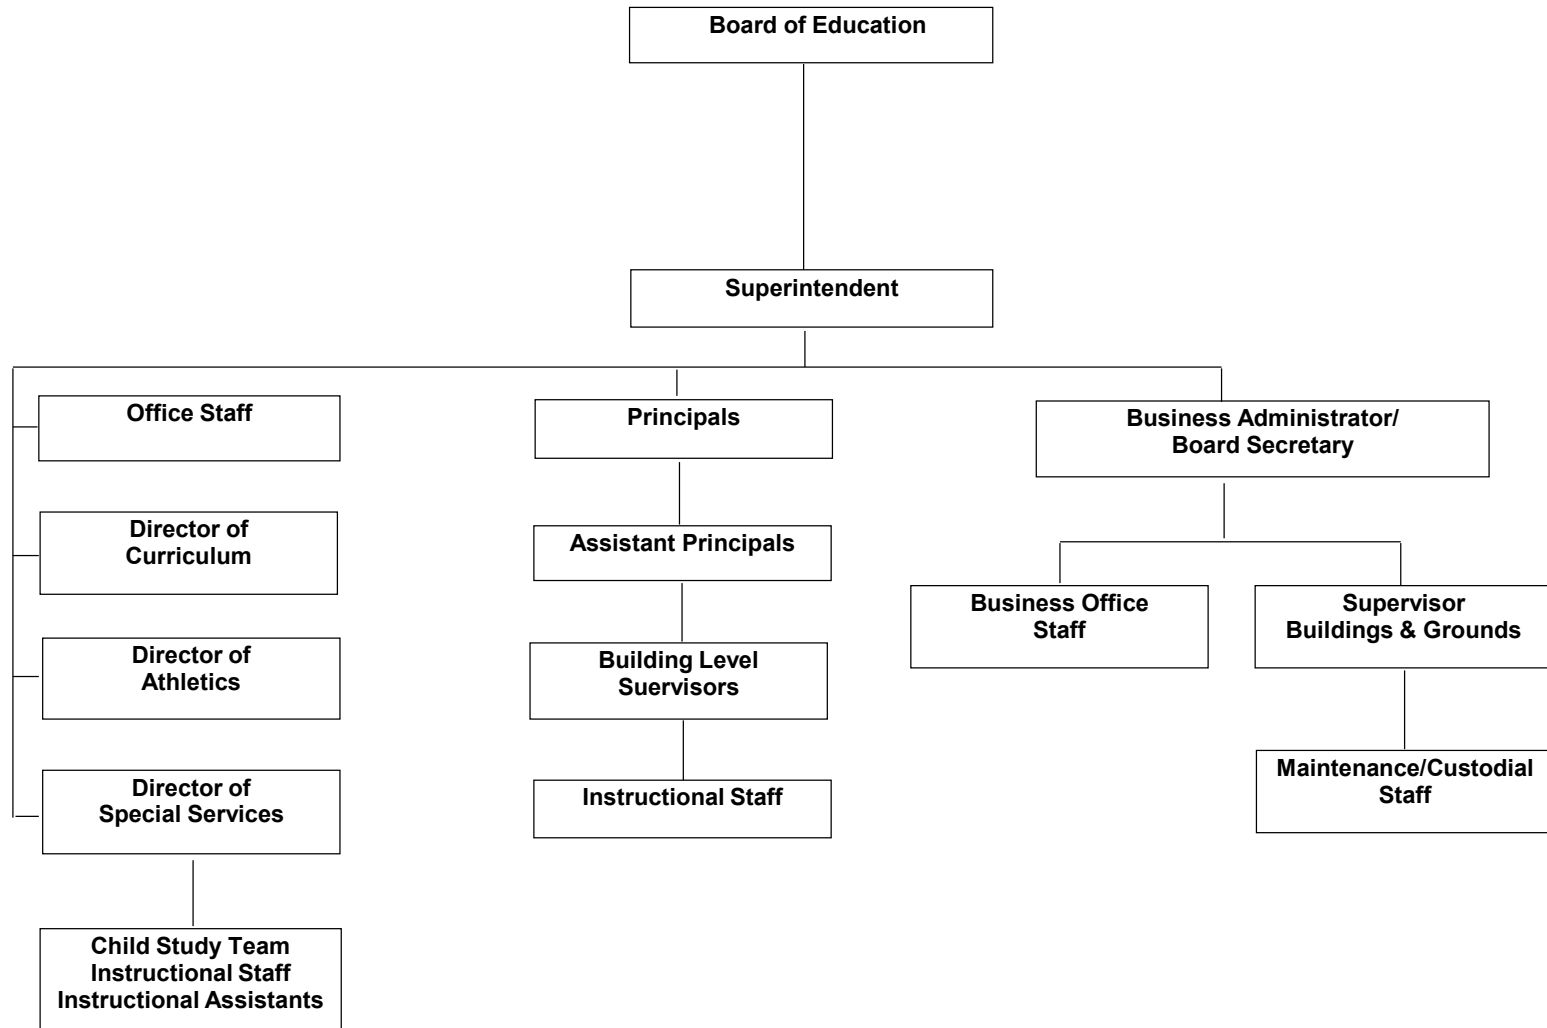

Beth Ann Coleman

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
of the Board of Education
Collingswood School District
County of Camden
Collingswood, New Jersey

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Collingswood School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Collingswood School District, in the County of Camden, State of New Jersey, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the School District's proportionate share of the net pension liability, and schedule of the School District's contributions, schedule of the State's proportionate share of the net OPEB liability associated with the School District and changes in the total OPEB liability and related ratios as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Collingswood School District's basic financial statements. The introductory section, combining statements and related major fund supporting statements and schedules, statistical section, and schedule of expenditures of federal awards are presented for purposes of additional analysis, as required by the Office of School Finance, Department of Education, State of New Jersey and are not a required part of the basic financial statements. The accompanying schedules of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost principles, and Audit Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and State of New Jersey Circular 15-08-OMB, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the accompanying combining statements and related major fund supporting statements and schedules and schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated November 8, 2019 on my consideration of the Collingswood School District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Collingswood School District's internal control over financial reporting and compliance.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
 AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
 FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
 WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
 of the Board of Education
 Collingswood School District
 County of Camden
 Collingswood, New Jersey

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial statement audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Collingswood School District, in the County of Camden, State of New Jersey, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued my report thereon dated November 8, 2019.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Collingswood School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Collingswood School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Collingswood School District's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, and federal and state awarding agencies and pass-through entities, in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Required Supplementary Information - Part I

Management's Discussion and Analysis

**Collingswood School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2019**

As management of the Board of Education of the Borough of Collingswood, New Jersey (School District), we offer readers of the School District's financial statements this narrative overview and analysis of the School District for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

- The assets of the School District did not exceed its liabilities at the close of the most recent fiscal year by \$8,763,710 (*net position*) due to the adoption and presentation of GASB 68.
- Governmental activities have an unrestricted net position deficit of \$11,306,116. The accounting treatments in the governmental funds for compensated absences payable, and the last state aid payment, the state statute that prohibits school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance and the adoption and presentation of GASB 68 are responsible for this deficit balance.
- The total net position of the School District increased by \$216,069 or 2.41% from the prior fiscal year-end balance. The majority of the increase is due the payment of long-term debt obligations, revaluation of fixed assets and the change in net pension liability.
- Fund balance of the School District's governmental funds decreased by \$748,075 resulting in an ending fund balance of \$4,423,925. This decrease was primarily due to a decrease in tuition revenues received.
- Business-type activities have unrestricted net position of \$168,351 which may be used to meet the School District's ongoing obligations of the food service operations.
- The School District's long-term obligations decreased by \$2,472,037 which is the net result of the required payment on long-term obligations, change in compensated absences and the change in net pension liability.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. Comparison to the prior year's activity is provided in this document. The basic financial statements are comprised of three components: 1) District-wide financial statements, 2) Fund financial statements, and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

District-wide Financial Statements

The *district-wide financial statements* are designed to provide the reader with a broad overview of the financial activities in a manner similar to a private-sector business. The district-wide financial statements include the statement of net position and the statement of activities.

The *statement of net position* presents information about all of the School District's assets and liabilities. The difference between the assets and liabilities is reported as net position. Over time, changes in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the net position of the School District changed during the current fiscal year. Changes in net position are recorded in the statement of activities when the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement even though the resulting cash flows may be recorded in a future period.

Both of the district-wide financial statements distinguish functions of the School District that are supported from taxes and intergovernmental revenues (*governmental activities*) and other functions that are intended to recover all or most of their costs from user fees and charges (*business-type activities*). Governmental activities consolidate governmental funds including the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund. Business-type activities consolidate the Food Service Fund and the After School Program Fund.

Fund Financial Statements

Fund financial statements are designed to demonstrate compliance with finance-related requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific objectives. All of the funds of the School District are divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

Governmental funds account for essentially the same information reported in the governmental activities of the district-wide financial statements. However, unlike the district-wide financial statements, the governmental fund financial statements focus on near-term financial resources and fund balances. Such information may be useful in evaluating the financing requirements in the near term.

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains four individual governmental funds. The major funds are the General Fund, the Special Revenue Fund, the Capital Projects Fund, and the Debt Service Fund. They are presented separately in the fund financial statements.

The School District adopts an annual appropriated budget for the General Fund, Special Revenue Fund and the Debt Service Fund. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with budgetary requirements.

Proprietary funds are used to present the same functions as the business-type activities presented in the district-wide financial statements. The School District maintains one type of proprietary fund - the Enterprise Fund. The fund financial statements of the enterprise fund provides the same information as the district-wide financial statements, only in more detail.

The School District's enterprise funds (Food Service Fund, Summer Theater and Flip Tech) are listed individually and are considered to be major funds.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support the School District's programs.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also contains other supplementary information and schedules required by the New Jersey Audit Program, issued by the New Jersey Department of Education.

District-wide Financial Analysis

The assets of the School District are classified as current assets and capital assets. Cash, investments, receivables, inventories and prepaid expenses are current assets. These assets are available to provide resources for the near-term operations of the School District. The majority of the current assets are the results of the tax levy and state aid collection process.

Capital assets are used in the operations of the School District. These assets are land, buildings, improvements, equipment and vehicles. Capital assets are discussed in greater detail in the section titled, Capital Assets and Debt Administration, elsewhere in this analysis.

Current and long-term liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, accrued salaries and benefits, unearned revenues, and current debt obligations. The liquidation of current liabilities is anticipated to be either from currently available resources, current assets or new resources that become available during fiscal year 2019. Long-term liabilities such as long-term debt obligations and compensated absences payable will be liquidated from resources that will become available after fiscal year 2019.

The assets of the primary government activities did not exceed liabilities by \$9,013,039 with an unrestricted deficit balance of \$11,306,116. As mentioned earlier, deficit unrestricted net position is primarily due to the accounting treatment for compensated absences payable, accrued interest payable, the last two state aid payments and the adoption of GASB 68. The net position of the primary government does not include internal balances.

A deficit net investment in land, improvements, buildings, equipment and vehicles of \$2,420,772 which provide the services to the School District's 2,114 public school students, represents 26.86% of the School District's deficit net position. Net position of \$4,713,849 have been restricted as follows:

Reserved for future budget appropriation	\$ 1,210,654
Reserved for encumbrances	\$ 59,147
Designated for subsequent budget	\$ 2,800,874
Capital reserve	\$ 393,049
Maintenance	<u>\$ 250,125</u>
Total	\$ 4,713,849

Governmental Activities

Governmental activities increased the net position of the School District by \$234,010 during the current fiscal year. The increase in net assets for governmental activities is due to the following:

- Results of operations in the General Fund of (\$748,075)
- Repayment of Long Term Debt of \$840,000
- Increase in Compensated Absences of \$24,061
- Net Pension differences of (\$34,180)

Business-type Activities

Business-type activities decreased the School District's net position by \$17,941. Key elements of the increase in net position for business-type activities are as follows:

- The Food Service had a net loss of \$18,521
- The Summer Theater had a net gain of \$580

Financial Analysis of the Governmental Funds

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds - The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the School District's governmental funds reported a combined ending fund balance of \$4,423,925 a decrease of \$748,075 in comparison with the prior year. The decrease is due to decreased tuition income.

The unassigned fund balance for the School District at the end of the fiscal year includes a combination of an unassigned fund balance deficit for the General Fund of \$289,924. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed (1) as restricted cash reserved for future capital outlay expenditures \$393,049, (2) maintenance reserve \$250,125, (3) appropriated as a revenue source in the subsequent year's budget \$2,029,604, (4) reserved for encumbrances \$59,147 (5) reserved for future budget appropriation in accordance with state statute \$1,981,924.

The general fund is the chief operating fund of the School District. As discussed earlier, the deficit balance in the unreserved fund balance is due, primarily, to the accounting treatment of the last state aid payment as discussed in Note 19 of the notes to the basic financial statements, and state statutes that prohibit New Jersey school districts from maintaining more than 2% of its adopted budget as unrestricted fund balance.

General Fund Budgetary Highlights

At the end of the current fiscal year, unassigned fund balance (budgetary basis) of the general fund was \$711,806, while total fund balance (budgetary basis) was \$5,425,655. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance (budgetary basis) and total fund balance (budgetary basis) to total general fund expenditures. Actual (budgetary basis) expenditures of the General Fund including other financing uses amounted to \$39,939,283. Unassigned fund balance (budgetary basis) represents 1.78% of expenditures while total fund balance (budgetary basis) represents 13.58% of that same amount.

Capital Asset and Debt Administration

The School District's investment in capital assets for its governmental and business-type activities as of June 30, 2019, totaled \$9,115,206 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, improvements, buildings, equipment and vehicles. There was an increase in the District's investment in capital assets for the current fiscal year of \$192,765 or 2.16%. The increase is due to an increase improvements and equipment net of accumulated depreciation.

Collingswood School District Capital Asset (net of accumulated depreciation) June 30, 2019 and 2018

	Governmental Activities		Business-Type Activities		District-Wide	
	2019	2018	2019	2018	2019	2018

Additional information on the School District's capital assets can be found in the notes to the basic financial statements (Note 5) of this report.

Long-term debt – During the fiscal year ended June 30, 2019, the School District had \$11,455,000 in serial bonds payable, \$382,798 in compensated absences and \$9,223,242 in net pension liability.

State statutes limit the amount of general obligation debt that the District may issue. At the end of the current fiscal year, the legal debt limit was \$42,706,411 with a remaining borrowing capacity of \$31,251,411.

Additional information on the School District's long-term obligations can be found in the notes to the basic financial statements (Note 7, 9 and 14) of this report.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered and incorporated into the preparation of the School District's budget for the 2019-2020 fiscal year.

- The Board of Education is determined to continue to offer a lean and efficient budget while meeting the needs of our community.
- The Board of Education continues to review cost saving measures and potential for shared services. The Collingswood Public Schools provide:
 - Custodial and Maintenance services to Oaklyn
 - Child Study Team services to Oaklyn
 - Technology services to Oaklyn
 - Administrative services to Oaklyn
 - Business office services to Oaklyn
 - Maintenance services to our neighboring districts on a time and materials basis as requested. Those Districts include; Mount Ephraim, Clementon, Bellmawr, Stratford, Haddon Township, Brooklawn and Audubon.

In October 2018, Collingswood applied for and was approved by the New Jersey Department of Education for Preschool Expansion. In January 2019, Collingswood welcomed pupils into 11 new classes. Collingswood expects to continue its expansion in to 20-21.

In the November 2019 general election, the community passed a separate proposal to the school district budget in the amount of \$225,000. The funds represent a permanent increase in the district's tax levy and are to be used to provide mental health services to our pupils.

Requests for Information

This financial report is designed to provide a general overview of the School District's finances for all those with an interest in the School District. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Collingswood School District Business Administrator, 200 Lees Avenue, Collingswood, New Jersey, 08108, telephone number (856) 962-5720.

Designated for subsequent year's budget	771,270				771,270
Unassigned	(289,924)				(289,924)
Total Fund Balances	<u>4,423,925</u>				<u>4,423,925</u>
Total Liabilities and Fund Balances	<u>\$ 4,774,976</u>	<u>\$ 358,919</u>	<u>\$ -</u>	<u>\$ -</u>	

Amounts reported for governmental activities in the statement of net position (A-1) are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The cost of the assets is \$33,389,199 and the accumulated depreciation is \$24,354,971.	9,034,228
The difference between the reacquisition price and the net carrying value of old debt (bonds payable) IS reported as a deferred outflow of resources.	144,941
Accounts payable related to the April 1, 2020 required PERS contribution that is not to be liquidated with current financial resources.	(457,969)
The District's proportionate share of net pension assets and liabilities as well as pension-related deferred outflows and deferred inflows of resources are recognized in the government-wide statements and include:	
Deferred Outflows of resources from Pensions	2,343,148
Net Pension Liability	(9,223,242)
Deferred Inflows of resources from Pensions	(3,406,142)
	(10,286,236)
The following long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds:	
General Obligation Bonds	(11,455,000)
Accrued Interest Payable	(34,130)
Compensated Absences Payable	(382,798)
	(11,871,928)
Net Position of Governmental Activities	<u>\$ (9,013,039)</u>

COLLINGSWOOD SCHOOL DISTRICT
Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2019

Total net change in fund balances - governmental funds (from B-2) \$ (748,075)

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Governmental Funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Depreciation expense	\$ (559,993)	
Fixed assets additions	<u>770,196</u>	210,203

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities. 840,000

Deferred loss on refunding arising from the issuance of the refunding school bonds is recorded as a deferred outflow of resources. It is amortized in a systematic and rational manner over the duration of the related debt as a component of interest expense. (13,177)

Interest on long-term debt in the statement of activities is accrued, regardless of when due. In the governmental funds, interest is reported when due. This amount is the net effect of the difference in the treatment of interest on long-term debt. 3,300

Net differences between pension system contributions recognized in the fund statement of revenues, expenditures and changes in fund balances and the statement of activities. (34,180)

In the statement of activities, certain operating expenses, (e.g. compensated absences) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+) (24,061)

Change in Net Position of Governmental Activities \$ 234,010

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - The Collingswood School District (“School District”) is a Type II district located in the County of Camden, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board of Education is comprised of nine members elected to three-year terms. These terms are staggered so that three member’s terms expire each year. The purpose of the School District is to provide educational services for resident students in grades K through 12. In addition, the School District provides educational services for students in grades 9 through 12 received from the Oaklyn School District and the Woodlynne School District, on a tuition basis. The School District has an approximate enrollment at June 30, 2019 of 2,114 students.

The primary criteria for including activities within the School District’s reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards* is the degree of oversight responsibility maintained by the School District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The combined financial statements include all funds of the School district over which the Board exercises operating control.

Component Units – GASB Statement No. 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Unit*, provide guidance that all entities associated with a primary government are potential component units and should be evaluated for inclusion in the financial reporting entity. A primary government is financially accountable not only for the organizations that make up its legal entity, but also for legally separate organizations that meet the criteria established by GASB Statements No. 14 and No. 39. In addition, GASB Statement No. 61, provides additional guidance for organizations that do not meet the financial accountability criteria for inclusion as component units but that nevertheless should be included because the primary government’s management determines that it would be misleading to exclude them. GASB Statement No. 80, *Blending Requirements for Certain Component Units* - an Amendment of GASB Statement No. 14 amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criteria requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. There were no additional entities required to be included in the reporting entity under the criteria as described above. Furthermore, the School District is not includable in any other reporting entity on the basis of such criteria.

Basis of Presentation

The basic financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

The School District's basic financial statements consists of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The statement of net position presents the financial condition of the governmental and business-type activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. The policy of the School District is to not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation (Continued)

Government-wide Statements (Continued) - Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a single column. The fiduciary fund is reported by type. The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund is the general operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment classified in the capital outlay sub-fund.

As required by the New Jersey State Department of Education, the School District includes budgeted capital outlay in this fund. Accounting principles generally accepted in the United States of America as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey aid, district taxes and appropriated fund balance. Expenditures are those which result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment.

Special Revenue Fund - The special revenue fund is used to account for and report the proceeds of specific revenues sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Fund - The capital projects fund is used to account and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets, other than those financed by proprietary funds. The financial resources are derived from New Jersey Economic Development Authority grants, temporary notes or serial bonds which are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Proprietary Funds - Proprietary funds are used to account for the School District's ongoing activities, which are similar to those in the private sector.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Funds (Continued)

Enterprise Funds – The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the School District is that all costs (expenses, including depreciation) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or, where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The School District’s enterprise funds are:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations.

Summer Theater - This fund accounts for the financial transactions related to the summer theater program.

All proprietary funds are accounted for on a cost of services or “capital maintenance” measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net position) is segregated into investment in capital assets, net of related debt, and unrestricted net, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment	12 Years
Light Trucks and Vehicles	4 Years
Heavy Trucks and Vehicles	6 Years

Internal Service Fund – The internal service fund has been established to account for the financing of maintenance services provided by the Collingswood School District for use by other school districts, as well as for the Collingswood School District itself. Services are provided on a cost-reimbursement basis.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: trust funds and agency funds. Agency funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds (i.e. payroll and student activities). They are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has five fiduciary funds; an unemployment compensation trust fund, a private purpose scholarship fund, a flexible spending trust fund, a student activity fund, and a payroll fund.

Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus (Continued)

Fund Financial Statements (Continued) - Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e. revenues) and decreases (i.e. expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. Fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days after fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include Ad Valorem (property) taxes, grants, entitlements, and donations. Ad Valorem (Property) Taxes are susceptible to accrual, as under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The School District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year since the revenue is both measurable and available. The School District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". With the exception of restricted formula aids recorded in the special revenue fund, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end; tuition, grants, fees, and rentals.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the fiscal year is reported in the operating statement as an expense. Unused donated commodities are reported as unearned revenue. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgets/Budgetary Control - Annual appropriated budgets are prepared in the spring of each fiscal year for the general, special revenue, and debt service funds. The budgets are submitted to the county office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23A-16.2(f)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year in accordance with N.J.A.C. 6A:23A-13.3.

Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds there are no substantial differences between the budgetary basis of accounting and accounting principles generally accepted in the United States of America with the exception of the legally mandated revenue recognition of the one or more June state aid payments for budgetary purposes only and the special revenue fund. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the budgetary basis. The budgetary basis differs from GAAP in that the budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

The budget, as detailed on Exhibit C-1, Exhibit C-2 and Exhibit I-3, includes all amendments to the adopted budget, if any.

Exhibit C-3 presents a reconciliation of the general fund revenues and special revenue fund revenues and expenditures from the budgetary basis of accounting as presented in the general fund budgetary comparison schedule and the special revenue fund budgetary comparison schedule to the GAAP basis of accounting as presented in the statement of revenues, expenditures and changes in fund balances – governmental funds. Note that the School District does not report encumbrances outstanding at year end as expenditures in the general fund since the general fund budget follows modified accrual basis with the exception of the revenue recognition policy for the one or more June state aid payments.

Encumbrances - Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Encumbrances are a component of fund balance at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services. Open encumbrances in governmental funds, other than the special revenue fund, which have not been previously restricted, committed, or assigned, should be included within committed or assigned fund balance, as appropriate.

Open encumbrances in the special revenue fund, however, for which the School District has received advances of grant awards, and all eligibility and time requirements satisfied are reflected on the balance sheet as unearned grant revenue at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Cash, Cash Equivalents and Investments - Cash and cash equivalents, for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash, Cash Equivalents and Investments (Continued) -N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act (GUDPA), a multiple financial institution collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

Tuition Receivable - Tuition charges were established by the School District based on estimated costs. The charges are subject to adjustment when the final costs are determined.

Tuition Payable - Tuition charges for the fiscal years ended June 30, 2019 and 2018 were based on rates established by the receiving school district. These rates are subject to change when the actual costs have been determined.

Inventories - Inventories are valued at cost, which approximates market. The costs are determined on a first-in, first-out basis.

The cost of inventories in governmental fund types is recorded as expenditures when purchased rather than when consumed, and is not recorded since any amounts are considered immaterial to the basic financial statements.

Inventories recorded in the government-wide financial statements and in the proprietary fund types are recorded as expenditures when consumed rather than when purchased.

Prepaid Expenses - Prepaid expenses recorded on the government-wide financial statements and in the proprietary fund types represent payments made to vendors for services that will benefit periods beyond June 30, 2019.

In the governmental fund types, however, payments for prepaid items are fully recognized as an expenditure in the fiscal year of payment. No asset for the prepayment is created, and no expenditure allocation to future accounting periods is required (*non-allocation method*). This is consistent with the basic governmental concept that only expendable financial resources are reported by a specific fund.

Deferred Outflows/Inflows of Resources – In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Short-Term Interfund Receivables / Payables - Short-term interfund receivables / payables represent amounts that are owed, other than charges for goods or services rendered to / from a particular fund in the School District and that are due within one year. These amounts are eliminated in the governmental and business-type columns of the statement of net position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Capital Assets - General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued) - Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and the proprietary fund statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated fixed assets are recorded at their fair market value as of the date received. The School District maintains a capitalization threshold of \$2,000.00. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Land and Improvements	10-20 years	N/A
Buildings and Improvements	10-50 years	N/A
Furniture and Equipment	5-20 years	12 years
Vehicles	5-10 years	4-6 years

Bond Defeasances – In the government-wide financial statements, gains or losses on bond refundings represent the difference between the price required to repay previously issued debt and the net carrying amount of the retired debt, and are recorded as either a deferred outflow or deferred inflow of resources. In subsequent years, these amounts are amortized on a straight-line basis as a component of interest expense over the shorter of the life of the old or new debt.

Accrued Salaries and Wages - Certain School District employees, who provide services to the School District over the ten-month academic year, have the option to have their salaries evenly disbursed during the twelve-month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account.

Compensated Absences - Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the School District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid with expendable available financial resources. In proprietary funds, the entire amount of compensated absences is recorded as a fund liability.

Unearned Revenue – Unearned Revenue arises when assets are recognized before revenue recognition criteria have been satisfied and are recorded as a liability until the revenue is both measurable and the School District is eligible to realize the revenue.

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accrued Liabilities and Long-Term Obligations (Continued) - However, claims and judgments, compensated absences, special termination benefits and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally expected to be paid with expendable available financial resources. Bonds are recognized as a liability on the fund financial statements when due.

Net Position - Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net investment in capital assets - This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted - Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or law or regulations of other governments.

Unrestricted - Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

Fund Balance - The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criteria includes items that are not expected to be converted to cash, such as inventories and prepaid amounts. The School District had no nonspendable fund balance at June 30, 2019.

Restricted - This fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed - This fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which for the School District is the Board of Education. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action imposing the commitment.

Assigned - This fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the Business Administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes.

Unassigned - This fund balance classification is the residual classification for the General Fund. It represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance (Committed) – When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the School District’s policy to spend restricted fund balances first. Likewise, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Operating and Non-Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for the food service program and maintenance service fees for the internal service fund. Non-operating revenues principally consist of interest income earned on various interest bearing accounts and federal and state subsidy reimbursements for the food service program.

Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. There are no non-operating expenses.

Interfunds – Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United State of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Recently Issued Accounting Pronouncements - In January 2017, the GASB issued Statement 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The adoption of this Statement will not have any effect on the District’s financial reporting.

In June 2017, the GASB issued Statement 87, *Leases*. This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The adoption of this Statement may have an effect on the District’s financial reporting.

In June 2018, the GASB issued Statement 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The adoption of this Statement will not have any effect on the District’s financial reporting.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements (Continued)

In August 2018, the GASB issued Statement No. 90, *Majority Equity Interests – an Amendment of GASB Statements No. 14 and No. 61*. This Statement is designed to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. The adoption of this Statement will not have any effect on the District's financial reporting.

In May 2019, the GASB issued Statement 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation: establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. The adoption of this Statement will not have any effect on the District's financial reporting.

2. CASH AND CASH EQUIVALENTS

Custodial Credit Risk Related to Deposits – Custodial credit risk refers to the risk that, in the event of a bank failure, the School District's deposits might not be recovered. Although the School District does not have a formal policy regarding custodial credit risk, N.J.S.A. 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Unit (GUDPA). Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the School district in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings of funds that pass to the School District relative to the happening of a future condition. Such funds are classified as uninsured and uncollateralized. Of the School District's amount on deposit of \$6,621,988 as of June 30, 2019, \$602,582 was insured under FDIC and the remaining balance of \$6,019,406 was collateralized under GUDPA.

3. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the School District's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the New Jersey Department of Education, a school district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at fiscal year-end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A school district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

3. CAPITAL RESERVE ACCOUNT (continued)

The activity of the capital reserve for the July 1, 2018 to June 30, 2019 fiscal year is as follows:

Balance July 1, 2018		\$ 1,141,094
Increased by:		
Interest Earned	\$ 1,955	
Transfer per Board Resolution	<u>-</u>	
		<u>1,955</u>
Decreased by:		
Budget Appropriation		<u>750,000</u>
Balance June 30, 2019		<u><u>\$ 393,049</u></u>

The June 30, 2019 capital reserve balance does not exceed the LRFPP balance of local support costs of uncompleted projects.

4. ACCOUNTS RECEIVABLES

Accounts receivables at June 30, 2019 consisted of other governmental units and governmental grants. All receivables are considered collectible in full due to the stable condition of the other governmental units, State programs and the current fiscal year guarantee of federal funds.

Accounts receivable at June 30, 2019 for the School District's individual major and fiduciary funds, in the aggregate, are as follows:

	General Fund	Special Revenue Fund	Enterprise Fund	Internal Service Fund	Total
Intergovernmental					
State	\$ 165,164	\$ 67,833	\$ 323	\$ -	\$ 233,320
Federal		281,330	19,989		301,319
Other	<u>81,373</u>			<u>4,314</u>	<u>85,687</u>
Total	<u><u>\$ 246,537</u></u>	<u><u>\$ 349,163</u></u>	<u><u>\$ 20,312</u></u>	<u><u>\$ 4,314</u></u>	<u><u>\$ 620,326</u></u>

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

5. CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2019, was as follows:

	<u>Balance June 30, 2018</u>	<u>Additions/ Adjustments</u>	<u>Deletions/ Adjustments</u>	<u>Balance June 30, 2019</u>
Governmental Activities:				
Land	\$ 390,040	\$ -	\$ -	\$ 390,040
<hr/>				
Total capital assets not being Depreciated	390,040			390,040
Land Improvements	1,710,885	35,025	(235,005)	1,510,905
Building and Improvements	24,985,396	396,516	(662,500)	24,719,412
Vehicles	325,403	101,234	(36,406)	390,231
Equipment	6,176,117	237,421	(34,927)	6,378,611
Total Historical Cost	<u>33,587,841</u>	<u>770,196</u>	<u>(968,838)</u>	<u>33,389,199</u>
Less Accumulated Depreciation:				
Land Improvements	(1,084,085)	(64,905)	235,005	(913,985)
Building and Improvements	(18,093,490)	(330,476)	662,500	(17,761,466)
Vehicles	(236,187)	(30,674)	36,406	(230,455)
Equipment	(5,350,054)	(133,938)	34,927	(5,449,065)
Total Accumulated Depreciation	<u>(24,763,816)</u>	<u>(559,993)</u>	<u>968,838</u>	<u>(24,354,971)</u>
<hr/>				
Governmental Activities Capital Assets, Net	<u>\$ 8,824,025</u>	<u>\$ 210,203</u>	<u>\$ -</u>	<u>\$ 9,034,228</u>
<hr/>				
Business-Type Activities:				
Equipment	275,456			275,456
Less - Accumulated Depreciation	<u>(177,040)</u>	<u>(17,438)</u>		<u>(194,478)</u>
Business-Type Activities Capital Assets, Net	<u>\$ 98,416</u>	<u>\$ (17,438)</u>	<u>\$ -</u>	<u>\$ 80,978</u>

Depreciation expense in the amount of \$559,993 was charged to governmental functions as follows:

<u>Function</u>	<u>Amount</u>
Regular Instruction	\$ 391,995
General Administration	55,999
Plant operations and maintenance	83,999
Unallocated	<u>28,000</u>
Total depreciation expense	<u>\$ 559,993</u>

6. INVENTORY

Inventory in the food service fund at June 30, 2019 consisted of the following:

Food	\$ 10,849
Supplies	<u>3,233</u>
	<u>\$ 14,082</u>

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

7. LONG-TERM OBLIGATIONS

During the fiscal year ended June 30, 2019, the following changes occurred in long-term obligations:

	<u>Principal Outstanding June 30, 2018</u>	<u>Additions</u>	<u>Reductions</u>	<u>Principal Outstanding June 30, 2019</u>	<u>Due Within One Year</u>
Governmental Activities:					
Compensated Absences	\$ 358,737	\$ 24,061	\$ -	\$ 382,798	\$ -
General Obligation Bonds	12,295,000	-	840,000	11,455,000	860,000
Net Pension Liability	10,879,340		1,656,098	9,223,242	-
	<u>\$ 23,533,077</u>	<u>\$ 24,061</u>	<u>\$ 2,496,098</u>	<u>\$ 21,061,040</u>	<u>\$ 860,000</u>

Bonds Payable - Bonds and loans are authorized in accordance with State law by the voters of the School District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the School District are as follows:

2012 Refunding School Bonds dated December 1, 2012 in the amount of \$11,455,000 due in annual installments through June 1, 2030, bearing interest rates of 2.50 % to 5.00%.

As of June 30, 2019, principal and interest due on bonds outstanding is as follows:

<u>Fiscal Year Ending June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2020	\$ 860,000	\$ 415,563	\$ 1,275,563
2021	910,000	381,162	1,291,162
2022	910,000	344,763	1,254,763
2023	955,000	308,362	1,263,362
2024	1,010,000	270,163	1,280,163
2025-2029	5,635,000	664,662	6,299,662
2030	1,175,000	32,313	1,207,313
	<u>\$ 11,455,000</u>	<u>\$ 2,416,988</u>	<u>\$ 13,871,988</u>

As of June 30, 2019 the School District had no authorizations to issue additional bonded debt.

Compensated Absences - Compensated absences will be paid from the fund from which the employees' salaries are paid.

**Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

8. OPERATING LEASES

At June 30, 2019, the School District had operating lease agreements in effect for copy machines. Total rental payments for such leases were \$44,232 for the fiscal year ended June 30, 2019. The future minimum lease payments for these leases are as follows:

<u>Fiscal Year</u> <u>Ending June 30,</u>	<u>Amount</u>
2020	\$ 35,710
2021	22,515
2022	20,944
2023	9,221
2024	<u>2,292</u>
	<u>\$ 90,682</u>

9. PENSION PLANS

Description of Plans – Substantially all of the School District's employees participate in one of the following pension plans which have been established by State statute, and are administered by the New Jersey Division of Pensions and Benefits (Division): the Teachers' Pension and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS). In addition, several School District employees participate in the Defined Contribution Retirement Program (DCRP), which is a defined contribution pension plan. This plan is administered by Prudential Financial for the Division. Each plan has a Board of Trustees that is primarily responsible for its administration. The Division issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State of New Jersey, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625-0295.

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Plan Description - The Teachers' Pension and Annuity Fund is a cost-sharing multiple-employer defined benefit pension plan, with a special funding situation, which was established on January 1, 1955, under the provisions of N.J.S.A. 18A:66. The State of New Jersey (the "State") is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. The TPAF's designated purpose is to provide retirement, death and disability, and medical benefits to qualified members. Membership in the TPAF is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, who have titles that are unclassified, professional and certified. The TPAF's Board of Trustees is primarily responsible for the administration of the TPAF.

Vesting and Benefit Provisions – The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death and disability benefits. All benefits vest after ten years of service, except medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 21, 2010
4	Members who were eligible to enroll on or after May 21, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

9. PENSION PLANS

Teachers' Pension and Annuity Fund (TPAF) (Continued)

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for their respective tier.

Contributions - The contribution requirements of plan members are determined by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the member contribution rate was 7.50% in State fiscal year 2019. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid.

Under current statute, all employer contributions are made by the State of New Jersey on-behalf of the School District and all other related non-contributing employers. No normal or accrued liability contribution by the School District has been required over the several preceding fiscal years. These on-behalf contributions by the State of New Jersey are considered a special funding situation, under the definition of GASB 68, *Accounting and Financial Reporting for Pensions*.

The School District was not required to make any contributions to the pension plan during the fiscal year ended June 30, 2019 because of the 100.00% special funding situation with the State of New Jersey.

Based on the most recent TPAF measurement date of June 30, 2018, the State's contractually required contribution, on-behalf of the School District, to the pension plan for the fiscal year ended June 30, 2019 was \$2,282,547 and was paid by April 1, 2019. School District employee contributions to the pension plan during the fiscal year ended June 30, 2019 were \$1,302,396.

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflows of Resources Related to Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2019, the School District was not required to report a liability for its proportionate share of the net pension liability because of a 100% special funding situation by the State of New Jersey.

For the year ended June 30, 2018, the School District recognized pension expense of \$5,600,015 and revenue of \$5,600,015 for support provided by the State. Although the School District does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the School District.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

9. PENSION PLANS

Teachers' Pension and Annuity Fund (TPAF) (Continued)

The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

	<u>06/30/18</u>	<u>06/30/17</u>
Collective deferred outflows of resources	\$ 12,473,998,870	\$ 14,160,879,257
Collective deferred inflows of resources	16,180,773,643	11,800,239,661
Collective net pension liability (Nonemployer – State of New Jersey)	63,617,852,031	67,423,605,859
State's portion of the net pension liability that was associated with the School District	96,060,916	100,060,916
State's portion of the net pension liability that was associated with the School District as a percentage of the collective net pension liability	.1509967917%	.1490516325%

Actuarial assumptions – The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate:	2.25%
Salary Increases:	
2011-2026	1.55- 4.55%
Thereafter	2.00 – 5.45%
Investment Rate of Return:	7.00%

Pre-retirement mortality rates were based on the RP-2006 Employee White Collar Mortality Tables, set back 3 years for males and 5 years for females, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Post-retirement mortality rates were based on the RP-2006 Healthy Annuitant Collar Mortality Tables, with adjustments as described in the latest experience study, projected on a generational basis from a base year of 2006 using a 60-year average of improvement rates based on Social Security data from 1953 to 2013. Disability mortality rates were based on the RP-2006 Disabled Retiree Mortality Tables with rates adjusted by 90%. No mortality improvement is assumed for disabled retiree mortality.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2015.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produced the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Equity Related Real Estate	06.25%	09.23%
U.S. Equity	30.00%	08.19%
Non-U.S. Developed Markets Equity	11.50%	09.00%
Emerging Markets Equity	06.50%	11.64%
Buyouts/Venture Capital	08.25%	13.08%
	100.00%	

Discount rate. The discount rate used to measure the State's total pension liability was 4.86% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers (State of New Jersey) will be made based on the contribution rate in the most recent fiscal year. The state contributed 50% of the actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate. As previously mentioned, TPAF has a special funding situation where the State pays 100% of the School District's annual required contribution. As such, the proportionate share of the net pension liability as of June 30, 2018, the pension plans measurement date, attributable to the School District is \$0.00, and the State of New Jersey's proportionate share of the net pension liability, attributable to the School District, using a discount rate of 4.86%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.25%) or 1 percentage point higher (5.25%) that the current rat

	1% Decrease (3.25%)	Current Discount Rate (4.25%)	1% Increase (5.25%)
District's proportionate share of the net pension liability	\$ -	\$ -	\$ -
State's proportionate share of the net pension liability associated with the School District	<u>113,542,179</u>	<u>96,060,916</u>	<u>81,569,375</u>
	<u>\$ 113,542,179</u>	<u>\$ 96,060,916</u>	<u>\$ 81,569,375</u>

Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Public Employees' Retirement System (PERS)

Plan Description - The Public Employees' Retirement System is a cost-sharing multiple-employer defined benefit pension plan which was established on January 1, 1955, under the provisions of N.J.S.A. 43:15A. The PERS designated purpose is to provide retirement, death and disability, and medical benefits to certain qualified members. Membership in the PERS is mandatory for substantially all full-time employees of the School District, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund. The PERS's Board of Trustees is primarily responsible for the administration of the PERS.

Vesting and Benefit Provisions - The vesting and benefit provisions are set by N.J.S.A. 43:15A and 43:3B. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except medical benefits, which vest after 25 years of service or under the disability provisions of PERS

The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 21, 2010
4	Members who were eligible to enroll on or after May 21, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, tiers 3 and 4 before age 62 with 25 or more years of service credit, and tier 5 before age 65 with 30 or more years of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for their respective tier.

**Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Contributions - The contribution requirements of plan members are determined by N.J.S.A 43:15A and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, effective October 1, 2011, the active member contribution rate was increased to 6.5%. An additional 1.0% increase is being phased-in over seven years beginning on July 1, 2012. The member contribution rate was 7.50% in State fiscal year 2019. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. The rate for members who are eligible for the Prosecutors Part of PERS (Chapter 336, P.L. 2001) increased from 8.5% of base salary to 10%. Employers' contribution amounts are based on an actuarially determined rate. The School District's contribution amounts are based on an actuarially determined rate which included the normal cost and unfunded accrued liability.

The School District's contractually required contribution rate for the fiscal year ended June 30, 2019 was 13.62% of the School District's covered payroll. This amount was actuarially determined as the amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, including an additional amount to finance any unfunded accrued liability.

Based on the most recent PERS measurement date of June 30, 2018, the School Districts contractually required contribution to the pension plan for the fiscal year ended June 30, 2019 was \$465,941 and was paid by April 1, 2019. School District employee contributions to the pension plan during the fiscal year ended June 30, 2019 were \$252,134.

The School District is billed annually for its normal contribution plus any accrued liability. The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

<u>Fiscal Year</u>	<u>Normal Contributions</u>	<u>Accrued Liability</u>	<u>Non Contributory Life</u>	<u>Long Term Disability</u>	<u>Total Liability Paid by District</u>
2019	\$ 58,226	\$ 386,528	\$ 21,187	\$ 2,307	\$ 468,248
2018	56,986	354,867	21,104	6,875	439,832
2017	66,408	337,959	20,181	-	424,548

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflows of Resources Related to Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2019, the School District reported a liability of \$9,223,242 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The School District's proportion of the of the net pension liability was based on a projection of the School District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

Public Employees' Retirement System (PERS) (Continued)

For the year ended June 30, 2019, the School District recognized pension expense of \$500,123. At June 30, 2019, the School District reported a liability of \$9,223,242 for its proportionate share of the PERS net pension liability and deferred outflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 175,889	\$ 47,558
Changes of assumptions	1,519,838	2,949,102
Net Difference between projected and actual earnings on pension plan investments		86,514
Changes in proportion	189,452	322,968
District contributions subsequent to the measurement date	457,969	
Total	\$ 2,343,148	\$ 3,406,142

\$457,969 reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2019, the plan measurement date is June 30, 2019) will be recognized as a reduction of the net liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

For the year ended:	Net Deferred Outflows (Inflows) of Resources
2020	\$ (74,842)
2021	(223,774)
2022	(629,206)
2023	(383,289)
2024	(209,852)
Total	\$ (1,520,963)

School District's Proportion	.0468434515%	.0467357705%

Actuarial assumptions – The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

- Inflation rate: 2.25%
- Salary Increases:
 - Through 2026: 1.65-4.15% based on age
 - Thereafter: 2.65-5.15% based on age
- Investment Rate of Return: 7.00%

Pre-retirement mortality rates were based on the RP-2000 Employee Pre-retirement Mortality Table for male and female active employees. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disables Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

9. PENSION PLANS (Continued)

Public Employees' Retirement System (PERS) (Continued)

Discount rate. The discount rate used to measure the State's total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.87% as of June 30, 2018, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The state employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2046, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate. The following presents the School District's proportionate share of the net pension liability measured as of June 30, 2018, calculated using the discount rate of 5.66%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (4.66%) or 1 percentage point higher (6.66%) than the current rate:

	1% Decrease (4.66%)	Current Discount Rate (5.66%)	1% Increase (6.66%)
School District's proportionate share of the net pension liability	\$ 11,597,164	\$ 9,223,242	\$ 7,231,673

Pension Plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential Financial not later than the fifth business day after the date on which the employee is paid for that pay period.

The School District's contributions, equal to the required contribution for each fiscal year, were as follows:

Fiscal Year	Total Liability	School District
2019	\$ 12,532	\$ 12,532
2018	13,041	13,041
2017	9,564	9,564

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

10. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description and Benefits Provided

The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2018, the State paid PRM benefits for 148,401 State and local retirees.

The State funds post-retirement medical benefits on a “pay-as-you-go” basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2018, the State contributed \$1.909 billion to pay for pay-as-you-go PRM benefit costs incurred by covered retirees. The increase in the State’s pay-as-you-go contribution between Fiscal Year 2017 and Fiscal Year 2018 is attributed to rising health care costs, an increase in the number of participants qualifying for State-paid PRM benefits at retirement and larger fund balance utilization in Fiscal Year 2017 than in Fiscal Year 2018. The Fiscal Year 2019 Appropriations Act includes \$1.921 billion as the State’s contribution to fund pay-as-you-go PRM costs.

In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. As such, the Fiscal Year 2017 total State OPEB liability to provide these benefits has been remeasured to \$97.1 billion, an increase of \$60.6 billion or 166 percent from the previous year’s \$36.5 billion liability booked in accordance with GASB Statement No. 45. For Fiscal Year 2018, the total OPEB liability for the State is \$90.5 billion, a decrease of \$6.6 billion or 7 percent from the remeasured total OPEB liability in Fiscal Year 2017.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA’s proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State’s level and is not specific to the school district. Note that actual numbers will be published in the NJ State’s CAFR (<https://www.nj.gov/treasury/omb/publications/archives.shtml>)

Actuarial assumptions and other imputes - The total nonemployer OPEB liability as of the June 30, 2017 was determined by an actuarial valuation as of June 30, 2016, which was rolled forward to June 30, 2017. The total nonemployer OPEB liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2016. The actuarial assumptions vary for each plan member depending on the pension plan the member enrolled in.

**Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

10. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation	2.50%		
	TPAF/ABP	PERS	PFRS
Salary Increases			
Through 2026	1.55 - 4.55%	2.15 - 4.15%	2.10 - 8.98%
	based on years of service	based on age	based on age
Thereafter	2.00 - 5.45%	3.15 - 5.15%	3.10 - 9.98%
	based on years of service	based on age	based on age

Preretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Employee Male/Female mortality table with fully generational mortality improvement projections from the central year using the MP-2017 scale. Postretirement mortality rates were based on the RP-2006 Headcount-Weighted Healthy Annuitant Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale. Disability mortality was based on the RP-2006 Headcount-Weighted Disabled Male/Female mortality table with fully generational improvement projections from the central year using the MP-2017 scale.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of actuarial experience studies for the periods July 1, 2012 – June 30, 2015, July 1, 2011 – June 30, 2014 and July 1, 2010 – June 30, 2013 for TPAF, PFRS, and PERS, respectively.

100% of all retirees who currently have healthcare coverage are assumed to continue with that coverage. 100% of active members are considered to participate in the Plan upon retirement, having a coverage blend of 85% and 15% in PPO and HMO, respectively.

Health Care Trend Assumptions - For pre-Medicare preferred provider organization (PPO) and health maintenance organization (HMO) medical benefits, the trend rate is initially 5.8% and decreases to a 5.0% long-term trend rate after eight years. For self-insured post-65 PPO and HMO medical benefits, the trend rate is 4.5%. For the Medicare Part B reimbursement, the trend rate is 5.0%. The Medicare Advantage trend rate is 4.5% and will continue in all future years.

Discount Rate - The discount rate for June 30, 2018 and 2016 was 3.87%. This represent the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

The percentage of the premium for which the retirees will be responsible will be determined based on the retiree’s annual retirement benefit and level of coverage.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

10. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Changes in the Total Nonemployer OPEB Liability

The table below summarizes the State's proportionate share of the change in the total nonemployer OPEB liability associated with the School District:

	Total OPEB Liability
Balance as of June 30, 2017	\$ 84,698,989
Changes for the years'	
Service Cost	2,858,832
Interest	3,101,337
Changes of benefit terms	
Differences between expected and actual experience	(7,903,838)
Changes in assumptions	(8,326,173)
Gross Benefit Payments	(1,940,124)
Contributions from the Non-employer	N/A
Contributions from the Member	67,054
Net Investment Income	N/A
Administrative Expense	N/A
Net Changes	\$ (12,142,912)
Balance at 06/30/2018	\$ 72,556,077

Sensitivity of the total nonemployer OPEB liability to changes in the discount rate - The following presents the total nonemployer OPEB liability as of June 30, 2018, respectively, associated with the School District, calculated using the discount rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a discount rate that is 1-percentage-point lower or 1percentage-point higher than the current rate:

	1% Decrease (2.87%)	Discount Rate (3.87%)	1% Increase (4.87%)
State of New Jersey's Proportionate Share of the Total Nonemployer OPEB Liability Associated with the School District	\$ 85,776,053	\$ 72,556,077	\$ 62,047,561

Sensitivity of the total nonemployer OPEB liability to changes in the healthcare cost trend rate - The following presents the total nonemployer OPEB liability as of June 30, 2018, associated with the School District, respectively, calculated using the healthcare trend rate as disclosed above as well as what the total nonemployer OPEB liability would be if it was calculated using a healthcare trend rate that is 1-percentage-point lower or 1percentage-point higher than the current rate:

	1% Decrease	Healthcare Cost Trend Rates	1% Increase
State of New Jersey's Proportionate Share of the Total Nonemployer OPEB Liability Associated with the School District	\$ 87,780,961	\$ 72,556,077	\$ 59,018,268

**Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

10. OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended June 30, 2019, the School District recognized \$2,247,930 in OPEB expense and revenue, in the government-wide financial statements, for the State’s proportionate share of the OPEB Plan’s OPEB Expense, associated with the School District. This expense and revenue was based on the OPEB Plan’s June 30, 2018 measurement date.

In accordance with GASBS No. 75, the School District’s proportionate share of the OPEB liability is zero. As such, there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows of resources by the School District.

At June 30, 2019, the State’s proportionate share of the total nonemployer OPEB liability’s deferred outflows of resources and deferred inflows of resources, associated with the School District, from the following sources are as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and		
actual experiences	\$ -	\$ 7,043,188
Changes of assumptions	-	16,263,815
Total	\$ -	\$ 23,307,003

Amounts reported as deferred outflows of resources and deferred inflows of resources related to State’s proportionate share of the total nonemployer OPEB Liability, associated with the School District, will be recognized in OPEB expense as follows:

For the year ended:	
2019	\$ (2,872,008)
2020	(2,872,008)
2021	(2,872,008)
2022	(2,872,008)
2023	(2,872,008)
Therafter	(8,946,963)
Total	\$ (23,307,003)

Detailed information about the pension plan’s sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

11. ON-BEHALF PAYMENTS

For the fiscal year ended June 30, 2018, the School District has recognized as revenues and expenditures on-behalf payments made by the state for normal retirement costs, post-retirement medical costs and long-term disability insurance related to TPAF, in the fund statements. The amounts recognized as revenues and expenditures in the fund financial statements for normal costs, post-retirement medical costs and long-term disability insurance were \$3,070,509, \$1,392,778, and \$4,049, respectively. In addition, \$1,239,606 on-behalf payments were made by the state for the employer's share of social security contributions for TPAF members, as calculated on their base salaries.

12. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; employee health and accident claims; and natural disasters.

Property and Liability Insurance - The School District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

Joint Insurance Pool - The School District is a member of the New Jersey Burlington County Joint Insurance Fund, a public entity risk pool currently operating as a common risk management and insurance program. Insurance coverage as provided by the Fund can be found in the Statistical Section of this Comprehensive Annual Financial Report

Annual contributions to the Fund are determined by the Fund's Board of Trustees. The School District is jointly and personally liable for claims insured by the Fund and its members during the period of its membership, including liability for supplemental assessments, if necessary. The Fund's Board of Trustees may authorize refunds to its members in any fund year for which contributions exceed the amount necessary to fund all obligations for that year.

New Jersey Unemployment Compensation Insurance - The School District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the School District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The School District is billed quarterly for amounts due to the State.

The following is a summary of School District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the School District's expendable trust fund for the current and previous two fiscal years:

<u>Fiscal Year</u>	<u>Interest Earned</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2019	\$ 12,952	\$ 37,709	\$ 21,398	\$ 830,969
2018	7,791	35,295	19,106	801,706
2017	4,176	34,389	11,524	777,726

13. DEFERRED COMPENSATION

The School District offers its employees a choice of various deferred compensation plans created in accordance with Internal Revenue Code Section 403(b) and 457. The plans, available to all permanent School District employees, permit participants to defer a portion of their current salary to future years. Participation in the plans is optional. The deferred compensation is not available to the participants until termination, retirement, death, or an unforeseeable emergency occurs. The plan assets are held in trust for the benefit of the employee and are administered by a third party therefore they are not reflected on the financial statements of the School District.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

14. COMPENSATED ABSENCES

The School District accounts for compensated absences (e.g. unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

School District employees are granted varying amounts of vacation and sick leave in accordance with the School District's personnel policy. Upon termination, employees are paid for accrued vacation. The School District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the School District for the unused sick leave in accordance with the School District's agreements with the various employee unions.

The liability for vested compensated absences is recorded within those funds as the benefits accrued to the employees. As of June 30, 2019, the liability for compensated absences in the governmental activities fund type was \$382,798.

15. INTERFUND RECEIVABLES/PAYABLES

Interfund receivables/payables are recorded to cover temporary cash shortages and/or timing differences in the respective funds. There are no interfund balances that are not expected to be repaid by June 30, 2020. The following interfund receivables/payables were recorded on the various balance sheets as of June 30, 2019:

Fund	Interfunds Receivable	Interfunds Payable
General Fund	\$ 427,328	\$ 9,756
Special Revenue Fund	9,756	17,301
Proprietary Fund	-	409,825
Fiduciary Fund	-	202
	\$ 437,084	\$ 437,084

16. CONTINGENCIES

The School District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the School District may be required to reimburse the grantor government.

At June 30, 2018, significant amounts of grant expenditures have not been audited by the granting agency, but the School District believes that disallowed expenditures discovered in subsequent audits, if any, will not have a material effect on any of the individual funds or the overall financial position of the School District. Additionally, unearned revenues are recognized in those funds that have received grant monies in advance of future, reimbursable expenditures.

17. FLEXIBLE BENEFITS PROGRAM

The School District offers its employees a Flexible Benefits Program. The purpose of the program is to provide a tax incentive for plan participants incurring health premium expenses, dependent care expenses and other medical expenses not covered by other insurance. The School District, who is the plan administrator, has contracted with American Family Life Assurance Company (AFLAC) to act as its agent to furnish reimbursement services. The plan participants redirect a prescribed amount of their gross pay (tax-free) into a reimbursement account and then in-turn submit claims to AFLAC for repayment. Because of Internal Revenue Service regulations, if at the end of any plan year unexpended funds remain, these funds will be forfeited by the participants and returned to the School District.

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

17. FLEXIBLE BENEFITS PROGRAM (Continued)

The following is a summary of School District contributions, employee contributions, reimbursements to the plan participants for benefits paid and the ending balance of the School District's fiduciary fund for the current and prior two years.

<u>Fiscal Year</u>	<u>Interest Earned</u>	<u>Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2019	\$ 34	\$ 36,600	\$ 34,732	\$ 14,586
2018	80	24,102	20,943	12,684
2017	11	24,000	28,100	9,445

18. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Borough of Collingswood (Municipality) provides for long-term tax exemptions, as authorized by New Jersey State Statutes. N.J.S.A. 40A:20-1 et seq. sets forth the criteria and mechanism by which property taxes can and are abated. The exemptions provided by the Municipality are for affordable housing and other permitted purposes. Taxes abated include municipal, local school, and county taxes.

The municipality recognized revenue of \$1,687,884 from the annual service charge in lieu of payment of taxes in 2018. The assessed value on these tax exemption properties amounted to \$113,154,600 which would have resulted in 2018 taxes billed in full of \$3,147,816. A portion of the \$1,459,932 abatement would have been allocated to the District.

19. DEFICIT UNASSIGNED FUND BALANCE

The School District has a deficit unassigned fund balance of \$289,924 in the General Fund as of June 30, 2019 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, school districts must record the delayed one or more June state aid payments as revenues, for budget purposes only, in the current school budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the School District cannot recognize the June state aid payment on the GAAP financial statements until the year the State records the payable

Due to the timing difference of recording the June state aid payments, the general and special revenue fund balance deficit does not alone indicate that the School District is facing financial difficulties.

**Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019**

19. DEFICIT UNASSIGNED FUND BALANCE (Continued)

Pursuant to N.J.S.A. 18A:22-44.2 any negative unassigned general fund balance that is reported as a direct result from a delay in the June payments of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The School District deficit in the GAAP funds statements of \$289,924 is equal to or less than the June state aid payment.

20. DEFICIT UNRESTRICTED NET POSITION

As of June 30, 2019, a deficit of \$11,306,116 existed in the Unrestricted Net Position of the Governmental Activities. A reconciliation of Unreserved Fund Balance reported on Exhibit B-1 to Unrestricted Net Position reported on Exhibited A-1 as follows:

Balances, June 30, 2018:	
Fund Balance (Deficit)	
(Exclusive of Capital Projects and Debt Service Funds)	
Unassigned	\$ (289,924)
Add - Deferred Outflow of Resources	144,941
Liabilities:	
Accrued Interest Payable	(34,130)
Net Pension Differences	(10,744,205)
Compensated Absences	<u>(382,798)</u>
Unrestricted Net Position (Deficit)	<u>\$ (11,306,116)</u>

21. FUND BALANCES

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund:

Excess Surplus – In accordance with N.J.S.A. 18A:7F-7, as amended, the designation of restricted fund balance - excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to restrict general fund, fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2019 is \$1,210,654 presented on the budgetary basis of accounting (Exhibit C-1). Additionally, \$2,029,604 of excess fund balance generated during the 2017-2018 fiscal year has been restricted and designated for utilization in the 2019-2020 budget.

Capital Reserve – As of June 30, 2019, the balance in the capital reserve account is \$393,049. The entire amount is restricted for future capital outlay expenditures for capital projects in the School District's approved Long Range Facilities Plan.

Maintenance Reserve Account – As of June 30, 2019, the balance in the maintenance reserve account is \$250,125. These funds are restricted for the required maintenance of school facilities in accordance with the Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c. 73 (S1701).

Collingswood School District
Notes to Basic Financial Statements
For the Fiscal Year Ended June 30, 2019

21. FUND BALANCES (CONTINUED)

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund:

Other Purposes – At June 30, 2019 the School District has \$59,147 of encumbrances outstanding for purchase orders and contracts signed by the School District, but not completed, as of the close of the fiscal year.

Designated for Subsequent Year's Expenditures – The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2019, \$771,270 of general fund balance.

UNASSIGNED

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund – As of June 30, 2019, the unassigned fund balance of the general fund was a deficit of \$289,924. The deficit is a result of the delay in the recording of the payment of state aid until the following fiscal year (See Note 18).

22. LITIGATION

The District is involved in one legal proceeding. The outcome or potential liability exposure from this litigation is unknown at this time.

Budgetary Comparison
For the Fiscal Year Ended June 30, 2019

Explanation of Differences between Budgetary Inflows and Outflows and GAAP Revenues and Expenditures

	General Fund	Special Revenue Fund
Sources/inflows of resources		
Actual amounts (budgetary basis) "revenue" from the budgetary comparison schedules	\$ 39,212,541	\$ 1,616,479
Difference - budget to GAAP:		
Grant accounting budgetary basis differs from GAAP in that encumbrances are recognized as expenditures, and the related revenue is recognized.	-	
State aid payment recognized for GAAP statements in current year, previously recognized for budgetary purposes.	980,397	-
State aid payment recognized for budgetary purposes, not recognized for GAAP statements until the subsequent year.	(1,001,730)	-
Total revenues as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds.	<u>\$ 39,191,208</u>	<u>\$ 1,616,479</u>
 Uses/outflows of resources		
Actual amounts (budgetary basis) "total expenditures" from the budgetary comparison schedule	\$ 39,939,283	\$ 1,616,479
Differences - budget to GAAP		
Encumbrances for supplies and equipment ordered in the prior year but not received is reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	-	-
Encumbrances for supplies and equipment ordered but not received is reported in the year the order is placed for budgetary purposes, but in the year the supplies are received for financial reporting purposes.	-	-
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances - governmental funds	<u>\$ 39,939,283</u>	<u>\$ 1,616,479</u>

Notes to Required Supplementary Information
Pension Schedules
For the Fiscal Year Ended June 30, 2019

1. Teacher's Pension and Annuity Fund (TPAF)

Changes of benefit term: There were none.

Changes of assumptions: For 2018, the discount rate changed to 4.86% and the long-term rate of return remained at 7.00%. For 2017, the discount rate changed to 4.25% and the long-term rate of return changed to 7.00%. For 2016, the discount rate changed to 3.22% and the long-term rate of return changed to 7.65% from 7.90%. Also, for 2016, demographic assumptions were revised to reflect those recommended on the basis of the July 1, 2012 – June 30, 2015 experience study. For 2015, the discount rate changed to 4.13%. For 2013, the discount rate was 4.68%

2. Public Employees' Retirement System (PERS)

Changes of benefit term: There were none.

Changes of assumptions: For 2018, the discount rate changed to 5.66% and the long-term rate of return remained at 7.00%. For 2017, the discount rate changed to 5.00% and the long-term rate of return changed to 7.00%. For 2016, the discount rate changed to 3.98% and the long-term rate of return changed to 7.65% from 7.90%. Also, for 2016, demographic assumptions were revised in accordance with the results of the July 1, 2011 – June 30, 2014 experience study and the mortality improvement scale incorporated the plan actuary's modified MP-2014 projection scale. Further salary increases were assumed to increase between 1.65% and 4.15% (based on age) through year 2026 and 2.65% and 5.15% (based on age) for each fiscal year thereafter. For 2015, the discount rate changed to 4.90% and the social security wage base was set at \$118,500 for 2015, increasing 4.00% per annum, compounded annually and the 401(1)(17) pay limit was set at \$265,000 for 2015, increasing 3.00% per annum, compounded annually. For 2014, the discount rate was 5.39%

3. Other Post-Retirement Plan – Public Employees' Retirement System and Teachers' Pension and Annuity Fund

Changes of benefit term: There were none.

Changes of assumptions: In 2018 the discount rate changed to 3.87% from 3.85% as of June 30, 2017. In 2018, there were changes in the census, claims and premiums experience and a decrease in the assumed health care cost trend and excise tax assumptions. The discount rate was 2.85% as of June 30, 2016.

**REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND REPORT
 ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE
 UNIFORM GUIDANCE AND STATE OF NEW JERSEY CIRCULAR 15-08-OMB**

INDEPENDENT AUDITOR'S REPORT

The Honorable President and Members
 of the Board of Education
 Collingswood School District
 County of Camden
 Collingswood, New Jersey

Report on Compliance for Each Major Federal and State Program

I have audited Collingswood School District's (School District), in the County of Camden, State of New Jersey compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Grant Compliance Supplement* that could have a direct and material effect on each of the School District's major federal and state programs for the fiscal year ended June 30, 2019. The School District's major federal and state programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the School District's major federal and state programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards and the Uniform Guidance and State of New Jersey Circular 15-08-OMB require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal and state program. However, my audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal and State Program

In my opinion, the Collingswood School District, in the County of Camden, State of New Jersey complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the Collingswood School District, in the County of Camden, State of New Jersey, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal or state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal or state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and State of New Jersey Circular 15-08-OMB, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Collingswood School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and State of New Jersey Circular 15-08-OMB. Accordingly, this report is not suitable for any other purpose.

The accompanying Notes to Schedules of Expenditures of Awards and Financial Assistance are an integral part of this schedule.

Collingswood School District
Notes to Schedules of Expenditures
of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2019

1. GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Collingswood School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the schedules of expenditures of federal awards and state financial assistance.

2. BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented using the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the School District's basic financial statements. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and State of New Jersey Circular 15-08-OMB, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The school district has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when the expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A. 18A:22-44.2*. For GAAP purposes, payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more of the June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or two June state aid payments in the current budget year, consistent with *N.J.S.A. 18A:22-44.2*.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$21,333) for the general fund and \$-0- for the special revenue fund. See Exhibit C-3, Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

<u>Fund</u>	<u>Federal</u>	<u>State</u>	<u>Total</u>
General	\$ 72,151	\$ 16,274,470	\$ 16,346,621
Special Revenue	961,399	653,213	1,614,612
Food Service	418,394	6,600	424,994
Total	<u>\$ 1,451,944</u>	<u>\$ 16,934,283</u>	<u>\$ 18,386,227</u>

Collingswood School District
Notes to the Schedules of Expenditures
of Federal Awards and State Financial Assistance
For the Fiscal Year Ended June 30, 2019
(Continued)

4. RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

5. OTHER

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the School District for the year ended June 30, 2019. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2019.

6. MAJOR PROGRAMS

Major programs are identified in the Summary of Auditor's Results section of the Schedule of Findings and Questioned Costs.

COLLINGSWOOD SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
