

TIME SCHEDULES

The certified teaching staff will be present in their assigned school buildings twenty minutes before school convenes in the morning and twenty minutes after school is dismissed in the afternoon. Teaching staffs may be excused from these time limits on a given day by their building principal or the superintendent. Duty-free lunch breaks will be determined by building principals and the superintendent.

It is against the rules of this school for an agent of any commercial enterprise, which is nonschool related, to take the time of the teacher during the regular hours when the teachers are on duty. Exceptions can be made only when permission is given by either the principal, the superintendent of schools or the president of the School Board. Classes should not be interrupted.
