

We created this Coronavirus (COVID-19) Resource Center to give you the latest information about COVID-19. You'll find the information you need as we prepare for the upcoming school year.

For the most up-to-date number of cases, please click [here](#).

For your protection, and for the health and safety of our school district, please follow these rules:

- Wash your hands properly and often.
- Avoid touching your eyes, nose and mouth.
- Don't expose others if you suspect you have a flu-like illness.
- Everyone should wear a cloth face cover in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.

Do your part to slow the spread of the coronavirus. We can all do our part to help slow the spread of the coronavirus in our communities.

Listen to and follow the directions of state and local governments.

If you feel sick, stay at home.

If someone in your household has tested positive for the coronavirus, keep the entire family at home.

If you are an older person, stay home and away from other people.

If you have a serious underlying health condition, stay home and away from people.

Work or engage in schooling from home.

Avoid social gatherings.

Use drive-thru, pickup or delivery options for dining.

Avoid nonessential travel, shopping trips and social visits.

Do not visit nursing homes or long-term care facilities.

And remember to **practice good hygiene**:

- Wash your hands, especially after touching any frequently used item or surface.
- Avoid touching your face.
- Sneeze or cough into a tissue or the inside of your elbow.
- Disinfect frequently used items and surfaces as much as possible.

For more information on the coronavirus and what you can do to slow the spread, visit the [Centers for Disease Control and Prevention](#) website.

Help Avoid Coronavirus with These Tips

For most people that catch COVID-19, the symptoms will be relatively mild and will include: fever, cough and shortness of breath. The elderly and those with compromised immune systems are most at risk, but there are steps we can all take to help stop the spread. These tips include:

- Avoid handshakes
- Proper hand washing of at least 20 seconds with soap and water
- Coughing into your elbow
- Avoid crowds and practice social distancing
- Stay home if you can by avoiding unnecessary trips
