

IMMUNIZATION CLINIC

Coming to School Town of Highland

Wednesday, July 29th

12:00p.m. - 7:00p.m.

at

Highland High School

In collaboration with Franciscan Health, School Town of Highland will be offering an immunization clinic for all students and families. Please bring a copy of your child's immunization record, insurance card, and parent/guardians driver's license. All insurances are accepted. For those uninsured, it will be \$10 per immunization.

Incoming kindergarten, 6th grade, and all high school students are in need of immunizations for the 2020-2021 school year. According to Indiana law, all students need to be up to date on immunizations in order to start school. Despite the pandemic, Indiana State Department of Health is NOT changing any immunization time frames or requirements. During this pandemic it is even more important to have our children up to date on their immunizations.

If you have any questions regarding your students immunizations or the immunization clinic, please feel free to contact STOH, Nurse Manager, Jennifer Bartos R.N. at jbartos@highland.k12.in.us.
