## BETTER MC2 - PROJECT 2020

JULY 2020 Community Update

**July 9<sup>th</sup>, 2020 –**

### **NEW CONSTRUCTION UPDATE –**

The *Cafeteria-Commons Area* is enclosed and pictures do NOT do the space justice! It's a huge area that will be a great asset to our students, staff, parents and community for YEARS to COME!

The above picture shows the NEW Cafeteria-Commons area, facing EAST. The main entry doors for gym/school activities is at the far end of the area. The kitchen is to the right of the photo and the two (2) large openings to the left of the picture will be the entry points into the NEW GYMNASIUM!

This is a NORTHEAST facing picture of the roof over the KITCHEN and Cafeteria-Commons Area. The area at the bottom of the picture is the NEW loading dock for the FOOD SERVICE deliveries. At completion, the roof will be an EPDM type; but currently the iron-workers are connecting/fastening the ceiling joists with the under roof. It's taking shape!

## BETTER MC2 - PROJECT 2020

JULY 2020 Community Update

This is picture of the ramp that will allow individuals to enter the Cafeteria-Commons Area from the Elementary and HS buildings. The door at the end of the picture is a mechanical room for various needs.

The former main GYM entry will be removed and new frames are being installed, with a block connection. This area will serve as the main connection area between the CURRENT gym and NEW gym

This is south facing view of the new Locker rooms.

## **BETTER MC2 - PROJECT 2020**

JULY 2020 Community Update

### **RENOVATION UPDATE –**

These are former door ways that are being replaced with BRICK/MASONRY to provide classrooms

This is the FORMER Cafeteria, but will be the new, modern and spacious Library-Media Center! The Librarian's work-station is shown here!

## BETTER MC2 - PROJECT 2020

JULY 2020 Community Update

More displays of the room renovations in the  
ELEMENTARY!

### JUNE 2020 Summary

The new construction component is a bit 'behind schedule' and specifically, the Kitchen is the area that is in a unique situation. The multiple needs within that area require a lot of different types of technicians.

The Central office is out of the elementary and currently in the Modular building. The elementary office has been prepped and the next step is constructing the countertops, plus the new viewing window in the north wall.

All in all, the project is slated to be fully completed by December of 2020. If you look to the northeast of the new locker-rooms, the ground has been prepared for the NEW weight-training room!
