#### EMPLOYMENT SECURITY

- AREA OF ASSIGNMENT Teachers shall be assigned based on the needs of the District. Every effort will be

  If the District requires a teacher to seek additional certification, the district will cover the cost of expenses related
  to that certification.
- 2. RIGHT OF REPRESENTATION When a teacher is required to appear before the Board concerning the teacher's employment, the teacher's position, or the teacher's salary, the teacher shall be entitled to have a representative of the Association present. No material shall be placed in the file which is false, unsupported by fact, or obsolete. No material may be removed from the file without prior approval of the Superintendent.
- 4. RESIGNATION A contract signed by a teacher is binding upon the school district and the teacher upon the effective date of approval by the school board. Thereafter, if no mutual consent as to termination exists and

if the teacher initiates the termination of the contract prior to its terminal date, the school district may with-hold from any monies due the teacher or collect from the teacher the sum of seven hundred fifty dollars (\$750.00) as liquidated damages prior to June 1 and one thousand five hundred dollars (\$1,500.00) thereafter. It is hereby agreed that the amounts herein specified are fair and reasonable damages for breach of contract as provided in SDCL 53-9-5. #### ARTICLE VII

#### STAFF REDUCTION

Whenever in the judgment of the Board it is advisable to reduce staff in the district, the Board may consider the following, not necessarily in order of priority, any of which may be used in determining which staff members will be non-renewed: student needs, financial condition of the district, priority of programs, program elimination, recommendations of administrative staff, evaluation records, competency, qualifications, certification, longevity, educational background, continuing contract status, federal mandates, and any other relevant consideration. In making staff reduction involving professional staff members on continuing contract status, the Board will follow the provisions of 13-43-6.4.

Before implementation of the staff reduction policy, the Garretson Teacher Association will be notified, asking for Association input.

#### RECALL

For the purpose of this policy, the effective date of a lay-off by reduction in force shall be June 30. If, during the first fiscal year subsequent to the time a continuing contract teacher is laid off because of reduction in staff and a vacancy occurs in the grade, subject areas, and activities in which a laid-off teacher had been teaching or is qualified to teach, the teacher who was laid off will be given appropriate consideration for the open position, including a face-to-face interview and full consideration of their certification, work history in the District and evaluation documents. If hired to fill the open position, A recalled teacher shall retain previously accumulated leave benefits.

Such notice shall be sent by certified mail to the last address furnished to the Superintendent by the staff member and the 20 day period shall commence to run on the day the notice is mailed. Recall privileges will not apply to teachers under contract with another school district unless that recall is for anticipated positions in the ensuing year.

#### STUDENT COMMUNICABLE DISEASES

Students who are afflicted with a communicable contagious and/or infectious disease and who are infected with communicable parasites or who are liable to transmit such a disease or parasite may be excluded from school attendance.

The board recognizes the need and right of all children to receive free and appropriate education. The board further recognizes its responsibility to provide a healthy environment for all students and school employees.

A determination of whether an infected student be excluded from the classroom or school activities shall be made on a case-by-case basis, under the direction of the principal/building administrator or designee. Students who are known to have a fever as an indication of potential communicable disease will be excluded from the school setting until a determination is made that it is safe for the student to return to the school setting, or the student has been fever free, without the aid of fever suppressing medication for a minimum of 24 hours.

In situations where the decision requires additional expertise and knowledge, the building administrator will refer the case to an advisory committee for assistance in the decision making.

The advisory committee may be composed of:

- 1) a representative from the State Health Department;
- 2) the student's physician;
- 3) the student's parent(s) or guardian(s);
- 4) the school principal or designee;
- 5) the school health services supervisor nurse;
- 6) the superintendent or designee; and
- 7) primary teacher(s).

In making the determination, the advisory committee shall consider:

- 1) the behavior, developmental level, and medical condition of the student;
- 2) the expected type(s) of interaction with others in the school setting;
- 3) the impact on both the infected student and others in that setting;
- 4) the South Dakota Department of Health guidelines and policies; and
- 5) the recommendation of the County Health Officer, which may be controlling.

The advisory committee may officially request assistance from the State Department of Health.

If it is determined that the student will not be permitted to attend classes and/or participate in school activities for a period longer than one week, arrangements will be made to provide an alternate educational program. If that requires personal contact between student and school employees, only trained volunteer employees shall be utilized.

Public information will not be revealed about the student who may be infected. If the student is permitted to remain in the school setting, the following procedure will be followed by the superintendent/principal:

File: JHCC Page 2 of 2

Information will be provided, as appropriate, to school employees who have regular contact with the student, as to the student's medical condition and other factors needed for consideration in carrying out job responsibilities.

Health guidelines for school attendance are established and interpreted within the context of the case. The guidelines are not inclusive but are available to be used as a resource. School personnel will refer to school health professionals for specific judgments in interpreting the guidelines.

Instruction in appropriate handling of blood and body fluids will be provided. Hand washing after contamination, food preparation, and health/hygiene care performed in different sink and work areas, maintenance cleaning, and other personal hygiene measures are part of creating a healthy environment.

Gifts will not be accepted if there is excessive cost of maintenance or installation. Where installation is required, the gift will be installed under the supervision of district personnel.

The board is under no obligation to replace the gift if it is destroyed or becomes worn out.

The board welcomes gifts of books and other materials to school libraries provided they meet the same standards of selection as those applied to the purchase of library materials. School libraries may dispose of gifts at their discretion (for example, if the book is out-of-date or in poor physical condition).

The board directs the superintendent to assure that an appropriate expression of thanks is given all donors.

#### PUBLIC SOLICITATIONS AND ADVERTISING IN THE SCHOOLS

#### Soliciting

No person will sell or offer for sale within school buildings or on school property any articles or services, or solicit contributions, except those approved by the superintendent or the board. This policy does not prohibit any school fundraising activity authorized by the board and the school administration.

Salespeople are prohibited from talking to teachers at any time during the school day. Salespeople representing educational companies may be granted this opportunity by making arrangements through the principal's office, at a time that will not interfere with the classroom work of the teacher.

The school directory or lists of pupils and staff will not be made available to any outside person or agency unless the school is legally obligated to provide it.

## Advertising

No notices or advertisements by or on behalf of persons not officially connected with the schools will be distributed in any school building except by permission of the superintendent or board. All notices, even by school personnel, will be cleared by the building principal and, in case of doubt, by the superintendent.

#### Charity Fundraising

The administration may select a special fund or charity project which is considered important. Approval for such a project must be secured from the superintendent, and must comply with the District's policy on student fundraising (IGDF).

This policy should not be construed as preventing a teacher from using instructional or informational materials even though the materials might include reference to a brand, a product, or a service.

#### DISTRIBUTION AND POSTING OF PROMOTIONAL MATERIALS

The board recognizes that students, employees, parents, or citizens may want to distribute materials within the school district that are non-curricular. Non-curricular materials to be distributed must be approved by the building principal and meet certain standards prior to their distribution.

It is the responsibility of the Superintendent, in conjunction with building principals to determine standards for posting materials.
