SUPERINTENDENT'S REPORT TO THE BOARD

Superintendent Lee reported the following items to the board:

1. FY21 STATE BUDGET

On June 10, Governor Pritzker signed the FY2021 budget that was previously approved by the General Assembly in May. What this means for PreK-12 education is the following:

- Maintains funding at \$7.2 billion for the Evidence-Based Funding Formula for K-12 education to hold school districts EBF formula payments harmless.
- Funds Early Childhood Education at \$543.7 million.
- Maintains level funding for mandated categoricals, which will continue reimbursing local school districts for transportation and special education costs.
 - Includes \$11.2 million increase to Special Education Orphanage Tuition categorical totaling \$91.7 million.
- Increases funding by \$500 K to cover costs of Low-Income AP Test Fee, totaling \$2.5 million.
- Includes two new federal appropriations totaling \$678 million for CARES Act awards for school districts and higher education institutions to assist with COVID-19 related impacts.

2. 2020 DISTRICT FINANCIAL AUDIT

We have completed our three-year agreement with Kemper CPA Group, LLP out of Olney, Illinois and have been very pleased with their services. I have signed off on a one-year extension with an increase of \$1,250 to \$12,000 for this year's audit. If the board would like, we can bid these services out at the end of this agreement.

3. 2020-2021 SCHOOL YEAR

We are still waiting for guidance from the Illinois State Board of Education (ISBE) concerning the start of the next school year. Information received last week from the State Superintendent stated the following: "We anticipate releasing a transition plan that will advise schools and districts on the start of the 2020-21 school year sometime during the third week of June and releasing Remote Learning Recommendations soon thereafter."

Our administrative team has been meeting and working on the following options:

- a) In Person Learning – with no restrictions. (Must be in Phase V)
- b) Modified On-Campus – Schools open with significant changes including social distancing, alternate schedules, modified capacity. (Must be in Phase IV)
- c) Hybrid Learning – Schools will employ a hybrid approach to teaching and learning with students experiencing both at-home and on-campus learning. (Must be in Phase IV)
- d) Remote Learning 2.0 – Due to public health concerns, students and staff are required to utilize Remote Learning. New guidance for attendance, grading, and accountability will be implemented.

We will continue to prepare for any or all of the above. Our current start dates are August 13 for staff and August 17 for students.

5. TECHNOLOGY UPDATE

Superintendent Lee asked District Technology Coordinator, Robin Huggins, to discuss the district's technology and how the district is preparing for the possibility of remote learning for next year. Mrs. Huggins reported that chromebooks have been ordered for Grades K-12 and certified staff through grant money. Kindergarten students will use touch chromebooks with single sign on – one link will provide access to all of the district's programs. Ten chromebook carts have been ordered – 9 for Lincoln and 1 for Brownsville. Nine active panels

have been ordered. The district is replacing active boards with touch tv. The district will use Google Classroom for grades K-12, Gagggle email, and Google Hang Outs. This is putting the district in a good place for remote learning. Professional Development will be utilized by experienced staff in the district training other staff. The district is checking into the connectivity for these devices so parents will potentially be able to pull up internet accessibility outside of the district buildings. Verizon seems to have the best coverage for the district. A trial device has been obtained from them and is a one-time purchase of either \$49.00 or \$99.00.

Mr. King, Transportation Director, reported on bus devices that will provide connectivity for students. Routers will basically be placed in individual buses that will provide service for a 150-300' radius. The cost will be \$1,000 per bus. He is looking at devices for ten buses that will have 60 Gigs per device per year. Buses with these devices would then be located in areas such as Maunie, Crossville, Herald, Jefferson School, etc. These devices can also be used in activity buses or regular school buses that transport students to and from extracurricular activities that will allow students to work on school assigns to and from these events.

DISTRICT INSURANCE RENEWAL

Bushue Human Resources prepares bid specifications for district insurance coverage every fourth year to seek bids from various competitive companies. This is the second year for the renewal with ICRMT. The anniversary date for coverage is July 1. This year is a renewal of last year's coverages with ICRMT. Bushue recommends acceptance of ICRMT for package, boiler and machinery, auto, umbrella, and legal liability for a total premium of \$124,882, as presented through Diamond Brothers Insurance of Centralia. This is an annual premium increase of \$13,157 or 11.78% over expiring premiums. It was explained that this increase is due largely to the increases in the Blanket Limit and Statement of Values (SOV), the value of the Building & Grounds Equipment, the value of the Electronic Data Processing (ED) Equipment (Included Software), the value of the Miscellaneous Articles (Equipment & Tools), and the value of the Radios/Cameras.

It was recommended that the board of education accept Bushue Human Resources, Inc.'s insurance recommendation of ICRMT for package, boiler, and machinery, auto, umbrella, and educators' legal liability for a total premium of \$124,882.

Motion by Fulkerson, second by Mitchell, that the board approve Bushue Human Resources, Inc.'s insurance recommendation of ICRMT for package, boiler, and machinery, auto, umbrella, and educators' legal liability for a total premium of \$124,882. - Title I, Part A – Improving Basic Programs
- Title I, Part A – School Improvement Part 1003(a)
- Title I, Part D – Delinquent

SCHOOL IMPROVEMENT GRANT

Title I of the Elementary and Secondary Education Act of 1965 (ESEA) provides School Improvement Grants (SIGs) to state educational agencies (SEA) to use to make competitive subgrants to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to substantially raise the achievement of students. The SIGs are a critical component of the effort to support rigorous interventions aimed at turning around the lowest-performing schools.

In the spring of 2018, our students with disabilities at the Junior High did not meet or exceed as a group when taking the State Assessment (Illinois Assessment of Readiness). Therefore, we were eligible for and received a \$75,000.00 grant to be used over four years to help improve the test scores of our students with disabilities. The board of education is required to approve the attached School Improvement Plan as part of the grant.

Motion by Chapman, second by Acord, that the board of education adopt the 2020-2021 School Improvement Plan as a requirement of the School Improvement Grant, as presented. Roll call vote: Chapman, yes; Fulkerson, yes; Hammell, yes; Mitchell, yes; Scates, yes; Acord, yes. Motion carried.

MATERIALS/TECHNOLOGY FEES

Attached are the schedule of fees for students from last year, which was adopted in April of 2012 (technology fees were adopted in May 2017). Also attached is the proposed fees for the 2020-2021 school year. As you compare the two schedule of fees, you can see that some fees stay the same, some increase slightly and others decrease slightly. Going forward the district would charge one fee (Materials/Technology) for each grade level. For FY21 our 1:1 technology will be expanded to grades K-12. These fees would be utilized to help purchase and upgrade chromebooks, carts, and purchase insurance for each device. The insurance would allow the district to protect our technology investments. Also, as the district transitions to online registration and payments, families will have the ability to pay with a credit card to cover all fees. In the past, multiple checks would have to be written, especially at the Junior/Senior High

School levels. All individual classroom fees would be waived except for a Driver's Education fee.

It was recommended that the Board of Education adopt the proposed Schedule of Fees for the FY21 school year.

Motion by Fulkerson, second by Scates, that the Board of Education adopt the following schedule of fees (Material/Technology):

Kindergarten: \$25.00
