	POLICIES AND REGULATIONS	

ACCEPTABLE USE POLICY FOR TECHNOLOGY RESOURCES

It is the intent of the Aberdeen School District to make on-line resources available to students and staff in order to promote personal growth in information-gathering techniques, critical thinking skills, and communication skills. The availability of on-line resources does not indicate endorsement of their contents by school officials.

The Aberdeen School District will create guidelines and procedures appropriate for the electronic resources being used. Such guidelines should be consistent with the overall educational objectives of the district while providing the expectation of appropriate and responsible behavior and a model for that behavior.
